AROUND HOME.

The cricket clubs commence play at 10:30 to-day, at the Creek cricket field.

The schooner Iris sails for Gloucester to-day with about seven hundred gallons of dog-fish-liver oil.

The schooners Daniel Marcy, Anna M. Nash and Velocipede sailed for the fishing grounds on Friday.

The steamer Empire State will visit the Isles of Shoals on Sunday with an excursion party from Boston.

Paymaster Edwin Putnam, U. S. N., leaves for Norfolk on Monday to join the U. S. S. Galena, fitting for sea at that station.

It is rumored that the democrats of this section will present the name of Albert R. Hatch as a candidate for the democratic nomination for member of congress from this district.

Rev. Dr. O. Cone, late of the theological school near Canton, N. Y., who is now visiting Rev. E. M. Grant in this city, on Friday accepted the presidency of Buchtel college, at Akron, Ohio.

The schooner Christie Campbell arrived at this port on Friday from a six weeks' trip to the banks, with 75,000 lbs. of fish. Finding no market for her fare here, she went across to Gloucester.

In digging a vault in the garden of the house on the corner of Daniel and Bow streets, Friday, a skeleton, said to be that of a child about four years old, was found a few feet below the surface. There was no indication of a coffin.

The steamer Mystic will attend the yacht race this afternoon, taking passengers at twenty cents each. She will leave her landing on this side of the river at 12:45 o'clock, and Kittery at one, remaining below until the race is over.

Mrs. Ford, widow of Timothy Ford, in crossing the Eastern railroad track near the station in Great Falls, Friday, saw the down train approaching and became bewildered. She was struck by the engine, and died in two hours. The train was moving slowly at the time.

One of the leading democrats of this town, who is taking an active part in the present campaign, in support of the Union General Hancock, is the proud author of the following patriotic sentiment of which he was very fond, and not a little proud during the war: "I wish I had a government contract to furnish coffins for the Union soldiers; I'd make them of hemlock so they would go through hell mapping." His views have changed since, but they are just as pronounced and just as patriotic.—*Exeter News-Letter.*

Advices from Melbourne, Australia, dated July 14th, say: "Ship Granite State, Ross, which sailed for Calcutta, June 17th, put back four days later, after being on a reef near Port Philip heads, in charge of a government pilot. She was docked, got a new false keel, and was thoroughly recaulked and repippered at an expense of over $25,000, and resumed her voyage after a month's detention. The pilot's certificate was suspended for six months."

Mr. Editor: There has just came to my notice an article in your paper dated Aug. 14th, by "H," attempting to correct your former statement that it was through some of the most prominent men in the town of Hampton that the recent liquor raid was made. I wish to say that you were correct in your first statement. I was present at a private meeting of some of the most prominent men of Hampton, and moneyed men as well, when it was voted unanimously to take measures for the immediate prosecution of liquor selling in Hampton, and the recent liquor raid in Hampton was the direct result of that vote. AN EYE WITNESS.

Col. Horace E. Chamberlain, superintendent of the Concord railroad is in town. Col. Chamberlain, accompanied by the collector of the port and the United States marshal, will go down the harbor this morning, to inspect the unrivalled facilities which Portsmouth possesses as a shipping port, and to become convinced that any attempt to take away the carriage of coal to the interior, by arrangements looking toward its receipt at another port, are not likely to prove advantageous to the Manchester and other patrons of the Concord road. Mr. Chamberlain returns to Concord this evening.

The schooner Charles H. Trickey, of Dover, Kelly master, arrived at the Dover gas company's wharf on the evening of the 18th inst. with 365 tons of coal, going up to the wharf without lightening, though drawing ten feet of water—a feat one of the local papers declares to be without a parallel.

An unknown man landed from a boat at Dover neck, some days ago, hauled his boat up on the shore, and pitched a tent. The next day he went around among the farmers' houses, offering for sale sugar, tea, pork, cloth and other articles; and to one man he sold a wheelbarrow. As he sold tea for twelve cents a pound that was worth fifty cents, and other articles at equally low rates, in fact, taking whatever he could get for his wares, the people of that section think he must have been a river pirate or burglar. He disappeared on the night of the 18th inst., as mysteriously as he appeared.

COMMODORE PARROTT'S MONUMENT.

A beautifully designed and artistically executed monument in Connecticut granite has been erected to the memory of Rear Admiral Parrott, U. S. N., and now marks the resting-place of the hero of many battles, in St. John's churchyard. The tomb is near the northwest angle of the church, and within a few feet of the street. The monument is massive, and composed of but four pieces of stone, the whole supported upon a granite foundation sunk four feet into the earth.

The plinth is seven feet and seven inches in length by four feet two inches in width, its chamferred and highly polished sides bearing the following inscription, extending around the four sides: "In memory of Enoch Greenleaf Parrott, Rear Admiral U. S. Navy, who died May 10th, 1879, aged 63 years."

Ths sub-base is moulded to conform with the lines of the die, and is seven feet and one inch in length, three feet eight inches wide, and eight inches thick.

The die is an exquisite piece of sculpture, seven feet long, three feet four inches in length and one foot ten inches high. The jambs with which the four corners are finished are cut out of the body of the stone, making it impervious to moisture or the action of frost. The die is ornamented by finely executed tablets enclosed within square panneling—three on each side and one on each end. The tablets on the sides bear the following legends: "Africa 1832," "Mexico 1848," "Port Royal 1869," "Fort Fisher 1865," "Charleston 1861," "Asiatic squadron 1863." The front panel is inscribed, "Generous, Truthful and Just;" on the opposite panel is the following appropriate tribute: "A brave and loyal officer."

A cap-stone of beautiful proportions, elaborately moulded and carved, completes a monument which in elegance of detail and classic beauty of design is a fitting memorial of the noble man whose life it commemorates. The emblamatical design which covers the upper surface of the cap-stone is a cross at the summit of an eminence accessible by successive steps. The head and arms of the cross sustain a circle enclosing a nimbus, or halo of glory. The Greek letters Alpha and Omega are carved in relief on each side of the body of the cross, and add, if possible, to the significance of the emblem.

THE OLD ORCHARD RALLY.

The republican rally at Old Orchard, Me., on the 19th inst., drew the largest political gathering since the war, the number present being not less than ten thousand, though the weather was raw and threatening—this immense turn-out and the enthusiasm that prevailed giving proof of the lively interest taken in the campaign by the republicans of York and Cumberland counties, and of their determination to "vindicate" the counting-out infamy as it deserves.

The meeting was called to order by Hon. John Hall of North Berwick; Owen B. Chadbourne of Saco was chosen president, with twenty-five vice presidents, among whom were Hon. Nathaniel Hobbs and Thomas Hurd of Berwick, George N. Kemp of South Berwick, Dr. Stewart of York, Sylvester Bartlett of Eliot and Gen. M. F. Wentworth of Kittery.

Hon. Fred Douglass was descried in the audience, and was conducted to a seat on the platform amid ringing cheers. Hon. John A. Logan was the first speaker, and when he closed, at the end of two hours, there were numerous cries of "Go on." Hon. Stanley Matthews followed with a clear, logical, argumentative address; and he in turn was followed by Hon. Thomas Fitch, Gov. Davis of Maine, and Fred Douglass. Every address of the day was received with enthusiasm, and the affair was an entire success in every particular.

A BEAUTIFUL PLACE.

With the many eligible and attractive places around Portsmouth for suburban residences, there are but few who have possessed themselves of these localities, most people seeming to have preferred to build in the compact part of the city; and fine houses, which if surrounded by lawns and shrubbery would be ornaments, are now in their crowded situations almost lost sight of as being more than ordinary buildings.

One of the exceptions is the home of Hon. Frank Jones, situated on the Newington road about one and a half miles from the Parade. Since Mr. Jones became proprietor of the place, constant improvements have been the order. The land has been highly fertilized, and the house is now undergoing a complete change, and with its present condition and modernizing the original would not be recognized. It has been extended by an addition of fifty-eight feet by forty feet, embracing a tower, porticos, etc., and the interior has been beautified and improved at a large outlay. The hall fronting the road, (back of which is a handsome library,) the parlors, hall-stairs and doors are finished in mahogany; around the walls is a dado three feet high, with heavy panels and mouldings. The entrance facing the south, (forming the base of the tower,) the stairs and dining rooms are finished in oak. The nursery has a very pretty finish of maple; the kitchen, pantry, and servants' dining-rooms, are ash finish. The second and third stories, embracing chambers, bath and clothes rooms, etc., are handsomely dressed with oak and ash trimming. All of the wood work is highly polished, retaining its natural color and shade without the use of oil.

The rooms throughout the house are tinted and frescoed in excellent taste, and are adorned with marble mantels, with hearths of tiles laid in mosaics. The house is heated throughout by steam, and hot and cold water are everywhere at hand. A piazza one hundred and forty-seven feet in length and about nine feet wide extends around a part of the house, and adds materially to the general effect. From the tower a fine view to all points of the compass is obtained, and now presents an undulated scene of green meadows and woodland.

The outside surroundings, though at present very attractive, will be greatly improved. To the south of the mansion is a lawn, in which are settings of crosses, lyres, half-moons, and circular beds, interspersed with vases and statues, and variegated with the colors of the achyranthes, coleus, echaveria, alternanthe-ras, geraniums and other plants, with walks surrounded by borders of flowering plants, six feet wide. One of the borders is said to contain over eight thousand plants, and the effect of the whole is artistic, showing taste and floral talent. There are at present five greenhouses on the place; and others are soon to be added, as is also a grapery and forcing-house. All of the outbuildings are to be moved one hundred and fifty feet back from their present positions, and a lawn facing the north will be added to the present attractions.

The building of the stairways of the house, which are said by competent judges to be as fine as anything of the kind in the city, has been done under the direction of Mr. J. H. Libby, from the firm of Watson & Bisbee of Boston; the polishing has been done by Kenny & Ryan of Boston. The superintendent of greenhouses and gardening is Mr. W. J. Patterson, who has had years of experience in the business, and has evidently profited by it.

It will be some weeks before the house will be ready for the occupants, and months before the contemplated arrangements are completed.

YORK COUNTY AFFAIRS.

A boy named Butler, thirteen years old, son of Orin Butler of Berwick, met with a singular accident a few days ago. A man had a post laid across a fence to saw a piece off one end, and the detached piece fell on the boy, who unobserved by the man was sitting in a ditch beside the fence, striking him on the head and inflicting serious injuries.

Old Orchard beach folks have a mystery. Rev. Mr. Le Lacheur has found near Cottage Grove park, wrapped up carefully in several newspapers, a linen shirt nearly new, the sleeves saturated with blood, the bosom badly smeared; also a pair of cuffs and a linen collar, both badly spattered with blood. The bundle was found in the swamp just a little east of Cottage Grove park, about twenty rods west of Old Orchard road. The articles may have some connection with the recent murder of young Currier at Biddeford.

Col. James M. Stone, of Kennebunk, formerly speaker of the Maine house of representatives, wanted to succeed Mr. Reed as the republican nominee for congress in the first district of Maine. Failing in this, Mr. Stone accepts a nomination of a professed temperance convention, devised and managed by a man who is mad because Gov. Davis did not appoint him a constable. The wisdom of the governor appears, by the subsequent proceedings, to have been none the less commendable than that of the delegates of the congressional convention. The object of the convention was apparent from the first, to be a mere exhibition of the powers of sore-headism.

Cured of Drinking.

"A young friend of mine was cured of an insatiable thirst for liquor, which had so prostrated him that he was unable to do any business. He was entirely cured by the use of Hop Bitters. It allayed all that burning thirst; took away the appetite for liquor; made his nerves steady, and he has remained a sober and steady man for more than two years, and has no desire to return to his old habits. I know of a number of others that have been cured of drinking by it."—From a leading R. R. Official, Chicago, Ill.—*Times.*

—Costiggini, the successor of the late Brumidi, who died after spending many years of his life frescoing the walls of the Capitol at Washington, has begun work upon the series of life-size groups designed to extend around the rotunda. Brumidi had finished about one-third of the work.

Dr. Pierce's Extract of Smart-Weed is a compound fluid extract of smart-weed, or water-pepper, Jamaica ginger and other ingredients known to be efficacious in curing colic, diarrhœa, dysentery, bloody-flux, and kindred affections. It also breaks up colds, fevers and inflammatory attacks.

Chronicle Correspondence.

WASHINGTON, D. C., Aug. 18th.

Hon. Horace Manard will reach this city Monday or Tuesday next, and as Postmaster General Key is anxious to get away, will enter upon his duties at once. But three members of the cabinet are now here.

Washington is not only headquarters in political matters, but also for runaway marriages. Very frequently couples from Virginia avail themselves of the liberal laws of the city in respect to marriage licences; or, escaping from opposing parents in that state or Maryland, hastily cross the district line and are married here.

A great deal of pleasure is expressed here, where J. Procter Knott is well known and very popular, at the contradiction of the report of his death. Except in one instance Mr. Knott, though a strong partisan, has always been on the best of terms with other members; he is a hard worker, and ever a friend to this district.

Preparations are being made for the fall races at the new but excellent course in this district. Arrangements are not yet all made, but the managers are assured of the presence of many of the finest northern and eastern horses.

The arrival of the foreign gold now afloat for this country will cause the transfer of some of that metal from the subtreasury at New York to the assay office there, in order to settle the accounts promptly, as the foreign gold will be assayed and recoined into gold of United States denominations.

An effort will be made at the next session of congress to secure the passage of a bankrupt law—one not open to the abuses of the law repealed two years ago. Ever since the repeal, there has been a demand for a new law, especially among bankers and business men. This demand showed itself in the last session. A sub-committee of the house judiciary committee was instructed to draft a new bankrupt law. The result of this initial step was naught. As stated, however, an effort and a more vigorous one, will be made at the next session to secure legislation on this subject. KNOX.

The Advantage of Working for a Living.

President Lincoln, when he heard of it (Gen. Garfield's campaign against Humphrey Marshall in Kentucky) said to a distinguished army officer who happened to be with him:

"Why did Garfield, in two weeks, do what would have taken one of you 'regular' folks two months to accomplish?"

"Because he was not educated at West Point," answered the West Pointer laughing.

"No," replied Mr. Lincoln; "that wasn't the reason. It was because, when he was a boy, he had to work for a living."—*Edmund Kirke.*

—Guest at restaurant to waiter, having a complaint to make; "Say, waiter, where is the proprietor?" Waiter, with a fond and pitying smile: "Do you think he dines here? The boss knows too much for that."

—Foote was talking away one evening at a dinner table of a man of rank, when, at the point of one of his best stories, one of the party interrupted him suddenly, with an air of most considerate apology: "I beg your pardon, Mr. Foote, but your handkerchief is half out of your pocket." "Thank you, sir," said Foote, replacing it, "now you know the company better than I do," and finished his joke.

KIDNEY-WORT

THE ONLY MEDICINE

That Acts at the Same Time on

THE LIVER, THE BOWELS, and the KIDNEYS.

These great organs are the natural cleansers of the system. If they work well, health will be perfect; if they become clogged, dreadful diseases are sure to follow with

TERRIBLE SUFFERING.

Biliousness, Headache, Dyspepsia, Jaundice, Constipation and Piles, or Kidney Complaints, Gravel, Diabetes, Sediment in the Urine, Milky or Ropy Urine; or Rheumatic Pains and Aches,

are developed because the blood is poisoned with the humors that should have been expelled naturally.

KIDNEY-WORT

will restore the healthy action and all these destroying evils will be banished; neglect them and you will live to suffer.

Thousands have suffered. Try it and you will add one more to the numbers. Take it and health will soon reward your labor.

Why suffer longer from the torment of an aching back?

Why bear such distress from Constipation and Piles?

Why be so painfully because of disordered urine?

KIDNEY-WORT will cure you. Try a pack age at once and be satisfied.

It is a dry vegetable compound and

One Package makes six quarts of Medicine.

PERFECTLY SAFE IN THE MOST INEXPERIENCED HANDS!

For Diarrhœa, Dysentery, Cramps, Cholera, AND ALL THOSE NUMEROUS TROUBLES OF THE STOMACH AND BOWELS, SO PREVALENT AT THIS SEASON.

No Remedy known to the Medical Profession has been in use so long and with such uniformly satisfactory results as

PERRY DAVIS' VEGETABLE PAIN KILLER.

It has been used with such wonderful success in all parts of the world in the treatment of these difficulties, that it has come to be considered

AN UNFAILING CURE FOR ALL SUMMER COMPLAINTS

and such it really is when taken in time and according to the very plain directions inclosing each bottle.

In such diseases, the attack is usually sudden and frequently very acute; *but with a safe remedy at hand for immediate use, there is seldom danger of fearful results* which so often follow a few days' neglect.

The inclination to wait and see if the morrow does not bring a better feeling, not infrequently accasions a vast amount of needless suffering, and *sometimes costs a life.* A timely dose of Pain Killer will almost invariably save both, and with them the attendant doctor's fee.

It has stood the test of forty years' continued use in all countries and climates, and is perfectly safe in any person's hands.

It is recommended by Physicians, Nurses in Hospitals, and persons of all classes and professions who have had opportunity for observing the wonderful results which have always followed its use.

THE BEST EVIDENCE:

I have long used the medicine known as PERRY DAVIS' VEGETABLE PAIN KILLER in my family and would not on any account be without it. When Cholera was last epidemic here, I used no medicine of any sort but the Pain Killer, and although myself and several members of my family were attacked severely, I am happy to say that the Pain Killer was equal to every emergency. I consider I should not be doing my duty to the community did I not say this much. If I were attacked by the Cholera I would use the Pain Killer as the only remedy I should use. I have thoroughly tested it, and know it can be relied on.

E. E. BERGINSEND, Galena, Illinois.

Messrs. PERRY DAVIS & SON:

I know you need no testimonial to convince you that your medicine is all that you claim for it, but I cannot restrain the impulse to communicate to you the fact that in my family it has truly done wonders. I administer it to my children (one eighteen months, and the other three years old) with my own hands. It regulates their bowels, and stops all diarrhœa. Myself and wife resort to it in all cases, both for internal and external use. For years I used it in my family for five years, and will use it be without it. Feeling myself under much obligation to you in many times being relieved from pain, I am very truly yours, L. F. MOORE,

Bangall, Dutchess Co., New York.

No family can afford to be without it, and its price brings it within the reach of all.

The use of one bottle will go further to convince you of its merits than columns of newspaper advertising. Try it, and you will never do without it.

Price 25c., 50c., and $1.00 per bottle. You can obtain it any drug store or from

Applelore and Oceanic Hotels,

ISLES OF SHOALS.

Laighton Brothers & Co.

The staunch and reliable steamer APPLEDORE, Capt. Rand, makes two trips each way daily (Sundays excepted) between Portsmouth and the shoals. Steamer leaves Jones' wharf, near foot of Deer street, at eleven A. M., after arrival of the morning train from Boston and Concord, and at six P. M. Returning leaves the Islands at seven A. M., arriving at Portsmouth in season to connect with the 8:20 train for Boston, and the trains for the White Mountains *via* Conway and the Notch, and at 3:30 P. M. in season for the afternoon trains west and north.

☞ Baggage destined for these hotels is transported between the Eastern railway station and the hotels *free of charge.* The wharf of the steamer is a short distance from the railway station, and there is ample time to walk thither between the arrival of the train and the departure of the boat.

THE "WENTWORTH,"

Newcastle, N. H.

This Hotel will open June 26. It has accommodations for 400 guests, and offers *more* attractions for pleasure and comfort than any other seaside resort in the country. Its high elevation affords beautiful views, both inland and seaward, its healthful atmosphere, the easy manner in which it can be reached, its unsurpassed facilities for boating, bathing and fishing, excellent drives and attractive walks, all combine to make it one of the most charming places for the people of New England.

Since last year extensive additions have been made, among them one hundred and fifty sleeping rooms, a spacious Music Hall for dancing, theatricals and concerts, bowling alleys, billiard room, a passenger elevator operated by steam, a large and commodious stable for private equipages, the grounds lighted by the electric light, steam launches for excursions, &c., &c.

The temperature of the bathing at the "Wentworth" is especially inviting to those unable to endure the shock incident to more exposed localities. An enclosed body of salt water, covering an area of fifty acres, affords a safe and pleasant place for bathing at all times for ladies and children. The drives to the neighboring beaches and other points of attraction in this vicinity are unsurpassed. The veranda, 30feet in width, surrounding the house, gives an extended promenade or over 1000 feet in length, while the view is unexcelled in beauty and grandeur.

An orchestra of twenty selected musicians, under the direction of Mr. John J. Brahan, has been engaged for the season.

The house is furnished throughout in black walnut, and in the *last* of best, its sleeping rooms are of ample size, well ventilated, and from *all* sides of the house affords fine views. Its *cuisine* will be found of an unexceptionable character. The "Wentworth" is situated three miles from Portsmouth, N. H., in the ancient town of Newcastle, and is reached from Boston in two hours' ride over the Eastern Railroad. Address

Popular Monthly Drawing of the

Commonwealth Distribution Co.,

AT MACAULEY'S THEATRE,

In the City of Louisville, on

TUESDAY, AUGUST 31st, 1880.

These Drawings, authorized by the Legislature of 1869, and sanctioned by all courts of Kentucky, according to a contract made with the owners of the Frankfort grant, will occur regularly on the last Tuesday of every month, Sunday and Friday excepted, for the period of five years, terminating on June 30th, 1885.

The United States Circuit Court on March 31st rendered the following decisions:

1st. That the Commonwealth Distribution Company is legal.

2d. Its drawings are fair.

The management call attention to the liberal scheme which they have with such popular favor heretofore, and which will again be presented for

SMITH'S MEDICATED PRUNES

LAXATIVE & CATHARTIC.

Pleasant to the taste; perfectly gentle in their action; yet thoroughly effective.

CURE CONSTIPATION, BILIOUSNESS AND LIVER TROUBLES.

They take the place of the nauseous and violent cathartics now in use. They are a Laxative and a Cathartic of the Liver. For adults, one to three pills are the effect of cathartic medicines or mineral waters but without nausea or griping. No bad effects follow repeated use. Children, one half of a prune taken at bedtime acts like a charm. The medication is entirely vegetable and healthful. Physicians recommend them. Druggists keep them.

OF NEW YORK.

News and Notes.

Two prominent residents of Norfolk, Va., Capt. James Baron Hope and Col. William Lamb, want to kill each other, and it is alleged they propose to fight a duel, despite the effort of the authorities to prevent it.

A ball of fire which seemed twenty-five feet in diameter passed over Caledonia, O., the other night. It made a hissing sound, and its heat could be plainly felt. The meteor struck the earth near the village, and it is estimated that it will weigh as much as three tons. The heat was so great after it first fell that it was uncomfortable going within thirty feet of it, and the owner of the land where it fell has already refused $300 for his prize.

The head-house of the rope-walk at the Charlestown navy yard was burned on Saturday night, the loss being estimated at $68,000. The fire was probably caused by the fast running of the machinery.

An Urbana, Ohio, special says a severe wind storm passed over that place on the 19th inst. The most serious damage was to the United States rolling stock works, where a blacksmith shop was blown down. A number of people were in the building at the time, but all escaped with slight injuries.

The schooner Felton Bent, Captain Buckley, loaded with petroleum, was destroyed by fire at Greenport, L. I., on the 20th inst. The loss is estimated at $40,000 on the vessel and cargo; fully insured.

It is not often that a family meets with so many misfortunes in a short time as that of Daniel E. Wight of Bucksport, Me. In April his little daughter, aged eight years, was shockingly burned while playing near a bonfire. About four weeks later, expecting home his son, a promising young man, second mate of the ship City of Boston, he sent his team to the boat to meet him, and while the team was gone received the news of his death in Hong Kong of small-pox. About one [illegible] while at the house visiting, was taken sick and died. About one week from that time the little daughter died from the effects of her burns, and one week later she was followed by her sister, aged thirteen, who died of diphtheria; and at the present time the only son now remaining at home is dangerously ill of the same disease.

Three prominent young men residing in New Orleans, named Dorrance, on the 20th inst. attacked an unarmed man named Edwin C. Mix, and shot and stabbed him to death.

The great gale along the Texas coast on the 12th and 13th insts. is said to have nearly destroyed the town of Brownsville, near the mouth of the Rio Grande. Several lives were lost, and telegraph lines along the coast south from Indianola were prostrated.

New Hampshire Items.

At Boscawen, on the 20th inst., a drunken Frenchman, a railroad hand, was struck by a train and killed.

A child of Wm. H. Bessom of Mansfield, Mass., eighteen months olds, while crawling on the track at Glen station, in the White mountain district, Friday, was struck by a locomotive, and killed.

Naval Gazette.

The secretary of the navy has been discreetly silent as to the destination of the U. S. S. Galena, which vessel goes into commission at the Norfolk navy yard this week. In answer to enquiries the secretary has proved that he is not a "leaky vessel," but has parried all questions with the assertion that the department had not decided where to send the ship. The result has been that few applications from officers and their congressional friends have been made for orders to this ship. Mr. Thompson is entitled to credit for this new departure in naval tactics.

The principal work at the navy department is the issuing of leaves of absence, of which the officers are availing themselves of largely at this season of the year.

Rear-Admiral Thomas H. Stevens has been ordered to the command of the Pacific station. Rear-Admiral C. R. P. Rodgers, now in command of that station, has been detached and directed to await orders.

The United States steamer Minnesota will remain one week at Portland.

First Lieutenant B. R. Russell has been ordered to report to the commandant of the navy yard in Washington for the purpose of conducting a detachment of marines to Norfolk, Va. Second Lieutenant Thomas N. Wood has been ordered to the marine barracks at Washington.

Second Lieutenant William Birele has been ordered to report to the commandant of the marine barracks at League Island, Pa. First Lieutenant F. H. Harrington has been ordered to the barracks at the Washington navy yard. Second Lieutenant W. C. Turner has been ordered to Mare island, Cal.

The leaves of absence of Lieutenant-Commander A. G. Kellogg and of Passed Assistant Paymaster C. A. Yorke have been extended.

Passed Assistant Engineer J. S. Ogden has been ordered to the naval academy. Passed Assistant Engineer C. H. Greenleaf has been ordered to the coast survey steamer Bache.

Rear Adm. D. McN. Fairfax, governer of the naval asylum at Philadelphia, is granted leave of absence for two weeks from Aug. 19th.

Political Notes.

The south in supporting Hancock stands just where it did in 1860.—*Wade Hampton.*

Three men, strangers to each other, stood together the other night on the edge of a political assemblage. Unable to get into the meeting or to hear the speaker, they fell into a conversation. After a little preliminary talk one said to another: "I don't know what your politics may be, but I have always been a democrat. For three or four years I have had great difficulty in getting employment; the shop where I work has been closed much of the time; I have had a hard struggle to support my family. Now we are busy again; work is steady; pay comes every week; everything has brightened up; I am afraid of a change, and, though I never before voted anything but the democratic ticket, I am now going to vote for Garfield." "That's just my case exactly," said the third, who had stood listening; "I have always been a democrat, but I shall vote for Garfield because I don't want a change."—*Philadelphia Press.*

Speaking of Gen. Butler, the Boston *Globe* says: "Like many other democrats, he joined the republican party to save the Union." Then of course the democratic party was intent upon destroying the Union. And the men most intent upon the destruction of the Union then, control the destinies of the democratic party today.—*Providence Journal.*

Garfield's Speeches.

The candor of impartial criticism compels it to be said of the fifty or sixty brief impromptu speeches which Mr. Garfield has made during his journey to New York and return, that in some respects they are very remarkable. Though there was, throughout, a needlessly careful avoidance of any expression of opinion upon unsettled political questions, it cannot be said of any one of them that it was an expression of words without ideas. There has, perhaps, never been made in this country, by any one citizen, an equal number of impromptu responses to popular greetings that were so full of ideas, clothed in language of so much force, eloquence and beauty. Ordinarily, the politician who is prohibited from "talking politics" cannot talk to the popular crowd at all; at least, cannot employ words to express ideas. Some of the ablest of our Presidents, under like circumstances, have given utterance only to the feeblest verbal inanities. But in all the many responses Mr. Garfield has made during his journey, there is not found a single inane expression. He has shown himself a man of information and ideas upon other than political subjects, who is at no loss to make appropriate and very admirable use of them in a quick emergency. It is not merely in the art of off-hand responses that few public men have shown themselves his equal, but it is in their fullness and eloquence of ideas that his off-hand responses rise pre-eminent over all others.—*Chicago Times, ind. dem.*

The Minister.

About this time of the year the congregation is called together in the basement of the church.

After Deacon Jones has offered prayer, Brother Smith rises, crosses his hands and says:

Brethren and sisters: During the past year our dearly beloved pastor, Rev. Shadrach Brown, has labored earnestly and devotedly among us. He has worked five hours every Sunday and has sacrificed his health by attending a service nearly every Friday evening. Poor man, we have exacted too much from him. He needs a rest. We shall send him to Europe. Do you favor the idea?

Yes.

The subscription list is passed, and Rev. Brown is tendered $1000, and given a three months' leave of absence.

It is a great thing to be a minister.

Miss Smith works in a store, and is on her feet from eight o'clock in the morning until nine at night. Miss Jones works in a cellar shop, and guides a sewing machine until her head swims.

The citizens meet and attention is called to these young ladies. Shall we send them on a month's vacation to the country or sea-shore?

No!

It isn't a great thing *to* have to work for a living.

The editor racks his brains and dulls his scissors 365 days in a year. He has puffed Mr. So-and-so into congress, has worked Dr. Bluff into a profitable practice, and called repeated attention to the quality of Mr. Oleomargarine's butter and cheese.

The good people of the town are discussing divers topics. Some one asked, shall we send the editor to the White Mountains and let him catch fish?

No, no; send him to Memphis and let him catch the yellow fever.

Oh, that we had been made a minister!—*Troy Standard.*

A Hint to the Girls.

A wood engraver being asked why he did not employ women, replied: "I have employed women very often, and I wish I could feel more encouraged. But the truth is, that when a young man comes to me and begins his work, he feels that it is his life's business. He is to cut his fortune out of the little blocks before him. Wife, family, home, happiness, are all to be carved out by his own hand, and he settles steadily and earnestly to his labor, determined to master it, and with every incitement spurring him on. He cannot marry until he knows his trade. It is exactly the other way with the girl. She may be as poor as the boy, and as wholly dependent on herself for a living, but she feels that she will probably marry, and then she must give up wood-engraving. She goes on listlessly; she has no ambition to excel; she does not feel that all her happiness depends on it. She will marry, and then her husband's wages will support her. She may not say so, but she thinks so, and spoils her work."

—The art of coloring the canvass is understood by the old masters in politics.

—It takes two to make a bar-gain, and one must pay for the drinks.

—Ouida got her *nom de plume* as Dickens did, from a child's indistinct utterance of her name, which is Louisa.

INVESTORS who are looking for safe securities will do well to examine into the first mortgage bonds of the Toledo, Delphos & Burlington R. R. Co. These bonds run thirty years at 8 per cent., and are issued at the rate of less than $7000 per mile of finished road, extending from Toledo, Ohio, to Kokomo, Ind. But $400 per mile is required to pay the interest. Full information will be furnished by the well-known banking firm of George William Ballou & Co., 72 Devonshire street, Boston, and 2 Wall street, New York.

A Down Town Merchant

Having passed several sleepless nights, disturbed by the agonies and cries of a suffering child, and becoming convinced that Mrs Winslow's Soothing Syrup was just the article needed, procured a supply for the child. On reaching home and acquainting his wife with what he had done, she refused to have it administered to the child, as she was strongly in favor of Homœopathy. That night the child passed in suffering, and the parents without sleep. Returning home the day following, the father found the baby still worse; and while contemplating another sleepless night, the mother stepped from the room to attend to some domestic duties, and left the father with the child. During her absence he administered a portion of the Soothing Syrup to the baby, and the little fellow awoke next morning bright and happy. The mother was delighted with the sudden and wonderful change, and although at first offended at the deception practiced upon her, has continued to use the Syrup, and suffering, crying babies and restless night have disappeared. A single trial of the Syrup never yet failed to relieve the baby, and overcome the prejudice of the mother. Sold by all Druggists. 25 cents a bottle. 6

IT MAKES NO DRUNKARDS,

Breaks no Hearts, Excuses no Crimes.

Dr. David Kennedy's FAVORITE REMEDY is not a disguised enemy of the human race; where it cannot help, it does not harm. FAVORITE REMEDY is a combination of vegetable alteratives. It does not heat nor inflame the blood, but cools and purifies it. In all cases of Kidney troubles, Liver complaints, Constipation of the Bowels, and the delicate derangements which afflict women, the action of FAVORITE REMEDY is beyond praise. Thousands of grateful people voluntarily testify to this, in letters to Dr. Kennedy; and with a warmth and fullness of words which mere business documents and certificates never possess. It makes no drunkards—excuses no crimes—breaks no hearts. In its coming there is hope, and in its wings there is healing. We challenge a trial and are confident of the result. Dr. Kennedy would have it understood that, while he is engaged in the introduction of his medicine, "Favorite Remedy," he still continues the practice of his profession, but confines himself exclusively to *Office* practice. He treats all diseases of a chronic character, and performs all the minor and capital operations of surgery.

AROUND HOME.

The foundation is being laid for a new house on Lincoln avenue, nearly opposite Mr. Hutchinson's, for Mr. J. M. Salter.

On Friday night the schooner Daniel Marcy, which was anchored in the lower harbor, parted her chain and lost an ancor.

The steamer Mystic leaves her wharf, foot of Daniel street, at ten minutes to eleven o'clock A. M., on and after this date, instead of at 11:15 as heretofore.

On Saturday evening Mr. Charles Huckins, a teamster engaged in hauling stone for the new mills in Dover, was killed by a heavy piece of granite falling on him.

John St. John, a French boy five years old, was drowned in the Cocheco river at Dover on Thursday afternoon last, having fallen overboard while fishing. His body was soon recovered, but all efforts to resuscitate him failed.

The sailing regatta appointed for Saturday afternoon was postponed, on account of the fog and lack of wind, to Thursday afternoon, the 26th inst., at one o'clock, on which day the tide will be favorable, and it is hoped the wind will be also.

William Twombly of Dover, sixty-four years old, committed suicide Friday forenoon by hanging himself in a piece of woods near his house. He was a respectable and worthy man, and his suicide was probably due to mental depression, to which he had been subject since the death of his wife last winter.

According to the United States census, during the twelve months ending May 31st, 1880, there were made in Dover 938,182 pairs of shoes. During the same period 630,000 pairs of boots were manufactured in the same city, 6,250,000 brick were placed upon the market, and 81,064 bushels of corn were ground into meal.

The beautiful monument erected in St. John's churchyard to the memory of Rear Admiral Enoch Greenleafe Parrott, was designed by F. C. Withers of New York, and wrought by Ellin & Kitson of that city, architects and sculptors. The material is a very fine quality of granite from Round Point, Conn., and the estimated weight is nine tons. It was put in position under the superintendence of Mr. Powers, foreman for Ellin & Kitson.

The match game of cricket between the Arlington Mills club and the Portsmouth club, Saturday, resulted in a victory for the Portsmouths, who scored sixty-five in one inning, against forty-two made by the visitors in two innings. There was good bowling and fielding on both sides, Mr. Thorpe of the home club scoring thirty-three runs before getting out. The Arlingtons played at a disadvantage, owing to some of the members being in a partially disabled condition.

On Saturday, at Somerville, Mass., Mr. William P. Burley of this city, express messenger for Jackson & Co., stepped off the cars while they were in motion, and missing the platform fell beside the track, in such a position that only presence of mind and an instant roll-over saved him from the loss of an arm and leg. As it was one of his shoulders was dislocated and his face badly cut. He was taken to the hospital in Boston, where his hurts were attended to, and he arrived at home on Saturday evening, stiff and sore, but thankful the affair was no worse.

SCHOONER WRECKED.

The schooner Mary S. Hontvet, John Hontvet master, of 72.55 tons register, built at this port in 1876 by W. F. Fernald, and owned by John Hontvet, Wm. Downs & Son, C. Morris Tredick, John R. Holbrook, Samuel Cole, Peter Anderson, Hutchinson & Connell, Rider & Cotton, and the heirs of Joshua Brooks, left the wharf on Friday at about noon, with a fit-out for a three months' cruise to the banks. On her way down the river, while making a tack in the cove by the breakwater, with a light wind and ebb tide, she misstayed and went ashore to the east of the breakwater. On the flood tide she floated off; her anchor was let go, but having no holding ground it was dragged, and the schooner went stern foremost on Goat island point, her bow remaining in deep water. A rope was run to the lower wharf, but the tide kept the vessel's bow swinging and the wharf was torn away, the schooner at the same time listing over to starboard, when all the stores, which had been taken on deck from below, were swept off and went floating away with the current. The crew jumped into their dories, but soon returned and saved some of the clothing and stores.

On Saturday at high water she was hauled off by two tugs, and when in the middle of the stream she sank stern first until only the tip of her nose was visible, soon settling still deeper, compelling the tugs to abandon her at about one o'clock. With the ebb tide the submerged vessel drifted down the harbor, passing Fort Point at about three o'clock, at which time she was nearly on her beam ends, with her bowsprit, about twenty feet of the top of her foremast, and the end of her maintopmast, showing above water; she was then evidently rising slowly, probably as her salt washed out, and she was escorted by a big fleet of dories, sail-boats and row-boats. The schooner Daniel Marcy, anchored in the lower harbor pretty well out, was directly in the track of the drifting wreck, and had to pay out chain and sheer in toward the Gerrish's island side to clear her. At this point an attempt was made to stop the wreck, a stout new line being run from her bowsprit to the Daniel Marcy, and by skillful management in "snubbing" her judiciously and paying out chain at the same time, the wreck was momentarily checked, and turned around, but she took a sheer off the other way, snapping the rope as if it been a piece of twine, and went drifting out to sea in the fog. The tug Clara Batemen went down for her at a later hour, but owing to hunt to the dense fog was unable to find her.

The wreck was fallen in with just before dark, several miles off the harbor, by the schooner Little Kate, of Newcastle, Murphy master, which vessel, after lying by the wreck for some time, made fast to it, towed it for several hours on the flood tide, and then came to an anchor about three miles outside of Whalesback, renewing her towing on Sunday, aided by another schooner. Sunday at about noon the steamer James Sampson was engaged to pull the masts out of the wreck, which she did, and then towed it just inside of Kitt's rock buoy, where it was anchored to wait for the evening flood tide, when the steamer towed it to Newcastle.

POLICE COURT.

SATURDAY, Aug. 21; *Batchelder J.*

Nellie McGill, for brawl and tumult, was fined $2, costs $6.90.

Mary Dwyer, for drunkenness, was fined $3, costs $6.90.

A saloon keeper was bound over in the sum of $100 to appear on Monday to answer to a charge of keeping his place open after eleven o'clock at night. On a charge of keeping a disorderly house he was bound over to the same time in $400.

PETROLEUM VS. STEAM.

Some weeks ago we noticed the arrival at this port of a government launch on the U. S. S. Tallapoosa, which boat was afterward towed to Exeter by the La Chiquita. This launch was furnished by the navy department at Washington to the Exeter Machine Works for experimental purposes, and has been fitted with a novel motive power, said power consisting of what is known as the Brayton petroleum engine. A few days since the launch came down from Exeter and exhibited her speed and remarkable power of reversing, running from the stone beacon to the Portsmouth bridge against a very strong ebb tide, reversing twice while making the trip, in ten minutes; and returning from the bridge to the beacon in five minutes, the distance being one mile, each way. The launch is of the ordinary navy pattern, twenty-eight feet long and seven feet eight inches beam, her lines being calculated more to secure good carrying capacity and seaworthiness than speed. The Machine Co. say they have a larger boat building at East Boston, better calculated for speed than a government launch, and in which they will put a very powerful engine and develope a high rate of speed.

The boat is fitted with an experimental screw, but the novelty centers in the engine, the motive power of which consists of a gas-cylinder and air-pump, placed longitudinally side by side, and connected to the same crank shaft. The power is originated by the combustion of petroleum oil in the gas-cylinder, which is supplied with compressed air from a receiver, in which it is kept at the desired pressure through the agency of the air-pump, the speed of the engine being increased or diminished by graduating the quantity of air introduced into the gas-cylinder from the air-tank. The engine makes about three hundred revolutions a minute, and the main (or gas) cylinder is kept cool by water which circulates up through one piston-rod and piston-head, passing out through the other piston-rod. On the shaft is a large spur wheel which gears on to the wheel that drives the propeller. The connection with the propeller shaft is one of the most ingenious features of the invention; the engine always moves in the same direction, whether the boat is going ahead or backing, the motion of the screw being governed by two cog-wheels, one of which drives it forward, the other backward; these are controlled by friction clutches, which are operated by air-pressure from the tank. The propeller is under the direct control of the pilot, who governs its direction by means of a small lever located close to the wheel, so that the going ahead, easing and reversing are entirely independent of the engineer. The time occupied in starting, stopping or reversing the screw is literally only a fraction of a second, and we know of no vessel so completely under the control of the pilot as is this one. The motive power is obtained from petroleum, contained in a small tank forward, which is fed to the engine automatically as required, and the amount used is surprisingly small. The machinery is almost entirely below the water line, which adds to the steadiness of the vessel, and is entirely concealed from view. As there is no steam, of course there is no steam-pipe; and there is no smoke-stack to get knocked off or to take up room.

Some of the obvious advantages from this invention, should it prove the success it promises to be, are—the almost infinitesimal expense of running; the convenience in starting, as the engine is always ready, and may be run at full speed within half a minute of the time of applying the match; the entire absence of the possibility of explosion; the absence of expense except when in motion; the steadiness and reliability of the power; increased cleanliness; and the great saving of room, by which the capacity of the ordinary steam launch is greatly increased, while the weight is lessened.

YORK COUNTY AFFAIRS.

Ten barrels of lager beer, sent from Newmarket to Old Orchard to moisten an excursion party from Lewiston with, were seized at Old Orchard last Thursday.

Hon. E. H. Gove of Biddeford has declined the hash nomination for register of probate of York county. He is a greenbacker, but does not propose to burn his fingers in an attempt to pull democratic chestnuts out of the fire.

Tanner Anticipated.

"Shadow," the Stratham correspondent of the Exeter *News-Letter*, writes that paper as follows:

The recent fast of Dr. Henry Samuel Tanner, brings to mind that the same self denial was carried out by an eccentric and well known character named Aaron Wiggin, who flourished in Stratham some fifty years ago. At an early age Mr. Wiggin was imbued with peculiar religious views, and worshipped stones. The writer has often had pointed out to him a large boulder at the head of Heathe swamp, which he would visit as often as once a week, and devote several hours to his form of worship, which consisted of washing the rock and then kneeling beside the same and returning thanks that his unprofitable life was spared. One day, while in the attitude of prayer, the boulder to his disordered imagination suddenly assumed the outlines of a most beautiful angel with golden wings and long flowing hair, and it spoke these words in a voice freighted with the sweetest melody: "Aaron, arise! the author of your existence has a great work for you to perform, which can only be accomplished after you have abstained from food for forty days and nights. At the expiration of that time you will go forth into all parts of the world as the saviour of mankind, healing the sick and restoring the sight of the blind." Mr. Wiggin immediately returned to his residence, which was situated some fifty or sixty rods west of the main road on the north bank of what is now known as Ayers brook. On the following morning he commenced his fast. Every effort was made by friends to induce him to abandon the attempt, all of which proved unavailing; strategy after persuasion was introduced, and tempting viands were placed in different parts of his abode, in such a manner as to carry the impression that they had been dropped by some careless person, and that their presence was unknown save by himself; but the food remained untouched, and his relatives abandoned him to his fate. At the end of forty days he was very much reduced, looking more like a skeleton than a living, breathing, human being. He was fed with the greatest care and tenderly looked after, but his stomach refused to perform its functions, and on the forty-second day his spirit passed on to that sphere where all mysteries are solved. We are informed by one who was conversant with the facts connected with the affair at the time, and he states that it was the general opinion of the community at large, that Wiggin did really abstain from all kinds of food for forty days and forty nights, and that all he took by way of nourishment was brook water.

"Havanna" Cigars from Paper.

The straw paper manufacturers of the Chatham portion of Columbia county, N. Y., have for many years been aware that their product has nearly all gone south, and been used in Cuba as fillers for cigars. None of them manufacture specially with this end in view, although their paper is well adapted for "bogus" cigar making. The paper used for the purpose indicated is of the lightest weight (7 to 7 1-2 lbs.) it is possible to make. There is one mill in the county, located at Queechy (town of Canaan), which manufactures the straw paper for wrappers—not fillers. The Queechy Paper company's paper mill is situated on a creek but a short distance below a lake, and being at the head of the stream, the water is of much greater purity, and hence their ability to produce the desired article of paper. The straw paper used in filling the Havana cigars is saturated with a decoction prepared from the stem and refuse of Havana seed leaf, mingled with which are extracts of licorice root, senna, etc. The paper is so skillfully stamped to resemble the tobacco leaves, the very veins of the leaf being perfectly imitated, that it can seldom, if ever, be detected from the genuine article.

A Free Acknowledgment.

I hereby certify that I habitually use Dr. Kennedy's "Favorite Remedy" in my family in all those cases in which a domestic medicine is needed, and that it has never yet failed to accomplish the purpose desired. We look upon it as an anchor to windward that is sure to hold in every instance mentioned on the doctor's bill of particulars. I make this acknowledgment freely, in hope of doing good to others, feeling that a medicine that is ever at hand and to be implicitly trusted, is worth more than it costs.

Death in the Cigar-tie.

Cigarette smoking is now a fashionable habit, and one which is increasing at an alarming rate among half-grown boys, and it is the opinion of well-known physicians that if this habit is not checked additions to our asylums will be in order. A physician, satisfied that there was death in that form of tobacco, had a cigarette analyzed. The result was startling. In the packet was found to be strongly impregnated with opium, while the wrapper, which was warranted to be rice paper, was proven to be the most ordinary quality of white paper whitened with arsenic—the two poisons combined being presented in sufficient quantities to create in the smoker the habit of using opium without being aware of it, and which craving can only be satisfied by an incessant consumption of cigarettes.—*Franklin Repository.*

Charles Lever's Economy.

Mr. W. J. Fitzpatrick tells a good story of the way in which Lever, the novelist, endeavored to put into practice Thackeray's advice to him in favor of thrift. That counsel was to begin with small economies, and stop some one trifling expense that he could very well do without, when he would find the taste for saving grow on him and gradually include many things once thought necessary. Accordingly, Lever determined to save the daily franc he gave a poor man for holding his pony at the door of a pistol gallery where he was accustomed to practice—the thought of stopping the practice itself never seemed to have struck him. He tied the bridle to the hook of the window shutters and went in. His first shot hit the center and set a signal bell ringing loudly, which so frightened the pony that it broke away, carrying the window-frame with him—"the repairs," wrote Lever, "amounting to eighty-seven francs, and more ridicule than I am able to set down. This was my first and last attempt at economy."

The Chinese Army.

Numerically of considerable strength, the Chinese army has at present but little fighting value. The Chinese soldier is naturally brave, and the men recruited in the northern districts of the Empire are full of vigor and energy; but the troops are practically totally uninstructed in military duties. That this should be the case is probably mainly owing to the inferiority of these Chinese officers. "They are," says a French writer, "below all criticism," and that they are so must be ascribed to the low esteem in which the profession of arms is held in China. "You would not," says a Chinese saying "take good iron to make into nails, and you would not take a man worth anything at all to make a soldier." A man need not be in any way educated to obtain a commission; but on the other hand he must be an athlete. Carrying and throwing, the use of the sword and shooting with the bow, both on foot and on horseback, are the subjects in which a man desirous of obtaining a commission is examined. Under these circumstances it is clear that the Chinese officer is as a rule utterly ignorant of military art, while his men, knowing that he is ignorant as themselves, have but little respect for him.

BRIGHTON CATTLE MARKET.

For week ending Wednesday, Aug. 18.

[Reported for the Boston Journal.]

Amount of stock at market—Cattle 3081; sheep and lambs 3090; swine, 5,250; number western cattle 2761; eastern cattle 120; milch cows and northern cattle 172.

Prices of beef cattle per 100 lbs. live weight—Extra quality $5 37 and $5 62½; first quality $5 00 and $5 25; a quality $4 50 and $4 75; second quality $4 12½ and $4 37½; poorest grades of coarse oxen, bulls, &c., $3 37½ and $4 00.

Brighton hides 7½c per lb.

Brighton Tallow 5½ and 5½c per lb.

Country hides 7½ and 8c per lb.

Country Tallow 3½ and 4c per lb.

Calf skins 10 and 12c per lb., or from $1 25 and $1 50 per skin.

Lamb skins 75c and $1 each.

Sheared sheep skins 50c each.

Trade for neat cattle this week has been active, and the quality of the western beeves was better upon an average than those in market one week ago. There have been no special call for cattle for the English markets as there was one week ago, most of them being bought up by butchers at prices ranging from 4½ and 5½c per lb. live weight. But a few of the western cattle were sold for less than 4½c per lb live weight. From Maine there were a dozen or more cattle brought in. Several lots of good fair cows sold at prices ranging from 3 and 6c per lb dressed weight, and a few heifers at 5½c per lb live weight.

Working Oxen—There were a few pairs in market this week and a fair demand for them. We quote sales of 3 pairs, girth 6 ft 6 in, live weight 2500 lbs, for $100 per pair; 1 pr, girth 6 ft 8 in, live weight 2600 lbs, $105; 1 pr, girth 7 ft, live weight 3000 lbs, $125; 1 pr, girth 6 ft 4 in, live weight 2200 lbs, $75; 1 pr, girth 6 ft 10 in, live weight 3000 lbs, $125.

Store Cattle—Not much call for them and but a few in market. We quote sales of 2 two-year-old heifers at $17 per head. Most of the small cattle that were in a fair condition were bought up for the Brighton market.

Milch Cows—Most of those offered on the market were of an ordinary grade. We quote sales of Brighton cows at $35 and $45; milch cow $60; 2 cows and calves for $70; 1 extra cow and calf at $72; 1 cow $40; 1 do $38; 1 do $45; 1 do $60; 2 at $40 and $35 the lot.

Sheep and Lambs—The run of sheep and lambs from the west during the past week has been light. Western sheep cost landed at Brighton from 5 and 5½c; lambs from 5¾ and 6½c per lb live weight. Nearly all were owned by butchers.

Swine—Prices for fat hogs have been advancing for several weeks past. This week we quote prices at 5½c per lb live weight.

Veal Calves—A few nice calves sold at $9 and $10 per head; one poor lot at $4 per head.

PERFECTLY SAFE IN THE MOST INEXPERIENCED HANDS!

For Diarrhœa, Dysentery, Cramps, Cholera, AND ALL THOSE NUMEROUS TROUBLES OF THE STOMACH AND BOWELS SO PREVALENT AT THIS SEASON.

No Remedy known to the Medical Profession has been in use so long and with such uniformly satisfactory results as

PERRY DAVIS' VEGETABLE PAIN KILLER.

It has been used with such wonderful success in all parts of the world in the treatment of these difficulties, that it has come to be considered

AN UNFAILING CURE FOR ALL SUMMER COMPLAINTS

and such it really is when taken in time and according to the very plain directions inclosing each bottle.

In such diseases, the attack is usually sudden and frequently very acute; *but with a safe remedy at hand* for immediate use, *there is seldom danger of a fatal result* which so often follows a few days' neglect.

The inclination to wait and *see* if the morrow does not bring a better feeling, not infrequently occasions a vast amount of needless suffering, and *sometimes costs a life.* A timely dose of Pain Killer will almost invariably save both, and with them the attendant doctor's fee.

It has stood the test of forty years constant use in all countries and climates, and is perfectly safe in any person's hands.

It is recommended by Physicians, Nurses in Hospitals, and persons of all classes and professions who have had opportunity for observing the wonderful results which have always followed its use.

THE BEST EVIDENCE:

I have long used the medicine known as PERRY DAVIS' VEGETABLE PAIN KILLER in my family and would not on any account be without it. When Cholera was last epidemic here, I used no medicine of any sort but the Pain Killer, and although myself and several members of my family were attacked with a violent Cholera Morbus, the Pain Killer was equal to every emergency. I consider I should not be doing my duty to the community did I not say this much. If I were attacked by the Cholera to-day, Pain Killer would be the only remedy I should use. I have thoroughly tested it, and know it can be relied on.

E. E. BERGINSEND, Galena, Illinois.

No family can afford to be without it, and its price brings it within the reach of all.

The use of one bottle will go further to convince you of its merits than columns of newspaper advertising. Try it, and you will never do without it.

Price 25c., 50c., and $1.00 per bottle. You can obtain it any drug store or from

Appledore and Oceanic Hotels,

ISLES OF SHOALS.

Laighton Brothers & Co.

The staunch and reliable steamer APPLEDORE, Capt. Rand, makes two trips each way daily (Sundays excepted) between Portsmouth and the Shoals. Returning leaves Jones' wharf, near foot of Deer street, at eleven A. M., after arrival of the morning trains from Boston and Concord, and at six P. M. Returning from the railway stations, and there is ample time to walk thither between the arrival of trains and the departure of the boat.

THE "WENTWORTH,"

Newcastle, N. H.

This Hotel will open June 26. It has accommodations for 400 guests, and offers more attractions for pleasure and comfort than any other seaside resort in the country. Its high situation affords beautiful views, both inland and seaward, its healthful atmosphere, the easy manner in which it can be reached, its advantages for boating, bathing and fishing, excellent cuisine, and attractive walks, all combine to make it one of the most charming places on the coast of New England.

Since last year extensive additions have been made, among them one hundred and fifty sleeping rooms, a spacious Music Hall for dancing, theatricals and concerts, bowling alleys, billiard room, a passenger elevator operated by steam, a large and a smoking room for private equipages, the grounds lighted by the electric light, steam yacht for excursions, &c., &c.

The temperature of the bathing at the "Wentworth" is especially inviting to those unable to endure the shock incident to more exposed localities, an enclosed body of salt water, covering an area of fifty acres, affords a safe and pleasant place for bathing at all times for ladies and children. The drives to the neighboring beaches and other points of attraction in this vicinity are unsurpassed. The veranda, fifteen feet in width, surrounding the house, gives an extended promenade or over 1000 feet in length, while the view is unexcelled in beauty and grandeur.

An orchestra of twenty selected musicians, under the direction of Mr. John J. Braham, has been engaged for the season.

The house is furnished throughout in black walnut, has the best of beds, its sleeping rooms are of ample size, well ventilated, and from six sides of the house affords fine views. Its cuisine will be found of an unexceptionable character. The "Wentworth" is situated three miles from Portsmouth, N. H., in the ancient town of Newcastle, and is reached from Boston in two hours' ride over the Eastern Railroad. Address

Popular Monthly Drawing of the

Commonwealth Distribution Co.,

AT MACAULEY'S THEATRE, In the City of Louisville, on

TUESDAY, AUGUST 31st, 1880.

These Drawings, authorized by the Legislature of 1869, and sustained by all the courts of Kentucky, according to a contract made with the owners of the Frankfort grant, will occur regularly on the last day of every month, Sunday and Friday excepted, for the period of five years, terminating on June 30th, 1885.

The United States Circuit Court on March 31st rendered the following decisions:

1st. That the Commonwealth Distribution Company is legal.

2d. Its drawings are fair.

The management call attention to the liberal scheme which has met with such popular favor heretofore, and which will again be presented for

CANTERBURY SHAKERS' LIFE-INVIGORATING SARSAPARILLA.

The Great Blood Purifier, Kidney Remedy and Mild Laxative.

WE, the undersigned, having used DR. CORBETT'S SHAKER SARSAPARILLA SYRUP in our practice, and having examined the formula by which it is prepared, would cheerfully recommend it to the community as the cheapest, safest, and most efficacious of all the preparations of Sarsaparilla in the market. Its highly concentrated state, (there being in a given amount of Syrup twice the amount of Vegetable Extract that any other contains,) the care, skill, and cleanliness of its manufacture, are sure guarantees of its purity and effect. His Great Good Luck.

Sometimes, when I look back over my life, I am amazed to see how the pages of its record are dotted with hair-breadth escapes. I escaped the dangers and hardships of the Revolutionary war by waiting until it was over about sixty years before I got born. When the Brooklyn theatre burned I was in Burlington. When the yellow fever broke out in New Orleans I was in Minnesota, and immediately skipped out for Canada. When I was a boy at school, one day the boys in school were flogged all round for robbing an apple-orchard, and the flogging didn't do them a bit of good, for every mother's son had the cholera morbus all that night, just the same. And I was attending another school, twenty-three miles distant. When all of my brothers and sisters were down with the scarlet fever, I was down south in the army, and when I read my letters from home I laughed aloud to think of my great good fortune, and that I would only have to be shot at once or twice a week, instead of having to take medicine three times a day. When a man comes to the office with a little bill, nine times out of ten I am out. And if, by some astonishing blunder, I am in, then, indeed, I am more unfortunate, and the man is in no better luck than before. —*Hawkeye.*

— High pitch—That on pine trees.

— Early vegetables—Those brought to market at daylight.

—Gambetta's father and mother are plain saving people, and when they went to the Paris fete to see their son's greatness, they took with them four packages of candles, wherewith to illuminate the windows of their lodgings. When they arrived at the railway station in Paris the usual search* was made, and a customs officer demanded the duty upon the candles. "They are for my son," said the old man. "I don't care," returned the official; "you must pay the duty if they are for M. Gambetta himself." "But he is my son," exclaimed the father of the great statesman, and he immediately paid the required sum in order to escape the curiosity of the crowd.

—A fashionable Boston tailor has hit on a novel plan of gratifying his customers with as many suits of clothes as they may feel inclined to wear at a very large reduction from fashionable prices. He offers to supply three suits a year for $117, four suits for $142, five suits for $162, while for $200 per annum he will agree to let them have as many suits of clothes as they may choose to wear, the old suits to be returned, and the customer to have the privilege of two suits at a time. Under the first three porpositions the cost of each suit would be $39, $35.-50 and $32.50 respectively, the customer retaining the clothes. Under the last proposition the customer may have ten or more suits a year at a cost of $20 or less for each suit, on the simple condition of exchanging the suits that have been worn for new ones.

Intense sufferings from Kidneys cured:

MONTGOMERY CENTER, VT., Feb. 25th, 1880.

Gentlemen: I feel it a duty and a pleasure not only to acknowledge my gratitude to you personally, but also to bring my case before the public, and testify after eight years intense suffering, what your Kidney-Wort has done for me. For the past year have been taking different remedies for kidney disease, but derived no benefit. Have had trouble with my kidneys for eight years, very bad by spells and for several months, able to do very little work, at times passing blood from the bladder, and experienced a prickly sensation all over. I was fearful of paralysis, and was dizzy, afraid to stoop over from fear of falling. At last in January commenced taking your Kidney-Wort and found almost immediate relief. One box made a new man of me. I feel almost as well as ever in my life, and I sincerely believe it will restore to health all who may be similarly afflicted.

MICHAEL COTO.

ESSRS. WELLS, RICHARDSON & CO.

Gentlemen: The above named person has been in our employ the past three years, and we know him to be a man of truth and honor; we believe and know his condition and statement to be true. We know of others in this vicinity equally as thankful for the benefits derived from the use of this medicine.

Respectfully Yours, SHERMAN, BRADISH & CO.

—Rev. Dr. Woods of Andover was once giving his class some instructions about preaching in such a manner as to gain attention and applause. "Young gentlemen," said he, "it's all contained in a nut-shell. When you go to preach in the city, take your best coat; but when you go to preach in the country, take your best sermon."

Wicked for Clergymen.

Rev. ——, Washington, D. C., writes: "I believe it to be all wrong and even wicked for clergymen or other public men to be led into giving testimonials to quack doctors or vile stuffs called medicines, but when a really meritorious article made of valuable remedies known to all, that all physicians use and trust daily we should freely commend it. I therefore cheerfully and heartily commend Hop Bitters for the good they have done me and my friends, firmly believing they have no equal for family use. I will not be without them."—*N. Y. Baptist Weekly.*

TUESDAY, AUGUST 24, 1880.

FOR PRESIDENT,

James A. Garfield,

OF OHIO.

FOR VICE PRESIDENT,

Chester A. Arthur,

OF NEW YORK.

The Democratic Record.

It has been said of the democratic party that it has travelled completely around the circle of political apostacy. It has originated no new policy of the slightest value, and suggested none, but has been a constant drag and obstruction to the beneficent measures introduced by its opponents. It has trimmed its sails to catch every gust of popular passion or prejudice, while it has sought neither to guide nor to correct public opinion. An examination of the official utterances of the party made by national conventions from 1856 to 1880, will justify the estimate of the character, aims, and acts of the democracy which have been here given.

1856—The democratic convention resolves that congress has no power to interfere with slavery in the states; approves the Augustine slave law; recognizes the right of new states to regulate their domestic institutions, with or without slavery, as they please.

1860—Both branches of the democracy re-adopt the pro-slavery platform of 1856.

1864—The democratic convention explicitly declares, as the sense of the American people, that after four years of failure to restore the Union by the experiment of war, immediate efforts should be made for a cessation of hostilities.

1868—The democracy declares in favor of paying the public debt in greenbacks, and that the reconstruction acts (so-called) of congress "are usurpations, and unconstitutional, revolutionary and void." And in reference to this platform Winfield Scott Hancock writes, saying, "If you think I won't support that platform, you don't know me."

1872—They once more turn a complete somersault and say, "We are opposed to any re-opening of the questions settled by the 13th, 14th and 15th amendments, (which the convention of 1868 pronounced "unconstitutional, revolutionary and void.")

Epitomizing the action of the democratic party since 1856, on the great public questions of the day, it appears:

1st. The tariff. That the party, since 1856, has favored absolute free trade, a revenue tariff, "incidental protection," and the remission of the question to the congressional districts; and, at the present moment, has named as its candidate for the presidency a Pennsylvania protectionist.

2d. The currency. In 1868 the party favored the payment of the bonds in greenbacks, and in 1876 it denounced the resumption act as "a hindrance to resumption," but now favors "honest money."

3d. Reconstruction. The constitutional amendments were declared "revolutionary and void" in 1868; their rigid enforcement demanded in 1872; accepted in form in 1876; and broken in letter and spirit by the southern democrats from the day they were adopted till now.

4th. The war was pronounced a failure in 1864; its results partially agreed to in 1868;—and the soldiers and sailors have been thanked in every democratic platform since.

5th. The democratic party has wholly abandoned the anti-war theory of the party in regard to public improvements, and has adopted the republican theory, the southern states lately in rebellion being now the most clamorous for appropriations from the public treasury.

6th. The democratic party now comes before the country without a single affirmative principle except such as it has stolen from the republican party, and the one original issue of state supremacy in national elections, which is a lingering relic of the exploded doctrine of state rights.

7th. With emancipation and negro suffrage disappeared the one cohesive principle of the original democracy, that is, slavery. Since that time it has shifted its ground in every campaign, and resembles the old party whose name it bears only in its total lack of all principle, its hostility to the idea of federal unity and supremacy, and its greediness for the spoils of office.

Naval Gazette.

The Powhatan arrived at New York on Saturday, five days from Port Royal, S. C., all well.

The Tennessee, flagship of the North Atlantic squadron, arrived at Boston on the 20th inst., from Portland. There was a rumor in Boston that she had yellow fever on board, but the city physician of Portland reports a clean bill of health from Port Royal.

Destructive Storm.

Advices from Corpus Christi give an account of the recent great storm on the lower Texas coast and in Mexico. Matamoras looks as though it had been bombarded, brick buildings being torn out of long blocks; it is estimated that 300 houses were wrecked, either demolished or unroofed, and whole stocks of goods were destroyed. Loss estimated at $500,000. Brownsville is in but little better condition. At Point Isabel and Brazos the storm was most disastrous. In Brownsville, Latimer's machine shop and adjoining building are in ruins, the streets full of debris, houses wrecked, and trees and fences blown down. The infantry barracks are badly shattered, and considerable damage was done in the officers' quarters. Twenty-eight horses and seven mules belonging to the government were killed, the artillery barracks unroofed, and the cavalry stables blown flat. The convent was unroofed and the fences blown down. The tug Ethel and the steamboats John Scott and George Brown were sunk. At Point Isabel the steamer Petute was wrecked, and the schooner Julia Millett blown ashore. The Bravo went to pieces, and the pilot boat Ada is missing. The quarantine station and the old lighthouse at Brazos are gone. The barque Maria Theresa went to pieces, and the schooner Laura Lewis was beached. The steamer Sellers was sunk at her wharf, and three of her crew are reported lost. A number of small boats were also sunk, and it is reported that several Mexicans were drowned. The wharf at Brazos was demolished, and the railroad badly damaged. The total loss by the storm in this section is estimated at more than $1,000,000. Many families lost everything.

News and Notes.

During a fight between greenbackers and democrats, at Coffeyville, the county seat of Yallabusha county, Miss., on Saturday, one democrat was killed, and also R. V. Pearson, the greenback candidate for sheriff. Two of Pearson's friends were badly wounded. Troops were telegraphed for, but the order was afterward countermanded. There is no doubt that Yallabusha county will go democratic.

Jack Ince had just fitted up his saloon at Arkana, Texas, with a fine black walnut bar. Tom Daly, a desperado, took a drink at the new counter and began to carve his initials with a bowie knife on its polished surface. Ince protested without avail, and then commanded Daly to stop. "I'm going to cut this bar or you, and I don't care which," was the resort. "You won't do either," said Ince, and shot the man dead.

Five New York thieves boarded a street-car in Third avenue, near the Bowery, at four o'clock Sunday morning, drew revolvers, and robbed the driver and passengers. The highwaymen escaped.

Two more victims of the May's Landing, N. J., railroad accident, died in the hospital at Philadelphia on the 22d inst., bringing the total number of deaths from the disaster up to twenty-five. It is feared that still more of the injured will die.

The body of the man so brutally murdered for stealing grapes at Agnew station, near Pittsburg, Pa., early last week, was found Saturday night near Rochester, Pa., and identified as that of Robert Bryson of Harrisburg, son of Robert Bryson, Sr., a wealthy retired iron manufacturer, and nephew of James and Robert McCormick, two of Pennsylvania's wealthiest men. He was also first cousin to Hon. J. Donald Cameron's first wife. He was highly educated, but had been subject to some severe nervous affliction, which slightly clouded his intellect, from which it was thought he had recovered. He was last heard from several weeks ago, at which time he was at Hot Springs, Ark. It is believed that he became demented, and either tramped from St. Louis or got off a train.

The duel which was to have taken place Saturday morning between James Bannon Hope, editor of the Norfolk *Landmark*, and Col. Wm. Lamb, mayor of Norfolk, was prevented by the arrest of Mayor Lamb, just as he was leaving his house for the place of meeting, about fifteen miles from Norfolk, on the edge of North Carolina, near Great Bridge. Lamb was taken before a magistrate and bound over in $20,000 to keep the peace. Capt. Hope eluded the police and reached the rendezvous, but returned to the city and gave bonds to observe the peace.

Judge Henry M. Spofford of Louisiana, the competitor for Kellogg's seat in the United States senate, died at Red Sulphur Springs, W. Va., Aug. 21st, having lain insensible in a congestive chill since the previous Monday. He graduated at Amherst in 1840.

Mrs. Susan J. Henry, widow of the late Capt. Patrick Henry, last surviving grandson of Patrick Henry of revolutionary fame, died a few days ago in Washington. Mrs. Henry inherited property which was lost during the war. For a number of years she was a clerk in the treasury department, and at the time of her death had just received an appointment in the agricultural department.

"Dr." Buchanan, the Philadelphia peddler of bogus medical diplomas, who was reported to have committed suicide, is still alive, his pretended suicide having been as complete a sham as his diplomas.

At Compton Mills, N. J., on the night of the 21st inst., Miss Louisa Sheldon, nineteen years old, belonging to a family well off and respectable, hanged herself to a rafter in the barn. She was beautiful, unusually lighthearted, and a favorite. She had formed an attachment for a young man she had met at some summer resort, and the parents stopping their correspondence was the supposed cause of her fatal act.

Previous to the performance of Robinson's circus, at Morristown, Tenn., Saturday night, the sheriff of Hamblin county was shot and Officer Morris killed by Ben. Richardson, while they were attempting to arrest the latter. Another officer killed Richardson. Six others were wounded in the affray.

Advices from Athens, Greece, say that thirty Turkish officers, who have deserted their own flag, held an audience with the Greek war minister, whom they asked for commissions. They deserted from the Turkish service because they were not paid. It is alleged that whole battalions are ready to desert if their pay be guaranteed them, by the Greek government.

Eight hundred and thirty hostile Sioux Indians have surrendered to Col. Miles at Fort Keogh, Montana, and one thousand more are on their way to his camp, desirous of doing likewise. These surrenders have been expected by the government for some time past, and instructions have been sent to department commanders how to act.

The Lloyd agent at the island of St. Vincent telegraphs to London, under date of the 21st inst., that one of the missing boats, containing seven men and five bags of mail matter from the steamer American, of the Cape of Good Hope and Southampton line, which foundered April 28th, near the equator, was picked up by the Portugese brig Tarnio, and the men and mail landed at Loanda, Africa, July 11th.

Fred May, whose duel with James Gordon Bennett made such a sensation at the time, except in the columns of the *Herald*, has been fined $5 at Long Branch for raising a disturbance while on a drunken spree.

The funeral of Miss Clara Bagnall recently took place from her mother's house in Indiantown, N. B. The story of her sad life should be a warning to practical jokers. Several years ago, while she was but a girl, a gentleman of her acquaintance thought he would play a joke on her, never imagining for a moment that it would result as seriously as it did. He arrayed himself in a diabolical rig and presented himself before her. She was naturally of a weak and nervous temperament, and the shock that her nerves experienced by the frightful apparition proved too much for her. She fell in a fit, only to awake a raving maniac. For five or six years her friends managed to keep her at home until her health began to fail, when they reluctantly decided upon sending her to the asylum. She lingered there for some time until death relieved her from suffering.

It is fifty-four years ago on Saturday, the 28th inst., since the family of James Willey was destroyed by a land slide in the White mountains.

IT MAKES NO DRUNKARDS,

Breaks no Hearts, Excuses no Crimes.

Dr. David Kennedy's FAVORITE REMEDY is not a disguised enemy of the human race; where it cannot help, it does not harm. FAVORITE REMEDY is a combination of vegetable alteratives. It does not heat nor inflame the blood, but cools and purifies it. In all cases of Kidney troubles, Liver complaints, Constipation of the Bowels, and the delicate derangements which afflict women, the action of FAVORITE REMEDY is beyond praise. Thousands of grateful people voluntarily testify to this, in letters to Dr. Kennedy; and with a warmth and fullness of words which mere business documents and certificates never possess. It makes no drunkards—excuses no crimes—breaks no hearts. In its coming there is hope, and in its wings there is healing. We challenge a trial and are confident of the result. Dr. Kennedy would have it understood that, while he is engaged in the introduction of his medicine, "Favorite Remedy," he still continues the practice of his profession, but confines himself exclusively to *Office* practice. He treats all diseases of a chronic character, and performs all the minor and capital operations of surgery.

AROUND HOME.

Picnic parties were in order up the river on Monday.

The democrats of North Hampton had a flag-raising on Saturday, with addresses by John H. George and Isaac Bradford.

Seventy-six headstones, furnished by the government for the unmarked graves of Union soldiers and sailors in Dover, arrived in that city on Saturday.

Twenty-seven of the mechanics employed on the navy yard, with their families and friends, had a picnic at Fox point, Newington, on the 22d inst.

Mr. Nelson Goodrich, for a long time past the correspondent in this city o, the Boston *Globe* and Concord *Patriot*, and a reporter for this paper, has removed to Lynn, Mass., with his family.

Engine-driver George Douglass, of the Eastern railroad, who was knocked from his engine by striking one of the supports to a bridge some weeks ago, and it was supposed fatally hurt, has so far recovered as to be able to be out.

Rev. John A. Goss, of this city, gave the hand of fellowship to Rev. E. P. Woodward at Maplewood, Mass., last Friday evening, on the occasion of Mr. Woodward's ordination as pastor of the Christian church in that town.

The steam launch Lottie, of Exeter, was down river on Sunday with a nice little party of excursionists, who first successfully tried their luck at fishing, and then had a chowder on the beach near Pocahontas point, Gerrish's island.

The *Times* fills half a column of its inside telling the exploits of a man who did *not* save the schooner Mary S. Hontvet, and puts off the Newcastle man who was the hero of the occasion, with a passing allusion to the fact that he found her in the fog.

A prize fight was arranged to come off at Plaistow on Monday, and Sheriff Kent sent deputies Odlin and Hoyt of Exeter, Woodman of Kingston and Brown of Seabrook, to the spot, he not being able to reach the reach there in time. Monday evening he received a despatch to the effect that the fight did not come off.

The schooner Mary S. Hontvet lies at Curtis' coal wharf in Newcastle, half filled with water; her masts, rigging and sails are also in the water near the vessel. The schooner and her tackle have been libelled by Matthew Murphy of Newcastle, who with his assistants claims salvage. Deputy Marshal Kent took possession of her under a monition issued out of the clerk's office of the district court on Monday. The schooner it is said can be repaired, and with new masts made as good as before her recent disaster.

By the advertisement in another column it will be seen that the complimentary benefit to Mr. John J. Braham, musical director of the orchestra at the hotel Wentworth, which occurs at the hotel on Thursday evening, the 26th inst., will be preceded by a series of athletic sports arranged for the afternoon, to include dory, tub, sack, yacht, and potato races, wheelbarrow race, and climbing greased pole, with prizes for each event. The dramatic performance will commence at eight o'clock in the evening, the grand concert at nine, and dancing at ten.

It is related of a Hampton beach landlord that he recently took a friend into a private closet, where he had upon a shelf two bottles of similar appearance, one containing varnish and the other a popular brand of punch. The two liquids were of about the same color, and not drinking himself, he offered his friend a glass of the varnish. The odor of the stuff showed the mistake before the man drank, and he quietly tossed it out of the window, without the landlord's notice. Taking the other bottle with him, the hotel proprietor was soon after observed vigorously applying the punch to the body of one of his best carriages. The absent-minded landlord found it necessary to empty several bottles of punch for the benefit of his guests before the affair could be hushed up.

The first ladies to ascend Mount Washington were three Misses Austin, of Portsmouth.

Col. Pecker, the New Hampshire correspondent of the Boston *Journal*, is sojourning at the "Ocean Wave," Rye beach, and we may expect soon to see an interesting account of what the graphical "F. F." has seen at this beautiful seaside resort.

At Cummins hall, Rye beach, on Monday evening, theatricals were enjoyed by the sojourners. "Keep an eye on him" was presented for the first time on any stage, the author having a part on the boards. It was follow by "He's a lunatic." Results were funds for the never-finished plank walk.

The lower harbor and the mouth of the river presented a lively scene on Sunday afternoon, the steamers James Sampson, Mystic, Clara Batemen, Lotie, Gypsy and Stamford being all in sight at one time, with a steam yacht and several large sailing yachts, and numerous coaster and fishermen, while a swarm of sailing and row boats hovered around the vessels that were struggling with the wreck of the schooner Mary S. Hontvet.

POLICE COURT.

MONDAY, Aug. 23; *Batchelder, J.*

Seven saloon keepers were before the court for violating the Sunday ordinance or keeping open Saturday night after eleven o'clock,—some of them on both charges. They were fined $5 and costs for the first offense and $10 and costs for the second; and one of them, on a charge of keeping a disorderly house, was bound over in the sum of $400 for his appearance at a higher court.

BOW MISSION SERVICES.

At the gospel temperance meeting, Saturday evening, Mrs. Hooper not being present at the opening, the service was conducted by Mr. James Sanborn. Interesting remarks were made by several persons, among them Mrs. Hooper, who has been away from the city for several weeks.

The bethel service, Sunday afternoon, was held on the court house steps, and conducted by Joseph T. French. Horace E. Frye opened the meeting with prayer, and Messrs. French, Atkins and Hulse addressed the people. The service next Sunday will be held at the mission hall, as formerly.

The reform club had one of their old-time meetings, Sunday evening. President Sanborn complimented the city authorities for their attempts to close the liquor saloons on the Sabbath, and said the city marshal had four indictments for violations of the Sunday ordinance. By request, Mr. Charles Lydston of Kittery addressed the assemblage. The general sense of the meeting was expressed to the effect that the officers of the law should be supported and encourged in their attempts to shut up the saloons on Sunday. At the close of the meeting nine young men signed the pledge, eight of the number being from the training-ship Portsmouth, now lying at the navy yard. L.

YORK COUNTY AFFAIRS.

Mr. Everett Shorey is building a house near the Eliot depot.

The jacket for the propeller shaft of the Lancaster was successfully cast on Saturday, at the steam engineering brass foundry at this navy yard.

Commodore Richard L. Law, U. S. N., chief of the bureau of yards and docks, visited the navy yard on Monday and received the customary salute.

Mrs. Curtis French, of Newburyport, Mass., had her pocket picked of a gold watch at the Old Orchard railroad station, on Thursday of last week.

Mr. Samuel Clark, of Eliot, has the credit of raising dandelions that reach the height of eight feet, but they happen to grow in the junction of two limbs of an elm tree.

Mr. James Bartlelt, of Eliot, will raise this season five hundred bushels of cucumbers, and his brother, Mr. Sylvester Bartlett, will have some three hundred barrels to pickle.

A fine barque of 1150 tons, built in the Thompson shipyard at Kennebunkport by the Massachusetts Loan & Trust Co., was launched on Saturday. She is unnamed, and for sale.

United States revenue officers recently made a descent upon the keepers and proprietors of the summer boarding houses along York beach, for selling liquor without paying the special internal revenue tax. Two of the victims settled the matter by paying one hundred and fifty dollars each, and four others effected some other settlement for the present, it is reported.

Political Notes.

A "Puzzled Voter" residing in Memphis submits to those more skilled in arithmetic than himself several problems presented by an election in that city. On the 1st of July the census of the first ward in that city reported that there were 1086 males of voting age, including a number of unnaturalized foreigners. At the election on Aug. 5th the judges reported from that ward 1168 democratic, 167 republican and 73 national votes. In the second ward there were only 940 voters, but the election judges returned 1015 democratic, 53 republican and 27 national votes. The "Puzzled Voter" professes not to understand how these results can be consistent, and asks if the democratic congress at the last session passed any law amending the multiplication table.

The New York *Tribune* reprints from the Cincinnati *Commercial* a broadside which contains a list of the mortgages in Indianapolis by W. H. English, democratic candidate for the vice presidency, since 1873. The list is a most formidable one. The amounts involved are all small, thus showing that this "friend of the poor man" squeezes him whenever chance presents. One of the most pleasant of Mr. English's traits is that he never bids the full amount of his mortgage when buying under the hammer. The result of this is, an individual judgment is left against the debtor, so that if better times come to him he may be compelled to satisfy the judgment, although he has lost his property. The *Commercial* writer calls it "an improvement on Shylock." And this is the way Mr. English filled his barrel.

The Philadelphia *Chronicle-Herald*, democratic, thinks it "would have been much better if Senator Hampton had been content to call his hearers to the support of the democratic ticket as Americans who want honest and good government. It is not well for a public speaker to marshal the hosts of the dead confederacy in the name of the dead heroes of the Lost Cause. They may catch the ears of the groundlings, but it can but make the judicious grieve."

"We regard the reconstruction acts, so called, of congress, as an usurpation and unconstitutional, revolutionary and void." —*Democratic Platform*, 1868.

"We pledge ourselves anew to the constitutional doctrines and traditions of the democratic party as illustrated by the teachings and example of a long line of democratic statesmen." — *Democratic Platform*, 1880.

The Count van Hatzfield, so a Berlin despatch reports, has dissolved by the forms of law his marriage with the American lady, Miss Moulton, to whom he was married, and he may now be appointed secretary of state for foreign affairs. In marrying her, the count had committed an offence against the unwritten laws of German etiquette, as interpreted by the Empress Augusta, who is of the "prunes and prism" sort, and acts upon the traditions of her family, the house of Hohenzollern. The wife of a noble must not have been connected with the stage, neither herself, nor through relationship to anybody who has ever been on the stage; she must not have been divorced, nor related to anybody who has ever been divorced. The only fault of Miss Moulton is that her grandmother, Cesarina Metz, had once been an actress, and her brother had married Miss Lillie Greenough of Boston, who had a fine soprano voice, and frequently sang in public; she has since been married to the Baron Hageman. Miss Moulton, herself, was made a belle in Paris, where her family latterly resided, by her own charms and by the favor of the Empress Eugenie, who was much pleased by her graceful skating in the Bois, and "took her up." So she came to marry Von Hatzfield, then the German ambassador in Paris, and it was considered a marriage of love and a fortunate one. Now, he sets her aside. Doubtless this is quite correct from the standpoint of the German court. From an American point of view, it is an act of contemptible poltroonery.—*Worcester Gazette.*

Of the first side or speck beware
That on your teeth you may espy,
There is by far more danger there,
Than at the moment meets the eye.
Use SOZODONT without delay,
And thus arrest the first decay.

COUGHS.—"*Brown's Bronchial Troches*" are used with advantage to allevate Coughs, Sore Throat, Hoarseness and Bronchial Affections. For thirty years these Troches have been in use, with annually increasing favor. They are not new and untried, but, having been tested by wide and constant use for nearly an entire generation, they have attained well-merited rank among the few truly reliable remedies of the age.

THE THROAT.—"*Brown's Bronchial Troches*" act directly on the organs of the voice. They have an extraordinary effect in all disorders of the Throat and Larynx, restoring a healthy tone when relaxed, either from cold or over-exertion of the voice, and produce a clear and distinct enunciation. *Speakers and Singers* find the Troches useful.

A COUGH, COLD, CATARRH OR SORE THROAT requires immediate attention, as neglect often times results in some incurable Lung Disease. "*Brown's Bronchial Troches*" will almost invariably give relief. Imitations are offered for sale, many of which are injurious. The genuine "*Brown's Bronchial Troches*" are sold *only in boxes.* Tu,th&f,&c

Cured of Drinking.

"A young friend of mine was cured of an insatiable thirst for liquor, which had so prostrated him that he was unable to do any business. He was entirely cured by the use of Hop Bitters. It allayed all that burning thirst; took away the appetite for liquor; made his nerves steady, and he has remained a sober and steady man for two years, and has no desire to return to his cups. I know of a number of others that have been cured of drinking by it."—From a leading R. R. Official, Chicago, Ill.—*Times.*

— "That prisoner has a very smooth countenance," said the judge to the sheriff. "Yes," said the sheriff, "he was ironed just before he was brought in."

Dr. Pierce's Extract of Smart-Weed is a compound fluid extract of smart-weed, or water-pepper, Jamaica ginger and other ingredients known to be efficacious in curing colic, diarrhœa, dysentery, bloody-flux, and kindred affections. It also breaks up colds, fevers and inflammatory attacks.

— It is a mistake for a preacher to say, "Just one word more, and I am done." He but lengthens his discourse by so much without deceiving any one of his hearers for an instant.

A Reliable Wine.

Mr. A. Speer, New Jersey, whose Port Grape Wine has has such a wide reputation, and which physicians prescribe so generally, the first in this country to introduce the art of making wine from the Oporto Grape, which is now the best wine to be had, and has become a great favorite among the most prominent physicians of New York and Philadelphia, who have visited persons benefitted by it.

Hancock as a Historian.

Hancock is catching it all around for his historical blunder in writing to Gen. Sherman that Jefferson inaugurated himself, riding his horse alone to the capitol, hitching it to a rail fence, and then entering the capitol and taking the oath of office, after which he rode to the executive mansion. A very full account of that inauguration has been found in the Massachusetts *Spy* of March 25th, 1801, by which it is shown that the ceremony was a very elaborate one. There was a discharge of artillery at ten o'clock; at twelve o'clock Jefferson entered the capitol attended by a number of members of congress and other gentlemen, and there was another artillery salute. He was received by the assembled senators and representatives rising, and took the chair of the senate, which Mr. Burr vacated for him. After a few minutes he rose and delivered his address before the largest concourse of citizens ever seen up the that time in Washington. Afterwards the oath of office was administered, when he returned to his lodgings (not the executive mansion) accompanied by the vice-president, chief-justice, and the heads of departments. As soon as he withdrew there was another salute of artillery.

The Girls and the Guests at Mt. Desert.

There is one hotel at Bar Harbor where they lock you out if you are not at home betimes, and give you a bad mark if you come late to dinner. But at most of the houses I have never been able to satisfy myself that the younger guests go to bed all night. At Rodick's where fashion, and gayety most do congregate, after the last stragglers have come down from Newport mountain, or up from the boat-landing, and the little supper parties have strolled back from Sproul's, and the piazza flirtations are exhausted, then it often happens about midnight that a girl gets hungry and proposes to go "foraging." That means ransacking the pantry for crackers.

A foraging party consists of two, and so in the dark kitchen sentiment is fed upon soda biscuit till Cupid only knows what small hour of the morning. Young ladies who never get lost in the woods or belated in the store-room, but govern their intercourse with wakering-place cavaliers by the rules of a conventional and antiquated state of society, are compassionately called "piazza girls," and are supposed not to have such a perfectly splendid time as their more lively and more numerous sisters. Did you ever read a little dramatic poem of Mount Desert life by Robert Grant, the clever satirist of the *Harvard Lampoon?* At the end of an unconstrained cruise on the water and a midnight *tete-a-tete* on the stairs, the hero of the piece exclaims: "Oh, why aint more girls like her!" It seems to me that at Bar Harbor this summer most girls *are* like her. Besides the fully developed hotel young lady whose characteristics are well understood, there are three classes of summer visitors at Mount Desert.

The most imposing, of course, are the cottagers. At the bottom of the social scale are the "mealers," who rent rooms where they can board at the hotels. Midway between these extremes are the "haul mealers," so-called because they are hauled to their meals on buckboards three times a day. Having a room opposite the Rodick house, I became one of that large class spoken of as "Rodick's mealers." The sense of inferiority became so galling that I thought of hiring a buckboard to ride across the street to dinner, for the sake of the prestige. But there was not room for this manœuvre. A buckboard is nearly as long as an obelisk, and as hard to turn.

—Mrs. Crœsus had been visiting her daughter at Mills' seminary, for the purpose of inquiring what progress she had made in her studies; and, on putting the question to the teacher in charge, was answered: "Pretty fair, madam; your daughter is painstaking and attentive, and, in that respect, I am well satisfied with her; but you see, unfortunately she wants intellect, and for this deficiency, you know, we must not blame her." "No, ma'am," replied the mother; "but I blame you for not having mentioned it before. Her father, thank heaven! can afford his daughter an intellect, and I beg she may have one immediately, no matter what it costs."

PERFECTLY SAFE IN THE MOST INEXPERIENCED HANDS!

For Diarrhœa, Dysentery, Cramps, Cholera, AND ALL THOSE NUMEROUS TROUBLES OF THE STOMACH AND BOWELS SO PREVALENT AT THIS SEASON.

No Remedy known to the Medical Profession has been in use so long and with such uniformly satisfactory results as

PERRY DAVIS' VEGETABLE PAIN KILLER.

It has been used with such wonderful success in all parts of the world in the treatment of these difficulties, that it has come to be considered

AN UNFAILING CURE FOR ALL SUMMER COMPLAINTS

and such it really is when taken in time and according to the very plain directions inclosing each bottle.

In such diseases, the attack is usually sudden and frequently very acute; *but with a safe remedy at hand* for immediate use, *there is seldom danger of the fatal result* which so often follows a few days' neglect.

The inclination to wait and see if the morrow does not bring a better feeling, not infrequently occasions a vast amount of needless suffering, and *sometimes costs a life.* A timely dose of Pain Killer will almost invariably arrest any such trouble, and with them the attendant doctor's fee.

It has stood the test of forty years' constant use in all countries and climates, and is perfectly safe in any person's hands.

It is recommended by Physicians, Nurses in Hospitals, and persons of all classes and professions who have had opportunity for observing the wonderful results which have always followed its use.

THE BEST EVIDENCE!

I have long used the medicine known as PERRY DAVIS' VEGETABLE PAIN KILLER in my family and would not on any account be without it. When Cholera was last epidemic here, I used no medicine of any sort but the Pain Killer, and although myself and several members of my family were attacked severely, I am happy to say that the Pain Killer was equal to every emergency. I consider it equally as valuable for children, and my opinion is, that it is a duty to the community, to let it be known that it is a duty to the community did I not say this much. If I were attacked by the Cholera to-day, Pain Killer would be the only remedy I should use. I have thoroughly tested it, and know it can be relied on.

F. E. BERGINSENN,
Galena, Illinois.

Messrs. PERRY DAVIS & SON:

I know you need no testimonial to convince you that your medicine is all that you claim for it, but I cannot restrain the impulse to communicate to you the fact that to my family it has truly done wonders. I administer it to my children (one eighteen months, and the other three years old) with perfect success. It regulates their bowels, and stops all diarrhœa. Myself and wife resort to it in all cases, both for internal and external use. I have used it in my family for five years, and *will not* be without it. Feeling myself under much obligation to you, in many times being relieved from pain, I am very truly yours, L. P. MOORE.

Bangall, Dutchess Co., New York.

No family can afford to be without it, and its price brings it within the reach of all.

The use of one bottle will go further to convince you of its merits than columns of newspaper advertising. Try it, and you will never do without it.

Price 25c., 50c., and $1.00 per bottle. You can obtain it at any drug store or from

Appledore and Oceanic Hotels,

ISLES OF SHOALS.

Laighton Brothers & Co.

The launch and reliable steamer APPLEDORE, Capt. Rand, makes two trips each way daily (Sundays excepted) between Portsmouth and the Shoals. Steamer leaves Jones' wharf, near foot of Deer street, at eleven A. M., after arrival of the morning trains from Boston and Concord, and at six P. M. Returning leaves the islands at seven A. M., arriving at Portsmouth in season to connect with the 8 20 train for Boston, and the trains for the White Mountains via Conway and the Notch, and at 3 30 P. M. in season for the afternoon trains west and north.

☞ Baggage destined for these hotels is transported between the Eastern railway station and the hotels *free of charge.* The wharf of the steamer is a short distance from the railway station, and there is ample time to visit thither between the arrival of trains and the departure of the boat.

THE "WENTWORTH,"

Newcastle, N. H.

This Hotel will open June 20. It has accommodations for 400 guests, and offers more attractions for pleasure and comfort than any other seaside resort in the country. Its high situation affords beautiful views, both inland and seaward, its healthful atmosphere, the easy manner in which it can be reached, its advantages for boating, bathing and fishing, excellent drives and unsurpassed walks, all combine to make it one of the most charming places on the coast of New England.

Since last year extensive additions have been made, among them one hundred and fifty sleeping rooms, a spacious Music Hall for dancing, theatricals and concerts, bowling alleys, billiard room, a passenger elevator operated by steam, a large and commodious stable for private equipages, the grounds lighted by the electric light, steam yacht for excursions, &c., &c.

The temperature of the bathing at the "Wentworth" is especially inviting to those unable to endure the shock incident to more exposed localities. An enclosed body of salt water, covering an area of fifty acres, affords a safe and pleasant place for boating at all times for ladies and children. The drives to the neighboring beaches and other points of attraction in this vicinity are unsurpassed. The veranda, fifteen feet in width, surrounding the house, gives an extended promenade of over 1000 feet in length, while the view is unexcelled in beauty and grandeur.

An excellent orchestra of twenty selected musicians, under the direction of Mr. John J. Braham, has been engaged for the season.

The house is furnished throughout in black walnut, has the best of beds, its sleeping rooms are of ample size, well ventilated, and from all sides of the house afford fine views. Its cuisine will be found of an unexceptionable character. The "Wentworth" is situated three miles from Portsmouth, N. H., in the ancient town of Newcastle, and is reached from Boston in two hours' ride over the Eastern Railroad. Address

KNOW THYSELF.

The untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt this assertion should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE, or SELF-PRESERVATION.

Exhausted vitality, nervous and physical debility, or vitality impaired by the errors of youth or too close application to business, may be restored and manhood regained.

Two hundredth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. Three hundred pages, more than 50 valuable prescriptions for all forms of prevailing disease, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in French cloth; price only $1, sent by mail post-paid.

The London Lancet says: "No person should be without this valuable book. The author is a noble benefactor."

The Tribune says: "The author has had unprecedented success in dealing with the numerous evils and its affections, which are due to pernicious habits or inherited. He is a Nervo-physician, and therefore knows whereof he writes with such power and ability."

An illustrated sample sent to all on receipt of 6 cents for postage.

The author refers, by permission, to Hon. P. A. BIDDELL, M. D., president of the National Medical Association.

Address Dr. W. H. PARKER, No. 4 Bulfinch Street, Boston, Mass. The author may be consulted on all diseases requiring skill and experience. dm&tn eowov80

A LUCKY MAN.

Mr. James Andrews, of No. 10 Marshal Street, Troy, N. Y., had suffered for several years from the formation of Stones in the Kidneys and Bladder, and had doctored with many of the best Physicians without receiving any benefit. He was induced to try Dr. Kennedy's "Favorite Remedy," and the following extract from Mr. Andrews letter tells the whole story.

TROY, N. Y., April 8th, 1880.

Dr. D. Kennedy, Rondout, N. Y.

DEAR SIR,—I received your letter to-day, and you are welcome to use any part of my letter as may seem best. Had I not used the "Favorite Remedy" I should have been a great sufferer to this day. The stone that passed from me has a small piece broken off, but the large one I enclose so that you can see for yourself of what it is composed.

I am quite willing to testify under oath to all I have written in regard to my sickness and recovery, and words fail to fully express my feelings of gratitude to you for my great deliverance from so terrible a disease.

With a real grateful heart I remain yours most respectfully, JAMES ANDREWS.

RUPTURE

DR. J. A SHERMAN—AND THE ONLY DR. SHERMAN known to the public for the past 35 years or more for his successful method of treating Rupture without the annoyance and injury trusses inflict, may now be consulted weekly at his New York and Boston offices. Dr. Sherman is the discoverer of the only known cure for Rupture by local external treatment.

No man is safe who has a Rupture, no matter how insignificant he may consider it, for every man who has died from it once flattered him till that it was but a trifling ailment; and every man who now suffers from it and the injury of trusses, to such an extent that life has no enjoyments, once regarded it as an unworthy attention. It is not a stand-still affliction; it is steadily progressive, even unto death, and he is wise who takes the necessary steps to effectually relieve; of it before the day of suffering and gloom comes upon him.

Patients from abroad can receive treatment and leave for home same day. During treatment any kind of work can be carried on by the performer, without interfering with the treatment, and with safety from the dangers of strangulated Rupture.

HIS BOOK ON RUPTURE

gives the most reliable proofs from distinguished professional gentlemen, clergymen, and merchants of his successful practice and popularity throughout this country and the West Indies. The afflicted should read it and inform themselves.

It is illustrated with photographic likenesses of extremely bad cases before and after cure, and mailed to those who enclose 10 cents in consequence of the great demand for Dr. Sherman's personal services, he will, till further notice, divide his time between his New York and Boston offices as follows: Saturday, Monday, and Tuesday he may be consulted at his New York office, and Wednesday, Thursday, and Friday, at his Boston office, each week. MRS. LYDIA E. PINKHAM,

OF LYNN, MASS.

DISCOVERER OF

LYDIA E. PINKHAM'S VEGETABLE COMPOUND.

The Positive Cure

For all Female Complaints.

THIS PREPARATION RESTORES THE BLOOD TO ITS NATURAL CONDITION, DIRECTS THE VITAL POWER ARIGHT, STRENGTHENS THE MUSCLES OF THE UTERUS AND LIFTS IT INTO ITS PLACE, AND GIVES IT TONE AND STRENGTH, SO THAT THE CURE IS **radical and entire.** It strengthens the BACK AND PELVIC REGION; IT GIVES TONE TO THE WHOLE NERVOUS SYSTEM; IT RESTORES DISPLACED ORGANS TO THEIR NATURAL POSITION. THAT PECULIAR BEARING DOWN, CAUSING PAIN, WEIGHT AND BACKACHE, IS ALWAYS PERMANENTLY CURED BY ITS USE.

It will, at all times and under all circumstances, act in harmony with the laws that govern the female system.

For the cure of Kidney Complaints of either sex, this Compound is unsurpassed.

Lydia E. Pinkham's Vegetable Compound is prepared at the proprietors' laboratory,

No. 233 Western Avenue, Lynn, Mass.

Price, $1. Six Bottles to one address, $5.

Mrs. Pinkham freely answers all letters of inquiry. Send for pamphlet. Address as above.

No family should be without Lydia E. Pinkham's LIVER PILLS. They cure Constipation, and Torpidity of the Liver. ☞

SMITH'S MEDICATED PRUNES

LAXATIVE & CATHARTIC.

Pleasant to the taste; Effectively prompt; Gentle in action; Effectively stimulating.

CURE CONSTIPATION, BILIOUSNESS AND LIVER TROUBLES.

They take the place of the nauseous and violent cathartic medicines of civilization, viz.: Pills and Decoctions of the Liver. For adults, one or two or three have the effect of cathartic medicine; for infants, one or two taken at bedtime acts like a mild laxative; for children of all ages, in proportion to their age, they act as a mild laxative. No bad effects follow repeated use. Physicians recommend them. Druggists keep them.

DISEASES OF THE KIDNEYS.

Nine-tenths of all diseases are those of the Kidneys. Nine-tenths of all the pain we have to endure comes from the Kidneys. Nine-tenths of all the sickness we have to endure comes from the Kidneys. Nine-tenths of all the misery we have to endure comes from the Kidneys. Nine-tenths of all the sorrow we have to endure comes from the Kidneys. Nine-tenths of all the death we have to endure comes from the Kidneys. Nine-tenths of all the disease we have to endure comes from the Kidneys. Nine-tenths of all the suffering

than upon this occasion. The Sunday school was at half-past one, and was conducted by Rev. L. L. Eastman. At half-past two Rev. W. W. Smith of Derry preached from John XIV. 27—"Peace I leave with you, my peace I give unto you; not as the world giveth, give I unto you." Mr. Smith is a man of great culture, and has written some things that would be a credit to any writer. His little book entitled "Three thousand miles to church" is one of the best things I have lately read. In it he gives his impressions of celebrated preachers whom he heard abroad. Last year he preached the best sermon there was, but that on Sunday was merely an earnest extempore effort. There was a good congregation of attentive listeners both morning and afternoon. The prayer meeting at six was conducted by Rev. H. H. Hartwell of Suncook. Wednesday I shall leave for home, and this closes my camp meeting correspondence for this year.

A Free Acknowledgment.

I hereby certify that I habitually use Dr. Kennedy's "Favorite Remedy" in my family in all those cases in which a domestic medicine is needed, and that it has never yet failed to accomplish the purpose desired. We look upon it as an anchor to windward that is sure to hold in every instance mentioned in the doctor's bill of particulars. I make this acknowledgment freely, in hope of doing good to others, feeling that a medicine that is near at hand and to be implicitly trusted, is worth more than it costs.

REV. G. C. ESRAY,
Formerly associate editor of the Rondout *Freeman*.

Miss Carrie Alden of Westport, Conn., has become a raving maniac in consequence of religious excitement from attending a camp meeting recently held at Cadman's neck, and has been taken to the asylum at Taunton. She is a stepdaughter of Gilbert Wordell, who is prominently connected with the meeting.

A PUZZLE.—We want you to read this paragraph through, and become impressed by it. We are, however, puzzled to know how to state it. Perhaps the best way will be to come square out with the desired statement: Hunt's Remedy, the great kidney and liver medicine, is entitled to the attention of all sufferers. It cures, and it does not fail. Hunt's Remedy cures Bright's disease, and all diseases of the kidneys, bladder, liver, and urinary organs like magic. Sold by all druggists. Trial size, 75 cents.

The idea of taking a new census of Burlington, Vt., has been abandoned. It has been discovered that 5,500 false names were returned in 1870, which account for the apparent loss since that date. In 1870, Burlington reported a population of over 14,000, when in fact she had about 8,500. She now has about 11,000.

The purest invigorant and stimulant (not an intoxicant) is Malt Bitters.

WEDNESDAY, AUGUST 25, 1880.

FOR PRESIDENT.

James A. Garfield,

OF OHIO.

FOR VICE PRESIDENT.

Chester A. Arthur,

OF NEW YORK.

Effect of the Census on Congressional Representation.

It is estimated that under the returns of the present census the next House will have 300 members. Under the present rate of apportionment it would be entitled to more, but since there is a disposition to reduce rather than to increase the size of the house—it has now 293 members—it is safe to say that the rate will be increased sufficiently to keep the membership as low as the number given. The present estimate of the population, 49,157,404, would raise the quota of population for each member to 163,858. The effect of that would be with reference to New York, as reported by the enumerators, to lessen the number of representatives from 35 to 33. Pennsylvania would drop from 27 to 26; Ohio would lose one, making her representation 19, against 20 now; Maine, New Hampshire and Vermont, each one, and Indiana, Alabama and Tennessee each one—a total loss of 10. Minnesota and Nebraska would each gain two, Kansas three, Texas four, and Michigan, Missouri, Kentucky, Virginia, West Virginia and California each one—a total gain of 17. The other states would neither gain nor lose. Placing the gains of Minnesota, Nebraska, Kansas, Michigan and California, in all nine, against the losses of New York, Pennsylvania, Ohio, Maine, New Hampshire, Vermont and Indiana, in all eight, it would leave for the north and west a net gain of one. Placing the gains of Texas, Missouri, Kentucky, Virginia and West Virginia, in all eight, against the losses of Alabama and Tennessee, each one, it would leave the south a net gain of six, and give the house 300 members. Carry this comparison to cover the present political status of the states named, and omitting New York and Indiana as doubtful, the states ordinarily classed as republican would have a net gain of four, and those classed as democratic a net gain of six. This might not mean an increase in the democratic majority, for so far from that that majority might be wiped out in spite of the showing, but means simply that the states now considered democratic would gain two more members than those now considered republican. This calculation is based on the returns as so far received, which give the south an enormous increase of population over the most prosperous section of the north.

News and Notes.

The "Salisbury beach gathering" will be held Sept. 15th.

Gonzales has been elected president of Mexico.

Martin Winrick, an old man living not far from Milwaukee, Wis., killed his wife on Sunday evening, set the house on fire, and then shot himself.

Partick Coyle of Taunton, Mass., was drowned at Somerset on Sunday, while boating. He was thirty-five years old, and leaves a family.

Charles Pussler, aged eighteen years, was drowned in a pond near Springfield, Mass., Sunday. There was a large Newfoundland dog with him in a boat, which as he was trying to pass, pushed him overboard. He was a German, and had no relatives in this country.

Gen. Albert J. Meyer, U. S. A., chief signal officer, died Tuesday morning at Buffalo, N. Y.

Wm. H. Vanderbilt has bought the horse St. Julien, with a record of 2:11 3-4, paying $50,000. Vanderbilt already owned the mare Maud S., with a like record.

The poor board of Berks county, Pa., found an insane man fifty-five years old, named Benjamin Sechler, chained to the floor of a log cabin in the Blue mountains, where he had been confined by his brother for twenty-seven years, without being washed or dressed all that time.

Lawrence Hackett, tax-gatherer for the town of Hartland, Vt., for the past four years, being behind about $6,000 in paying over his collections, has been arrested and lodged in Woodstock jail.

A sad accident occurred at Proctorsville, Vt., a few days ago. Mary Beatty, nine years old, went across the road to the house of Don Pollard to play croquet, when a little son of Mr. Pollard's took up a rusty wicket that they were not using, and in throwing it off the ground struck the little girl on the left temple, penetrating the skull and into the brain. The child remained unconscious from the time of the accident till she died, which was in a few hours.

In course of a recent investigation into some old cases in the pension office a considerable number of valuable historical papers, like autograph letters from George Washington and other founders of the republic, have been found, they having been long ago filed as documentary evidence in support of claims. It is very probable that these papers will be collected and lodged in the state department for preservation.

An unknown man was killed by a Boston & Maine railroad train at Danvers, Mass., Monday, his head being cut off and his body mangled. He was walking on the track when struck.

An engine and passenger car on the Boston & Maine railroad were considerably damaged at Wakefield junction, Mass., Monday, through the breaking of one of the engine's pony wheels.

At Marblehead, Mass., at a recent Catholic church fair, Rev. Daniel S. Healy twice struck a young lady in the face, for refusing to purchase tickets in a raffle for a large picture of himself. His excuse was that he "thought she was a member of his own flock"—which she wasn't. He was fined $20 and costs in the police court.

A week or two ago Willie A. Buckingham, a Milford, Conn., boy, saw a mail bag fall from a train near that place, and laboriously carried the bag to the depot. Postmaster-General Key wrote an autograph letter of commendation to him, and directed his third assistant to forward him a set of a copy of government stamps as a memento of regard. The stamps are worth $265.05.

A young man from Texas married a girl in North Carolina, and then proposed to leave her while he worked his way back to his Texas home, in the hope of there earning money enough to send for her. She said, however, that she would rather accompany him afoot. They therefore made the journey of 1,600 miles as tramps; but their good appearance gained for them considerable help along the way, and for the last fifty miles they rode triumphantly in a carriage provided by an enthusiastic admirer of their pluck.

Schooner D. & A. Story of Gloucester, Mass., just arrived at that port from the banks, reports the loss of one of her crew, Augustus Anderson, who upset with an overloaded dory and attempted to swim to the vessel, a mile distant, and sank. The dory and Anderson's mate were saved. Deceased was twenty-five years of age, a Swede, and was held in high esteem by his fellows.

— It is a mistake for a preacher to say, "Just one word more, and I am done." He but lengthens his discourse by so much without deceiving any one of his hearers for an instant.

The Florence Nightingale of the Nursery.

The following is an extract from a letter written in the *German Reformed Messenger*, at Chambersburgh, Penn:—

A BENEFACTRESS.

Just open the door for her, and Mrs. Winslow will prove the American "Florence Nightingale of the Nursery." Of this we are so sure, that we will back our "Susy" to say, 'A blessing on Mrs. Winslow" for helping her to survive and escape the griping, colicking, and teething siege. Mrs. Winslow's Soothing Syrup relieves the child from pain, and cures dysentery and diarrhœa. It softens the gums, reduces inflammation, cures wind colic, and carries the infant through the teething period. It performs precisely what it professes to perform, every part of it—nothing less. We have never seen Mrs. Winslow—know her only through the preparation of her "Soothing Syrup for Children Teething." If we had the power we would make her, as she is, a physical saviour to the infant race. Sold by all druggists. 25 cents a bottle.

A Fortunate Russian Merchant.

In the city of New York, at No. 59 Grand street, Mr. Jacob Rabinor has for the past fifteen years conducted a gentleman's gent'ni furnishing-goods store with success, by fair dealing and low prices. He, in the July drawing, followed the usual custom of all continental Europeans, and put a dollar in the grand monthly distribution of the Louisiana State Lottery Company, buying a half ticket of M. A. Dauphin, No. 319 Broadway, New York City, and obtained for this fortunate investment fifteen thousand dollars ($15,000, in gold, by the at 1 of which he says he will be enabled to sell still cheaper, and keep a large assortment of goods. Thus the Crescent City's favorite institution becomes as it were a blessing in disguise to the business community.

IT MAKES NO DRUNKARDS,

Breaks no Hearts, Excuses no Crimes.

Dr. David Kennedy's FAVORITE REMEDY is not a disease [illegible] of the human race; where it cannot help, it does not harm. FAVORITE REMEDY is a combination of vegetable alteratives. It does not heat nor inflame the blood, but cools and purifies it. In all cases of Kidney troubles, Liver complaints, Constipation of the Bowels, and the delicate derangements which afflict women, the action of FAVORITE REMEDY is beyond praise. Thousands of grateful people voluntarily testify to this, in letters to Dr. Kennedy; and with a warmth and fullness of words which more business documents and certificates never possess. It makes no drunkards—excuses no crimes—breaks no hearts. In its coming there is hope, and in its wings there is healing. We challenge a trial and are confident of the result. Dr. Kennedy would have it understood that, while he is engaged in the introduction of his medicine, "Favorite Remedy," he still continues the practice of his profession, but confines himself exclusively to *Office* practice. He treats all diseases of a chronic character, and performs all the minor and capital operations of surgery.

AROUND HOME.

The Boys in Blue are having their uniforms made in this city, a practice to be highly commended.

The schooner Golden Gate arrived at Doane's wharf on Tuesday with sixteen hundred bushels of salt.

Dover has a "campaign drum corps" of six pieces, three drums and three fifes, with Wm. H. Foss as leader.

Last Sunday night the apartment occupied by Benjamin F. Harding in a boarding house at Rye beach was entered, and a very valuable gold watch and chain stolen.

The steamer Florence took a small party from this city to Newburyport, Tuesday. They were there transferred to the steamer May Queen, which took them to Haverhill.

Hon. C. A. Haley, mayor of Fernandina, Fla., formerly of Newmarket, is on a visit to his old home. He says the republicans are sure to carry Florida at the coming election.

The Exeter Machine Works have been awarded the contract for putting a steam-heating and ventilating apparatus into the new Union Insurance company's block, Philadelphia.

The members of the choir of St. Mary's church at Dover, to the number of about twenty, visited Newcastle last Sunday in a beach wagon drawn by three horses, and spent the afternoon at the Wentworth.

A four-years-old daughter of Chas. H. Stackpole, of Dover, stepped backward into a tub of hot water, Monday morning, and was shockingly scalded, from the waist downward. There is a good hope of her recovery.

The steamer James Sampson will for the present make a short trip down the harbor and outside of Whalesback each pleasant afternoon, starting at two o'clock and returning in about an hour, taking passengers at a low rate.

The schooner Gov. Goodwin arrived at Doane's wharf on Tuesday with three hundred barrels of mackerel. This gives a total of about one thousand barrels received at this wharf within a few days, and all good-sized mackerel. Two vessels from the banks are overdue, and expected every day.

Mr. Levi Downs, of the fishing schooner Mary E. Caswell, captured on Monday at the Shoals a horse mackerel weighing about six hundred pounds. The fish was harpooned from a seine boat, which he hauled through the water for two miles before stopping, when the steamer Pinafore went to the boat's assistance, and towed her and her prize to Appledore.

So great has the mountain travel become over the Eastern railroad that the 1:10 Portland train, arriving in Boston at five o'clock P. M., has to be divided into sections, the mountain tourists coming to this city in their special train. The July receipts of the road show an immense gain over last year. The rush mountainward has never been so great, and the earnings in consequence never so encouraging.

Thursday, the 20th inst., the steamer James Sampson will make three trips from Kittery and this city to the Wentworth hotel, to take down spectators of the sports in the afternoon and the dramatic and other exercises in the evening, on the occasion of Mr. Braham's benefit. She will leave Kittery at two and four o'clock in the afternoon and 7:15 in the evening, starting from this side five minutes later on each trip; fare twenty-five cents for the round trip.

The disaster to the ship Granite State, of this port, previously referred to, took place as she was starting on a trip from Melbourne, Australia, for Calcutta, with horses. She took the ground at the mouth of Port Philip bay on the 13th of June, was towed off by two tugs, and was on her way back in tow when she again went aground and remained until next day, when she was taken to an anchorage, leaking six inches an hour. The horses and fittings were discharged and she was taken into the graving dock, where it was found that the whole of her false keel and part of her main keel were gone, the copper badly chafed and much of it stripped off, and the ship badly strained.

Samuel H. Goodall, Esq., of Boston, formerly of this city, began work on his seaside residence at South Seabrook beach on Monday, the work being under the superintendence of Charles S. Dow of South Seabrook. The building is to be twenty-two feet by thirty-six on the ground, fifteen feet posts, two stories, and with a piazza on the sea front. Persons in Boston, Concord, Manchester and Exeter have signified intentions to locate on this beach. For carriage driving the beach is unsurpassed; at low tide it is several hundred yards wide, and its length from the State line to Hampton river is about three miles. After a number of houses have been put up, the town of Seabrook will be petitioned to build a road across the marsh which separates the beach from the upland; such a road would be about half a mile long, and the Blackwater river (a small stream running into Hampton river,) would have to be bridged, the estimated expense of the whole being $8000. The proprietors of the beach express themselves as determined to make it a first-class resort.

POLICE COURT.

TUESDAY, Aug. 24; *Batchelder, J.*

Frank Corrigan, drunk, fine $3, costs $6.90. County farm in default of payment.

John McMann, common vagrant, sixty days at Brentwood, costs $8.04.

INDUSTRIOUS TRAMPS.

On Sunday afternoon last two tramps landed from a boat on the Eliot shore of the river, about a mile above "Frank's fort," pitched a camp, and proceeded to regale themselves on eggs, of which they had a case, such as are sent to market over the railroads. Sunday night at about eleven o'clock they visited George W. Laighton's place in Eliot, stole a pair of shoes, a two-bushel basket of apples, and a boat's mast and sail, which they carried part way to the river and then dropped. It appears that they then went on a general raid along the water front, and stole three boats, four sets of sails and six pairs of oars. They then crossed to the Newington shore, where they broke into a dairy and stole two firkins of butter; and they left behind them on the Eliot side the small boat from which they first landed, and in it a gun stolen from Mr. Laighton's shed about four weeks ago. One of the boats stolen was found adrift in the river, and secured; of the two carried off, one is a twenty-foot boat, centre-board, lapstreak, stern decked over, circular seat, painted green outside with black gunwale; the other is a seventeen-foot lapstreak wherry, painted green.

THE HEAVY ARTILLERY.

At a meeting of the members of the Heavy Artillery held on Tuesday evening, the following programme was decided upon. To meet at their armory at five o'clock this (Wednesday) evening, after which they will parade, accompanied by the Dover band, through Market street to Congress, through Congress to Islington, through Islington to Cabot, through Cabot to Middle, through Middle to Court, through Court to Pleasant, through Pleasant to Mill bridge, then countermarch through Pleasant to State, through State to Middle, through Middle to Congress, through Congress to Market street, and to the armory. Here the invited guests will be met at eight o'clock and all will march to the Rockingham house, where supper will be served at 8:30.

The committee chosen to settle the accounts of the company were Messrs. Crowley, Tredick, Sampson and Cunningham. The records and all the books of the company were given to the care of Mr. William A. Payson. The members are requested to wear their white belts.

MORE FLAG-RAISINGS.

About a hundred gentlemen from Dover, Portsmouth, Great Falls and other places met at the summer residence of Senator Rollins, which is a little over a mile from the city hall in Dover, on Tuesday afternoon, when two Garfield and Arthur flags were raised, one in front of the residence of Mrs. Augustus Rollins and daughters, where the staff is sixty-seven feet high, the other near the house of the senator; the lower mast here is fifty-eight feet above ground, surmounted by a topmast of thirty-two feet. As the flags were shaken out cheers were given which rang through the valley, and were auspicious of the success of the candidates whose names are upon the flags.

Col. Wm. H. Hackett of Portsmouth was introduced by Mr. Rollins as the presiding officer, and after singing by a glee club and the reading of an appropriate poem written for the occasion by Miss Hannah Rollins of Wellesley, Mass., the president introduced Hon. Chas. H. Bell of Exeter, who made an enthusiastic speech. He was followed by Dr. Quint, Hon. J. G. Hall, Col. Bracewell, Dr. Hill, Mayor Guppy, Col. James I. Christie and others; and for a couple of hours one of the most agreeable occasions was enjoyed. A collation was served, after which time was spent in social interchange. A letter was read from J. H. Kent, regretting his inability to be present.

In the evening a flag was raised at Great Falls, when speaking was listened to from Hon. C. H. Bell and others, and much enthusiasm prevailed.

The staff upon Senator Rollins' farm was cut upon his broad acres last Saturday; it is a beautiful stick, and is seen from a great distance.

A PRIZE-FIGHT SPOILED.

The prize-fight which was arranged to come off at Plaistow on Monday afternoon, but did not, was to have been between two "light weights," named Harry Fellows and Ted Timony, for $50 a side. They and their backers and friends, and enough other roughs to make a crowd of between one and two hundred, rendezvoused at Haverhill, Mass., and proceeded to Atkinson, where they alighted and tramped back several miles to a point in Plaistow close to the Massachusetts line, where the ring was pitched. Just as the preliminaries of the affair were completed, Deputy Sheriff T. B. Hoyt of Exeter stepped out of the woods, announced his authority and forbade any breach of the peace. The roughs grumbled and swore a little, but did not seem anxious to come to an open conflict with the law, tho' it was represented by only a single officer; and two other deputy sheriffs, accompanied by the town officers, now appearing, the roughs gave up the idea of fighting in New Hampshire, and crossed the line into Massachusetts, where a new ring was formed and the grass stamped down. Now there was more trouble, for Officer Chase, Philbrick of Lawrence, with City Marshal Dean and Asst. Marshal Webber of Haverhill, came to the front, and Philbrick announced that if there was any fighting the officers would take a hand, the New Hampshire officers standing by to aid their brethren across the border, if summoned. Seeing the game was up, those of the roughs who had teams with them got in and drove off, and the rest tramped to the nearest railroad station, disgusted with this interference with personal liberty. Much credit is due to Sheriff Kent for his direction of matters, and to Deputies Odlin, Woodman, Brown and Hoyt for their perseverance in plodding mile after mile through the woods in all directions until they found the prize ring, of whose whereabouts they knew only that it was in Plaistow, and which indeed one of them failed to find at all, though he hunted faithfully. The Massachusetts officers also merit praise for their prompt and energetic co-operation.

SUSPECTED MURDER.

George F. Chapman of Epping, said to be a dissipated character, was seen at nine o'clock Monday evening sitting on a platform in the rear of a saloon in that town kept by Eben E. Chapman. At seven o'clock Tuesday morning he was found dead by Mr. Chapman, lying on a stable floor, drenched in blood which had flowed from a wound in the back of his shoulder, made apparently by a bullet or a spike; blood was also found on the platform at the saloon. The wound was probed, but nothing was found. Further examination will be had.

YORK COUNTY AFFAIRS.

Further operations of the United States marshal in the vicinity of York beach resulted in the arrest of thirteen other persons for transacting a retail liquor business without paying the government tax, making seventeen in all that have been hauled up.

Mr. Theodore Keen, of Kittery, proprietor of the stage line between Kittery Point and this city, has purchased the steam launch Peerless, and she arrived at this port on Monday from Newburyport. She was speeded on the river, Tuesday, and seems to be a very nice little craft.

On Monday morning, while Mrs. A. H. Weatherbee, wife of A. H. Weatherbee of the Providence *Journal*, was in bathing at Old Orchard, her room at the St. Cloud hotel was entered, and her watch, chain and some personal jewelry, valued at about $180, were stolen. Suspicion rests upon a woman who had been a guest of the house, and left suddenly without paying her board. Mr. Weatherbee says that every care is taken at the hotel to look out for the comfort and safety of the guests, and no blame can fall upon the proprietor.

The people of Berwick are much exercised over a scandal in their town, which has gone to the courts to be sifted. As the case is reported, about two weeks ago a widow named Fields, fifty years old, charged Deacon Ivory Libby, a man over seventy years old and hitherto of irreproachable reputation, with having improperly assaulted her while she was riding with him in a wagon along a lonely piece of road a few days before; and through her attorney, Hiram Hobbs, Esq., of the firm of Hobbs & Son, lawyers, of Berwick, offered to settle the matter for $200. Deacon Libby indignantly refused the offer and repelled the insinuation of improper conduct, and was arrested and taken before Mr. Hobbs, sitting as a justice, and bound over for his appearance at the next term of the supreme court in York county. Deacon Libby in turn had Mrs. Field and Mr. Hobbs arrested for jointly attempting to extort money from him by blackmail, and Justice Joseph E. Lord held them both for their appearance also at the supreme court. Copeland & Edgerly have been retained by Deacon Libby, and Wells & Burleigh are counsel for Mrs. Field and Mr. Hobbs.

An itinerant magic-lantern showman was in West Feliciana parish recently, exhibiting his show. His audience was largely colored people. A last scene (the man was an Englishman) happened to be the death of Lincoln. Said the exhibitor carelessly: "You'll now see the death of the martyred President." That night the showman was interviewed by twenty armed bulldozers, taken from his stopping-place, and on the road beaten with fifty-five stripes, the same number of dollars the ruffians found and took from the showman's person. Warned on the peril of his life never to come into those parts again, the poor beaten wretch was told his treatment was a consequence of his temerity in talking about and exhibiting to the blacks a show picture of "the martyr Lincoln."—*New Orleans Observer.*

Jerry Wood, eight years old, son of Mrs. Jenny Wood of Tilton, was killed by the cars at that place, Tuesday morning.

On Saturday evening last a number of police officers of Rochester entered the Mansion house, kept by Silas Wentworth, for the purpose of searching for liquors, etc. The lights were immediately put out, and it is said a shot was fired, and one of the officers received a severe choking from somebody in the dark. No liquor was found nor arrests made.

A movement is being made in some of the towns of Rockingham county by taxpayers who were assessed for money deposited in savings banks outside of the state, to regain the amount of such tax, together with the interest, it having been decided by the courts that such assessment was illegal. Several selectmen have been sued by their townsmen, and the matter is causing considerable alarm.

The manner in which the question of the approaching presidential election is treated by Hon. John Jay, in the *International Review* for September, is very instructive to honest thinkers belonging to either party. The analogy drawn between 1880 and the second candidacy of Lincoln is very striking; and the whole article merits a careful perusal and wide circulation. This number of the *Review* is given a permanent value by the articles upon "Money," by Prof. Bonamy Price, of Oxford University; "The Myth of the Virgin in Painting and Sculpture," by D. G. Hubbard; "George Whitefield," by William Myall; "Lamennais," by Auguste; "Henry Timrod," by Henry Austin; and "The Presidential Election."

KIDNEY-WORT
The Only Remedy
THAT ACTS AT THE SAME TIME on
THE LIVER, THE BOWELS, and the KIDNEYS.
This combined action gives it wonderful power to cure all diseases.
Why Are We Sick?
Because we allow these great organs to become clogged or torpid, and poisonous humors therefore pass into the blood that should be expelled naturally.
KIDNEY-WORT WILL CURE
BILIOUSNESS, PILES, CONSTIPATION, KIDNEY COMPLAINTS, URINARY DISEASES, FEMALE WEAKNESSES, AND NERVOUS DISORDERS,
by causing free action of these organs and restoring their power to throw off disease.
Why Suffer Billious pains and aches? Why Tormented with Piles, Constipation? Why frightened at disordered Kidneys? Why endure nervous or sick headaches? Why have sleepless nights?
Use KIDNEY-WORT *and rejoice in health. It is a dry, vegetable compound and* One package will make six qts of Medicine.
If of your Druggist, he will order for you. Price, $1.00.

A CHILD OF THE RAILWAY.

When I was just seventeen, a cadet at West Point, I was on my way home for the first time within three years. Early in the morning I took my seat in the cars from New York to Boston. I wore my uniform and (I may own now) was not so unconscious or indifferent as I seemed, to the many admiring glances young ladies bestowed upon it and the embryonic colonel or general within. Towards the middle of the forenoon an Irish woman got into the cars. They were crowded, and she, not having the respect for the military which others had had, took what was almost the only unoccupied seat, and by my side. I am or was a democrat. The woman was well clad and clean, so I kept my place. In her arms she held a child—a young babe of some six or eight months. It was a plump, beautiful, happy little thing. I had a very unmanly and uncadetish weakness for both babes and children, and it was so long since I had been so near to either that I petted and noticed this little creature not a little.

At noon the train stopped for fifteen minutes. Most of the passengers got out. I meant to have the novelty of a six o'clock in Boston, so I did not stir from my seat. Seeing that I did not the woman begged to know if I would hold her baby for a few minutes while she got out. I assented. She put the child in my arms and vanished. The minutes passed away; one by one the passengers returned; presently, when the bell rang, a crowd came with a rush to resume their places; we were off; and where, oh, horror of horrors! *where* was *that* woman? My hair began to rise, and the sweat to start from every pore; still I waited, hoping the woman was trying to get through the other cars, and would come finally to assume her responsibility. A quarter of an hour elapsed; everybody was quietly seated, still that I held that child. People began to stare, young ladies to titter. I felt myself as red as a lobster. The conductor passed through; I stopped him. With a shaking finger I pointed to the burden in my arms, and stammered out something about the mother having been left behind.

"What the d——l!" he exclaimed, as his eye fell upon the child. "Well, you're in for it, and no mistake. I saw that woman after she got out, striking it like mad away from the depot, but I thought she had her young one with her. You're nicely took in, and done for, that's a fact."

"But what's to be done with this child!" I asked.

"Don't know, I'm sure. How far are you going?"

"To Boston to-night."

"Then I guess you'll have to carry it as far as there. Then you can take it to one of the hospitals or asylums where they attend to this sort of business, and leave it. Perhaps some of these ladies will help you take care of it till we get to Boston;" and the conductor passed on. As he went forward, evidently he told the story, for heads began to turn, and men and then boys came sauntering in from the other cars to see the fellow that had the baby with him. Plenty of jokes were cracked at my expense, for every now and then I heard a regular guffaw, and some such phrases as, "Precious green, oh?" "Such a go!" "Looks fatherly!" etc., etc.

I was in a rage. My blood boiled furiously. One minute I wanted to swear, the next to kick every person and thing in the car. I suppose in my passion I gave the poor little thing in my arms a grip, for she uttered a quick, little cry. She stopped a in moment and I looked at her.

She lay in my arms so innocent, and helpless, and fair, and white, and looked up at me with such complacent placidity that somehow I felt my anger dying out in spite of me—my embarrassment too.

"I may as well be a man as such a confounded teasing," I thought. "I was an ineffable greeney to get saddled in this way, to be sure, but that's my fault, and not this poor little pussy's, and I may as well brave it through. As for these confounded fools, just let 'em laugh, that's all."

So I settled myself coolly to the care of my baby. People after a while grew accustomed to see her in my arms, and most of the afternoon she slept soundly. But oh, how heavy she grew! I seemed to have a leaden weight tugging heavier and heavier upon me. How on earth do women lug about children, day after day, in the way they do? For me, I'm certain I'd rather mow, though I never tried it.

However, to my story. Toward night my baby waked; and waked fretful and hungry, I suppose. She began to cry; a long, despairing, entirely uncompromising cry. People began to look again, curious to see what master nurse could do. I tried every possible means to pacify the child; my watch, my eagle buttons, held it up to the window; I dandled it, turned it upside down; no use. Baby probably despised my miserable efforts to make it forget its needed and rightful consolation, and cried louder and louder, till at last I seemed to hold nothing in my arms but an immense squall. A man could stand it no longer, let alone a cadet, and I rose desperately from my seat, determined to appeal to some lady, or woman, for assistance. As I passed through the car, some of the young ladies broke into their senseless titter again, the older ones looked out of the windows, and the men eyed me with a knowing sort of leer, that, had not my arms been occupied, they would have had a hit straight out from the shoulder. One motherly looking person whom I approached hopingly, transfixed me with a stony, virtuous sort of glare, that made me shake in my shoes as if I had committed the unpardonable offence. I gave up in despair, and was about to return to my seat, when a gentleman at the extreme end of the car beckoned me forward. It

Chester A. Arthur,

OF NEW YORK.

The Principles For Which Lee and Jackson Fought.

Consider what Lee and Jackson would do were they alive. These are the same principles for which they fought for four years. Remember the men who poured forth their life blood on Virginia soil, and do not abandon them now. Remember that upon your vote depends the success of the democratic party.—*Wade Hampton.*

This assertion was made by Hampton at a meeting held in Staunton, Va., July 26th, "in the interests of democratic harmony in Virginia," in other words, to endeavor to effect a union of the two wings of the democratic party in that state; and it was in an impassioned appeal to the democrats to thus unite, that he declared that the principles for which the southern democracy are fighting a political battle now are "the same" that Lee and Jackson fought for in the rebellion. This was the report of the Staunton *Virginian*, a republican paper.

There can be no question as to Hampton's orthodoxy as a democrat, nor of his right to speak authoritatively as to the aims of his party in the south; he served all through the war, on the democratic side, and is the acknowledged democratic leader of South Carolina, which state according to his own account was carried against a "tremendous republican majority." Hence the wide publicity given to his declaration by the republican papers of the north has seriously discomposed the democratic managers, who cannot fail to see how damaging to their cause it is likely to be; and a carefully revised edition of his Staunton speech, duly "approved" by him and with the damaging clause entirely omitted, has been printed in many of the northern democratic papers.

Had the republican *Virginian* been the only paper to charge Hampton with making the statement alluded to, the "approved" copy of the speech and a vigorous and persistent shout of "radical campaign lie" would have sufficed to smooth things over very nicely; but unfortunately for the democratic position, the *Vindicator*, a democratic paper of Staunton, also had reporters at the meeting, and in its long and full report of Hampton's speech credits him with the following language:

Pause before you cast your vote. Think how Lee would have voted; think of what Jackson would have done before he would have cast a vote calculated to divide his beloved Virginia. I ask you to remember those who have died on your soil, and to *remember that the principles that they died for are again on trial to-day.*

Before this accumulative evidence—this absolute agreement of democratic and republican newspaper reports of what Hampton said—the "approved" edition of his speech becomes simply a democratic confession that the speech needed pruning before it was fit for northern use; and the fact remains that one of the most trusted and influential leaders of the southern democracy urged the ex-confederates to support Hancock and English, *because* in so doing they would be supporting the same principles for which Lee and Jackson fought.

A Free Ballot and a Fair Count.

The state republican committee of Alabama have issued a circular setting forth the means by which a democratic majority of seventy-five thousand was counted up in that state at the late election, which is "mighty interestin' readin'" in view of Hancock's sonorous sentence concerning "a free ballot and a fair count." It presents the figures of the elections in the previous November, when there were United States supervisors, as contrasted with those of August, when there were none, and which, in Montgomery county as an example, show the change from a *republican* majority of 5881 to a *democratic* majority of 2616. In the first instance the democratic legislature passed a law doing away with the provision for numbering the ballots, and then the law providing for inspection was nullified in the most flagrant manner. Ignorant, weak-minded, and in some instances blind men were selected as republican inspectors, and when not mentally or physically incompetent, they were known to be dishonest and purchasable. As a result there were in some precincts more ballots than voters, and in others more than the census returns of the whole population! At other places, where republicans kept a voluntary check list, and it was known that there was a republican majority, heavy democratic majorities were returned. At McGahee's Switch, in Montgomery county, the "Grays," a military company from Montgomery, came on the ground ostensibly to protect the officers of the election from a colored riot, when the returns showed, after the light had been put out and the box upset, that there were 540 democratic votes to 116 republican. It is needless to remark in this case that the Caucasian must be very much played out, if a democratic majority of 540 required a militia company to protect them from 116 republican negroes. At Porter's Beat in Montgomery county, the returns, which at the previous election showed a republican majority of over 400, were entirely suppressed. At other places the boxes were removed by the democratic inspectors. In short, in their energy and unscrupulousness, the democratic inspectors overdid the thing entirely, and not only returned a majority in itself so enormous as to create suspicion, but their clumsy and violent methods palpably revealed their fraud. Such is the southern idea of a free vote and a fair one as exemplified in Alabama.

Won't Be Their Tool.

Joshua K. Osgood, of Gardiner, who was nominated for governor of Maine by the recent alleged "State Temperance Convention" of that state, has written a letter to Col. James M. Stone of Kennebunk, the disgruntled republican who ran the convention in the interests of the democratic party, declining the nomination. Mr. Osgood has for years been a prominent worker in the temperance field, and fails to see how the cause would be benefitted by his candidacy on a side-show ticket, nominated by democrats with a sole view to sid their party.

It is reported that Mr. Osgood will at once take the stump, and speak till the end of the campaign in support of the re-election of Gov. Davis.

News and Notes.

Dr. George B. Johnston, son of United States senator Johnston and nephew of Gen. Joseph E. Johnston, and Capt. John S. Wise, son of the late Henry A. Wise, were arrested at Richmond, Va., Aug. 24th, on a charge of intending to fight a duel. The trouble between the parties appears to have been occasioned by the blackballing of Wise for membership in the Westmoreland club, in which Dr. Johnston was active, because he considered that Wise's conduct in the congressional canvass, in which his uncle (Gen. Johnston) was a candidate, had not been that of a gentleman toward Gen. Johnston, nor had he treated him with such respect as the general's age and high position should have commanded.

Edward Mikesell tried to shoot a chicken at Wanseon, Ohio, Aug. 24th, but instead killed his mother, who was looking out of a window.

"Dr." Buchanan of Philadelphia, the dealer in bogus medical diplomas and suicides, is at Windsor, Ontario, opposite Cleveland, Ohio.

S. W. Hoffman, ex-auditor of Cincinnati, is under arrest charged with embezzlement of $12,000 of the city funds while he was in charge.

The cases of Smith, Long and McCune, at Harrisburg, Pa., charged with corrupt solicitation of members of the legislature in the matter of the riot claims bill, have been postponed to the November term on account of the absence of material witnesses for the defense.

The number of distinct contributions by the Gloucester, Mass., fishermen to Prof. Baird's national museum now reaches 813, including many thousand specimens, some of them very of great importance to those engaged in scientific research. Among the more recent contributions, acknowledged within a few days, are several rare devil fish, one of them the octopus centus; a transparent flounder, from the seal-island grounds; specimens of the new tropical mackerel, (anxis,) which is attracting attention in scientific circles; fresh specimens of Greenland dogfish; a swingle-tail shark, four feet eight inches in length, taken on a cod hook Aug. 11th, the length of the tail being two feet seven inches; an unidentified species of fish, three feet two inches long, taken from the stomach of a large ground shark; the beak and part of an arm of a young giant squid, taken from the stomach of a forty-pound cod on Georges, where these squid are rarely found; and many other specimens of great value to the national collection.

Wicked for Clergymen.

Rev. ——, Washington, D. C., writes: "I believe it to be all wrong and even wicked for clergymen or other public men to be led into giving testimonials to quack doctors or vile stuffs called medicines, but when a really meritorious article made of valuable remedies known to all, that all physicians use and trust daily we should freely commend it. I therefore cheerfully and heartily commend Hop Bitters for the good they have done me and my friends, firmly believing they have no equal for family use. I will not be without them."—*N. Y. COUGHS.—"*Brown's Bronchial Troches*" are used with advantage to alleviate Coughs, Sore Throat, Hoarseness and Bronchial Affections. For thirty years the Troches have been in use, with annually increasing favor. They are not new and untried, but, having been tested by wide and constant use for nearly an entire generation, they have attained well-merited rank among the few standard remedies of the age.

THE THROAT.—"*Brown's Bronchial Troches*" act directly on the organs of the voice. They have an extraordinary effect in all disorders of the Throat and Larynx, restoring a healthy tone when relaxed, either from cold or over-exertion of the voice, and produce a clear and distinct enunciation. *Speakers and Singers* find the Troches useful.

A COUGH, COLD, CATARRH OR SORE THROAT requires immediate attention, as neglect often times results in some incurable Lung Disease. "*Brown's Bronchial Troches*" will almost invariably give relief. Imitations are offered for sale, many of which are injurious. The genuine "*Brown's Bronchial Troches*" are sold *only in boxes.* Tu,Th&F,&c

IT MAKES NO DRUNKARDS,

Breaks no Hearts, Excuses no Crimes.

Dr. David Kennedy's FAVORITE REMEDY is not a disguised enemy of the human race; where it cannot help, it does not harm. FAVORITE REMEDY is a combination of vegetable alteratives. It does not heat nor inflame the blood, but cools and purifies it. In all cases of Kidney troubles, Liver complaints, Constipation of the Bowels, and the delicate derangements which afflict women, the action of FAVORITE REMEDY is beyond praise. Thousands of grateful people voluntarily testify to this, in letters to Dr. Kennedy; and with a warmth and fullness of words which mere business documents and certificates never possess. It makes no drunkards—excuses no crime—breaks no hearts. In its coming there is hope, and in its wings there is healing. We challenge a trial and are confident of the result. Dr. Kennedy would have it understood that, while he is engaged in the introduction of his medicine, "Favorite Remedy," he still continues the practice of his profession, but confines himself exclusively to *office* practice. He treats all diseases of a chronic character, and performs all the minor and capital operations of surgery.

AROUND HOME.

The public schools open next Monday, August 30th.

The U. S. S. Portsmouth, now lying at the navy yard, is expected to go to sea on Saturday.

Sheers have been raised on board the U. S. S. Lancaster, at the navy yard, to take in and lower the machinery.

The schooner yacht Republic, of Providence, R. I., was in the lower harbor on the 25th inst. She is a fine yacht, and a big one.

The members of the Relief Association of Haverhill, Mass., with ladies, visited this city on the 25th inst. in the steamer General Bartlett.

Look out for your clothes-lines; sneak thieves are about, and several "washings" have been missed from where they were put by their owners, within a few days.

The many friends in this community of Mr. George Wilson, of the Boston Museum company, will be glad to learn that he is to assume a prominent part in the theatrical entertainment at the Wentworth this evening.

The schooner Free Wind, Frisbee master, which arrived at this port from Hoboken on the 24th inst., was in collision with another schooner off Cape Cod on the previous day, and had her starboard bulwarks stove.

Persons were in the city Tuesday forenoon, with chromo pictures having heavy gilt frames, asking eighty dollars for a pair, afterwards selling them at three dollars apiece. They left for parts unknown on the afternoon train.

The Eastern railroad company has settled with Albert F. Gerry, of Lynn, Mass., a hackman, for damages inflicted upon him on June 24th by a train striking him. The amount paid was $1100. Gerry will not fully recover under a year.

Mr. James M. Locke advertises to paint houses by a new process, the paint being warranted not to crack, peel, blister or "flour off," and to last for ten years. He assures us that it is a good thing; and he should know what he is talking about in that line, for he has been in the business long enough.

Bark Henry Norwell, of Boston, has been chartered to take a cargo of ice from the Kennebec to Washington, and sailed from this port on Wednesday, the 25th inst., for that purpose. The crew shipped in Boston deserted the bark here, and the captain was obliged to find another set of men to work his vessel to the Kennebec.

The yacht race postponed from last Saturday on account of the fog will come off this afternoon, over the course as previously advertised. The steamer Mystic will leave this city at a quarter to one o'clock, and Kittery at one, to attend the race. She will go over the course taken by the boats sailing, and the fare for the round trip will be twenty cents. To all who are interested in the race this will be a good opportunity.

Commodore Law, chief of the bureau of yards and docks, left the navy yard on Wednesday, the 25th inst. He will inspect the condition of the recently-injured rope walk at the Charlestown navy yard on his way back to Washington. On Tuesday, the 24th, Commodore Beaumont ordered out the fire-extinguishing apparatus, and shew the chief of the bureau how well prepared for an emergency is the force at the Portsmouth navy yard.

The probable cause of the sickness which has prevailed to some extent on board the U. S. S. Portsmouth, and has been the means of the death of some of the crew, has been found. The stench in the vicinity of the water closet has for a long time been almost unbearable, and on a recent examination it was discovered that the pipes intended to carry off the waste matter were disconnected or broken, and instead of the waste flowing through the proper channel it went between the planking of the vessel, and for months this air poison has been collecting and sending outits deadly exhalation, which has resulted in typhoid fever and death. The evil will soon be remeded.

Yacht Sunshine, hailing from New York, and owned by William Peet, arrived here on Wednesday of this week from Mt. Desert, bound home.

The stable of Hon. Edwin C. Moody of York was broken into a few nights ago, and a valuable bay mare, a fine top buggy and a harness stolen. When last seen the team was being driven by two women.

Edward D. Mason, formerly principal of the Dover high school, was recently ordained at Passumpsic, Vermont, as a Baptist minister. He will begin his labors as pastor of a church in Raleigh, South Carolina.

The proprietors of the Wentworth declining to allow excursion steamers to land at their wharf after dark, the advertised trip of the James Sampson will not be made this evening. The steamer will make trips at two and four o'clock this afternoon, as previously announced.

THE HEAVY ARTILLERY.

Agreeably to previous notice the Heavy Artillery made their last parade under arms on Wednesday evening of this week, with the Dover cornet band, many spectators being attracted to the streets to see them. Returning to the armory the arms were discarded, and the company and invited guests then marched to the Rockingham house, arriving there at half-past eight o'clock.

Capt. Cunningham took the head of the table, and presided. Rev. James DeNormandie asked a blessing, after which the banquet was discussed for an hour, when Capt. Cunningham called the company to order, and gave the reasons for the regretted disbandment of the company. He spoke of the career of the company, and introduced Capt. Frank Williams, past commander, as toast-master.

Capt. Williams gave an interesting account of the rise and progress of the company, his remarks abounding in interesting reminiscences. Mayor Sise was then called upon to respond for the good old city of Portsmouth. Capt. Fagan, of the United States marine corps, made a witty speech upon invitation.

Col. Dalton of Salem spoke feelingly of the pleasant relations of the Salem Cadets and the Heavies, and was followed by Wm. H. Hackett, Major Urch, Wm. Russell Foster, a past member, Dr. John W. Parsons, Capt. Edward D. Coffin of the Cavalry, and Lieut. Appleton Tredick. Capt. Cunningham closed the exercises with appropriate remarks, after which the company marched to their armory where cheers were given for the invited guests, the latter responding with cheers for the Heavy Artillery.

The flag of the company was delivered by Capt. Cunningham to Mayor Sise, who received it as a trust, hoping it would ere long be returned to a new organization.

RENOVATING MONUMENTS.

One who visits our large cemeteries can not fail to be impressed with the fact that many lots are left uncared for, and monuments, often erected at great cost, are suffered to become discolored and moss-grown for the want of timely attention.

We were struck this week with the improvement in a few lots which we before had supposed needed no especial renovation, but we saw on a visit to the south cemetery that the sarcophagus of Mrs. Cutts, the monument of the late Washington Williams, and the beautiful sheafe of wheat in the lot of Arabella Rice, had each been restored to their original purity by Messrs. Edwin Fitch & Co., of Somerville, Mass., who are practical marble and granite cleaners and are now in town. Other mural tablets are being looked after, that the ravages of time, the effects of dust, leaves and droppings from shrubbery, may be obviated.

There is need of much of this work in the south cemetery, and we are glad that Fitch & Co., who have the endorsements of the superintendents of Cambridge, Mount Hope, Woodlawn and Forest Hill cemeteries, are in town to serve those interested in preserving intact the memorials to departed relatives, often erected at a liberal expenditure only to remain neglected; through, in most instances, a lack of frequent observation of the changing conditions of even granite, marble and iron. Fitch & Co. have long been known by Mr. Cheever, who is interested in the south cemetery, and can assure our citizens of the reliability of this firm, and of the fact that granite and marble can be cleaned without the aid of injurious acids.

A COMPLAINT.

It has become the disagreeable duty of one of the patrons of the Portsmouth & Dover railroad, not only in his own behalf but in behalf of several companions in misery, to call attention to the manner in which the trains on said road are run. It advertises a train to leave the Dover passenger station at 7:30 o'clock P. M. On the evening of Tuesday, Aug. 24th, at about 7:15 P. M., the train hauled away from the station to a distance of about fifty or sixty yards; and from that point, without the slighest warning of any kind, departed for Portsmouth, leaving six passengers, two of whom were ladies, to get home as best they could,—which by the way was a very expensive journey. Perhaps the Dover railroad is so wealthy that it does not care to protect its passenger traffic; if that be the case it had better stop advertising its trains and so deluding the public. It would be well for the person or persons having the proper authority to instruct the conductors to start their trains from the *stations*, and not from some point *half-way* between them. Who is to blame?

PATRON.

MR. BRAHAM'S BENEFIT.

The complimentary benefit tendered by the guests and proprietors of the hotel Wentworth to Mr. John J. Braham, the popular musical director, occurs to-day, and will be a grand affair. At two o'clock the athletic sports begin. They embrace several aquatic contests, after which the 100 yards dash, sack race, potato race, etc., will take place, concluding with a notable struggle of the tug of war, between a team from Newcastle and one from Portsmouth. Suitable prizes will be awarded the successful competitor in each engagement.

Mr. Braham has been particularly fortunate in securing the services of artists of eminent ability to assist him in his evening entertainment. Although the Boston Museum company is already actively rehearsing for its approaching opening, the members very kindly offered their assistance to Mr. Braham, of which he gladly availed himself. They will produce the charming comedietta entitled "The maid with the milking pail," also the new and brilliant dual sketch "Tit for Tat," by Nathaniel Childs, esq., which was produced with great success last season at the Museum. Among the members of the company who will participate are the following, who are well known in this vicinity: Miss Sadie Martinot, Miss Rose Temple, Mrs. George Wilson, Mr. George Wilson, Mr. Alfred Hudson, Mr. J. L. Mason, Mr. Haworth and others.

If the dramatic entertainment promises to be very attractive on account of the talent engaged, the concert will be no less so. Miss Julia A. Wells, contralto, Mr. Hugh Talbot, tenor, Mr. Joseph L. White, baritone, Signor A. L. Di Ribas, oboe soloist, Mr. Harry Whittier, euphonium soloist, and Dr. Dudley, tenor, are all artists of acknowledged ability. Mr. Braham has increased his orchestra for the occasion to the full number of thirty pieces, and this suberb organization will assume a prominent part in the entertainment.

THE COMPANY'S FAREWELL.

The farewell given by the Heavy Artillery on Wednesday evening, the 25th inst., previous to their muster out, was happily arranged and proved what A. Ward would term "jubilee obsequies."

Shortly after six o'clock the company left the armory with silent tread for its last parade, accompanied by invited guests as pall bearers, and the Dover cornet band to play the requiem along the route.

The line presented a solid and martial front and marched with its usual "fine precision and distinctive tread" through the principal streets, receiving well deserved praise for its admirable bearing under so trying an ordeal, each member evidently feeling with the king that

"Fate had crammed their all into one lease,
And that now fast expiring."

Returning to the mausoleum where the enlisted men were wont to gather around the camp-fire and rehearse the glorious parades and trips of days gone by, the company were solemnly called upon to "stack arms," which was done with funereal grace. Then after donning gory looking badges emblazoned in gold —emblematic probably of the bloody and victorious fields of "ye dayes,"—the line again re-formed, and with an additional number of pall-bearers and some grave diggers (at least they were grave looking) as invited guests, the march was resumed, this time to the Rockingham house, where the last act in the eventful history was to be rehearsed, in the shape of a banquet. Possibly this was synonymous with Dante's "dance of death;" at any rate it was evidently considered a good-sized "wake," judging by the death-hunger which overspread each countenance as it surveyed the banquet board. Of course full justice was done to the viands so bountifully supplied and so temptingly served; and surely this last opportunity seemed something like the embalmer's art in that it gave apparent new life to the corpse.

After this keen dissecting the bodies were "reclined," whereupon the saddest rites, in the form of obituaries from various speakers, who had been called in to administer on the case, were in order. We need not go into details on what was said; suffice that the lamentations were like those of Job and Jeremiah, and when the commitment services were ended and the interment had closed, the veil fell on a scene which will be memorable as was the burial of Sir John Moore.

D.

NOT THIS TIME.

The Boston *Post* on Monday of this week sent out a circular to each democratic paper in New Hampshire, asking them to give "Our choice for governor," and "comments." In its issue of Wednesday it published replies from the Laconia *Democrat*, Portsmouth *Times*, Keene *Republican*, Dover *State Press*, and Dover *Democrat*, all which declare for Frank Jones. We copy the following:

Our choice is the Hon. Frank Jones of this city. There is a general desire among the democrats of the state to have Mr. Jones as their candidate, but it is feared he will not accept the candidacy. Many, however, think he will not decline if it is tendered him.—*Portsmouth Times.*

We are for Hon. Frank Jones. We believe him to be the man the democracy can elect; and with him it is a clean sweep.—*State Press.*

First choice the Hon. Frank Jones. But I have the positive word of Mr. Jones that under no circumstances or conditions will he accept the nomination. We shall have to take some other man, that is my belief.—*Dover Democrat.*

—Tom Ochiltree was years ago a partner with his father in the law business, at Galveston, Texas. The old gentleman went away for a few days, and on returning found stretched across the office an immense sign board, on which was painted in huge letters; "T. P. Ochiltree & Father, Counsellors and Attorneys at Law."

—When the London tailor confines himself to his legitimate sphere, the manufacture of ladies' riding habits, he is unexcelled, but when he rashly ventures to make garments for his own sex, his inferiority is painfully manifest. He takes the best cloth in the world and makes it into a coat that wrinkles in the arm-pits and pinches the waist. True to his instincts as a dressmaker he saves padding from the shoulders to lavish it on the fronts of his coats.

Cured of Drinking.

"A young friend of mine was cured of an insatiable thirst for liquor, which had so prostrated him that he was unable to do any business. He was entirely cured by the use of Hop Bitters. It allayed all that burning thirst; took away the appetite for liquor; made his nerves steady, and he has remained a sober and steady man for more than two years, and has no desire to return to his cups. I know of a number of others that have been cured of drinking by it."—From a leading R. R. Official, Chicago, Ill.—*Times.*

—An Irish agent, having been instructed to raise rents, called a meeting of the tenants and apprised them of the intention. "You can afford it," said he; "see how the prices have risen." Silence was broken by an old farmer, who said: "Yes; there is no denying that. It used to cost a pound to get an agent shot, and now, be jabers, it can't be done under two." The rents have not been raised.

Voice of the People.

HILLSDALE, MICH.

R. V. PIERCE, M. D.: I had a serious disease of the lungs, and was for a time confined to my bed and under the care of a physician. His prescriptions did not help me. I grew worse, coughing very severely. I commenced taking your Medical Discovery, which helped me greatly. I have taken several bottles, and am restored to good health.

Yours respectfully,

JUDITH BURNETT.

—A young lady was speaking to a friend regarding a trait characteristic of her mother, who always had a good word to say of every one. "Why," she said, "I believe if Satan were under discussion, mother would have a good word to say for him." Just then the mother entered and was informed what the daughter had said, whereupon she quietly observed, "Well, my dear, I think we might all imitate Satan's perseverance."

Richer in tone and fat producing materials than all others are Malt Bitters.

—He got off the car at the depot, and a hack-driver put the usual question to him: "Have a hack, sir?" "Not if I've got to take the horses too," he drawled out.

[Continued from first page.]

was a little family party, the gentleman, his wife and a colored girl with them, who held their babe in her arms. The gentleman and wife were both young, and evidently southerners.

"We heard about this baby from the conductor," said the gentleman, as I drew near. "My wife has been fidgeting ever since it began to cry. Can we do anything for you?"

The lady leaned past him. "Will you let me look at your baby, sir, a moment?" she asked in, it seemed to me then, the sweetest tones I had ever heard. She held out her arms, and I laid the baby in them.

"Such a young child—and so pretty too! How it cries! What is the matter with it?"

"I don't know, madam, unless it's hungry," I answered. "It has had nothing to eat since that woman got in this morning. I don't know what to do with it."

"Poor little love!" explained the lady, "what a shame! no wonder it cries!" She hesitated, glanced at her own baby in her servant's arms—at her husband—then, blushing like any rose, the sweet mother laid my baby on her bosom, beneath her shawl, and hushed its cries as if it had been her own—of her very flesh and blood.

Her husband smiled, and leaning forward, as if to protect her from the gaze of others, made room for me on the seat with their nurse. I explained the affair to him, told him my name, and found that my family was not unknown to him. As I talked, I saw that his wife, listening, examined the dress of the child on her lap, felt of its texture, and finally unclasped some chains that held up its sleeves. A little miniature was set in the clasp of each. She looked at them, then she said, "I am convinced, sir, that the woman who abandoned this child in your care was not its mother. In the first place, no mother could do such a thing; then this babe's clothing is of the most exquisite make and quality, and in these sleeve chains are two miniatures. See! one a gentleman with epaulets, the other a beautiful woman, evidently a lady. Depend upon it, the child is a stolen one, or came into her hands by some unfair means. What can be done?"

(Concluded in next issue.)

—Burdette writes from Nantucket: "Many of the old houses in town are shingled all the way over, reminding one of the houses so common in St. John. The shingler, when he shingle, apparently begin at the base board, shingle right up the front of the house, over the cornice, up to the ridge pole, where he crawled over, went right along shingling, and shangle head first on down the other side of the house to the ground. Perhaps it was not done in this way. I do not assert that it was. I only say, and I say it very meekly, that that is the way it impressed me, and if any man says I am a liar, I will take it back, right immediately, and admit that the shingles were pasted on with gum arabic or the white of eggs."

THE

New Hampshire Gazette!

Established 1756.

The Gazette is published every Thursday and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of news, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

Than any other paper of its size in the State, the editors working more with their pens than with their scissors.

TO ADVERTISERS

THE N. H. GAZETTE

Presents an excellent opportunity for a weekly invitation to customers, at a reasonable rate, and all those who desire to reach patrons in Rockingham and York counties will find it an economical medium. THE GAZETTE is in many instances the only paper taken by families, and it is read to a large extent in localities whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

PERFECTLY SAFE IN THE MOST INEXPERIENCED HANDS!

For Diarrhœa, Dysentery, Cramps, Cholera,

AND ALL THOSE NUMEROUS TROUBLES OF THE STOMACH AND BOWELS SO PREVALENT AT THIS SEASON.

No Remedy known to the Medical Profession has been in use so long and with such uniformly satisfactory results as

PERRY DAVIS' VEGETABLE PAIN KILLER.

It has been used with such wonderful success in all parts of the world in the treatment of these difficulties, that it has come to be considered

AN UNFAILING CURE FOR ALL SUMMER COMPLAINTS

and such it really is when taken in time and according to the very plain directions inclosing each bottle.

In such diseases, the attack is usually sudden and frequently very acute; *but with a safe remedy at hand* for immediate use, *there is seldom danger of its fatal result* which so often follows a few days' neglect.

The inclination to wait and see if the morrow does not bring a better feeling, not infrequently occasions a vast amount of needless suffering, and *sometimes costs a life.* A timely dose of Pain Killer will almost invariably save both, and with them the attendant doctor's fee.

It has stood the test of forty years' constant use in all countries and climates, and is perfectly safe in any person's hands.

It is recommended by Physicians, Nurses in Hospitals, and persons of all classes and professions who have had opportunity for observing the wonderful results which have always followed its use.

THE BEST EVIDENCE:

I have long used the medicine known as PERRY DAVIS' VEGETABLE PAIN KILLER in my family and would not on any account be without it. When Cholera was last epidemic here, I used no medicine of any sort but Pain Killer, and although myself and several members of my family were attacked severely, I am happy to say that the Pain Killer was equal to every emergency. I consider I should not be doing my duty to the community did I not say this much. If I were attacked by the Cholera to-day, Pain Killer would be the only remedy I should use. I have spoken freely and kind I can be relied on.

E. E. BRIDSENEN, Galena, Illinois.

No family can afford to be without it, and its price brings it within the reach of all.

The use of one bottle will go further to convince you of its merits than columns of newspaper advertising. Try it, and you will never do without it.

Price 25c., 50c., and $1.00 per bottle. You can obtain it any drug store or from

Appledore and Oceanic Hotels,

ISLES OF SHOALS.

Laighton Brothers & Co.

The staunch and reliable steamer APPLEDORE, Capt. Rand, makes two trips each way daily (Sundays excepted) between Portsmouth and the Shoals. Steamer leaves Jones' wharf, near foot of Deer street, at eleven A. M., after arrival of the morning trains from Boston and Concord, and at six P. M. Returning leaves the islands at seven A. M., arriving at Portsmouth in season to connect with the 8:30 train for Boston, and the trains for the White Mountains via Conway and the Notch, and at 3:30 P. M. in season for the afternoon trains west and north.

☞ Baggage destined for these hotels is transported between the Eastern railway station and the hotels *free of charge.* The wharf of the steamer is a short distance from the Boston train, and there is ample time to walk thither between the arrival of trains and the departure of the boat.

THE "WENTWORTH,"

Newcastle, N. H.

This Hotel will open June 26. It has accommodations for 400 guests, and offers more attractions for pleasure and comfort than any other seaside resort in the country. Its high situation affords beautiful views, both inland and seaward, its healthful atmosphere, the easy manner in which it can be reached, and its facilities for boating, bathing and fishing, excellent drives and attractive walks, all combine to make it one of the most desirable resorts for people of New England.

Since last year extensive additions have been made, among them one hundred and fifty sleeping rooms, a spacious Music Hall for dancing, theatricals and concerts, bowling alleys, billiard room, a passenger elevator operated by steam, a large and commodious parlor for private suppers, the grounds lighted by the electric light, steam yacht for excursions, &c., &c.

The temperature of the bathing at the "Wentworth" is especially inviting to those unable to endure the shock incident to more exposed localities. An enclosed body of salt water, covering an area of fifty acres, affords a safe and pleasant place for boating at all times for ladies and children. The drives to the neighboring beaches and other points of attraction in this vicinity are unsurpassed. The verandas, fifteen feet in width, surrounding the house, gives an extended promenade of over 1000 feet in length, while the view is unexcelled in beauty and grandeur.

An orchestra of twenty selected musicians, under the direction of Mr. John J. Brabaw, has been engaged for the season.

The house is furnished throughout in black walnut, has the *best* of beds, its sleeping rooms are of ample size, well ventilated, and from all sides of the house affords fine views. *Its cuisine* will be found of an unexceptionable character. The "Wentworth" is situated three miles from Portsmouth, N. H., in the ancient town of Newcastle, and is reached from Boston in two hours' ride over the Eastern Railroad. Address

SPEER'S

PORT GRAPE WINE!

SPEER'S PORT GRAPE WINE,

FOUR YEARS OLD.

This Celebrated Native Wine is made from the Juice of the Oporto Grape, raised in this County. Its invaluable

Tonic and Strengthening Properties

are unsurpassed by any other Native Wine. Being the pure juice of the Grape, produced under Mr. Speer's own personal supervision, its purity and genuineness are guaranteed. The youngest child may partake of its generous qualities, and the weakest invalid use it to advantage. It is particularly beneficial to the aged and debilitated, and suited to the various ailments that affect the weaker sex. It is in every respect A WINE TO BE RELIED ON.

Speer's P. J. Sherry,

A delicate, fine flavored Sherry, from the Spanish grape, equal to the finest brands imported from Lisbon.

SPEER'S P. J. OR PEDRO J. BRANDY.

This noted Brandy is a pure distillation from the grape and is equal to the finest Hennessy or Otard Brandies; for medicinal purposes it can be relied upon as strictly pure.

Speer's Sambuci Wine!

celebrated for its beneficial qualities, highly esteemed by eminent physicians, used in Hospitals and American Hospitals and by the first families in Europe and America.

Excellent for weak and debilitated persons, the aged and infirm; improving the appetite and benefitting babies and children.

AS A DIURETIC,

it imparts a healthy action to the kidneys and Urinary organs, very beneficial in Dropsy, Gout and Rheumatic affections.

☞ None genuine unless the signature of "ALFRED SPEER, Passaic, N. J.," is over the cork of each bottle.

KNOW THYSELF.

The untold miseries that result from indiscretions in early life may be alleviated and cured. Those who desire this assertion should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE, or SELF-PRESERVATION.

Exhausted vitality, nervous and physical debility, or vitality impaired by the errors of youth or too close application to business, may be restored and manhood regained.

Two hundredth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. Three hundred pages, more than 50 valuable prescriptions for all forms of prevailing disease, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in French cloth; price only $1, sent by mail post-paid.

The London Lancet says: "No person should be without this valuable book. The author is a noble benefactor."

The Tribune says: "The author has had unprecedented success in dealing with sexuousness of all kinds and its affections, whether due to peculiarities habits or inherited. He is a Nervo-specialist, and therefore knows whereof he writes with such power and ability."

An illustrated sample sent to all on receipt of 6 cents for postage.

The author refers, by permission, to Hon. P. A. Bissell, M. D., president of the National Medical Association.

Address Dr. W. H. PARKER,

No. 4 Bulfinch Street, Boston, Mass. The author may be consulted on all diseases requiring skill and experience.

SMITH'S MEDICATED PRUNES

LAXATIVE & CATHARTIC.

Pleasant to the Taste; Effective without Griping.

CURE CONSTIPATION, BILIOUSNESS AND LIVER TROUBLES.

They take the place of the nauseating and vile Patent Medicines used for these Complaints, and EXERT THE SAME acts as a mild laxative; two or three have the effect of cathartic medicine or mineral waters but without nausea or griping. No bad effects follow repeated use. For Children, one half of a prune taken at bedtime acts like a charm. The medication is entirely vegetable and healthful. Physicians recommend them. Druggists keep them.

A CHILD OF THE RAILWAY.

(Concluded from last issue.)

"Do not be troubled, madam, about the fate of this child. After the possibility or probability you have suggested, I shall not leave it in Boston. I will take it to my mother, and advertise the case. If its parents are found, I shall be glad; and if not, I think that my mother will care for the rest. Only," I added, "I wish the meeting were safely over."

The lady's eyes sparkled through tears. "I can't tell you," she said, "how what you have done, and are doing, seems to me, but I think you are too noble to dread anything. I will answer for the mother that has such a son."

"Softly, softly if you please," expostulated her laughing husband; "don't be quite oblivious of the fact that I exist." She turned to him with a look that must have silenced the veriest grumbler in the world.

We reached Boston, took a carriage together, and only at the hotel entrance did my new friends bid me adieu. "God bless you!" said the beautiful, noble woman, as she gave me back my baby. I should have knelt and kissed the hand of such a princess, but my arms and I were so awkward at baby tending that nothing else seemed a possible accomplishment at one and the same time. The clerk glanced suspiciously at me and my burden, and said:

"We are full, sir. Not a room to be had."

I sent for the proprietor, and again my name vouched for me. What it is to have a family in the land! "But where in the world, Mr. Edward," he demanded, "did you get that child?" I told the story. He shook his head, but said nothing.

I sent for a chambermaid to come to my room. I begged of her to take the child and care for it during the night. At first she would hear to nothing. I put my hand in my pocket. I gave her a ridiculously large bribe, but I was young and green. She took the child.

"But shure an' ye're not the young gintlemen that ud be afther leving ye're baby? Holy Vargin! My caracter ud be ruined entirely, entirely." I assured her of the rectitude of my intentions, and sent her off, but she was at my door in the morning before I had left my bed, and nothing would induce her to keep her charge another instant.

I took the stage for my country home. The driver recognized the lad he had driven so often over the same road. "How you're grown, to be sure, Mr. Edward! Your folks won't know you, I'm thinking, specially with that baby in your arms. Seems to me you're getting to be a family man a leetle too early."

I laughed and took my seat. But as we began to near my home I grew terribly nervous and cowardly. The house stood back some distance from the road, and as I walked up from the gate I saw the whole family gathered on the piazza to welcome me. I think I should rather have walked up to the cannon's mouth. My sister started down the steps to meet me, then stopped. I stepped up on the piazza. My mother, pale as death, sunk into her chair. My pretty cousin, Ella, on whom I had always, from round jacket days, been sweet in a smoldering sort of way, darted an annihilating glance at me, and ran to support my mother. My father advanced.

"What do you dare to bring here, you shameless young rascal? Is this a place —" He broke down, so angry that utterance was absolutely impossible. At any other time I should have shouted with laughter at the ludicrous spectacle he presented; now I only hastened to tell my story. In a few moments my mother's arms were around me, my sister and cousin were contesting *l'eurs* for possession of my baby, and my father recovered from his rage sufficiently to welcome his only son, though I did hear him growl through his white beard, "Confounded spoony!"

I advertised far and wide to no purpose. But my baby grew so into the affections of all the household that I had no other steps to take. We named her Perdida, and I left her with my mother. When I returned, year after year, I found her each time grown healthier and prettier, and she each time manifested an affection for me, charming, legitimate—for was she not "My baby?" As such I cherished her.

She was six years old when I left West Point for active service. After that I led a wandering and adventurous life for years "by flood and field."

"My baby" wrote me at first often. Her first letters were curious specimens—half written, half printed, and sometimes her meaning eked out with rude drawings. In those days she was charmingly personal. "I do so and so—I think so and so—I love so and so." But years changed her caligraphy, and, alas! the feeling of her letters. Now, in her charming girlish characters, stood "Your mother does so and so;" or "Your sister thinks and loves," etc. My mother wrote: "We can't call Perdida your 'baby, any longer. She does not permit the title, and you, were you to see her, could scarce imagine that our fair young queen was ever a baby. I am too old to be enthusiastic, but our darling is surely the loveliest vision these eyes have ever rested on. She makes hearts ache, but as yet their pain is vain. We tried to be cautious; but she has somehow learned about her finding, and it is bitter knowledge to the proud little heart. It may be that that makes her melt only to us. Will you never come home to see us and her?"

It was in the spring of the year 1856. I was on my way home to America. An elderly gentleman, who had evidently been a soldier, occupied the state-room next to mine. A similarity of taste and feeling brought us much together during the voyage. He had been absent from

Rotation in the Elective Offices.

The *Republican Statesman*, which we have always regarded as endeavoring to reflect the sentiments of the best political minds in the republican party, had recently an article upon the subject of rotation in legislative representation.

Were the members of either party content always to have one set of men fill the offices of senators and representatives in the legislature, there would be advantages in the experience gained by the incumbents. But parties are maintained in their efficiency by having positions of this nature always open to attainment by every fit and worthy member of the party. Just at this time, it appears there is a likelihood of establishing a precedent which to a greater or less extent will govern the party in future nominations.

It often occurs that for especial local reasons, or eminent fitness, a legislative candidate should be kept long in office. Notably in the case of Mr. Bingham of Littleton, the democracy have been strengthened by this course. But for the average senator or representative there always can be found a successor in the ranks, whose promotion would be a source of strength to his party.

There are many elective offices in the state to which this rule would not so forcibly apply. Offices where the duties are of a practical and business-like nature, executive rather than legislative, are filled nearly always better by men experienced to some extent in their details than by new men. Positions of this kind often serve to develope qualifications in an incumbent, which abundantly show a manifest fitness for the place.

This applies, perhaps, most forcibly to the offices of state and county treasurers, commissioners, registers of deeds and of probate, etc., where their experience in office and familiarity with their position is an obvious gain to their constituency. These selections should be free from all personal or private considerations. The state has the right to avail itself of the service of the best men in its offices, and while no arbitrary rule can be adopted for all positions, the party which studies the general success above individual preference will be guided by a broad and unselfish wisdom rather than be governed by any established rule which will handicap it at times when its strength is needed to serve alike itself and the country at an election.

News and Notes.

A Tucson, Arizona, despatch dated Aug. 24th reports that Sheriff Butner, with a posse, left there the previous night to intercept and arrest the Mexican brigand Reyes, who, with his band, were reported in the vicinity. Butner met them about eight miles from town, and a fight ensued, in which about fifty shots were fired. The Mexicans fled, leaving several dead and wounded animals and a number of weapons on the field. The sheriff followed, but soon lost the trail in the darkness. The brigands are supposed to number about fifty. A company of United States troops went in pursuit.

While driving home from Damariscotta, Me., on the night of Aug. 24th, Frank B. Tarr of Bristol was assaulted by two men, dragged from his team, and robbed of all the money he had. They sprang from the wood, and were not recognized by him.

A boy named John Elliott, fifteen years of age, while playing base ball at St. John, N. B., recently, was struck in the neck by a ball and instantly killed.

It is reported from Austin, Minn., that Judge Page has been shot in his house and killed by an unknown assassin. He has for years been the principal mover in a great political, social and religious feud that has agitated southern Minnesota.

A small yacht was capsized off Rockaway beach, L. I., during a thunder shower on the afternoon of Aug. 25th, and six of the seven persons on board were drowned.

Heavy rain storms, with much wind and lightning, occurred over a large part of the northern states on Aug. 25th. Some damage was done in various places, but it was trifling when compared with the benefits of the rain.

The loss to the government by the recent fire at the Charlestown navy yard is figured down to twenty-five thousand dollars.—damage to stock estimated at $10,000, and the remainder to the building.

Advices from Rockland, Me., of August 24th, say the name of the small fishing schooner which was run down by the schooner D. H. Ingraham, on account of which was published several days ago, was the "Treaty," and she hailed from Damariscotta. There were four men on board, instead of three, as previously reported.

German fishermen have established a sturgeon fishery on the St. John river, Newfoundland, and one night recently captured 102 fish, averaging 100 pounds apiece. The largest was a monster, nearly 400 pounds in weight, which was taken from the net with great difficulty.

Complete census returns show the population of Wisconsin to be 1,315,464, an increase of 206,794 since 1870.

The United States steamship Alliance, Commander Yates, has arrived at Halifax, N. S. from St. Johns, N. F.

Massachusetts and Rhode Island, employing 330,000 men and $297,000,000 capital, or Pennsylvania alone, have more at stake in the result of the tariff controversy than has the entire democratic south. The issue presented by that party in the words, "tariff for revenue only," is a sectional issue, in which the presumed interests of the southern states have, as usual, dictated the policy of the democratic party. The sweeping changes it proposes would entail confusion and paralysis in business circles far greater than the "temporary inconvenience of labor and shifting of capital," which is apologetically conceded as the immediate result of the introduction of the proposed democratic scheme. Besides, "tariff for revenue only," as preached by the democratic party, is either an intended or unwitting attack upon the social and intellectual position and growth of American artisans, in whom our strength and hope of progress lies.—*Albany Journal.*

—Zazel, the cannon girl of Barnum's big show, was seriously injured at Atchison, Kan., during her performances. The propelling machinery was started while she was unprepared, and the concussion landed her in an unconscious condition in the net below, with her limbs badly lacerated by the accident.

—It is told of Wagner that, having had his teeth operated upon by a celebrated American dentist in one of the continental capitals, he was so pleased that, at the conclusion of the work, he said to the molar manipulator, "Sir, between artists, finances should not be mentioned; permit me to present you with the score of my 'Meistersinger.'"

—One of the famous starvation cases is that reported by Van Swieten. Guillaume Dranet, a prisoner at Toulouse, resorted to starvation to avoid punishment. For the first seven days the symptoms were not very remarkable. After this period he was compelled to drink water to relieve his raging thirst. After lingering on in terrible agony he died in convulsions on the 58th day.

—Great care should be taken, in making ice cream for a church sociable, to mash it up fine in the freezer. It kind of destroys a man's confidence in the pure cream theory to spoon out of his dish half of a hard-boiled egg or a whole boiled potato. To say the least, it throws a cloud over the festival when the man offers to pay extra for his vegetables, or sends back for a bit of bacon to go with the potato.—*Hawkeye.*

—A young Mr. Cox is running for Congress in an independent way in the fourth district of Georgia. At a recent gathering of yeomen he declared his intentions in the following outburst: "If you see fit to send me to Congress I will go to the best of my ability. I believe I would like to go. In fact, I know I want to go. [Loud cheers.] I have heard that the salary is tempting, and, as I have a small family, won't insist on its increase. As I am fond of vindication I want to vindicate myself. It has been hurled at me like a thunderbolt that I am too young. In answer to this I say, first, I can't help it and it is not my fault. Second, I am trying to grow older every day. Third, I am succeeding. Fourth, I am afraid I will be much older than I am before I get to Congress." [Prolonged applause.]

—It is reported that the new operetta which Messrs. Sullivan and Gilbert will produce in New York next December has a semi-fairy plot. Like the "Pirates of Penzance," its title will not be fixed till about the last moment, and, in order to secure the copyright, the piece will not be published.

COUGHS.—"*Brown's Bronchial Troches*" are used with advantage to alleviate Coughs, Sore Throat, Hoarseness and Bronchial Affections. For thirty years these Troches have been in use, with annually increasing favor. They are not now and untried, but, having been tested by wide and constant use for nearly an entire generation, they have attained well-merited rank among the few staple remedies of the age.

THE THROAT.—"*Brown's Bronchial Troches*" act directly on the organs of the voice. They have an extraordinary effect in all disorders of the Throat and Larynx, restoring a healthy tone when relaxed, either from cold or over-exertion of the voice, and produce a clear and distinct enunciation. *Speakers and Singers* find the Troches useful.

A COUGH, COLD, CATARRH OR SORE THROAT requires immediate attention, as neglect often times results in some incurable Lung Disease. "*Brown's Bronchial Troches*" will almost invariably give relief. IT MAKES NO DRUNKARDS,

Breaks no Hearts, Excuses no Crimes.

Dr. David Kennedy's FAVORITE REMEDY is not a disguised enemy of the human race; where it cannot help, it does not harm. FAVORITE REMEDY is a combination of vegetable medicines. It does not destroy the blood, but cools and purifies it. In all cases of Kidney troubles, Liver complaints, Constipation of the Bowels, and the delicate derangements which afflict women, the action of FAVORITE REMEDY is beyond praise. Thousands of grateful people voluntarily testify to this, in letters to Dr. Kennedy; and with a warmth and fulness of words which mere business documents and certificates never possess. It makes no drunkards—excuses no crimes—breaks no hearts. In its coming there is hope, and in its wings there is healing. We challenge a trial and are confident of the result. Dr. Kennedy would have it understood that, while he is engaged in the introduction of his medicine, "Favorite Remedy," he still continues the practice of his profession, but confines himself exclusively to Office practice. He treats all diseases of a chronic character, and performs all the minor and capital operations of surgery.

AROUND HOME.

A collision occurred between two teams coming from the Wentworth house on Thursday evening, and Mr. Samuel Rowe, an occupant of one of the teams, is reported badly injured.

Hon. T. E. O. Marvin has withdrawn from the firm of Marvin Bros. & Bartlett, manufacturers of pure cod-liver oil, but the business will be continued under the same firm name by the remaining partners.

A collision took place on the Boston & Maine railroad near the depot in Dover, on the night of Aug. 24th, the Great Falls freight train running into the rear end of a freight train from Portland which was standing on the track. An engine and one car were badly damaged, but no person was hurt.

Fox point, Newington, is getting to be distinguished as a picnic ground. It is easy of access, and has good facilities for landing, a fine grove and pleasant surroundings. The little steamers that ply up and down and across the river, are just the thing for taking cosy parties of excursionists, and a day's idleness among the pines is sure to be a source of enjoyment.

The Rockingham Bicycle club of this city has invited the Boston clubs to extend their three days' run on the 14th, 15th and 16th of September, from Boston to Hampton beach, to this city, and spend the night at the Wentworth. A procession of bicyclers from the numerous New England clubs, in their varied uniforms, through our streets, will be a novelty.

John R. Palmer of Dover, democrat, and Darius Durgin, of Strafford, republican, are to have a political debate in Dover city hall on Thursday evening, Sept. 2d, each disputant to be allowed fifteen minutes, and repeat. The subject of debate will be the following: "Resolved, that the best interests of the country demand the continuance in power of the republican party."

Mr. Charles F. Willey, carpenter's mate on board the United States training ship Portsmouth, is a native of this city but has long been absent, he not having visited his birthplace for twenty-eight years until the recent arrival at this port of the Portsmouth. He learned his trade in the Raynes shipyard during the balmy days of shipbuilding on the Piscataqua, his "boss" being Mr. Joseph L. Martin, long out-board joiner for the late George Raynes. Mr. Willey has spent a few days very pleasantly in hunting up former friends and acquaintances, of whom he has found more than he had dared to hope, though of course the changes in population as well as in the physical features of the city are many since he last was here before.

POLICE COURT.

THURSDAY, Aug. 26; *Batchelder, J.*

Silvester L. Durgin, for receiving stolen goods, was bound over in the sum of $600, and was committed to jail.

John Hartwell for aggravated assault was bound over in the sum of $400.

William McClure, drunk, fined $3 and costs, Brentwood in default.

PROPOSED REORGANIZATION.

After the banquet and other post-prandial exercises at the Rockingham house were ended, on the night of the 25th inst., a meeting of the former members of the Heavy Artillery was held at the armory, to take measures looking to a reorganization as an unattached company. There, was a good deal of enthusiasm over the project, and it is more than probable that this favorite company will again appear on our streets in the not far distant future. A good number of names were signed as active members of the proposed company, and committees were appointed as follows, to report on Thursday evening, Sept. 2d:

To secure active members of the company—Appleton Tredick, Shirley B. Cunningham and Andrew P. Wendell; to secure honorary members—John Griffin, Edward P. Swasey, Brent McCarthy, Willard J. Sampson, Fred L. Haraden and Michael Crowley.

A request, signed by a number of the most prominent and responsible citizens of Portsmouth, has been sent to the adjutant general of the state, to allow the arms, accoutrements, etc., of the late organization, to remain here in charge of their present custodian until such time as the question of reorganization is definitely settled.

SAILING REGATTA.

The regatta on Thursday afternoon of this week called out a fine display of sail boats and steamers, as lookers on, besides the many parties who took an interest in the occasion, who were seen perched on the rocks on the several prominent lookouts along the course.

We much regret that among the many yachts owned in this city and vicinity that a better representation was not made. There has always existed a rivalry in regard to the sailing qualities of them, and it was hoped that the liberality and courtesy of Mr. Ward would create interest enough for the owners of these crafts to make a demonstration, not only to settle the disputed points, but to place them in their real sailing rank. The day, wind and water, were in every way desirable for a race, and the many sight seers are indebted to those who had vim enough to enter into the contest and make the occasion one of interest and pleasure.

The following are the tables given by judges of the race:

MR. BRAHAM'S BENEFIT.

A large number of persons witnessed the athletic contests at the Wentworth on Thursday afternoon, for prizes given in connection with the benefit tendered Mr. John J. Braham by the guests and proprietors of the hotel. The first event, a sloop race, was won by the "Skip;" prize a silver chain and pendant. The winners and prizes in the other contests were as follows:

Hundred yards dash, Peter O'Donnell, prize a pencil charm; sack race, Herman Clark, prize drinking cup; wheelbarrow race, Frank Batchelder, prize a horseshoe pincushion; potato race, Frank Batchelder, prize a scarf pin; three-legged race, W. H. Braham and Harry Whittier, prizes scarf pins; tub race, —— Russell of Newcastle, prize a purse; tug of war, Portsmouth team, prize a box of cigars.

In the evening the hall of the hotel was crowded, and an hour's dramatic entertainment was given, followed by a splendid vocal and instrumental concert, at the close of which the audience adjourned to the dining hall, where a grand ball was given, dancing being kept up until the night was far gone. The whole affair was a marked success.

THE EPPING TRAGEDY.

George S. Gotham of Epping, whose dead body was found in a stable in that town a few mornings ago, was a shoemaker by trade, a cripple, thirty-six years old, and unmarried. It is said he was a quiet, peaceable fellow when sober, but when intoxicated was quarrelsome; and that he had been on a spree a few days previous to the tragedy, and was seen drunk on the night of the murder—if murder there was. It was his brother, Orrin Gotham, whose death, caused by eating thirty-eight peaches on a wager about a year ago, caused considerable excitement in Epping and its vicinity.

Eben L. Chapman, the keeper of the saloon near where Gotham's body was found, has been arrested on suspicion of the murder, and on the afternoon of Wednesday, Aug. 25th, was arraigned before Justice C. W. Sanborn, pleaded not guilty, and, by agreement the case was continued to next morning for further hearing. A correspondent says that "recent developments, and evidence in the hands of the prosecution, warrant the assertion that a cold-blooded murder has been committed, and that the murderer is known, but the facts in the case are not permitted to be made public." The coroner's verdict, rendered Tuesday night, was as follows: "That the said George S. Gotham came to his death by a wound upon his right shoulder, caused by a sharp instrument in the hands of some person or persons to the jury unknown." Deputy Sheriff Woodman took Chapman to Exeter jail Wednesday night.

CAUGHT HIM.

On Wednesday information was given to the police that a suspicious character with a more suspicious boatload, spent the night before in a cove at the Laurels. Deputy Sheriff Ayers and Assistant Marshal Tuck proceeded up river and found on the river bank, Merrimacport, a man engaged in painting a large whale boat, having covered one side of it with white paint, the original color being green. He had another and smaller boat, which he had disguised with a band of paint. The officers took man and boats in charge and conveyed them to the lock-up. The boat was laden with six sprits, two sails and masts complete, sixteen oars, one pair painted green, with a white star on each), one green rudder, two tin chests, (one filled with pound cake, egg biscuit, and other dainties), one bag with about a bushel of apples, and two pairs of boxing gloves, one horse blanket, one bag of beans, one bag of tools, one "little brown jug," two anchors, one grapnel and road line. Beside this was a fine new steel-colored, iron bound trunk, packed to its utmost with plunder, including one double shot-gun, ten pairs of trousers, three vests, eleven coats, four pairs of drawers, twelve shirts, one lap robe, three new scarfs, one pair boots, four hats, one composition book and one autograph album (each with all the writing torn out), and innumerable other small articles. The strangest article, however, was a large Hancock and English campaign flag, evidently cut down from 12 halyards. In the books was the name of John H. Canney, newly written in pencil. The man at first refused to talk, but after a time confessed that he was the marauder of the Eliot shore, Portsmouth harbor. He said he did not know what he did it for, and was apparently suffering from some derangement from family troubles. He stated that he came out of Portsmouth on Sunday night, put into Hampton river, and on Tuesday night slept in the grass near the Laurels, having vainly tried to get into the barn of Joshua Chase.—*Newburyport Herald Aug. 25th.*

YORK COUNTY ITEMS.

Preparations are being made at the navy yard to receive the U. S. S. Alliance, Comdr. Yates commanding, under orders for this station from Halifax, N. S.

The republicans of Berwick and vicinity had an enthusiastic rally on the evening of Aug. 24th, the number present being estimated at nearly 6000. Hon. Charles H. Bell of Exeter, N. H., Wilbur F. Lunt, United States attorney for the state of Maine, and Congressman J. G. Horr of Michigan, addressed the multitude.

On Wednesday, Aug. 25th, Charles Grant, landlord of the Sea cottage at York beach, and Theodore Weare, jr., of the Cliff house, were arrested for violation of the internal revenue laws of the United States, in doing a retail liquor business without payment of the special tax as required by law. These arrests, as also all the other similar ones which have recently taken place at York, were made on information secured by spotters employed by the revenue officers. The summer hotel keepers along the Maine coast have rather a hard time of it; they must furnish refreshments to their patrons on demand, or their patronage will cease; and if they fail to take out an internal revenue license to sell liquor, Uncle Sam comes down on them, while if they *do* take out such a license the state law makes things very uncomfortable.

Political Notes.

In Aiken, South Carolina, which is a health resort, there is a small gathering of northern republicans, who have gone into business and settled there. Recently they organized a Garfield and Arthur club, and issued an address in which they declared that they had no purpose of taking part in local or state politics, but simply desired to express their belief in and give support to the national principles of the republican party. For this they have been assailed in the severest terms. They are called radicals and carpet baggers and denied the name of republicans, accused of sinister designs, and finally pointed out by name and devoted to social ostracism in thinly-disguised protestations that such hitherto respectable gentlemen should have set themselves against southern sentiment; and the Aiken *Journal and Review* characterizes their conduct in thus giving expression to their opinions in national politics as "unblushing and downright impudence." According to the South Carolina code, it is "impudence" to have an opinion or express it contrary to the wishes of the majority; but perhaps if the amazement and indignation of the native population is confined to words, the Aiken Garfield and Arthur club may continue to exist.

Now that it seeks the confidence and votes of the people, the democratic party claims to be the champion of specie payments. The old proverb that liars should have long memories might well be amended so as to read "liars and democrats." Mr. Blaine, who is always sure of his facts, shows in a recent speech that the three important acts which brought us a sound currency—the "Public credit act" of 1869, the "Funding act" of 1870, and the "Resumption act" of 1875—were all resisted by the entire democratic party in congress. He shows also that Bayard and Thurman, the two democratic leaders who have been most conservative on the financial question, supported a bill that would have paid off the national debt at from thirty-eight to sixty-five cents on the dollar, and thus forever have dishonored the Nation and blasted its credit.

—In 1816 there were but 500 Knights Templar in this country. Now there are over 50,000.

—A boy will think he is killed if asked to rock his baby brother, but he will rock the hens in the next yard till his arms ache.

—To make cocoanut drops, beat the whites of two eggs stiff with four ounces of sugar, then stir in four ounces of dessicated cocoanut. If the fresh is used it must be grated, and dried in a porcelain kettle until like flour; add a third of a cup of fine cracker crumbs; mould the mixture into small pointed cones, and bake until a light brown on top and bottom.

I hereby certify that I habitually use Dr. Kennedy's "Favorite Remedy" in my family in all those cases in which a domestic medicine is needed, and that it has never yet failed to accomplish the purpose desired. We look upon it as an anchor to windward that is sure to hold in every instance mentioned on the doctor's bill of particulars. I make this acknowledgment freely, in hope of doing good to others, feeling that a medicine that is neat as hand and to be implicitly trusted, is worth more than it costs.

A PUZZLE.—We want you to read this paragraph through, and become impressed by it. We are, however, puzzled to know how to state it. Perhaps the best way will be to come square out with the desired statement: Hunt's Remedy, the great kidney and bladder medicine, is entitled to the attention of all sufferers. It cures, and it does not fail. Hunt's Remedy cures Bright's disease, and all diseases of the kidneys, bladder, liver, and urinary organs like magic. Sold by all druggists. Trial size, 75 cents.

this country many years.

"When I left," said he to me, "I meant never to revisit the shores that had been accursed to me. I lost there my wife and child under the cruelest circumstances; and I could not remain. I thought then I could never see again the spot that had been so fatal to me. And yet I return now, impelled by some feeling which I can neither account for nor resist. I dream that I am going to see my child; sometimes even in waking moments I am fully convinced that I shall find her."

"How," I interrupted, in spite of myself; "is not your child dead?"

"Alas, I do not know."

"You do not know! did she not die before you left America?"

"No. Three months ago I should have said I wished she had, rather than live to see me, exposed to fates I shudder to think of. Now I am hopeful. More—trustful. It seems to me she has been kept pure, and that I shall know her. And yet—and he sighed heavily—I haven't the shadow of a reason for such hope and trust."

I was excited—I compared the remembrance of the miniature on "my baby's" sleeve-chain with the figure before me. I made him explain all. He told me of the child's birth, the delicate health of his wife afterward, his taking her to Cuba, leaving the child in, as he supposed, trusty care; the death of his wife in Havana, and while he was still in the first anguish of her loss, news from his child's nurse of its death, and of her speedy return to Ireland. He came to New York too late to find her, and left America at once, as he supposed forever. In Europe, years afterwards, he had met a servant who had been with him during his brief married life, and who declared to him, positively, that his child was not dead at the date on which the woman had written him; but further than this he could not say, as he had followed the fortunes of another master. The unhappy father sought vainly for the woman, and now returned as a last means to America. He described the child's nurse. It was the woman who had abandoned her child in my arms, and the face was the changed, aged one of Perdida's miniature. Not many days thereafter I restored to my friend his so early lost child, and gave up "my baby" to her rightful father.

Without a pang? Yes. Did I console myself with the pretty cousin afore-mentioned? She hadn't had patience to wait, that I might—a husband and several olive branches precluded that. How then? I saw 'my baby' a stately, radiantly beautiful woman. She called me Major—; she treated me in the most precise and formal way—the utmost favor she bestowed upon me was the slightest possible touch of the fingers as she bade me good night or good morning, and I saw her hourly in her idolizing father's arms, lavishing the tenderest caresses upon him. Would I have it otherwise? No. There was a dearer delight in the reserve with which I was treated—the faintest flush that colored her cheek when I was near, or addressed her, had for me an inexpressible sweetness that I wouldn't have bartered for aught on earth short of what I eventually obtained. What! you don't mean that you, a scarred old veteran of between thirty and forty, dared—Didn't I? Hum! And this was the way of it. In my military capacity I was invited to West Point. I went, and my friend and his daughter accompanied me. I sat beside her in the cars. The happy old gentleman, at a distance read diligently. I said, "Perdida! you have travelled this route before with me; do you recall this scenery at all?"

She blushed scarlet, and looked on me beseechingly. I went on.

"To think what a heavy, hungry, unpacifiable baby I carried on that day, and the way that poor cadet's humanity was ridiculed!"

The tears started, and the young lady at my side bowed her haughty head.

"And the worst feature in the case is that he has never had any suitable recompense. A good deed is its own reward to a certain degree, of course; but in this case every feeling of my soul, every fibre of my heart demands something more—and a great something more. Perdida, my darling, these seventeen years you have been mine, but now I have lost you to your father, but I cannot bear it. Be generous. Here, here where I found 'my baby,' give, O, give her back to me!"

She raised her head. "If she were as much trouble now as then?"

"My darling, don't trifle. Am I to have you?"

My young lady answered not. Instead she occupied herself with deliberately drawing off her glove. Then she turned to me.

"Since you will be troubled," and she laid her bared hand in mine. Mine again.

Shortly after we were married. I carried Perdida during our wedding tour to the friends I had found for her and me in the cars seventeen years before; and this time right reverently I kissed the precious hand that had then so sweetly tended what had now become my earthly all.

KIDNEY-WORT

The Only Remedy
THAT ACTS AT THE SAME TIME on
THE LIVER,
THE BOWELS,
and the KIDNEYS.

This combined action gives it wonderful power to cure all diseases.

Why Are We Sick?

Because we allow these great organs to become clogged or torpid, and poisonous humors are therefore forced into the blood that should be expelled naturally.

KIDNEY-WORT WILL CURE

BILIOUSNESS, PILES, CONSTIPATION, KIDNEY COMPLAINTS, URINARY DISEASES, DYSPEPSIA OR INDIGESTION, NERVOUSNESS, AND NERVOUS DISORDERS,

by causing free action of these organs and restoring their power to throw off disease.

Why Suffer Billious pains and aches?
Why be tormented with Piles, Constipation?
Why be frightened over disordered Kidneys?
Why endure nervous or sick headaches?
Why have sleepless nights?

Use KIDNEY-WORT *and rejoice in health. It is a dry, vegetable compound and one package will make six qts of Medicine. If of your Druggist, he will order it for you. Price, $1.00.*

The staunch and reliable steamer APPLEDORE, Capt. Rand, makes two trips each way daily (Sundays excepted) between Portsmouth and the Shoals. Steamer leaves Jones' wharf, near foot of Deer street, at eleven A. M., after arrival of the morning train from Boston and Concord, and at six P. M. Returning leaves the Islands at seven A. M., arriving at Portsmouth in season to connect with the 8:20 train for Boston, and the trains for the White Mountains via Conway and the North, and at 3:20 P. M. in season for the afternoon trains west and north.

☞ Baggage destined for these hotels is transported between the Eastern railway station and the hotels *free of charge*. The wharf of the steamer is a short distance from the railway stations, and there is time to walk thither between the arrival of trains and the departure of the boat.

THE "WENTWORTH,"
Newcastle, N. H.

This Hotel will open June 26. It has accommodations for 400 guests, and offers more attractions for pleasure and comfort than any other seaside resort in the country. Its high situation affords beautiful views, both inland and seaward, its healthful atmosphere, the easy manner in which it can be reached, its advantages for boating, bathing and fishing, excellent drives and attractive walks, all combine to make it one of the most charming places on the coast of New England.

Since last year extensive additions have been made, among them one hundred and fifty sleeping rooms, a spacious Music Hall for dancing, theatricals and concerts, bowling alleys, billiard room, a passenger elevator operated by steam, a large and commodious stable for private equipages, the grounds lighted by the electric light, steam yacht for excursions, &c., &c.

The temperature of the bathing at the "Wentworth" is especially invited to those unable to endure the shock incident to more exposed localities. An enclosed body of salt water, covering an area of fifty acres, affords a safe and pleasant place for boating at all times for ladies and children. The drives to the neighboring beaches and other points of attraction in this vicinity are unsurpassed. The verands, fifteen feet in width, surrounding the house, gives an extended promenade of over 1000 feet in length, while the view is unexcelled in beauty and grandeur.

An orchestra of twenty selected musicians, under the direction of Mr. John J. Braham, has been engaged for the season.

The house is furnished throughout in black walnut, has the best of beds, its sleeping rooms are of ample size, well ventilated, and from all sides of the house affords fine views. Its cuisine will be found of an unexceptionable character. The "Wentworth" is situated three miles from Portsmouth, N. H., in the ancient town of Newcastle, and is reached from Boston in two hours' ride over the Eastern Rail road. Address

Popular Monthly Drawing of the

Commonwealth Distribution Co.,

AT MACAULEY'S THEATRE,

In the City of Louisville, on

TUESDAY, AUGUST 31st, 1880.

These Drawings, authorized by the Legislature of 1869, and sustained by all the courts of Kentucky, according to a contract made with the owners of the Frankfort grant, will occur regularly on the last day of every month, Sunday and Friday excepted, for the period of five years, terminating on June 30th, 1883.

The United States Circuit Court on March 31st rendered the following decisions:

1st. That the Commonwealth Distribution Company is legal.

2d. Its drawings are fair.

The management call attention to the liberal scheme which has met with such popular favor heretofore, and which will again be presented for

Daily Chronicle.

Chronicle Correspondence.

WASHINGTON, D. C., Aug. 25th.

General Albert J. Meyer's death was officially announced yesterday by the secretary of war. The general was very popular here, and he had become so widely known throughout the country that his death will excite attention. If entitled to the credit for most of the progress of the "Weather bureau," as I think he was, the loss was a serious one. To dwellers upon land and sea, and lake, his bureau was of great and growing benefit. An effort has been made to show that what is really of importance in the bureau was suggested and explained by another, and that General Meyer appropriated instead of originating. The authorities here have always given the credit to General Meyer, and probably with reason. The deceased officer's rank was that of brigadier-general, and the place will probably be filled from among army officers holding as high a rank as colonel. There seemed to be no foundation for the report that Captain Howgate would be selected.

Hon. Horace Maynard, appointed postmaster-general, will be commissioned today and will assume charge of the department. It is understood that the new official will make few, if any changes in the *personnel* of the department. He will be absent a large portion of the time until November, and will hardly have opportunity to learn the merits of his subordinates. Judge Key leaves at once for Tennessee.

There are afloat here now two rumors of interest concerning army officers. One is that an order has been prepared, relieving General Schofield from command at West Point, but that it will not be issued until after the November election. The other is to the effect that General O. O. Howard has asked to be placed on the retired list. It is known that General Howard seriously considered this step some time ago, and the report now current, and which seems to have authority, indicates that he has finally decided in that course. The service could not lose a more gallant officer.

Washington gathers into her permanent population annually, a large number of retiring government officials and congressmen. General Halbert E. Paine, late commissioner of patents, and who, by the way, was formerly a law partner of Secretary Schurz, will remain permanently here and devote himself to legal business, including cases before the patent office.

Senator Conkling in a letter to a gentleman in this city, says that he is hastening the settlement of his private business so that he may engage in the campaign unembarrassed until the day of election in November. He says that he does not believe the democracy of New York state will be divided in the contest in that state, and therefore the republicans will have to put forth their best efforts to be assured of success. KNOX.

Cured of Drinking.

"A young friend of mine was cured of an insatiable thirst for liquor, which had so prostrated him that he was unable to do any business. He was entirely cured by the use of Hop Bitters. It allayed all that burning thirst; took away the appetite for liquor; made his nerves steady, and he has remained a sober and steady man for more than two years, and has no desire to return to his cups. I know of a number of others that have been cured of drinking by it."—From a leading R. R. Official, Chicago, Ill.—*Times.*

The twenty-sixth death resulting from the railroad collison at May's Landing, N. J., occurred at the Philadelphia hospital on Thursday last, the victim being Charles Frost.

FOR PRESIDENT,

James A. Garfield,

OF OHIO.

FOR VICE PRESIDENT,

Chester A. Arthur,

OF NEW YORK.

An Unfortunate Position.

It seems to me the republican committee appreciate well the means of influencing the minds of voters in Maine. The unfortunate position in which the opposition or fusionist party is placed, through the official count by Gov. Garcelon and council, requires unusual good sense on the part of democratic managers in presenting their cause to the people. And they should rely on popular intelligence if they want to win any substantial victory; should discuss issues having a good valid background of reason, and not try to defend that which is defenceless. There was indeed much in the conduct of the Maine election by the republicans, and their conscienceless methods of getting and preventing votes, to excuse the action of the executive, if excuse was desirable; but to my mind their course should not be defended.

The above paragraph is taken from a communication to the Boston *Post*, printed by that paper without comment. The fusionist party in Maine is indeed placed in an "unfortunate position"—the position of endorsing and defending the "tabulators" who by forgery and official perjury sought to steal the state from the majority of voters; and we have no doubt that the *Post* correspondent's complimentary allusion to the good sense of the republican state committee of Maine, has especial reference to their wholesale circulation among the voters of the report of the legislative committee appointed to investigate the Garcelon steal.

This report makes a campaign document that will be *read*—not merely glanced at and then thrown away—by the reading men of all parties: and it must have great influence on honest voters, showing as it does in the plainest manner the infamous dishonesty and trickery of the Garcelon gang, nearly every man of whom is now up for "vindication" by the votes of the hash party. Probably a copy has fallen into the hands of the *Post* contributor, and the *fac similes* given in it of portions of the forged returns and altered tabulations, in which the forgeries and alterations can be seen at a glance, and traced to their intended end of reversing the honest results of the election, have convinced him that the course of Garcelon and his pals is "defenceless."

One of the most interesting of these *fac simile* extracts, to voters in York county, is that of the senatorial return from Berwick, in which the name of George H. Wakefield, republican, has been bunglingly changed to George A. Wakefield, by putting a clumsy cupola on the "H" originally written in the return.

That the report of the investigating committee was just, was admitted by the two democratic members of the committee in a minority report presented by them to the Maine legislature,—and although that minority report has been published a good many times, it will bear republication, as follows:

The undersigned, a minority of the committee of investigation, appointed by virtue of an order of the house, dated February 5th, 1880, beg leave to submit the following brief minority report.

Silence on the part of the undersigned would be construed as an assent to all the positions and conclusions of the majority report, as well as to statements of facts.

The undersigned are unwilling and unable to give their assent to all the arguments and conclusions of such majority report, though they cannot deny that the recital of facts in the report is substantially in accordance with the evidence. Mr. Moody, of the council of Gov. Garcelon, was before the committee, but he failed to explain the irregularities which had been proved.

Governor Garcelon also testified at a later period in the investigation that he had no previous knowledge of much which has been shown by the testimony to need explanation.

A letter, courteous in its language, was addressed by the clerk of the committee, to each of the other members of Governor Garcelon's council, saying that an opportunity would be granted them to appear and testify.

The undersigned regret that the members of the council have not seen fit to appear and explain the irregularities which appear to exist.

The evidence being uncontradicted, the undersigned cannot make a denial of the facts proved by it, and can only withhold their assent to the conclusions arrived at by the majority of the committee.

GEO. F. HILL.

News and Notes.

Yacht Emma, of Hoboken, with an excursion party of six men and two boys, was wrecked opposite Sea Bright, N. J., at five o'clock in the afternoon on Aug. 25th, during a severe storm. The crew of a life saving station saved all the party, but the yacht, valued at $3,000, was lost.

Jacob Blackwell, of the town of Walworth, Wis., on the evening of Aug. 25th, at about eight o'clock, was called from his house by the barking of his dog, and when a few steps from the door was shot by an unknown party. He died in a few moments. Officers are in pursuit of the murderer.

The artesian well borers in the yard of Farwell & Son's bleachery at Lawrence, Mass., have been going through twenty feet of seamy ledge, much like the ledge under the river. They have drawn up numerous pieces of the ledge with noticeable traces of silver, one of the artesian men, who is acquainted with silver mining in California, saying that the best of it is worth $50 to the ton.

An arrangement has been entered into which will materially develop direct trade between West Hartlepool, Eng., and the United States. It has been decided to run a line of steamers in connection with the Erie and other American railways to carry merchandise from Chicago and other western cities via New York to all ports in the northeast of England via West Hartlepool. Four steamers have been chartered. There will be fortnightly sailings, so that, with the present line to Boston, West Hartlepool will have direct weekly communication with the United States.

A disastrous hurricane passed over the island of Jamaica on the night of Aug. 18th. Thousands of people are homeless. Crops, fruit trees and farm produce are generally destroyed. Colossal trees were uprooted and churches demolished. The barracks in Kingston city were destroyed, three wharves are gone, and eight large and thirty-two small vessels wrecked in the harbor. A famine is imminent, and help is required for starving thousands.

Sloop yacht Dolly, of New York, with eight men on board, was capsized off Rockaway beach, L. I., Aug. 26th, and the captain and mate were drowned. The other members of the company clung to the overturned yacht until rescued by a boat which put off for the purpose.

William F. De Haas, the well-known painter of marine pictures, died July 16th, on board a Dutch steamer bound from the Azores to Rotterdam, Holland. Mr. De Haas left New York in the latter part of May for the Azores, his purpose being to make some new and original studies of marine subjects. He was about fifty years of age, and for some months before his departure had been in failing health. He was a native of Rotterdam, and there acquired his first knowledge of art. He came to New York when not more than twenty-four years of age, and devoted himself to teaching. Before the war he went to Alabama, and was very successful there both in practising his art and teaching. In a few years he acquired a moderate fortune. When the war broke out he returned to New York, and has since resided there. His best known works are "Sunrise on the Susquehanna," "Fishing Boats off Mount Desert," "Evening at Halifax," "Narragansett Pier," and "White Island Light." The latter work was looked upon by the artist as his best production. It was on exhibition at the Hahnemann hospital fair in Madison square garden, New York, at the time of the disaster, and was seriously injured. He was unmarried, and lived a very retired life, devoting himself with great enthusiasm to his art. He is described as a man very quiet and reserved in his manner, and extremely gentle and kindly in his nature.

An adroit and unknown thief robbed the treasurer's box at the Hampden park races in Springfield, Mass., Aug. 13th, of $1,500. The robbery was committed on the judges' stand while the trotting was in progress. The matter was kept quiet until Thursday, Aug. 19th, but no clue to the thieves has been found.

A mine of French chalk has been discovered about seventeen miles from Rutland, in Plymouth, Vt.

Amount of stock at market—Cattle 4264; sheep and lambs 5650; swine, 11,650; number western cattle 3766; eastern cattle 323; milch cows and northern cattle 175.

Prices of beef cattle per 100 lbs live weight—Extra quality $5 37½ and $5 62½; first quality $5 00 and $5 25; second quality $4 62½ and $4 87½; third quality $4 12½ and $4 37½; poorest grades of coarse oxen, bulls, &c., $3 25 and $4 00.

Brighton Hides 8c per lb.

Brighton Tallow 5¼ and 5½ per lb.

Country hides 7½ and 8c per lb.

Country Tallow 4½ and 5c per lb.

Calf skins 19 and 12c per lb, or from $1 25 and $1 75 a piece.

Lamb skins 75c and $1 each.

Sheared sheep skins 50c each.

The quality of western cattle offered on the market for a le has been larger than that of one week ago, and the trade did not open so actively. There were a good many nice beef cattle in market, some of those which were bought for the English markets costing from $5 37½ and $5 65 per 100 lbs live weight. During the past week there has been sent per steamers for the English markets 1291 cattle and 601 sheep. The coming week the supply will be larger, as there are several large steamers in port to be loaded with live stock. From Maine there were more beef cattle and working oxen brought in than for several months past, but the trade for them was very dull even at low prices.

Working Oxen—There were more working oxen in market this week than there has been for several weeks past. Trade for them was dull. We quote sales of 1 pr, girth 6 ft 9 in, live weight 2800 lbs, $125; 1 pr, girth 6 ft 10 in, live weight 29 0 lbs, $135; one, $105; 1 pr, girth 6 ft 8 in, live weight 2700 lbs, $92; 1 pr, girth 6 ft 6 in, live weight 2450 lbs, $85; 1 pr girth 6 ft 7 in, live weight 2700 lbs, $107; 1 pr, girth 6 ft 3 in, live weight 2600 lbs, $100; 1 pr, girth 7 ft, live weight 3000 lbs, $120; 1 pr, girth 6 ft 6 in, live weight 2400 lbs, $95; 1 pr stags, girth 6 ft 6 in, live weight 2300 lbs, $90.

Milch Cows—Most of those in market were of a common grade. Not much call for cows except those of an extra grade. We quote sales of 1 cow and calf and 1 springer for $30 the lot; 1 milch cow $31; 2 nice milch cows $40 each; 2 milch cows at $37 50 each.

Store Cattle—There were a few among those brought in from Maine, but at present there is a limited call for them. Nearly all the small cattle that are in a fair condition being bought up by butchers to slaughter.

Sheep and Lambs—Those from the west were mostly owned by butchers, and cost landed at Brighton from ¾ and 5½c per lb live weight. There were a few western sheep sent per steamers for the English markets.

Swine—Price have been advancing for several weeks past, and this week are costing 6c per lb live weight landed at the slaughter houses.

The Florence Nightingale of the Nursery.

The following is an extract from a letter written to the *German Reformed Messenger*, at Chambersburgh, Penn:—

A BENEFACTRESS.

Just open the door for her, and Mrs. Winslow will prove the American Florence Nightingale of the Nursery. Of this we are so sure, that we will teach our "Susy" to say, "Ta-ta, kiss-ma Mrs. Winslow" for helping her to survive and escape the griping, colicking, and teething siege. Mrs. Winslow's soothing Syrup relieves the child from pain, and cures dysentery and diarrhœa. It softens the gums, reduces inflammation, cures wind colic, and carries the infant through the teething period. It performs precisely what it professes to perform, every part of it—nothing less. We have never seen Mrs. Winslow—know her only through the preparation of her "Soothing Syrup for Children Teething." If we had the power we would make her, as she is, a physical saviour to the infant race. Sold by all druggists. 25 cents a bottle. 1

Private School.

MISS BLUNT will re-open her school at her residence, No. 52 State street, MONDAY, Aug. 30th, 1880.

State of New Hampshire, Rockingham ss, By the Judge of Probate for said County.

To the heirs at law and creditors to the estate of CAROLINE J. SANBORN, late of Portsmouth, in said County, deceased, intestate, and all persons interested in said estate, GREETING:

YOU ARE HEREBY notified that TRUMAN SANBORN, administrator of the estate of said deceased, has exhibited his account of administering said estate at a Court of Probate to be holden at Portsmouth in and for said County, on the second Tuesday of November next, at 10 o'clock A. M., for examination and allowance.

You are therefore hereby cited to appear at said Court to be heard thereon, and to give such objections as you may then have. And notice is hereby required to be given by causing this citation to be published three weeks successively in the New Hampshire Gazette, a newspaper printed at Portsmouth, in said County, the last publication whereof to be at least one week prior to said Court. By order of the Judge.

WOODBURY M. GURGIN,

Administrator's Sale of Real Estate.

BY VIRTUE OF A LICENSE from the Judge of Probate for the County of Rockingham, I shall sell at Public Auction, on the premises, on SATURDAY, Sept. 11, 1880, all the right in equity which WILLIAM B. LOWD, late of Portsmouth, in said county, had to redeem the mortgaged real estate situated as said Portsmouth, to wit:

At 11 o'clock, A. M., at No. 67 Daniel St.,

Three undivided fourth parts of a lot of land situated on Daniel street with a brick dwelling house thereon, and bounded northerly by Daniel street, easterly by land of Caroline Q. Wendell, southerly by land now or formerly of heirs of Hall Varrell and others, and westerly by land of John H. Broughton.

At 11 1-2 o'clock, A. M., at No. 1 Livermore Street.

Three undivided fourth parts of a lot of land situated on Livermore street, with a dwelling-house thereon, and bounded northerly by Livermore street, easterly by land of Thomas H. Odiorne, southerly by land of heirs of Alfred M. Hoyt, and westerly by land of Albert R. Hatch.

At 12 o'clock, noon, at No. 37 South St.,

Three undivided fourth parts of a lot of land situated on South street with a dwelling-house thereon, bounded northerly by South street, easterly and southerly by land of Catherine L. Pearson, and westerly by land of said William B. Lowd.

At 1 o'clock, P. M.

Three undivided fourth parts of a lot of land situated on South street and bounded northerly by South street, easterly by the above described lot and land of Catherine L. Pearson, and southerly and westerly by land of said Pearson, formerly known as the Dr. Parrott place.

MARCELLUS BUFFOM, Administrator.

The mortgagees of the property join in the sale, so that a good title can be given, and the remaining fourth of the property will be sold at the same time.

MORSE & ILSLEY, Auctioneers.

Co-partnership Notice.

NOTICE IS HEREBY GIVEN that from and after this date Hon. Thomas E. O. Marvin has withdrawn from the firm of Marvin Bros. & Bartlett. The business will be continued by William Marvin, Jr., and J. P. Bartlett, under the same firm name of Marvin Bros. & Bartlett.

IT MAKES NO DRUNKARDS,

Breaks no Hearts, Excuses no Crimes.

Dr. David Kennedy's FAVORITE REMEDY is not a diagnostic theory of the human race; where it cannot help, it does not harm. FAVORITE REMEDY is a combination of vegetable alteratives. It does not heat nor inflame the blood, but cools and purifies it. In all cases of Kidney troubles, Liver complaints, Constipation of the Bowels, and the delicate derangements which afflict women, the action of FAVORITE REMEDY is beyond praise. Thousands of grateful people voluntarily testify to this, in letters to Dr. Kennedy; and with a warmth and fullness of words which mere business documents and certificates never possess. It makes no drunkards—excuses no crimes—breaks no hearts. In its coming there is hope, and in its wings there is healing. We challenge a trial and are confident of the result. Dr. Kennedy would have it understood that, while he is engaged in the introduction of his medicine, "Favorite Remedy," he still continues the practice of his profession, but confines himself exclusively to *Office* practice. He treats all diseases of a chronic character, and performs all the minor and capital operations of surgery.

THE
New Hampshire Gazette!

Established 1756.

The Gazette is published every Thursday and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of news, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

AROUND HOME.

The Farragut tally-ho coach made a visit to this city on Friday morning.

The new shoe factory seems to be nearly finished, and will be ready ere long for occupancy.

Mr. John P. Hart is fitting his new house, corner of Islington and Union streets, for two tenements.

Aberle's Mammoth minstrel troupe will perform in Music hall on Thursday evening, Sept. 2d. The list of members includes the names of many noted variety performers.

Naval Constructor Philip Hichborn, U. S. N., returned to duty at the League island navy yard on August 16th, after an absence of a month, passed at various summer resorts. A handsome floral reception was given Mrs. Hichborn on her arrival home.

The Independent Order of P. F. C. I. A., of this city, had their second annual picnic at Wallis' sands, Rye beach, Friday. In the absence of the first and second warblers, the association elected Mr. James McGlinchy first warbler *pro tem.*, and a young lady from Fisherville as second warbler.

The alarm of fire at about eleven o'clock Friday forenoon was occasioned by a spark from the chimney of building No. 30 Penhallow street setting the roof on fire. A small hole was burned, but a few buckets of water put out the fire. The building is occupied by Thomas Murphy as a dye-house, and by Wm. Downs & Son as a storehouse.

On Wednesday of this week an altercation took place between John Harrington and Patrick McCann, employes in the Jones brewery, in which Harrington took a heavy oak mallet and struck McCann on the head, inflicting serious injury. It is said that McCann lies in a precarious condition. Harrington is out on bail of four hundred dollars.

Ex-Judge Page was in Salt Lake City August 22d, en route to California. In a letter to a friend he says: "All well. I tell you this is a wonderful country we are in, and one only has to come west to find it out. Antelopes and Indians are the only *men* I find differing from those in the east, but the country changes beyond imagination. Expect to return September 6th."

Philip DeNormandie, son of Rev. James DeNormandie, has spent two days of this week to some purpose, having built a canoe suitable for use on the river, without any help except such assistance as his younger brothers were able to render. The little craft is quite a triumph of juvenile skill, and will afford her owner an opportunity to enjoy some rare aquatic sport during the last day of vacation. Few boys of his age can build and paddle their own canoes.

Steamer Mystic carried down a party of about seventy-five persons to see the yacht race, Thursday afternoon, and after witnessing the start and landing some of the party at Fort Constitution proceeded out towards Odiorne's point; and after the yachts turned the stake-boat steamed slowly into the fort again, where most of the passengers disembarked and viewed from the shore the return of the yachts around Fort Point. The swell outside caused some of the passengers to commune with Neptune.

Last Thursday night the store of Abbot Norris at North Hampton was entered through a rear window, and about sixty dollars' worth of tobacco, cigars, cutlery and boots stolen. The thieves also entered the North Hampton depot by breaking a pane of glass near the fastening of the office window, and secured a few tickets; they then broke from the office into the baggage room, and rifled the baggage and express packages left there for the night. A box belonging to H. Bradley, containing a handsome silver bowl and platter worth a hundred and fifty dollars, was not disturbed.

Mr. Schmidt of Kittery, formerly a republican, but who it is said was converted to democracy some time ago through getting discharged from the position of watchman on the navy yard, and blacklisted, for having a fight with another man on the yard, on Thursday evening last raised a Hancock & English flag in front of his residence, a crowd of eleven legal voters being in attendance, nearly every one of them ex-officeholders and therefore ex-republicans. The band consisted of Mr. Schmidt, who stood on his door-step and sang "Hold the fort" while the flag was going up, the accompaniment being played on a piano inside; "S.," the *Times'* Kittery correspondent, made a speech, and altogether there was a rousing rally.

The failure of the steamer Stamford to reach this port on Thursday, to make her trip to Boston as previously announced, was a disappointment to many, but it was not the fault of the managers of the boat, as the steamer started from Boston at twelve o'clock Wednesday night, but owing to the heavy head sea was unable to make more than four or five knots an hour, and when off Thatcher's island she bore up for Salem, arriving there at eleven o'clock on Thursday and remaining there the rest of the day. A telegram was sent to this city stating that the boat would be here Friday forenoon to make the trip to Boston, but it was not received by the man to whom it was directed, he being at Newcastle; so when she arrived there were no excursionists awaiting her. She will make the trip to Boston and return on Tuesday, Sept. 7th.

At the athletic sports at the Wentworth on Thursday afternoon last, an error occurred which in justice to one of the contestants should be explained. In the one-hundred-yards dash there were six starters, including Mr. Fred A. Burnham of the Boston Athletic club, Mr. E. M. Shannon and Mr. P. O'Donnell. The hundred yards were run, and Mr. Burnham won. The affair should have stopped there, and no misapprehension would have arisen; but through an error of some one, the runners were started again, and Mr. Shannon won the heat. A third heat was run, and Mr. O'Donnell was the successful man. A fourth and concluding heat between these three contestants was then had, and Mr. O'Donnell again won. Mr. Burnham then claimed the prize, as winner of the first heat; and as the race was intended and understood to be for 100 yards and not for 400, Mr. Burnham's claim was supported, and he was awarded the prize. In consideration however of the misapprehension which arose, a special prize was awarded to Mr. O'Donnell for his success in the last two heats.

MUNICIPAL AFFAIRS.

In Board of Mayor and Aldermen, regular meeting, Thursday evening, Aug. 26th:

Petitions of Wm. Ward, for sidewalk on McDonough street; of Morris C. Foye and others for a cross-walk on Market street; and one asking that additional drinking fountains be put up where needed, and that *all* be supplied with water, were referred to committees.

Petition of the fence viewers recently appointed, for supplies, was referred to the mayor with power.

Four special police officers without pay were appointed, and the bonds of the assistant marshals and police officers were accepted and placed on file.

Communication from the chief engineer of the fire department in regard to the scarcity of water in the neighborhood of the Eastern depot, was referred to committee on fire department.

Alderman Hazel, in behalf of the democrats of ward four, asked permission to erect poles on the south mill-bridge, on which to raise a campaign flag.

Mrs. George Barrett asked for an abatement of taxes. Referred to committee on streets.

Adjourned for two weeks.

AN OLD ACQUAINTANCE.

John H. Canney was brought from Newburyport to this city on Friday by City Marshal Entwistle, with a lot of the miscellaneous plunder which the fellow had in his possession at the time the Newburyport police captured him in Merrimacport. This part of Mr. Canney's "baggage" consisted of a large trunk filled with clothing and other articles, among them a Hancock & English flag, no doubt stolen from some democrat who will be able to identify it; and besides the trunk he had a big canvas bag and a black "carpet-bag," both crammed full of stolen goods, which were brought on by the marshal. The boats, rigging, oars, etc., found in Canney's possession, were left at Newburyport by the officer, to come around by water.

Mr. Canney's name has been in the papers before. He was sent to state prison from Dover some years ago, for burglary, and was pardoned out on account of ill health. Later he was sent to the insane department of the Strafford county farm, from which he escaped. In December, 1878, he broke into a house on the Epping camp-ground, and while in Portsmouth jail awaiting trial for that offence, set the jail on fire. When taken before the grand jury they declined to indict him, but presented him as insane to the judge, who sent him to the insane asylum at Concord, from which place he escaped in August, 1879, since which time he has not been prominently before the public of this section. He has a small but select assortment of spare names, such as John Smith and John Rogers, which he has at different times used.

The city marshal will doubtless have many calls from up-river people who may have suffered from the recent riparian raid of this fellow, who appears to have stolen more for the sake of stealing than from any other reason.

Wicked for Clergymen.

Rev. ——, Washington, D. C., writes: "I believe it to be all wrong and even wicked for clergymen or other public men to be led into giving testimonials to quack doctors or vile stuffs called medicines, but when a really meritorious article made of valuable remedies known to all, that all physicians use and trust daily we should freely commend it. I therefore cheerfully and heartily commend Hop Bitters for the good they have done me and my friends, firmly believing they have no equal for family use. I will not be without them."—*N. Y. Baptist Weekly.*

Two weeks ago William F. Sinclair, chief clerk and bookkeeper, and George W. Sharretts, ledger clerk, in the city water department of Baltimore, were discharged from office. Aug. 25th they were arrested, charged with embezzlement of city water funds. Sharretts is charged with embezzling $1500 and Sinclair $5.000. They waived an examination.

Passaic Sambuci Wine for Medicinal Use.

A noted homœopathic physician says: "I take great pleasure in testifying my approbation of the superior qualities of the Sambuci Wine produced by Mr. A. Speer, of Passaic, New Jersey.

After a prolonged trial I can confidently recommend it as a superior article of Wine for the sick and debilitated, and all those who require vinous stimulation and invigoration.

I shall continue to employ it in my practice in all cases where a pure article of wine is called for the sick; and shall do all in my power to foster and encourage its production."

For sale by A. F. Preston, David Kimball, F. B. Coleman, druggists; H. F. Gerrish, C. E. Laighton & Son, grocers.

About midnight on Monday, Aug. 23d, one Jacob Barnard of Hudson, Mass., left home. As he did not return, a general alarm was given on Wednesday night, but the darkness prevented a search until Thursday morning, when two hours' hunting by a party of fifty resulted in finding him dead not far from the Bolton line. He was a victim of rum, and leaves a family.

Disease prevented and medical bills lessoned by a timely use of Malt Bitters.

— The Duke of Argyll was graciously pleased with Niagara falls. It is very gratifying to have our efforts at natural scenery meet the approval of the nobility abroad.

— There is no accounting for tastes. A summons in a breach of promise suit against the bridegroom was sent in among the bridal presents at an Iowa wedding.

PERFECTLY SAFE IN THE MOST INEXPERIENCED HANDS!
For Diarrhœa, Dysentery, Cramps, Cholera,
AND ALL THOSE NUMEROUS TROUBLES OF THE BOWELS SO PREVALENT AT THIS SEASON.
No Remedy known to the Medical Profession has been in use so long and with such uniformly satisfactory results as

PERRY DAVIS' VEGETABLE PAIN KILLER.

It has been used with such wonderful success in all parts of the world in the treatment of these difficulties, that it has come to be considered

AN UNFAILING CURE FOR ALL SUMMER COMPLAINTS

and such it really is when taken in time and according to the very plain directions inclosing each bottle.

In such diseases, the attack is usually sudden and frequently very acute; *but with a safe remedy at hand* for immediate use, *the danger of a fatal result* which so often follows a few days' neglect.

The inclination to wait and see if the morrow does not bring a better feeling, not infrequently occasions a vast amount of needless suffering, and *sometimes costs a life.* A timely dose of Pain Killer will almost invariably save both, and with them the attendant doctor's fee.

It has stood the test of forty years' constant use in all countries and climates, and is perfectly safe in any person's hands.

It is recommended by Physicians, Nurses in Hospitals, and persons of all classes and professions who have had opportunity for observing the wonderful results which have always followed its use.

THE BEST EVIDENCE!

Messrs. PERRY DAVIS & SON:

I know you need no testimonial to convince you that your medicine is all that you claim for it, but I cannot restrain the impulse to communicate to you the fact that in my family it has really cured wonders. I administer it to my children (one eighteen months, and the other three years old) with perfect success. It regulates their bowels, and stops all diarrhœa. Myself and wife resort to it in all cases, both for internal and external use. I've used it in my family for five years, and will not be without it. Feeling myself under much obligation to you, in many ways being relieved from pain, I am very truly yours, L. F. MOORE.

Bangall, Dutchess Co., New York.

This free use of Pain Killer proves its merits to be the best evidence of its worth.

Price 25c., 50c., and $1.00 per bottle. You can obtain it any drug store or from

TRADE MARK
DAY'S Kidney PAD
A DISCOVERY BY ACCIDENT,
supplying a want which men of eminent ability have devoted years of study and experiment to find—a specific for diseases of the Kidneys, Bladder, Urinary Organs and Nervous System—and from the time of its discovery has rapidly increased in favor, gaining the approval and confidence of thousands of those who have used it; it has become a favorite with all classes and where ever introduced has eclipsed all other treatments, in short, such is its intrinsic merit and superiority, that it is now the only recognized reliable remedy.

DISEASES OF THE KIDNEYS

are the most prevalent, dangerous and fatal affections that afflict mankind, and so varied and insidious in their character, that persons often suffer for a long time before knowing what ails them. The most characteristic symptoms are gradual wasting away of the whole body; pain in the back, side or joints, a weak, feeble, exhausted feeling; loss of appetite and dread of exercise; scanty and painful discharge of variously colored urine; inability to retain or expel the urine; mistake the disease for the urine; and, when the disease is of long duration, there is much emaciation and general nervous prostration

THE ONLY CURE.

We say positively, and without fear of contradiction, that DAY'S KIDNEY PAD is the first and only infallible cure for every form of Kidney disease. It is the best, remedy yet discovered for this complaint, and more effectual in its operation than any other treatment. By using faithfully and persistently no case will be found so inveterate as not to yield to its powerful remedial virtues.

STRONGLY ENDORSED.

We have the most unequivocal testimony to its curative powers from many persons of high character, intelligence and responsibility. One says "DAY'S PAD saved my life," giving the history of this new discovery, and a large record of most remarkable cures, sent free. Write for it.

DAY'S KIDNEY PADS are sold by druggists, or will be sent by mail (free of postage) on receipt of their price: Regular, $1.00. Special, for obstinate cases of long standing, $3.00; Children's, $1.50. Address,

DAY KIDNEY PAD CO., TOLEDO, O.

CAUTION. Owing to the many worthless Kidney Pads now in market, and the injury to our reputation, we deem it due the afflicted to warn them. Ask for DAY'S KIDNEY PAD, take no other and you will not be disappointed.

THE "WENTWORTH,"
Newcastle, N. H.

This Hotel will open June 26. It has accommodations for 400 guests, and offers *more* attractions for pleasure and comfort than any other seaside resort in the country. Its high situation affords beautiful views, both inland and seaward, its healthful atmosphere, the easy manner in which it can be reached, its advantages for boating, bathing and fishing, excellent drives and attractive walks, all combine to make it one of the most charming places on the coast of New England.

Since last year extensive additions have been made, among them one hundred and fifty sleeping rooms, a spacious Music Hall for dancing, theatricals and concerts, bowling alleys, billiard room, a passenger elevator operated by steam, a large and commodious stable for private equipages, the grounds lighted by the electric light, steam yacht for excursion, &c., &c.

The temperature of the bathing at the "Wentworth" is especially inviting to those unable to endure the shock incident to more exposed localities. An enclosed body of salt water, covering an area of fifty acres, affords a safe and pleasant place for coaching all times for ladies and children. The drives to the neighboring beaches and other points of attraction in this vicinity are unsurpassed. The verandas, fifteen feet in width, surrounding the house, gives an extended promenade or over 1000 feet in length, while the view is unexcelled in beauty and grandeur.

An orchestra of twenty selected musicians, under the direction of Mr. John J. Braham, has been engaged for the season.

The house is furnished throughout in black walnut, has the best of beds, its sleeping rooms are of ample size, well ventilated, and from all sides of the house affords fine views. Its *cuisine* will be found of an unexceptionable character. The "Wentworth" is situated three miles from Portsmouth, N. H., in the ancient town of Newcastle, and is reached from Boston in two hours' ride over the Eastern Railroad. Address

KNOW THYSELF.

The untold miseries that result from indiscretions in early life may be alleviated and cured. Those who doubt this assertion should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE, or SELF-PRESERVATION. Exhausted vitality, nervous and physical debility, or vitality impaired by the errors of youth or too close application to business, may be restored and manhood regained.
Two hundredth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jeweled medal by the National Medical Association. It contains beautiful and very expensive engravings. Three hundred pages, more than 50 valuable prescriptions for all forms of prevailing disease, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in French cloth; price only $1, sent by mail post-paid.
The London Lancet says: "No person should be without this valuable book. The author is a noble benefactor."
The Tribune says: "The author has had unprecedented success in dealing with nervousness of all kinds and its affections, whether due to pernicious habits or inherited. He is a Nervo-specialist, and therefore knows whereof he writes with such power and ability."
An illustrated sample sent to all on receipt of 6 cents for postage.
The author refers, by permission, to Hon. P. A. Bissell, M. D., president of the National Medical Association.
Address Dr. W. H. PARKER, No. 4 Bulfinch Street, Boston, Mass. The author may be consulted on all diseases requiring skill and experience. HEAL THYSELF

STONES IN THE KIDNEYS
and BLADDER Expelled--Long Suffering of one of TROY'S best People.
A LUCKY MAN.
Mr. James Andrews, of No. 10 Marshal Street, Troy, N. Y., had suffered for several years from the formation of Stones in the Kidneys and Bladder, and had tried every form with one of the best Physicians without receiving any benefit. He was induced to try Dr. Kennedy's "Favorite Remedy," and the following extract from Mr. Andrews letter tells the whole story:
TROY, N. Y., April 8th, 1880.
Dr. D. Kennedy, Rondout, N. Y.:
DEAR SIR,—I received your letter to-day, and you are welcome to use any part of my letter as may seem best. I feel that I not used "Favorite Remedy" I should have been a great sufferer to this day. The stone that passed from me has a small piece broken off, but the large one I enclose so that you can see for yourself of what it is composed.
I am quite willing to testify under oath to all I have written in regard to my sickness and recovery, and will do it if necessary. My address is a pledge of gratitude to you for my great deliverance from so terrible a disease.
With a real grateful heart I remain yours most respectfully, JAM S ANDREWS.

RUPTURE
DR. J. A SHERMAN—AND THE ONLY DR. SHERMAN known to the public for the past 35 years or more for his successful method of treating Rupture without the annoyance and injury trusses inflict, may now be consulted weekly at his New York and Boston offices. Dr. Sherman is the discoverer of the only known cure for Rupture by local external treatment.
No man is safe who has a Rupture, no matter how insignificant he may consider it, for every man who has died from it once flattered himself that it was but a trifling affair. Every man who now suffers from it and the injury of trusses, to say nothing of the pain it has no enjoyments, once regarded it as unworthy special attention. It is not a stand-still affliction; it is steadily progressing toward death, and he is wise who takes the necessary steps to be effectually relieved of it before the day of suffering and gloom comes upon him.
Patients from abroad can receive treatment and leave for home same day. During treatment any kind of active exercise or labor can be performed without interfering with the treatment, and with safety from the dangers of strangulated Rupture.
HIS BOOK ON RUPTURE
gives the most reliable proofs from distinguished professional gentlemen, clergymen, and merchants of the successful practice and popularity therefrom throughout this country and the West Indies. The afflicted should read it and inform themselves.
It is illustrated with photographic likenesses of extremely bad cases before and after cure, and mailed to those who send 10 cents. In consequence of the great demand for Dr. Sherman's personal services, he will, till further notice, divide his time between his New York and Boston offices as follows: Saturday, Monday, and Tuesday he may be consulted at his New York office, and Wednesday, Thursday, and Friday, at his Boston office, each week. Remember, in writing or calling, the address is

A discovery which cures by the natural process.

ABSORPTION,

all diseases of the **Kidneys, Bladder, Urinary Organs and Nervous System**, when nothing else can. It is comfortable to the patient, positive in its effects, and the first cure for those painful and much dreaded affections.

Diabetes and Bright's Disease,

while its cures of **Gravel, Dropsy, Catarrh of the Bladder, Brickdust Deposit, Painful Urinating, High-Colored Urine, Nervous Weakness and Pain in the Back** seem more like miracles than cases of natural healing.

DELICATE FEMALES

or victims of wasted or prostrated energies, caused by irregular habits, the abuse of nature and mental or physical over-exertion, find their greatest relief in the use of DAY'S KIDNEY PAD, which strengthens and invigorates the invalid and restores the vigor of health.

PAIN IN THE BACK.

We say positively, and without fear of contradiction, that DAY'S KIDNEY PAD is the only certain and permanent cure for every form of this prevalent and distressing complaint

YOUNG MEN

suffering from nervous and physical debility, loss of memory, or vitality impaired by the errors of youth or to close application to business or work, may be restored and manhood regained.

Avoid all kidney medicines which are taken into the system by way of the stomach; it is an old treatment well tried and proven inefficient, though sometimes effecting apparent cures of one complaint, they sow the seed of more troublesome and permanent disorders. The price of our Pad brings it within the reach of all, and it will annually save many times its cost in doctors bills, medicines and plasters, which at best give but temporary relief. It can be used without fear or harm, and with certainty of a permanent cure. For sale by druggists generally, or sent by mail (free of postage) on receipt of the price. Regular Pad, $2.00; Child's Pad (for incontinence of urine in children), $1.50. Special extra size, $3.00. Our book, "How a Life was Saved," giving a history of this new discovery and a large record of most remarkable cures sent free. Write for it. Address

DAY KIDNEY PAD CO., Toledo, O.

CAUTION. Owing to the many worthless Kidney Pads now seeking a sale on our reputation, we have been compelled to adopt a trade mark. Ask for **DAY'S KIDNEY PAD**, and take no other.

OTHER FELLOWS THINK SO TOO.

There's just one thing a man can have
In all this world of woe and strife,
That makes the business not too hard,
And that one thing's an easy wife.
Dost fancy that I love my girl
For rosy cheeks or raven hair?
She holds my heart because she laughs—
Because she laughs, and doesn't care.

I put my boots just where it suits,
And find them where I put them, too;
That is a thing, you must allow,
A chap can very seldom do.
I leave my papers on my desk;
She never dusts them in a heap,
Or takes to light the kitchen stove
The very one I want to keep.

On winter nights my cosy dame
Will warm her toes before the fire;
She never scolds about the bills,
Or wonders what a tiffin higher.
On Sundays she is not so fine
But what her ruffles I can hug;
I light my pipe just where I please,
And spill the ashes on the rug.

The bed is never filled with "shams"—
A thing some women vilely plan,
To worry servants half to death,
And spoil the temper of a man.
She lets me sleep to any hour,
Nor nagges any horrid din,
If it just happens, now and then,
To be quite late when I come in.

I tell you, Jack, if you would wed,
Just get a girl who lets things run;
She'll keep her temper like a lamb,
And help you on to lots of fun.
Don't look for money, style, or show,
Or blushing beauty, pipe and rare;
Just take the one who laughs at fate—
Who laughs, and shows she doesn't care.

You think, perhaps, our household ways
Are just perchance a little mixed;
Oh, when they get too horrid bad,
We stir about and get things fixed.
What compensation has a man
Who e ns his bread by sweat of brow,
If home is made a battle ground,
And life one long, eternal row.

—A Colorado man who traded liquor to an Indian for a pony, was lynched by his fellow-citizens and the Indian was burned at the stake by his tribe. The white citizens, didn't believe in a man who would pay an Indian for anything he could take by force from the aborigine, and the latter's friends couldn't stand his giving a pony for stuff he might have stolen.

—A young couple in their honeymoon are dallying languidly with the grapes at dessert. She (archly) "And you don't find it tiresome, dear, all alone with me? You are quite, quite sure that you don't wish to go back to your bachelor life again?" He (earnestly)—"Quite, my darling; indeed married life is so awfully jolly that, you know, if you were to die to-night I'd get married again to-morrow."—*New York World.*

—For a durable whitewash, take a barrel and slack a bushel of fresh lime in it, by covering the lime with boiling water. After it is slacked, add cold water enough to bring it to the consistency of good whitewash, then dissolve in water and add one pound of white vitriol (sulphate of zinc) and one quart of fine salt. This makes a whitewash that will stick as well as paint. It owes its durability chiefly to the vitriol, which hardens and fixes the wash.

Dr. Kennedy

would have it understood that, while he is engaged in the introduction of his medicine ("Favorite Remedy") he still continues the practice of his profession, but confines himself exclusively to office practice. He treats all diseases of a chronic character, and performs all the minor and capital operations of Surgery. Parties living at a distance, except in Surgical cases, by sending statement of their case can be treated at home. Address Dr. David Kennedy, Rondout, N. Y. Make no mistakes. The medicine is "Favorite Remedy," and the proprietor's name and address: Dr. David Kennedy, Rondout, N. Y. One dollar a bottle. All your druggists sell it.

Lynchfield Burks was hanged on Friday at Waco, Texas, for assaulting a little girl nine years old, named Sarah McBee. He denied his guilt.

A PUZZLE.—We want you to read this paragraph through, and become impressed by it. We are, however, puzzled to know how to state it. Perhaps the best way will be to come square out with the desired statement: Hunt's Remedy, the great kidney and liver medicine, is entitled to the attention of all sufferers. It cures, and it does not fail. Hunt's Remedy cures Bright's disease, and all diseases of the kidneys, bladder, liver, and urinary organs like magic. Sold by all druggists. Trial size, 75 cents.

Allen Wright was hanged at Dallas, Texas, Friday, for the murder of Jessie Wicks (both colored.) Three thousand people gathered around the scaffold, women predominating.

For those distressing diseases peculiar to women, Day's Kidney Pad is invaluable.

Roland Rucker, who was to have been hanged at Palestine, Texas, Friday, for a double murder, committed suicide in his cell by cutting the arteries of his wrist.

The effects after taking Adamson's Botanic Balsam are a soothing and controlling influence over any cough or cold, promoting rest, allaying the tickling sensation in the throat, and causing a healthy expectoration.

The shifters in the Farmington & Lowell railroad freight yard at Lowell, Mass., Friday, found Thomas Lawler behind a shed with a bullet hole in the head. He was conscious, and said he attempted to take his own life some time during the forenoon, since when he had been lying there awaiting death. The bullet has lodged behind one eye, and he will probably die.

MONDAY, AUGUST 30, 1880.

FOR PRESIDENT.

James A. Carfield,

OF OHIO.

FOR VICE PRESIDENT.

Chester A. Arthur,

OF NEW YORK.

Which of the two is the Liar?

A few days since the editor of the Washington *Post* caused to be given to the public what was claimed to be the substance of a letter from Wade Hampton, in which Hampton said that he "had neither used the words attributed" to him in the report of his Staunton speech, "nor anything approaching them in meaning." The editor of the Staunton *Valley Virginian* wrote a letter to Hampton calling attention to this declaration of the *Post*, and in reply the senator declares that he has addressed no communication of any character whatever to the editor of the *Post!*

This declaration of Hampton's was wholly unlooked for, as Stilson Hutchins, who runs the *Post* in Washington, and the *Union* at Manchester in this state, and who it has been hinted may also run for congress on the democratic ticket in the first New Hampshire district, had previously written a letter to the Springfield, Mass., *Republican*, stating in the most positive terms that he had received from Wade Hampton a letter in which the utterance of the expression attributed to him by the *Virginian* was emphatically denied, and that Hampton expressed himself as discouraged because he was thus misrepresented.

One of the two gentleman tells an able-bodied lie; which one of them is it? Hampton denies having written a letter to Stilson Hutchins on this topic; but Hutchins has not only claimed to have received such a letter, but has generously given to the public several quotations therefrom. This is very sad.

Bad for "Fusion."

Hon. E. H. Gove of Biddeford, chairman of the greenback state committee of Maine, greenback candidate for congress in the first Maine district in 1878, and secretary of state under the Garcelon administration, has written a letter announcing his return to the republican party, as follows:

BIDDEFORD, Aug. 16, 1880.

Gentlemen of the Greenback State Committee; I hereby surrender my membership of your organization, and withdraw. Hereafter, I shall act with the rrpublican party. No one can more sincerely than myself, regret the necessity that compels this step. The original end sought through a new party, was currency reform; its present aim is "to beat the republican party." The first issue called thousands out; the second issue sends them back. Against the will and calmer judgment of true men, the persistent and tireless democracy have dragged the greenback party into this false position. I find it no longer an independent organization. Its forces, as now directed, are one with the "Solid south," a factor in the struggle for democratic supremacy. Of this party Solon Chase says: "They now stand upon the hardest kind of a hard-money platform, and the Bourbon rule in the south, where they have their own way, is a disgrace to the civilization of any country." A "Solid south" is the boast of the northern democrats; it should be their shame and confusion. It is not a community of ideas, begotten of free discussion; it is the harmony of fear, the unity of terroism, cemented in blood. Now we are united by fusion with this criminal and dangerous solid south. The young, pure blood of the greenback party is to be transfused into the frame of the dying desperado. I can see nothing of advancement to greenback principles in this alliance, so fraught with national peril. I believe that the interest and good of the country are best served by the defeat of the democratic party. That I may contribute to that end in the most immediate and direct manner, I go to the republican party. I am, yours,

E. H. GOVE, Chairman.

It is not too much to say that whatever of respectability attached to the greenback party in Maine, was due to Mr. Gove's connection with it, more than to any other one cause; and his withdrawal from and strong arraignment of the fusion scheme is one of the most damaging blows it has yet received.

News and Notes.

There was a fire in the flock-washing room of the Pacific mill at Lawrence, Mass., Saturday, and two men were burned to death.

The jury in the case of Ex-Postmaster R. O. Adams of Deadwood, charged with the embezzlement of nearly $12,000, brought in a verdict of guilty.

A San Francisco despatch says the engagement of Jesse Grant, the youngest son of Gen. Grant, to Lizzie Chapman, daughter of W. S. Chapman, a large California land-holder, is announced. The marriage will take place at the Palace hotel shortly.

A posse of East Providence, R. I., police, made a decent in boats upon oyster thieves in Seekonk river, on the night of Aug. 25th. One boat escaped, and two boats, with five men, were captured after a desperate resistance with pistols, oyster rakes and oars. One officer was shot in the cheek; another ball passed through an officer's hat; and Dr. Small, another of the posse, received a bullet in the right arm. The captured boats had 150 bushels of oysters on board. The prisoners are all well known oystermen.

Gustavus Hall, a nine-years-old deaf and dumb boy, living beside the New Haven & Northampton railroad track at Farmington, Conn., was struck by a train, Aug. 25th, while crossing the track, and instantly killed.

A law of Maine provides that every medical student, before he receives his "M. D.," shall dissect. Another law provides that no bodies shall be dissected except those of executed criminals; and still another law abolishes capital punishment. These three laws, taken together, would seem to abolish "regular" practice in Maine altogether, excepting by doctors educated out of the state.

Near Cochran, Georgia, four young white men, disguised, went to a negro cabin, broke the door down, and commenced firing into the cabin. The occupant, John Brown, seized a double-barrelled gun loaded with buck shot, fired both barrels, and killed two brothers named Dikes. The tops of their heads were blown off. The negro escaped. The coroner's jury rendered a verdict of justifiable homicide.

United States Pension Agent Poole, at Syracuse, N. Y., has caused the arrest of E. A. Waggoner, of Ithaca, on a charge of fraud in securing about $1,500 on a dead man's application.

Germany has definitely abandoned her intention to acquire and colonize the Somoan islands.

The Portland *Advertiser* of Friday last says: "There appears to be an animal of new-fangled species roaming through the forests of Manchester, Kennebec county, terrifying people out of their wits. One morning last week Loring Farr, in a meadow near his house, saw an animal about as large as a sheep run shrieking along, chasing a smaller animal which appeared to escape, when the large animal sprang into a tree, gave a yell and disappeared. Several days afterwards some children out blackberrying saw an animal of ferocious aspect coming towards them. They ran, and the animal chased them but was unable to overtake them. They described it as being the size of a large dog running in a crouching manner. It was of a tawny color with stripes on its sides, and had a long tail. Mr. Richard Dunn, of Hallowell, also saw an animal under his hay-rack and threw a stone at it, upon which it sprang up and chased him into his barn, growling savagely at the same time, afterwards going leisurely off across the field. The creature has been seen by others since, but of what genus the animal is no one has yet discovered."

Democratic Independence.

Some of our democratic contemporaries, that we esteem as highly as they will permit us to do, take umbrage at the wholesome admonition given to them in our last Sunday's leader upon "Partisan Infallibility." They believe their party to be the best, they say, but they deny that, in general, democrats are any more lacking in political independence than are republicans. The truth of history and the facts of the case, taken in connection with our duty as an impartial observer and critic of public affairs, require us to say a good many things that we are quite well aware may not be pleasant reading for those most concerned. But it is the truth, not soothing syrup, that we feel called upon to administer; and the truth is that the democratic organs and voters do follow their leaders like a flock of sheep. On what other ground than a blind and utter subserviency to party can reputable journals out of Maine uphold the shameless fusion cause there? How was it that their organs accepted so slowly the damning facts of the Tammany robberies, and chuckled or were silent for years over the notorious election frauds in New York city, by which the verdict of the state was repeatedly reversed? Why do they resist so strenuously election laws and regulations that never deprived an honest voter of his rights, but have prevented wholesale frauds? Why did they ridicule the violence and injustice practised toward the colored voters at the south in utter mockery of their clap trap resolution that "the right to a free ballot is the right preservative of all rights?" Why are they now silent or brazenly impudent over the gross and glaring election frauds in Alabama, and how long do they suppose this policy of subversion would continue should they denounce it as they ought to do? Why do they flatter and extol Mr. Tilden, the unmasked "reformer," whom they dared not nominate for the presidency which he had the mendacity to try to purchase, but not the courage to claim? The republicans, as we pointed out, have sins to answer for, but none so great as these. They have been known to rebel against bad nominations, and defeat them, as in New York last year. Their press has denounced jobbers in its own party, and declared openly that it would not support objectionable candidates. When have the democrats bolted upon a principle, or proved superior to the declaration of their New York leader, that he would vote for the devil if he received the regular nomination? Do the truly reliable organs suppose that other people have forgotten the irreconcilable conflict between their platforms and candidates in 1864, '68, '72, '76 and '80? The party cannot have been infallible upon all these occasions, and yet it was supported through them all with equal devotion. The thick and thin partisans must not provoke reminiscence and retort. Otherwise their writing sensibilities will be apt to get stepped on.—*Boston Herald.*

Getting to the Back Way.

One summer's day, about one o'clock, a long, gaunt, bony man, with a queer ad mixture of the comical and doleful in his countenance that fairly reminded one of a professional undertaker cracking a dry joke, undertook to reach Gen. Grant's tent by scrambling promiscuously through a hedge-row and coming in the back way alone. He was stopped in his venturesome career, however, by one of the hostlers, who cried out to some purpose, "Keep out o' here!" The individual in black replied that he thought Gen. Grant would allow him inside, and strode ahead. "You'll — soon find out," was yelled in reply. On reaching the guard, who very naturally took him for one of them sanitary or Christian commission folks, he was stopped instanter with:

"No sanitary folks allowed inside."

After some parleying of the usual character, the intruder was compelled, hit or miss, to give his name, and at last did so, announcing himself as—

"Abraham Lincoln, President of the United States, desiring an interview with General Grant."

The guard saluted the commander-in-chief and allowed him to pass.

Gen. Grant recognized him as he stepped under the large "fly" in front of his tent, rose and shook hands with him cordially, and then introduced him to such members of his staff as were psesent and unacquainted. The President had just arrived on the "City of Baltimore," and was accompanied by his son "Tad," Assistant Secretary of the Navy Fox, Mr. Chadick, proprietor of Willard's hotel, and a marine guard. No one relished the little affair with the guard more keenly than the President.—*Manchester Times.*

—She was a four-year-old blonde, generally quiet and tractable, but mamma had provoked her. "I don't love you any more, mamma!" "Very well, dear, you needn't." "Well, I don't love you." "All right, dearie, mamma will try to get along." "Well, I do love you; but I don't feel just like it now."

The Florence Nightingale of the Nursery.

The following is an extract from a letter written to the *German Reformed Messenger*, at Chambersburgh, Penn:—

A BENEFACTRESS.

Just open the door for her, and Mrs. Winslow will prove the American Florence Nightingale of the Nursery. Of this we are so sure, that we will teach our "Susy" to say, "A blessing on Mrs. Winslow" for helping her to survive and escape the griping, colicking, and teething siege. Mrs. Winslow's Soothing Syrup relieves the child from pain, and cures dysentery and diarrhœa. It softens the gums, reduces inflammation, cures wind colic, and carries the infant through the teething period. It performs precisely what it professes to perform, every part of it—nothing less. We have never seen Mrs. Winslow—know her only through the preparation of her "Soothing Syrup for Children Teething." If we had the power we would make her, as she is, a physical saviour to the infant race. Sold by all druggists. 25 cents a bottle. 1

IT MAKES NO DRUNKARDS,

Breaks no Hearts, Excuses no Crimes.

Dr. David Kennedy's FAVORITE REMEDY is not a disguised enemy of the human race; where it cannot help, it does not harm. FAVORITE REMEDY is a combination of vegetable alteratives. It does not heat nor inflame the blood, but cools and purifies it. In all cases of Kidney troubles, Liver complaints, Constipation of the Bowels, and the delicate derangements which afflict women, the action of FAVORITE REMEDY is beyond praise. Thousands of grateful people voluntarily testify to this, in letters to Dr. Kennedy; and with a warmth and fullness of words which mere business documents and certificates never possess. It makes no drunkards—excuses no crimes—breaks no hearts. In its coming there is hope, and in its wings there is healing. We challenge a trial and are confident of the result. Dr. Kennedy would have it understood that, while he is engaged in the introduction of his medicine, "Favorite Remedy," he still continues the practice of his profession, but confines himself exclusively to Office practice. He treats all diseases of a chronic character, and performs all the minor and capital operations of surgery.

AROUND HOME.

The vesper sermon will be resumed at the Unitarian church on the next Sabbath.

The steamer Empire State made a trip from Boston to the Shoals on Sunday, with a large party.

Mr. Morris C. Foye has been commissioned District Deputy Sojourner Regent for Alpha Council, No. 83, Royal Arcanum, of this city.

Eben L. Chapman has been fully committed for examination before the grand jury, on a charge of murdering Charles S. Gotham at Epping.

Rev. Mr. Wilson of Salem, Mass., preached at the Unitarian church on Sunday, and Rev. Mr. Watson of Hartford officiated at St. John's church.

The U S Ship Alliance 3d rate 6 guns of the North Atlantic squadron, Commander Arthur R. Yates commanding arrived from Halifax N. S. in the lower harbor on Sunday morning. The Alliance comes up to the Navy Yard to-day.

Miss Sarah McCredie, a young lady about twenty years of age, daughter of a wealthy citizen of Albany, N. Y., died at the Shoals on Saturday night. Her remains were brought in on Sunday forenoon by steamer, and taken to Boston by a special train shortly after noon.

Mr. Ebenezer Wyatt has resigned his position as sexton of the stone church, wherein he has faithfully served for a continous period of a little less than thirty-five years. The wardens have accepted the resignation, and appointed Mr. Charles H. Hutchins as his successor.

The principal Sunday reading of the democrats was Butler's speech. Butler is regarded by the New Hampshire democracy, with the possible exception of John H. George as a political Jonah, and his accession to the ranks of their party is not hailed with satisfaction, but regarded by them as an evil omen.

The schooner Horatio Nichols, twice wrecked while on her way up river to Exeter, is going to try it again, having loaded with coal at New York for the Exeter Coal Co., who own the vessel. There is water enough in the river for the vessel to go up all right, if she can only be kept in the channel.

Canney, the river-thief, was delivered to Maine officers on Saturday, and by them conveyed to Alfred jail. He sticks to it that all his stealing was done on the Maine side of the river; but the Dover *Republican* says the Hancock & English flag found in his possession, and several suits of clothes, with other articles, were stolen at the residence of Joseph D. Roberts in Rollinsford.

Braham's orchestral band left the Wentworth on Saturday morning, and appeared at the opening of the remodelled Boston Museum on Saturday evening. The museum building was built in 1846, and opened with its first entertainment Nov. 2d of that year. Mr. R. M. Field has been treasurer since 1863; Mr. Wm. Warren has been a member of its company, with the exception of one year, since 1847. The new auditorum is pleasant and commodious. A prominent feature is the placing of arm-chairs in front, which afford the most comfortable means of witnessing the performances ever seen in Boston. Mr. Braham, while at the Wentworth, has made many friends. He is an artist of acknowledged ability; added to this his gentlemanly traits render him popular with all who know him. We hope he will revisit us another season. His concert and ball on Thursday evening were attended by an audience composed of admirers of music, and young persons eager for the dance. The hall serves better for dancing than concertizing. The lights are so badly arranged that persons on the stage are not seen by the audience, except in a shade, while the construction of the hall does not seem favorable to the development of proper acoustic powers. But the social feature of the occasion was greatly enjoyed. There seemed but little interest in the dramatic or musical entertainments, compared with the pleasure of meeting so many in that most admirable place of resort, the Wentworth.

Chas. E. Walker & Co. are putting up a building upon their land corner of State and Water streets, to be used as a coal office.

Schooner yacht Edith, of Boston, Baker master, arrived at this port on Friday evening, and sailed at an early hour on Saturday morning.

There was a slight blaze at the Dover print works on Friday, a wooden ventilator of the machine room taking fire. The fire was easily extinguished, and the damage was trifling.

Mr. Albert Clements, who lives near the site of the old Piscataqua bridge, on the Dover side, while fishing in the river one day last week caught a striped bass weighing forty-five pounds.

Torrent engine company of Newburyport, forty-one men, Frank B. Ives foreman, accompanied by Bailey's band of that city, arrived at Dover on Thursday of last week, on their way to Wolfeborough. They stopped five hours in Dover, and were most cordially received and generously entertained by the fire department of that city. The company remained at Wolfeboro' until Saturday afternoon, when they proceeded home.

The Women's Christian Temperance Union commenced a two day's session at the Hedding camp-ground at East Epping, Friday. The meeting was presided over by Miss Abbie McIntire of Exeter. The speakers at the morning session were Rev. S. L. Eastman of Methuen, Mass., Rev. C. B. Pitblado of this city, Dr. Wallace of Manchester, and Mrs. Larkin of Derby; and at the afternoon session Rev. O. H. Jasper of Nashua, Rev. J. H. Stearns of Epping, and Mrs. Charles Richardson of Amherst.

Elder A. A. Waite's "Glad tidings tent," now pitched in Boston, took fire on Friday evening through the carelessness or incompetence of the watchman in charge; but the fire was soon put out, and the 1000 or more people in the tent when it took fire went out in good order and without harm. Mr. Waite gave his "chalk talk" in Boston Music hall, Sunday evening. Mr. Edwin Merrill of this city had been in charge of the tent for two years, until recently, and during that time no accident ever occurred; but when he retired the vacancy was filled by an inexperienced hand, whose carelessness came near finishing off the tent, if not indeed causing a much worse disaster.

POLICE COURT.

SATURDAY, Aug. 28; *Batchelder, J.*

John Rafferty, for assault on Patrick Moriarty, was fined $3, costs $6.13.

Maud Wilmot, for drunkenness, was fined $3, costs $6.90, which was paid.

ISAAC DOW.

On Thursday, Aug. 5th, while working on the Pickering building on Market street, Mr. Isaac Dow was severely injured by a fall; he has since been confined to his house, suffering much, until death came to his release on Saturday last.

Mr. Dow has always maintained an unblemished reputation, no one possessing the confidence and respect of his associates and acquaintances to a higher degree than he. In Masonry and Odd Fellowship he has long been prominent, and has been many years in positions of trust in the orders. He joined St. John's Lodge of Masons in 1843, and Piscataqua Lodge of Odd Fellows in 1844, and for thirty years or more was treasurer of both organizations; he was also treasurer of the Rockingham Masonic, Rockingham Odd Fellows' and Portsmouth Odd Fellows' relief associations. He was also a member of Washington Chapter of Royal Arch Masons, Davenport Council of Royal and Select Masters, and of the consistory, being a 32d degree member of the Ancient and Accepted Scottish Rite; also of Strawberry Bank Encampment of Odd Fellows, and the Mechanics' Association, having joined the latter organization in 1852.

He leaves a widow, one son and two daughters.

NOTICE. Officers and members of Piscataqua Lodge, No. 6, I. O. O. F., are notified to meet at Odd Fellows' hall this (Monday) afternoon at one o'clock, to attend the funeral of our late Bro. Isaac Dow. W. W. COTTON, *Secretary.*

NAVAL CONFLICT.

The *Times* is indignant at Capt. Harmony, commanding the flagship Tennessee, for not allowing that vessel to come to Portsmouth. It says:

The U. S. S. Tennessee steamed by our harbor, on her way to Boston, a few days ago, and the expectation of our people that she would stop at Portsmouth proved futile. There is a little history connected with this matter which ought to be known.

Some years ago the U. S. S. Plymouth arrived at this place, from the West Indies, infected with yellow fever, and very properly the health officer put the vessel in quarantine. This lawful action of the doctor excited petty wrath of the commander of the war vessel, who swore that never again would ships of "his" be permitted to enter this port. And the result is, that the flag-ship Tennessee passes by and makes no sign.

Now see how time shows how right was the health officer to put the Plymouth in quarantine. Only a few months ago a board of surgeons and officers examined the Plymouth and found her to be in a filthy condition—filled with rotten vegetable matter, beans, etc., between decks, and otherwise fever breeding. And it is the commander of this dirty vessel who now orders "his" ships to pass us by, and who, instead of being court martialed for having the Plymouth in such a fearful condition, is now permitted to wage his own sweet will with a United States flagship, and treat with contempt the people of this city, who suffer both in heart and pocket.

We remember that at the time the health officer of Kittery refused to give permission for the Plymouth to come up to the navy yard, there was a good deal of growling among her officers; and we also remember that later occurrences fully justified the health officer, the yellow fever having broken out on board the Plymouth as soon as she got into warm weather, though she was "disinfected" and "frozen out" after leaving here and before proceeding south.

As to the Tennessee being kept away from this port by her captain, we believe that by the rules of the navy the admiral of the fleet controls the movements of his flagship as to ports to be visited. Admiral Wyman intended that the squadron should rendezvous at Portland, and was asked to allow the Tennessee to come to Portsmouth, but he deemed it best not to risk taking so large a ship into our harbor, although had there been any occasion for the ship coming here beyond an ordinary visit, the case would have been different.

YORK COUNTY ITEMS.

Hon. Jacob H. Ela will address the residents of North Berwick on Tuesday, the 31st inst.

Biddeford has an Irish-American Republican club of sixty members. The movement thoroughly enrages the democratic managers, who have hither to imagined that they had on record a warrantee deed of the entire Irish vote.

On Tuesday morning of last week three women drove up to the stable of Mr. Farnham, near the Boston & Maine railroad station in Kennebunk, and left their horse and top-buggy there "until night," as they said, they being on their way to Old Orchard beach. They did not return, and it is supposed they stole the team thus abandoned.

At the Irving house, Old Orchard, about ten days ago, a Mrs. Clark of Biddeford had $29 stolen from her room. Suspicion fell on a Mrs. Bernstein of Boston, and a search was made, but nothing was found to implicate her. Last Thursday night Mrs. Bernstein's husband, by way of resenting such treatment of his wife, choked Mr. Clark, the husband of the lady who was robbed, in such a manner as to injure him quite severely, and struck Mrs. Clark a heavy blow in the face; he then cleared out, and though hunted all night by an officer could not be found. It is supposed he walked to Biddeford and took the Pullman train for Boston. Mrs. Bernstein and her children left for their home next morning.

Lost—a Bridegroom.

The New York *World* of Aug. 27th contained the following: "Last summer George Willard, of Keene, N. H., employed as a clerk at the Ocean hotel, at Long Branch, made the acquaintance of Miss Millie Stewart, of Oakford Avenue, Troy, N. Y., who with her parents, was spending the summer at Long Branch. The parents noticing the intimacy between the pair, took their daughter home. Willard was again employed as clerk in the hotel this summer, and two weeks ago invited Miss Stewart, with whom he had kept up a correspondence, to make a visit to Long Branch. She accepted the invitation, leaving a note at her home telling her parents she had 'gone to see George,' but without intimating where he was. On her arrival there Willard persuaded Miss Stewart to marry him. To Justice of the Peace Brinley they gave their ages as nineteen and twenty, and he married them. A few days later Willard grew apprehensive, and advised his wife to return to her parents and seek a reconciliation. The young wife left for Troy, with the understanding that if the parents forgave their marriage and consented to receive her husband, she would telegraph. A day or so later the telegram arrived that all was forgiven, but Willard had left the hotel and his whereabouts were unknown. On the 24th Mrs. Stewart arrived here, asking for Willard and enquiring if the marriage was legal. Willard could not be found, but Justice Brinley assured Mrs. Stewart that the marriage was legal. Willard's late associates at the Ocean hotel speak of him in the highest terms, and believe he will return."

—A good word is circulating from the late William M. Hunt. A young man had criticised Millet for choosing "coarse French clodhoppers" as subjects for his paintings. Hunt indignantly replied: "My God, man! what is nobler than a man wrestling and wringing his bread from the stubborn soil by the sweat of his brow and the break of his back, for his wife and children?"

Established 1756.

The Gazette is published every Thursday and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of news, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

—THE—

NEW HAMPSHIRE GAZETTE

Contains more original matter

Than any other paper of its size in the State, the editors working more with their pens than with their scissors.

TO ADVERTISERS

THE N. H. GAZETTE

Presents an excellent opportunity for a weekly invitation to customers, at a reasonable rate, and all those who desire to reach patrons in Rockingham and York counties will find it an economical medium. THE GAZETTE is in many instances the only paper taken by families, and it is read to a large extent in localities whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

WELLS, RICHARDSON & CO., Burlington, Vt.—*Dear Sir*—For years from time to time I have been troubled with lame back and have never been able to get anything that afforded me little if any relief, until I was recommended to use your Kidney-Wort, have used but part of a box and am entirely cured.

Respectfully yours,
DAVID M. HATTEN.

FAYETTEVILLE, TENN., April 30, 1880.

Sirs—My wife has been using your Kidney-Wort for a short time for kidney complaint, and is greatly benefitted thereby. Enclosed find the money for another package.

REV. A. B. COLEMAN.

Rev. W. H. H. Murray is at his farm in Guilford, Conn.

A Free Acknowledgment.

I hereby certify that I habitually use Dr. Kennedy's "Favorite Remedy" in my family in all those cases in which a domestic medicine is needed, and that it has never yet failed to accomplish the purpose desired. We look upon it as an anchor to windward that is sure to hold in every instance mentioned on the doctor's bill of particulars. I make this acknowledgment freely, in hope of doing good to others, feeling that a medicine that is near at hand and to be implicitly trusted, is worth more than it costs.

PERFECTLY SAFE IN THE MOST INEXPERIENCED HANDS!

For Diarrhœa, Dysentery, Cramps, Cholera, AND ALL THOSE NUMEROUS TROUBLES OF THE STOMACH AND BOWELS SO PREVALENT AT THIS SEASON.

No Remedy known to the Medical Profession has been in use so long and with such uniformly satisfactory results as

PERRY DAVIS' VEGETABLE PAIN KILLER.

It has been used with such wonderful success in all parts of the world in the treatment of these difficulties, that it has come to be considered

AN UNFAILING CURE FOR ALL SUMMER COMPLAINTS

and such it really is when taken in time and according to the very plain directions inclosing each bottle.

In such diseases, the attack is usually sudden and frequently very acute; *but with a safe remedy at hand* for immediate use, *there is seldom danger of a fatal result* which so often follows a few days' neglect.

The inclination to wait and see if the morrow does not bring a better feeling, not infrequently occasions a vast amount of needless suffering, and *sometimes costs a life*. A timely dose of Pain Killer will almost invariably save both, and with them the attendant doctor's fee.

It cannot do harm to try, for it never does, and is in all countries and climates, and is perfectly safe in any person's hands.

It is recommended by Physicians, Nurses in Hospitals, and persons of all classes and professions who have had opportunity for observing the wonderful results which have followed its use.

THE BEST EVIDENCE!

I have long used the medicine known as PERRY DAVIS' VEGETABLE PAIN KILLER in my family and would not on any account be without it. When Cholera was bad in Galesburg, I used no medicine of any sort but the Pain Killer, and although myself and several members of my family were attacked severely, I am happy to say that the Pain Killer was equal to every emergency. I consider I should not be doing my duty to the community did I not say this much. If I were attacked by the Cholera to-day, Pain Killer would be the only remedy I should use. I have thoroughly tested it, and know it can relieve and cure.

E. E. BERGINSENG, Galesburg, Illinois.

Messrs. PERRY DAVIS & SON:

I cannot but feel anxious to bear testimony to the great value of your Pain Killer. I have used it in my family for five years, and will not be without it. Feeling myself under much obligation to you, in many times being relieved from pain, I am very truly yours, L. F. MOORE, Bagnall, Belmont Co., New York.

No family can afford to be without it, and its price brings it within the reach of all.

The use of one bottle will go further to convince you of its merits than columns of newspaper advertising. Try it, and you will never be without it.

Price 25c., 50c., and $1.00 per bottle. You can obtain it any drug store or from

THE "WENTWORTH,"

Newcastle, N. H.

This Hotel will open June 26. It has accommodations for 400 guests, and offers *more* attractions for pleasure and comfort than any other seaside resort in the country. Its high situation affords beautiful views, both inland and seaward, its healthful atmosphere, the easy manner in which it can be reached, its advantages for boating, bathing and fishing, excellent drives and attractive walks, all combine to make it one of the most charming places on the coast of New England.

Since last year extensive additions have been made, among them one hundred and fifty sleeping rooms, a spacious Music Hall for dancing, theatricals and concerts, bowling alleys, billiard room, a passenger elevator operated by steam, a large and commodious stable for private carriages, the grounds lighted by the electric light, steam yacht for excursions, &c., &c.

The temperature of the bathing at the "Wentworth" is especially inviting to those unable to endure the shock incident to more exposed localities. An enclosed body of salt water, covering an area of fifty acres, affords a safe and pleasant place for bathing at all times for ladies and children. The drives in the neighboring beaches and other points of attraction in this vicinity are unsurpassed. The verands, fifteen feet in width, surrounding the house, gives an extended promenade of over 1000 feet in length, while the view is unexcelled in beauty and grandeur.

An orchestra of twenty selected musicians, under the direction of Mr. John J. Braham, has been engaged for the season.

The house is furnished throughout in black walnut, has the *best* of beds, its sleeping rooms are of ample size, well ventilated, and from *all* sides of the house affords fine views. The cuisine will be found of an unexceptionable character. The "Wentworth" is situated three miles from Portsmouth, N. H., in the ancient town of Newcastle, and is reached from Boston in two hours' ride over the Eastern Railroad. Address

ISLES OF SHOALS.

Laighton Brothers & Co.

The staunch and reliable steamer APPLEDORE, Capt. Rand, makes two trips each way daily (Sundays excepted) between Portsmouth and the Shoals. Steamer leaves Jones' wharf, near foot of Deer street, at eleven A. M., after arrival of the morning trains from Boston and Concord, and at six P. M. Returning leaves the Islands at seven A. M., arriving at Portsmouth in season to connect with the 8:20 train for Boston, and the trains for the White Mountains via Conway and the Notch, and at 3:30 P. M. in season for the afternoon trains west and north.

☞ Baggage destined for these hotels is transported between the depot railway station and the hotels *free of charge*. The wharf of the steamer is a short distance from the railway station, and there is ample time to walk thither between the arrival of trains and the departure of the boat.

Exhausted vitality, nervous and physical debility, or vitality impaired by the errors of youth or too close application to business, may be restored and manhood regained.

Two hundredth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. Three hundred pages, more than 50 valuable prescriptions for all forms of prevailing disease, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in French cloth; price only $1, sent by mail post-paid.

The London Lancet says: "No person should be without this valuable book. The author is a noble benefactor."

The Tribune says: "The author has had unprecedented success in dealing with nervousness of all kinds and the affections, wholly or due to genital or inherited. He is a Nervo specialist, and therefore knows whereof he writes with such power and ability."

An illustrated sample sent to all on receipt of 6 cents for postage.

The author refers, by permission, to Hon. P. A. BISSELL, M. D., president of the National Medical Association.

Address Dr. W. H. PARKER, No. 4 Bulfinch Street, Boston, Mass. The author may be consulted on all diseases requiring skill and experience. dm&tu&tow16

STONES IN THE KIDNEYS

and BLADDER Expelled—Long Suffering of one of TROY'S best People.

A LUCKY MAN.

Mr. James Andrews, of No. 10 Marshal Street, Troy, N. Y., aged 60, was suffering several years from the formation of Stones in the Kidneys and Bladder, and had doctored with many of the best Physicians without receiving any benefit. He was induced to try Dr. Kennedy's "Favorite Remedy," and the following extract from Mr. Andrews letter tells the whole story.

TROY, N. Y., April 8th, 1880.

Dr. D. Kennedy, Rondout, N. Y.

DEAR SIR,—I received your letter to-day, and you are welcome to use any part of my letter as may seem best. For fifty years I had the "Gravel" and I believe the "Favorite Remedy" I should have been a great sufferer to this day. The stone that passed from me has a small piece broken off, but the most of it is inclosed so that you can see for yourself of what it is composed.

I am quite willing to testify under oath to all I have written in regard to my sickness and recovery, and words fail to fully express my feelings of gratitude for the great deliverance from so terrible a disease.

A grateful and grateful heart I remain yours most respectfully, JAMES ANDREWS.

RUPTURE

DR. J. A SHERMAN—AND THE ONLY DR. SHERMAN known to the public for the past 35 years or more for his successful method of treating Rupture without the annoyance and injury trusses inflict, may now be consulted weekly at his New York and Boston offices. Dr. Sherman is the discoverer of the only known cure for Rupture by local external treatment.

No man is safe who has a Rupture, no matter how insignificant he may consider it, for every man who has died from it once flattered himself that it was but a trifling ailment, and every man who now suffers from it and the injury of trusses, to such an extent that life has no enjoyments, once regarded it as unworthy special attention. It is not a stand-still affliction; it is steadily progressive, even unto death, and he is wise who takes the necessary steps to be effectually relieved of it before the day of suffering and gloom comes upon him.

Patients from abroad can receive treatment and leave for home same day. During treatment any kind of active exercise can be performed without interfering with the treatment, and with safety from the dangers of strangulated Rupture.

HIS BOOK ON RUPTURE

gives the most reliable proofs from distinguished professional gentlemen, clergymen, and merchants of his successful practice and popularity therefrom throughout this country and the West Indies. The afflicted should read it and inform themselves of it.

It is illustrated with photographic likenesses of extremely bad cases before and after cure, and mailed, to those who send for it, 10 cents. In consequence of the great demand for Dr. Sherman's personal services, he will, till further notice, divide his time between his New York and Boston offices as follows: Saturday, Monday, and Tuesday he may be consulted at his New York office, and Wednesday, Thursday, and Friday, at his Boston office, each week. Remember, in writing or calling, the address is

CANTERBURY SHAKERS' LIFE-INVIGORATING SARSAPARILLA.

The Great Blood Purifier, Kidney Remedy and Mild Laxative.

WE, the undersigned, having used DR. COLBETT'S SHAKER SARSAPARILLA SYRUP in our practice, and having examined the formula by which it is prepared, would cheerfully recommend it to the community as the cheapest, safest, and most efficacious of all the preparations of Sarsaparilla in the market. Its highly concentrated state, (there being in a given amount of Syrup twice the amount of Sarsaparilla Extract that any other contains), the care, skill, and cleanliness of its manufacture, are sure guarantees of its purity and effect. T. R. CROSBY, M.D., W. D. BURTON, M. D., S. BURTON, M. D., J. S. ELLIOT, M. D., JAMES BARB, M. D., Z. COLBURN, M. D., M. G. J. TEWKSBURY, M. D., A. G. FRENCH, M. D., JOSIAH CROSBY, M. D., A. G. FRENCH, M. D., JOSIAH CROSBY, M. D., A. G. GALE, M. D., JAMES A. GREGG, M. D.

Those who have failed to be benefitted by other Sarsaparillas should not fail to make a single trial of the Blood Purifying and Life Invigorating Compound of Shaker Sarsaparilla, Dandelion, Yellow Dock, Mandrake, Black Cohosh, Garget, Indian Hemp, and the Berries of Juniper and Cubeb, combined with Iodide of Potassium made by the Society.

Prepared by the CANTERBURY SOCIETY OF SHAKERS, Shaker Village, N. H., and signed by Thos. Corlett, its inventor. Sold everywhere. Inquire for Corbett's Shaker Sarsaparilla.

THE "BOYS IN BLUE"

To all Politically Unaffiliated Veterans, Greeting:

Comrades: The sun as it rises upon the 15th day of September next, will illuminate the twenty-sixth anniversary of the republican party. Upon the approach of this auspicious event, and in view of your present attitude, we trust a few words from your old associates will be received with the same spirit of kindness as that which prompts their utterance.

We are united to support the republican party—the grandest political body the world ever saw; a party whose record will be a watchword for all loyal, Christian men, as long as time shall endure.

In 1879, the republican state committee of Massachusetts epitomized this record in the following eloquent language: "The republican party in twenty-five years has abolished slavery; has subdued a gigantic rebellion; has added to our national family six young states; has enforced apology and reparation from Great Britain; has compelled foreign governments to abandon the doctrine of perpetual allegiance; has preserved the public faith inviolate; has paid seven hundred millions of public debt; has made the national currency equal in value to gold the world over; has re-established and assured the prosperity of labor, commerce, agriculture and manufactures; and has exhibited for a generation in our state a model of wise, honest, humane and economical government."

Comrades, you are of those who were the chief bulwark of this glorious party; and, having done knightly service, are you now content to sit with your hands idly folded while your former companions are enlisted in defence of your children's birth-right? Are you a democrat? will you espouse the democratic cause, right or wrong, merely because you have done so before? Or are you a hero-worshiper, dazzled and deluded by the glamour surrounding a noble name prostituted to an infamous cause? God forbid that any soldier should utter a syllable in disparagement of Gen. Hancock's services in the field; but you will remember, if you have read your Bible diligently, that although the priests of Baal erected an altar, they could call down no fire; and the result, as far as it affected Baal, is already a matter of history.

If you will be a democrat, go your way, and God bless you, all the same; but pardon us if we decline to indorse your consistency.

Are you a greenbacker or a prohibitionist? You know, too well, that a guerilla is entitled to a short shrift. Are you a republican with a grievance, and because of your grievance, do you seriously contemplate going over to the enemy?

Have you informed yourself as to the value the democratic leaders would attach to your defection?

Have you considered the generosity with which they bestow office upon the soldier? A recently compiled record at Washington shows a list of seventy-seven soldiers discharged at the capitol, and their places filled by eighty-eight ex-confederates. Here is the list:

UNION SOLDIERS REMOVED.

List of the names of Union soldiers discharged from the United States Capitol by the democratic officers of the house and senate, since their capture of the houses of congress:—

Henry Sherwood, lost a leg; J. S. Wilson, lower jaw bone shot away; J. T. Miller, Levi Jones, A. T. Sherman, F. A. Wardell, wounded; G. W. Dunn, six months in Andersonville; W. H. Harding, wounded; J. E. W. Thompson, lost a leg; John Seville, J. C. Clark, J. C. Bonebrake, W. G. W. Kirk, wounded; A. A. Legg, B. S. McMichell, wounded, lost an eye; D. A. Brady, wounded; C. F. Bundick, J. J. G. Ball, lost an arm; W. M. Gibson, lost an arm; C. S. Risinger, lost a leg: P. W. Coleman, wounded four times, lost an arm; W. F. Fitch, lost a leg; J. A. Traverce, lost a leg; H. Cliff, lost a leg; Hudson Decker, disabled in both hands; M. J. Bunnell, shot through both lungs; J. B. Eugene, lost an arm; W. Shriver, lost an arm; R. H. Bishop, lost an arm; J. E. Hammond, J. W. Runer, J. Hunter, A. Dole, Willis Springer, W. Hutchinson, J. W. Crouth, A. D. Wood, A. Barnes, Louis Reinburg, H. S. Warton, E. C. Cressey, wounded; William de Pitich, lost a leg; A. H. Remington, John Grady, Harrison S. Linker, D. Small, J. H. Barker, E. H. Brown, J. B. Simmons, H. Lyons, J. K. Mertz, wounded; J. B. Clark, S. S. Blackford, wounded twice, lost an arm; F. A. Wood, C. H. Manning, C. G. Twing, disabled in left arm; G. Breck, D. A. Babcock, lost one eye; G. H. Lillebridge, wounded; R. W. Simmons, disabled; G. J. Ball, E. Town, H. E. Fitz, G. H. Smith, in Libby prison six months; W. E. Creary, wounded; J. W. Simmons, wounded; S. L. Wilson, lost both legs; Charles Bridges, wounded; J. W. Wheelock, Major Banks, C. E. Diemar, wounded five times, lost an arm; J. M. Commons, W. K. Taylor, C. B. Gafney, A. F. Stowe, disabled; C. H. Sewell, wounded.

TUESDAY, AUGUST 31, 1880.

FOR PRESIDENT.

James A. Garfield,

OF OHIO.

FOR VICE PRESIDENT.

Chester A. Arthur,

OF NEW YORK.

The Presidential Canvass.

Some of the democratic papers are not pleased with the manner in which the republicans manage the details of the presidential campaign, and criticise Mr. Jewell, the chairman of the national executive committee. The New York *Herald* just now is telling the democrats that all they have done is to brag as to what they are to do in the way of electing Hancock, to quarrel in New York, and boast without cause, while the republicans have excellent organization. Hancock's chances diminish daily, while Garfield's have improved since his nomination. The democratic papers make a showing of recording the accession to their ranks of an occasional disappointed sorehead, who, tired of waiting for an office under the republicans, "comes out" for Hancock and the chances of reward. The democratic papers may keep up their boasting. The republicans do not stop to contradict tis. But any disinterested looker-on in the canvass will see that the popular tide is for Garfield. The early elections will show this. The hesitating men will descend from the fence, and enter the republican lines; and the people at large will feel, ere long, as well assured of the election of the republican candidates, as is now that element of far-seeing, shrewd, controlling business influence which decided the question weeks ago.

News and Notes.

Dr. Charles T. Jackson, who disputed with Prof. Morse the honor of inventing the electric telegraph, and was also one of the claimants for the honor of the discovery of anesthetics—to both which honors he had a strong claim—died in Boston on Sunday, aged seventy-five years.

John Shynick, William Meagher, John McNamara, Timothy Dolan and Patrick Ryan, between fifteen and seventeen years of age, belonging in Lowell, Mass., were swept from the top of an excursion train on which they were stealing a ride by a bridge about two miles from Lowell, Saturday night, and all killed.

Richard Bross, colored, was murdered by a white man named John Orr at Chicago, Aug. 28th.

At Maysville, Ohio, Aug. 27th, John Yates, colored, was murdered by James Hasson, white.

Green Ellis, colored, convicted of robbing Mrs. Duncan, and leaving her for dead, at Guthrie, Ky., was taken from the officers by a mob, Thursday night, and hanged.

Charles H. Hirschman, nineteen, shot and instantly killed his step-father, Michael Boylston, at Chicago, Aug. 28th. Boylston was drunk, and abusing the murderer's mother.

The death of the Ute chief Ouray is announced.

New Hampshire Items.

A number of persons attending the Free Baptist quarterly meeting at East Weare, last Thursday, who dined at the house of George F. Daniells, were poisoned, it is supposed from Paris green used on potato fields to kill bugs. Mr. Daniells is not expected to recover.

At auction in Boston, on Saturday, $1000 in New Hampshire six per cent bonds, due in 1892, sold at 117 1-2, and $500, due in 1900, at 121 3-4.

Naval Gazette.

Capt. Belknap, in charge of the Pensacola navy yard, is to be relieved by Commodore R. B. Lowry.

Commodore English, chief of the bureau of yards and docks, has left Washington for the Charlestown navy yard, to investigate the recent fire at that yard.

Political Notes.

The official returns of Alabama show a democratic majority of 92,000. In 1876 Mr. Tilden's entire vote was only 102,000. The "boys" have overdone the matter.

Twenty-seven members of a republican procession in Lewiston, Me., on Thursday evening last, were cut or bruised by stones thrown by democratic roughs.

Ex-President Grant made a speech at Chicago, Aug. 28th, pledging his vote for Garfield and Arthur.

At the time of the grand Hancock & English ratification meeting in Washington, D. C., some time ago, a regulation confederate "stars and bars" flag was displayed, bearing the names of the democratic nominees in large black letters. It was still flying on Monday last, notwithstanding the suggestions of leading democrats that it was "injudicious" to keep it up.

The democratic press will not call Gen. Benjamin F. Butler of Massachusetts "Beast Butler" any more, nor talk in an objectionable way about "spoon thieves," etc., Gen. Butler having gone over to their camp, bag and baggage, from the half-way house where he has been stopping for several years. He made a speech in Faneuil hall, Saturday evening, and the old "cradle of liberty" was packed to hear him, of course. We wish the democratic party much joy of this latest acquisition.

Wicked for Clergymen.

Rev. ——, Washington, D. C., writes: "I believe it to be all wrong and even wicked for clergymen or other public men to be led into giving testimonials to quack doctors or vile stuffs called medicines, but when a really meritorious article made of valuable remedies known to all, that all physicians use and trust daily we should freely commend it. I therefore cheerfully and heartily commend Hop Bitters for the good they have done me and my friends, firmly believing they have no equal for family use. I will not be without them."—*N. Y. Baptist Weekly.*

—A Michigan deacon has been found "guilty of indiscretion" by a committee, because he kissed a young lady under an umbrella. As he didn't take pains to hold the umbrella so that his wife couldn't see him, we think the committee correct.

Fickle in appetite, irresolute in mind, and subject to melancholy, try Malt Bitters.

with SOZODONT when they become spongy or detached from the necks of the teeth. Let them bleed freely and so recover their tone and health. This SOZODONT is the best remedial agent for diseased gums and teeth. Try and learn.

COUGHS.—"*Brown's Bronchial Troches*" are used with advantage to alleviate Coughs, Sore Throat, Hoarseness and Bronchial Affections. For thirty years these Troches have been in use, with annually increasing favor. They are not new and untried, but, having been tested by wide and constant use for nearly an entire generation, they have attained well-merited rank among the few staple remedies of the age.

THE THROAT.—"*Brown's Bronchial Troches*" act directly on the organs of the voice. They have an extraordinary effect in all disorders of the Throat and Larynx, restoring a healthy tone when relaxed, either from cold or over-exertion of the voice, and produce a clear and distinct enunciation. *Speakers and Singers* find the Troches useful.

A COUGH, COLD, CATARRH OR SORE THROAT requires immediate attention, as neglect often times results in some incurable Lung Disease. "*Brown's Bronchial Troches*" will almost invariably give relief. Imitations are offered for sale, many of which are injurious. The genuine "*Brown's Bronchial Troches*" are sold *only in boxes.* Tu,th&f,&w

IT MAKES NO DRUNKARDS,

Breaks no Hearts, Excuses no Crimes.

Dr. David Kennedy's FAVORITE REMEDY is not a disguised enemy of the human race; where it cannot help, it does not harm. FAVORITE REMEDY is a combination of vegetable alteratives. It does not heat nor inflame the blood, but cools and purifies it. In all cases of Kidney troubles, Liver complaints, Constipation of the Bowels, and the delicate derangements which afflict women, the action of FAVORITE REMEDY is beyond praise. Thousands of grateful people voluntarily testify to this, in letters to Dr. Kennedy; and with a warmth and fulness of words which mere business documents and certificates never possess. It makes no drunkards—excuses no crimes—breaks no hearts. In its coming there is hope, and in its wings there is healing. We challenge a trial and are confident of the result. Dr. Kennedy would have it understood that, while he is engaged in the introduction of his medicine, "Favorite Remedy," he still continues the practice of his profession, but confines himself exclusively to *Office* practice. He treats all diseases of a chronic character, and performs all the minor and capital operations of surgery.

AROUND HOME.

The U. S. S. Alliance came up to the navy yard from the lower harbor on Monday.

The steamer Appledore brought in over one hundred and twenty-five passengers from the Shoals on Monday.

The gross earnings of the Eastern railroad were $34,209 more in the month of July this year than in the corresponding month of 1879.

The United States training ship Portsmouth went down the river from the navy yard, Monday, in tow of the steamer Clara Bateman. The Portsmouth is bound to Newport, R. I.

The Farragut house tally-ho coach brought a large number of passengers to town on Monday afternoon. The juveniles who in a great degree made up the company sought Robeck's as naturally as do visitors of more mature years, and "took a horn" before going in as readily as their elders.

The British schooner Riverside, Brewer master, bound from Boston for Nova Scotia, put into Portsmouth lower harbor on Friday night in distress, having been run into by an unknown schooner at about seven o'clock Friday evening, when seven miles off Cape Ann, and had her mainsail torn, port main rigging and fortopmast backstay carried away, port quarter damaged, and other slight injuries done.

Mr. Burnham Wardwell's lecture on prison reform, at the Unitarian chapel, Sunday evening, was not so largely attended as was anticipated, the weather no doubt keeping many persons away. The lecture was well worthy attention, and it is to be regretted that so few were present. Mr. Wardwell comes recommended by Wendell Phillips, Rev. E. E. Hall, and other prominent men. By request he will speak in Bow mission hall this (Tuesday) evening at 7:45 o'clock, on the "New Hampshire state prison, and the first wrong step."

HOMEWARD BOUND.

The exodus of summer visitors from the Wentworth, and from Rye and York, was quite observable on Monday. The stages were filled with passengers, and the racks swayed with the heavy trunks of the returning sojourners. Indeed, soon

"The melancholy days will come, the saddest of the year,
When banged-tailed horses in our streets no longer will appear."

We shall miss the numerous strangers within our gates, the turnouts which graced our thoroughfares, the ladies who came to town just for a drive and to do a little shopping, and the gentlemen of leisure who had time and prosessed the taste to admire the beauties of the country round about Portsmouth, and did not hesitate to express it. Indeed, we are sorry to speed the parting guests, but we submit to the inevitable in the hope that another season will bring them in increased numbers.

The season at the Wentworth has been musually attractive; the house has been filled constantly. At the Farragut, and at the boarding places at Rye beach and Little Boar's Head, visitors came earlier and remained more continuously than ever before. York has had an increased number of people at her beaches; the Marshall house has been filled since early in July. The Pepperell house at Kittery has been full since the first at August, and with a steam ferry, and a proper landing near the house, another season will probably witness an earlier influx of visitors. The Ocean Wave of Rye has had many visitors from Concord and interior towns; it is finely situated and easily reached, and only needs to be properly advertised to be brought to the notice of the people who come to Portsmouth to look for a summer stay, and who seek information upon these points after reaching the city.

BOW MISSION SERVICES.

The women's gospel temperance meeting, Saturday evening, was in charge of Mrs. Loyne. Mr. Burnham Wardwell, "the prisoner's friend," by request addressed the meeting, and was followed by several young seamen from the U. S. S. Portsmouth. At the close of the service three sailors signed the pledge.

The bethel service, Sunday afternoon, was held in the mission hall, and was in charge of Mr. James Janvrin. The 13th chapter of 1st Corinthians was the theme, viz., "charity." Mr. Janvrin made some excellent remarks, and was followed by Mr. Wardwell and several others, the meeting being a very impressive one.

The reform club had an interesting social service and large audience, Sunday evening. President Sanborn again complimented the city fathers for the quiet and good order that prevailed throughout the city on Sunday, and hoped they would continue to keep a sharp lookout. Rev. C. B. Pitblado and several others, including Mr. Wardwell, addressed the meeting. It was expected that a division of seamen from the training ship Portsmouth would be present, but this was prevented by the orders for the ship to sail on Monday. It really looks as though the reform club had brighter days in store; and as we have often in the past invited the hearty co-operation of friends of the cause, so do we now invite them—especially the ladies—to come forward and help the work as is being done in many other places. In this connection we desire to mention the kind and encouraging words spoken to the reformed men at mission hall by Rev. Mrs. Nowell, a native of this city but now of Albany, N. Y., wife of a prominent Unitarian clergyman of that place, also a native of this city. Mrs. Nowell is doing a noble work among the intemperate and fallen in Albany; and surely there is enough to do here to employ all who are willing to aid. The work needs friends of influence and means; come and help us. L.

THE ELDREDGE BREWING COMPANY.

Portsmouth ale has long since achieved a repute in the market, which has given it among dealers a name, as have the ales of Albany and Poughkeepsie or the lager of Milwaukee. Whatever results may have followed other undertakings in Portsmouth, the brewing of ale may be regarded as one of the branches of business which has proved remunerative to its projectors.

Some time since the Eldredge Brewing company, whose ale had been upon the market in many eastern cities, decided to enlarge their works and also engage in the brewing of lager beer. The great demand for lager, especially in the summer season, and the opportunity to successfully compete with similar establishments at a distance, seemed to warrant the belief that the outlay required for the new enterprise would be judiciously expended. The result was the construction of the large vaults and additions to the brewery of this company, situated on the north side of the line of the Eastern railroad in this city.

The process of producing lager, though similar in some respects, yet is distinct from ale brewing, and like the production of ale requires much care to place upon the market an article which will suit buyers. The lager beer manufacturers of the country were producing an excellent article, and no beer inferior in quality could be expected to find buyers. It became necessary to at once place upon the market a beverage second to none. To accomplish this result, two measures were necessary: one, the adoption of the latest and best facilities, and the other, the engagement of a competent and experienced brewer. In both of these the Eldredge Brewing Co. have been successful. The additions to their works have been made upon a liberal scale, with especial reference to neatness, economy in handling and convenience in production, while the services of Mr. John Erb, a native of Frankfort-on-the-Main in Germany, whose experience as a brewer of beer in Frankfort and other cities of the fatherland enabled him to abundantly demonstrate his ability in this direction. The result has been a steady increase of orders, until the lager department is run to its full capacity. Mr. Erb's earlier experience in brewing in this country was in one of the largest lager beer breweries in New York, and also in Philadelphia.

The brewing of lager, while in its ingredients it is similar to ale, being composed of water, malt and hops, requires much more time in its perfecting process. The lager is cooled to forty degrees of temperature; and remains, before being placed in kegs, etc., fifteen days in the tun room, and for a month after in the store room, while ale (called present use ale) is ready for market in a very few days after its brew. Lager must be speedily used after the kegs are opened. It is put up in half and quarter barrels, and shipped by rail from the brewery to different cities in Massachusetts, New Hampshire and Vermont. The company have especial refrigerator cars on the Eastern railroad, used exclusively for transportation of their lager upon the line of the Eastern and branches, and connecting roads. The lager, as also the ale, is loaded into cars coming by side tracks to the brewery, whence it is taken by steam power and placed in the cars.

One secret of the excellence of this lager is its purity. Its ingredients are of the best material in the market, added to water supplied by the Portsmouth Aqueduct Co. It is a well established fact that the best drinking water makes the best ale and lager, and the water furnished by our aqueduct is acknowledged to be pre-eminently pure and palatable, because it bubbles from a spring at the fountain head, and unlike the water supplied in larger cities has no impurities of any kind.

Over a hundred barrels are produced at each brewing, and the quality of the beer is such that it is sought for by dealers to such a extent that the company has always orders far ahead of its ability to supply its customers. Just now an extensive enlargement of the pond west of the brewery is being made to obtain the winter ice supply, as the consumption of ice here is almost incredible. The company will at once proceed to erect a new ice house upon their grounds. All the precautions observed in ale breweries, as to cleanliness in vats and receptacles for ale, are strictly observed in the production of lager; and as we quaff the foamy beaker we feel a far greater confidence in its purity than we are able to have in much of the tea and coffee that is found in the market, while its nutritious qualities are a strong inducement to use it as a beverage, rather than the many alcoholic drinks whose more exciting and injurious effects are seen when we examine the statistics of nations which make use of these different fluids.

A GOOD CATCH.

On Tuesday of last week Mr. Joseph H. Gray, of Boston, with his family, left the Isles of Shoals for home, and on his arrival there discovered that two large trunks filled with women's wearing apparel and jewelry had failed to arrive at their destination, though they had been checked through to Boston via the Eastern railroad. Mr. Gray at once notified the railroad officials of his loss, and they informed the police authorities.

The reason the trunks did not reach Boston was that they had been stolen by one Daniel Donovan, alias John Welch, alias John Sullivan, a resident of the Bunker Hill district of Boston, who having in some way possessed himself of some baggage checks for Salem, substituted them for the Boston checks on the trunks, either on board the steamer coming from the Shoals, or at the depot in this city. The trunks were of course put off at Salem, and Donovan took them to the Central house in that city, where he forced them open and inspected their contents. Leaving Salem with his plunder he went to several other places, and finally brought up with it at his home in Charlestown.

District Officer William Hill, of Salem, learning that Donovan, whom he knew to be a bad character, had stopped at the Central house with two trunks, which the officer believed were stolen, and which Donavan checked to Chelsea on Wednesday evening, telegraphed to Sheriff Kent to learn if any trunks were missing from this city; he also notified Capt. James P. Wade of the Massachusetts district police, who traced the trunks to Chelsea, Somerville and Charlestown; and early Saturday morning the baggage master of the Eastern railroad in Boston gave the officers information that the stolen property was at No. 1 Thorndike street, Charlestown, where it was found, and Donovan arrested. The thief has been identified as having committed numerous burglaries in and near Lawrence, Mass., recently.

Among the property in the trunks were silk, satin and camel's hair dresses, camel's hair and chudda shawls, mosaic lockets, valuable jewelry, and, in fact, a complete outfit for a lady, the value of the whole being $1500. Mr. Gray gave a considerable amount of time and money in looking up his lost goods, and was ably and successfully aided by Sheriff Kent in at last "placing" the stolen trunks.

YORK COUNTY ITEMS.

Capt. William P. Locke of Kittery took command of the steamer James Sampson on Monday.

The next meeting of the York County Baptist Association will be held with the Baptist church of North Berwick, Sept. 8th and 9th.

Measures have been taken to form an association of surviving soldiers of the late war, residing in York county, to be called the York County Union Veterans. There is nothing political in the movement, and all veterans, regardless of political affiliations, are invited to meet at Odd Orchard on the 22d of September, to effect a permanent organization.

Senator Hamlin of Maine, and wife, are spending a few days in Kittery as the guests of Dr. M. F. Wentworth. On Monday the doctor took his distinguished guests, with a party of his friends and neighbors, to the Shoals in the steamer Mystic. The party dined at the Oceanic, and after a visit to Appledore returned to Kittery, making the trip from wharf to wharf in one hour and six minutes.

At a political meeting in Buckfield, last week, Hon. Profanity Fogg, perhaps the most notorious of the Garcelon gang of state-stealers, referring to Hon. Edward C. Moody of York, also an ex-member of Garcelon's council, declared that Mr. Moody was "a drunken fellow, bought up by Hale's committee." Mr. Moody no doubt consoles himself by reflecting that the only way in which Fogg can injure a man's reputation is by praising him.

On Tuesday of last week Mrs. G. W. Carleton, who had been stopping at Gorgeana cottage, York, hired a horse and carriage of John F. Laddifor the day. Not returning at night as she agreed to do, some inquiries were made which resulted in the conviction that all was not right. Search being instituted, no trace of team or driver was to be found. Two large trunks, supposed to contain clothing and other articles of value, still remain at the house awaiting developments.

Mr. Theodore Keen's new steamer, the Fearless, designed to run between this city and Kittery Point, has had a cabin housed in to make the boat more comfortable in the winter months. The establishing of a ferry to Kittery Point will be the means of adding largely to the number of visitors to that beautiful region, a locality abounding in pleasant resorts, attractive walks and pure sea air. A reliable steamer will afford our people and visitors to our city an opportunity for excursions to the point, and will facilitate the business communication between that part of Kittery and this city. The steamer is of good size, and will be run under Mr. Keen's direction to connect with the railroad trains, thus saving to summer visitors and others much time now expended in the slow transit to the locality once famous as the home of Sir William Pepperell. The Fearless made her first regular trip on this route on Monday. The stage line we are informed will be maintained, as formerly.

A house in Kittery, owned by a Mr. Tobey and occupied by Mr. Charles Dunn, was burned at about two o'clock Monday morning, together with its entire contents; total loss about $2500. The furniture was insured to the amount of $800 in the Connecticut Fire Ins. Co. of Hartford, Conn.; the house was insured to the amount of $1200, at Sise's agency. Mr. Dunn, who is a cripple and was alone in the house, was awakened by the smoke, and grasping his wooden leg and the clothing he had laid aside on retiring, groped his way to a window, tumbling over a stove in so doing, opened the window, and threw out his wooden leg and clothing, and then himself, fortunately landing without injury. He lost $105 in notes, and two watches, which were in a trunk in his room. The only things saved were the front steps of the house, and a mosquito screen for a window. The navy yard steam fire engine Cataract was promptly on hand, laid about 1800 feet of hose, and saved the neighboring buildings from taking fire.

Self-interest, therefore, would forbid such a transfer of political allegiance, for you would gain only the eternal distrust of your former friends, and the outspoken contempt of the party you stooped so humbly to serve.

We may have grievances, like your own; but we are republicans from principle, and shall settle all difficulties within the party.

The present is your opportunity. Avail yourself of it. The close of the war left us all upon the same level. From that time we take a new departure; the battle-field is, Politics. You have, therefore, no claim upon us, if you refuse to acknowledge ours. A union veteran without political convictions is an anomaly, an emasculated hero, good for nothing. A democrat is, at least, an acknowledged enemy, and as such, entitled to some respect; but the beggarly campfollowers in the guise of "prohibitionists" and "greenbackers" are but a type of the men who infested the back of the sutler's tent, and scoured broken camps in search of delicate bits of garbage which even the crows disdained. Ugh!

If you believe "a change of administration is necessary," review the acts of the present congress, and tell us how, you like a partial change.

Do not imagine that this "change" is to be fully consummated; for there yet remains in the north a loyal manhood sufficient to prevent a surrender of the country to a party whose name has been a synonym for blundering and corruption, from the day when it tempted the Saviour of mankind with offers of unlimited real-estate which it did not possess, down to the date of its infamous trade with the south, under the administration of the "superb," "aristocratic" "gentleman of the old school" who cumbered the presidential chair in 1860, and who sealed the compact in the blood of your comrades at the behest of the same gang of traitors who to-day "roar you as gently as a sucking dove."

Cured of Drinking.

"A young friend of mine was cured of an insatiable thirst for liquor, which had so prostrated him that he was unable to do any business. He was entirely cured by the use of Hop Bitters. It allayed all that burning thirst; took away the appetite for liquor; made his nerves steady, and he has remained a sober and steady man for more than two years, and has no desire to return to his cups. I know of a number of others that have been cured of drinking by it."—From a leading R. R. Official, Chicago, Ill.—*Times.*

PERFECTLY SAFE IN THE MOST INEXPERIENCED HANDS!

FOR Diarrhœa, Dysentery, Cramps, Cholera, AND ALL THOSE NUMEROUS TROUBLES OF THE STOMACH AND BOWELS SO PREVALENT AT THIS SEASON.

No Remedy known to the Medical Profession has been in use so long and with such uniformly satisfactory results as

PERRY DAVIS' VEGETABLE PAIN KILLER.

It has been used with such wonderful success in all parts of the world in the treatment of these difficulties, that it has come to be considered

AN UNFAILING CURE FOR ALL SUMMER COMPLAINTS

and such it really is when taken in time and according to the very plain directions inclosing each bottle.

In such diseases, the attack is usually sudden and frequently very acute; *but with a safe remedy at hand for immediate use, there is seldom danger of its fatal result* which so often follows a few days' neglect.

The inclination to wait and see if the morrow does not bring a better feeling, not infrequently occasions a vast amount of needless suffering, and *sometimes costs a life.* A timely dose of Pain Killer will almost invariably save both, and with them the attendant doctor's fee.

It has stood the test of forty years, and deservedly has gained a place in all countries and climates, and is perfectly safe in any person's hands.

It is recommended by Physicians, Nurses in Hospitals, and persons of all classes and professions who have had opportunity for observing the wonderful results which have always followed its use.

THE BEST EVIDENCE:

I have long used the medicine known as PERRY DAVIS' VEGETABLE PAIN KILLER in my family and would not on any account be without it. When Cholera was last epidemic here, I used no medicine of any sort but the Pain Killer, and although myself and several members of my family were attacked severely, I am happy to say that the Pain Killer was equal to every emergency. I consider I should not be doing my duty to the community did I not say this much. If I were attacked by the Cholera to-day, Pain Killer would be the only remedy I should use. I have thoroughly tested it, and know it can be relied on.

E. E. BERGINSENI,
Galena, Illinois.

Messrs. PERRY DAVIS & SON:

I know you need no testimonial to convince you that your medicine is all that you claim for it, but I cannot restrain the impulse to communicate to you the fact that in my family it has truly done wonders. I administer it to my children (one eighteen months, and the other three years old) with perfect success, it regulates their bowels, and stops all diarrhœa. Myself and wife report it in all cases, both for internal and external use. I've used it in my family forty-five years, and *will not be without it.* Feeling myself under much obligation to you, in many cases being relieved from pain, I am very truly yours,

L. F. MOORE,
Sharpsburg, Dutchess Co., New York.

No family can afford to be without it, and its price brings it within the reach of all.

The use of one bottle will go further to convince you of its merits than columns of newspaper advertising. Try it, and you will never do without it.

Price 25c., 50c., and $1.00 per bottle. You can obtain it any drug store or from

THE "WENTWORTH,"

Newcastle, N. H.

This Hotel will open June 26. It has accommodations for 400 guests, and offers more attractions for pleasure and comfort than any other seaside resort in the country. Its high situation affords beautiful views, both inland and seaward, its healthful atmosphere, the easy manner in which it can be reached, its advantages for boating, bathing and fishing, excellent drives and attractive walks, all combine to make it one of the most charming places on the coast of New England.

Since last year extensive additions have been made, among them one hundred and fifty sleeping rooms, a spacious Music Hall for dancing, theatrical and concerts, bowling alleys, billiard room, a passenger elevator operated by steam, a large and commodious stable for private equipage, the grounds lighted by the electric light, steam yacht for excursions, &c., &c.

The temperature of the bathing at the "Wentworth" is especially inviting to those unable to endure the shock incident to more exposed localities. An enclosed body of salt water, covering an area of fifty acres, affords a safe and pleasant place for boating at all times for ladies and children. The drives to the neighboring beaches and other points of attraction in this vicinity are unsurpassed. The veranda, fifteen feet in width, surrounding the house gives an extended promenade or over 1000 feet in length, while the view is unexcelled in beauty and grandeur.

An orchestra of twenty selected musicians, under the direction of Mr. John J. Braham, has been engaged for the season.

The house is furnished throughout in black walnut, has the *best* of beds, its sleeping rooms are of ample size, well ventilated, and from *all* sides of the house afford fine views. Its *cuisine* will be found of an unexceptionable character. The "Wentworth" is situated three miles from Portsmouth, N. H., in the ancient town of Newcastle, and is reached from Boston in two hours' ride over the Eastern Railroad. Address

KNOW THYSELF.

The untold miseries that result from indiscretions in early life may be alleviated and cured. Those who doubt this assertion should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE, or SELF-PRESERVATION.

Exhausted vitality, nervous and physical debility, or vitality impaired by the errors of youth or the close application to business, may be restored and manhood regained.

Two hundredth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. Three hundred pages, more than 50 valuable prescriptions for all forms of prevailing disease, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in French cloth; price only $1, sent by mail postpaid.

The London Lancet says: "No person should be without this valuable book. The author is a noble benefactor."

The Tribune says: "The author has had unprecedented success in dealing with nervousness of all kinds and its affections, when due to pernicious habits or inherited. He is a nervous specialist, and therefore knows whereof he writes with such power and ability."

An illustrated sample sent to all on receipt of 6 cents for postage.

STONES IN THE KIDNEYS and BLADDER Expelled—Long Suffering of one of TROY'S best People.

A LUCKY MAN.

Mr. James Andrews, of No. 10 Marshal Street, Troy, N. Y., had suffered for several years from the formation of Stones in the Kidneys and Bladder, and had doctored with many of the best Physicians without receiving any benefit. He was induced to try Dr. Kennedy's "Favorite Remedy," and the following from his father and Mr. Andrews letter tells the whole story.

TROY, N. Y., April 8th, 1880.

Dr. D. Kennedy, Rondout, N. Y.:

DEAR SIR,—I received you letter to-day, and you are welcome to use any part of my letter as may seem best. Had I not used the "Favorite Remedy" I should have been a great sufferer to this day. The stone that passed from me has a small piece broken off, but the large one I enclose so that you can see for yourself of what it is composed.

I am quite willing to testify under oath to all I have written in regard to my sickness and recovery, and words fail to fully express my feelings of gratitude to you for my great deliverance from so terrible a disease.

With a real grateful heart I remain yours most respectfully, JAM S ANDREWS.

RUPTURE

DR. J. A. SHERMAN—AND THE ONLY DR. SHERMAN known to the public for the past 35 years or more for his successful method of treating Rupture without the annoyance and injury trusses inflict, may now be consulted weekly at his New York and Boston offices. Dr. Sherman is the discoverer of the only known cure for Rupture by local external treatment.

No man is safe who has a Rupture, no matter how insignificant he may consider it, for every man who has died from it once flattered himself that it was but a trifling ailment, and every man who now suffers from it, after the injury of a trusser, to such an extent that life has no enjoyments, once regarded it as unworthy special attention. It is not a stand-still affection; it is steadily progressive, even unto death, and he is wise who takes the necessary steps to be effectually relieved of it before the day of suffering and gloom comes upon him.

Patients from abroad can receive treatment and leave for home same day. During treatment any kind of active exercise or labor can be performed without interfering with the treatment, and with safety from the dangers of strangulated Rupture.

HIS BOOK ON RUPTURE

gives the most reliable proofs from distinguished professional gentlemen, clergymen, and merchants of his successful practice and popularity throughout the United States and the West Indies. The afflicted should read it and inform themselves.

It is illustrated with photographic likenesses of extremely bad cases before and after cure, and mailed to those who send 10 cents. In consequence of the great demand upon his time for personal services, he will, till further notice, divide his time between his New York and Boston offices as follows: Saturday, Monday, and Tuesday he may be consulted at his New York office, and Wednesday, Thursday, and Friday, at his Boston office, each week. Our New York Fashion Letter.

THE PLAIDS OF THE DAY.

The gingham epidemic on which I had occasion to remark in my Saratoga letter, has spread. It can hardly be said that woolens have become ginghams, but certain it is that the gingham patterns are transferred to wool materials, and this with all their most exaggerated features. Bold handkerchief designs, taking up squares more than a yard in dimensions, will be common sights, and at times the colors are very gay. Yet not always, for there are sober mixtures for the benefit of quiet people. From thence in a descending scale, we find plaids of all degrees down to small checks, the least obtrusive of which are indistinct in color, and with slightly rough surface are called cheviots. But it would be a grievous error to imagine the new plaids as in any wise resembling the Scotch or Tartan. There is a mighty difference, and it is in point of color, where novel shades of plum, bronze, olive, marine and turquoise blue, garnet and gold, have taken the place of the more familiar Scotch ideas. Other new all wool goods are in solid shades of plum, bronze, garnet, blue or green, and are bordered either side; one border rather narrow to be used on the corsage; the other, wide for the skirt of the costume. Many of these borders are plaids, but some are stripes, and they vary from large to small and from the most gayly colored to such as are very grave. Handsome goods show self colored borders, and not a few of these are in floral patterns. Polonaises will still be fashionable, and here the Amandine can be mentioned as dressy and stylish. The Gilda costume is composed of a cuirass basque having skirts attached, which give it the effect of a polonaise with pointed apron; the Elgiva costume is made with a coat, having long cut-away points, and in the way of a new basque the Clorinde can be recommended.

THE NEW BONNET.

Oftentimes the new hat is alarming in size. Large frames are made to look larger still by coverings of plush, and as if this were not enough, we see formidable additions of prolonged ostrich feathers, both on the outside and also below the wide brim flaring on one side. Feather bands are likewise popular, as also birds' heads and breasts, and these, as will be readily perceived, are not likely to make a hat look either smaller or lighter. Flowers are almost ignored. Some of our best milliners declare they will not use them at all, and where seen they are extremely heavy—close buds with thick velvet leaves. Plush is *the* material of the day in millinery. Velvet will be used to a certain extent, and at times is combined with plush, but for one hat or bonnet of anything else, we shall see at least twenty made wholly of plush. Therefore it is brought out in all colors to match dress goods, silks and velvets, and in white and pale shades for evening, and dress receptions. Yet do not fancy us all wearing something tremendous on our heads. "Woman's right" was never better exemplified than just here. We are going to do just as we please, and if anybody wants something small, it can be found. All sizes are brought out, but as a rule, the bonnets are small and the hats large, while even the turban and other round shapes which are generally small have increased considerably in dimensions.

VELVET AND PLUSH.

The richest fall fabrics are velvet brocades. Plain velvet, in consequence, is restored to that leading position from which it had been driven by the great popularity of satin, for it is imported to be worn with the new brocades. Satin of course is still quite fashionable, but is now secondary to velvet. In regard to plush, too much can hardly be said. We are going to have a regular season of plush. It will appear for underskirts, bands, pipings, etc., on costumes—everywhere indeed that is admissable. This is a forlorn prospect for stout individuals, but equally hopeful for such as need increased breadth. Unquestionably there will be many mistakes made, and we shall see ladies already much too broad, look more so, by wearing what was never intended for them.

Ehrich's Fashion Quarterly, which comes out this season earlier than usual, is fuller than ever before of information in every department of retail trade. The real merit of the Quarterly is that it enables its readers not only to purchase goods from its publishers, but to shop in any part of the Union with a clear understanding of what is most desirable and what prices should be paid. Its review of every department is so searching and accurate that it allows a lady to forget nothing that can be needed in household economy, and its readers can purchase

About Taxation.

At the recent Bankers' Convention at Saratoga the subject of taxation was discussed in all its bearings, and especially in regard to the effect of a heavy tax upon money. Ex-Assessor James A. Briggs gave it as the result of experience and extensive observation that the least possible tax upon money is the best possible policy for the people, the most conducive to their prosperity; especially to those who would borrow upon mortgage. What our country needs is cheap money. It cannot be had when the legal rate of interest is only six per centum and the rate of taxation from two to three per centum. The laws, he held, should be of such a character as to invite moneyed capital and capitalists; and he brought forward the data showing how disadvantageously the present laws taxing money in New York worked in the competition of that city as a financial center with Paris and London, where the influx of money is sedulously encouraged. It was argued that the country part of the state made a great mistake in handicapping the cities by an onerous tax upon money. The growth of cities, it was maintained, is the prosperity of the country, and they should be left to be subject to such revenue laws as their wants, their interests and the well-being of their people require and demand, without any let or hinderance from the country.

The expediency of taxing national banks in this state for every dollar of surplus, including even interest not earned, is of doubtful utility. In Portsmouth there is more banking capital than in any other city in the state, although we are the fifth city in point of population. The reduction in our rate of taxation the present year was owing to the gain to the assessed valuation made by taxation of the surplus of the national banks. The charters of some of these banks are about expiring, and when it is considered that many shares are owned by residents out of the state it will not be surprising if we see this species of taxable personal property "taxed out of sight."

It is quite easy for the banks in Portsmouth to reduce their capital one-third, which would leave us over six hundred thousand dollars of capital stock, or more than the banking capital of any New Hampshire city save Manchester, which aggregates but $750,000. Concord has but $450,000, Dover $400,000, Nashua $345,000; and yet the demand for banking facilities, in the cities of larger population than Portsmouth, is of course greater than with us.

Once out of sight, this capital, as far as the matter of taxation is concerned, is gone beyond reach. The argument in New York holds good in Portsmouth. It is not that we cease to tax capital, but that we tax it but once, and in such a way that we do not discourage its remaining here to develope industries, employ our otherwise idle laborers, and rent our real estate.

The trouble is, those men who in the legislature rise and tell the farmer how badly he is used, and how much the capitalist is favored, never take a broad view of the situation. The capitalist simply gets his living out of the results of his skillful financiering; all the rest of his splendid achievements go towards the common gain of the community. If we cannot divide the capital of the country among the people once in so many years, the next best thing is to encourage it in its development, and welcome its employment, in able hands. This is the only practical mode by which every one can fully reap those benefits which are erroneously presumed to be vouchsafed but to the few.

Railroad Litigation.

In the suit of the Ogdensburgh & Lake Champlain railroad against the Nashua & Lowell railroad, pending in the circuit court of the United States for the district of New Hampshire, the answer of the Nashua & Lowell railroad has been filed.

It sets up that there are other parties defendant to the bill who are jointly interested therein with the Nashua & Lowell railroad, namely, the Northern railroad, (in New Hampshire,) the Boston & Lowell railroad, and the trustees and managers of the Vermont Central and Vermont & Canada railroads.

The Nashua & Lowell railroad admits the execution of the contract set up in the bill of the Ogdensburgh & Lake Champlain railroad, but denies that Gen. Stark, J. G. Abbott and the late Frank B. Crowninshield were a legal committee of the Nashua & Lowell railroad, alleging that Messrs. Stark and Abbott were not directors of that road, nor qualified to represent its directors as a committee of the Nashua & Lowell corporation.

The defendant corporation also maintain that their contract was of a nature and character wholly foreign to the objects and purposes for which the Nashua & Lowell railroad was chartered, and it was not competent to enter into such a contract; that it is not binding in law even if properly entered into, and that the Nashua & Lowell railroad is not liable as a party to the contract.

Yellow Fever.

The towboat Raven arrived at Vicksburg from New Orleans on Saturday evening, with yellow fever on board. Five men were taken out of her by Dr. C. A. Rice, resident inspector of the national board of health, and she proceeded up river against his protest. The health officers at Memphis were notified by telegraph, and the boat was not allowed to land there.

In the justice court at East Providence, R. I., Monday, George H. Adams was examined on charges of assault with intent to kill, and of assault with a dangerous weapon. He was adjudged probably guilty, and held in $1,200 for trial. This is a case growing out of the oyster stealing on Seekonk river.

Dear Sirs—We have used Kidney-Wort in our family with very satisfactory results. I have taken it myself for gravel and find that it has benefitted me more than anything I have ever taken. I recommend it to all. JAMES F. REED.

SALEM, N. Y., SEPT. 25th, 1879.

WELLS, RICHARDSON & CO.,

Your "Kidney-Wort" acts like a charm. Please send me two packages on receipt of this and oblige. Yours Truly,

L. FRASER.

A freight train and an excursion train collided on the Housatonic railroad, eight miles from Bridgeport, Conn., Monday afternoon. Both engines were wrecked, and several freight cars. The engineer and fireman of the freight train jumped off, but William Bristol, engineer of the excursion train, stuck to his engine, using every effort to stop his train until the crash came; he was so badly injured that he died in about an hour. The excursion train had the right of way.

Three Things.

A thoughtful man once said that two things settled the question of our happiness or misery, viz.: Our relations to our Creator and to women. There is one more—our relations with our own blood in our veins. Impure blood will produce tumors. It did so in the case of Mrs. Walter Hinckley, of Cotuit, Mass. The doctors could do nothing for her. A neighbor brought from Dr. David Kennedy, of Rondout, N. Y., a bottle of his "Favorite Remedy." She tried it and became better. "No woman," writes Mrs. H., "can afford to be without Favorite Remedy." It will cost you only one dollar to make the experiment. The good result is sure.

George E. Kimball, secretary of the Citizens' Relief association and clerk of the Merchants' Exchange, in Portland, Me., committed suicide Friday night, by hanging himself to a beam in the basement of the Western Union building. Deceased has been suffering for some time with a bronchial trouble, which his friends believe to be the only reason for the act.

COUNTERFEITS are always made to look as near like the original as possible. Housekeepers are cautioned against the many worthless and damaging imitations of James Pyle's "Pearline," some put up in similar looking packages, and others with names sounding like Pearline, which dealers may endeavor to urge upon them.

A Grand Army reunion is to be held at Portland, Me., Sept. 10th, to which all the posts in the state and those in Massachusetts, New Hampshire and Vermont are invited. Gen. Wagner, commander-in-chief for the United States, will be present.

ARE THE KIDNEYS "Vital Organs?" Decidedly, yes. Without them life is impossible; and they appear to be peculiarly susceptible to severe and fatal derangements. They are, moreover, exceedingly difficult to treat, and the ailments affecting them are liable to end at any time in Bright's Disease. In our opinion, formed upon the conclusions of many skilled physicians, Hunt's Remedy, the great kidney and liver medicine, is the best ever administered for kidney, bladder, liver and urinary diseases. It cures like a magic spell.

Sold by all druggists. Trial size 75 cents.

A gang of drunken ruffians at San Antonio station, Col., on the Denver & Rio Grande railroad, opened fire on an engine, Monday evening, and killed James Bennett, the fireman. Three of the roughs were arrested, and lynching by the railroad men is feared.

How to Save Money.

In diseases of the kidneys, bladder, urinary organs, and lame back, avoid all internal medicines, and plasters, which at best give but temporary relief, and use Day's Kidney Pad, which will save you annually many times its cost in doctor's bills, plasters and medicines.

The city of Newburyport has voted to contract with the water company to supply it with water for twenty years, for fire purposes, at $6,000 per year. The vote stood: In favor, 729; against, 226. Work will commence immediately at laying pipes. The water is to come from Bartlett and Jackmas springs.

The invalid's hope and strength beyond all other remedies is Malt Bitters.

Political Notes.

A correspondent of the Boston *Herald* writes that paper that during an interview with a friend of Hon. Frank Jones, the friend spoke of a late conversation with Mr. Jones, in which the latter remarked: "Do you remember when you visited me in Washington and I pointed out to you Gen. Garfield? I said then he was the ablest man in congress, and I stick to it now;" and that Mr. Jones added that he should not vote for Gen. Garfield, but his estimate of the man was unchanged.

I am as positive that Hancock will be elected as I am that there is a God in the heavens. You say he is a Yankee. Well, I know that, and I know, too, that his sword has pierced the breast of many a gallant man in gray. But what are we to do? We can't put in one of our men this time, and have to take a "Yank." That being the case, let us take one who is less "blue-bellied" than the most of them. You may depend upon it, sir, that "Yank" or no "Yank," if elected, the old boys of the south will see that Hancock does the fair thing by them. In other words, *he will run the machine to suit them, or they will run the thing themselves.* They are not going to be played with any longer. If you hear any man say that Hancock cannot carry all of the south, you may put him down as a —— fool."—*Gen. Robert Toombs, of Georgia.*

Oh, Democrats what have you done?
Instead of the fatted calf
You've swallowed the prodigal son.

At Newcastle, Ky., Constable Cochran arrested two men on Saturday who had been fighting at a picnic. He was followed to the justice's office by a man named Allen Thompson, who made threats of killing. Upon reaching the justice's office Thompson drew a revolver, whereupon Cochran fired and killed Thompson instantly. Cochran gave himself up.

AROUND HOME.

Rev. Wm. H. Alden, D. D., has returned from a stay at Saratoga.

George Wood, a four-years-old son of James Wood, of Newmarket, was shockingly burned on Monday by his clothes taking fire while playing with matches. He died Tuesday morning.

The dividend due stockholders in the Wolfeborough railroad will be paid at the office of Ex-Gov. Goodwin in this city on Friday, Sept. 3d, between the hours of eleven o'clock A. M. and two o'clock P. M.

A correspondent of the New York *Herald* discusses the question "How to avoid trashy sermons?" Here, *some* people avoid them by going down the river, Sunday.—*Times.*

We trust our neighbor does not intend any personal allusion.

Herbert F. Norris of Epping, the "Young War Eagle of the Democracy," who was supported for congress two years ago in this congressional district, has written a letter declining to again be a candidate. The young war eagle got all the war he wanted at that time.

In another column will be found an advertisement calling for proposals for altering and improving the state arsenal on South street. Among the improvements to be made to the old building are the raising of the roof twelve feet, and the making of a door in the end of the structure nearest the Haven schoolhouse.

It is said that the two goats that have so long held possession of Clark's island in this harbor are the property of the Odd Fellows of this city, and will be used the coming winter in initiating candidates. As the goats will doubtless be strengthened by their summer's vacation, we sincerely pity the poor fellows who will be compelled to ride the frisky animals.

The schooner Charles H. Trickey, of Dover, Kelly master, left Philadelphia August 12th, and at midnight on the 18th was anchored off the Dover gas company's wharf. She went down river at noon, August 21st, bound for Richmond, Maine, where she was loaded with ice and left on the 25th; August 27th she dropped anchor at New Haven, Conn.

"Right this way for the camp-ground." This is the inviting cry heard this week at the camp-meeting station on the Concord & Portsmouth railroad at Epping. Large numbers are in attendance at the grounds. Excellent order prevails, and the means of reaching the crowd are plentiful. Four-horse teams from Exeter, Haverhill and other places, are run from the station to the camp-ground. A very large attendance is expected on Thursday.

The following item has been drifting around among the papers for the past two weeks: "Edward Spaulding of Lowell recently caught a cod weighing sixty-six pounds off Cape Cod, and it is the biggest fish of the kind the fishermen have seen for many years." At least a dozen cod-fish weighing over one hundred pounds each were landed at this port last winter, and we saw two which weighed one hundred and eight pounds each.

The state department at Washington has received a cable dispatch from Consul T. G. Gad at Bergen, Norway, reporting the seizure by him, with the assistance of the Norwegian authorities, of the American schooner Ida R. Freeman, which was stolen from Wellfleet harbor, Mass., on the 4th of last July. One of the parties implicated, named Robert Wilson, was arrested. Two others engaged in the theft escaped. One hundred and nine barrels of fish were found on board, and the Norwegian authorities await the demand of our government to restore the vessel and cargo to the American owners. Among the owners of the Ida R. Freeman are Henry D. Freeman of Dover, and his father, Edmund Freeman.

CHILDREN'S EXCURSION.

Capt. Horatio W. Trefethen, of the steamer Mystic, has kindly invited the little folks of the Children's Home to take a trip down the river in his steamer this afternoon. The party will leave Adams' wharf at two o'clock and arrive back at about half-past three, giving the youngsters a chance to breathe the sea air, and get a glimpse of the beautiful river and sea shore scenery, which will make them happy for one day, at least. A limited number of adult people will be taken for fifteen cents each.

POLICE COURT.

TUESDAY, Aug. 31; *Batchelder, J.*

Michael Scully, for drunkenness, was assessed $9.90, fine and costs. For not having any money, he was sent to the county farm.

James O'Brien was complained of for drunkenness, but was allowed to go on his promise to leave the city, which he hastened to do.

Dennis O'Leary, for threatening to do grievous bodily harm to John Kelly, was ordered to furnish sureties in $50 to keep the peace for three months, which he did.

YORK COUNTY ITEMS.

Senator Blair went to Old Orchard on Tuesday evening, and will speak there on Wednesday at a mass temperance meeting.

The schooner yacht Wm. H. Russell was on the marine railway at Kittery on Tuesday, undergoing repairs. She got ashore on the western end of Wood island a week ago Sunday, knocking off a piece of her shoe and causing other slight damage.

From the "Great hill" in Eliot is presented a finer view than can be obtained from any other locality in the vicinity of Portsmouth. We ascended it on one of the warmest days of this season, and the climbing of fences, the ascent up its steep and slippery sides, with the sun's heat at a temperature of one hundred degrees, and we just feeling the premonitory symptoms of the hay-fever, did not produce in us any feeling of jollity or of a devotional character; but on our arrival at the top we forgot all of our tribulations in the grand expanse of scenery that surrounded us. Underneath and stretching miles away, were meadows whose even surface had the appearance of lawns, nestling in which were the white glimmerings of cottages and the homes of the farmers; dottings of orchards with ripening fruit, and the dark green of pine and spruce, now and then interspersed with the glistening surface of streams and brooks, and all backed by a perspective of a range of mountains which seemed like rolling waves of verdure. The ocean, the Shoals, Portsmouth, Great Falls, South Berwick, and many other towns the locality of which we could not place, were plainly seen, while the Piscataqua in its winding course added its bright glitter to the general effect. There is a path leading to it which lessens the fatigue of the ascent, and probably some day in the future a road will be constructed leading to a hotel which will occupy the summit of this fine lookout. A visit to it will more than compensate one for the effort which they undergo, and will leave impressions which will not be forgotten. G.

Temperance Testimonial to Mrs. Hayes.

The temperance people of the country are uniting in a testimonial to Mrs. Rutherford B. Hayes for the noble stand she has taken for total abstinence while hostess of the White House. This testimonial will consist of a life-size portrait of Mrs. Hayes, to be painted by one of the best artists, and, when finished, will be placed in the White House. The picture will be engraved, and to every person who contributes five dollars to the testimonial an engraving will be sent. Enterprising business men and wealthy women will doubtless subscribe large amounts; but to make this a movement "of the people and for the people," any small sums will be received.

All amounts of one dollar or more will be acknowledged in *Our Union*. It is expected that the subscriptions will reach such proportions that after the cost of the picture is paid, enough will remain to serve as the nucleus of a much-needed fund, to be named in honor of Mrs. Hayes, the interest of which will be used in procuring and circulating total abstinence literature. This fund will be controlled by the Hayes' Fund commission.

All moneys should be sent by check or postal order to Miss Esther Pugh (the Quaker treasurer of the commission), 54 Bible House, New York city. Miss Frances E. Willard is president of the commission, Mrs. Mary T. Burt corresponding secretary, Mrs. Mary A. Woodbridge recording secretary, while on the list of commissioners are Rev. Frederick Merrick, Hon. Felix R. Brunot, Mrs. Joseph Cook, Jno. N. Stearns, Gov. St. John, Bishop Simpson, Bishop Jaggar, Hon. Henry W. Blair, Mrs. Fenno Tudor, F. M. Bradley, Jno. Dougall, J. J. Hickman, Mrs. Gov. Fairbanks, Mrs. C. C. Alford, Neal Dow, Hon. W. H. Doan, and many others.

News and Notes.

Hiram Berry, an old and very wealthy citizen of Frankfort, Ky., married Mollie Taylor, a Louisville adventuress. Berry's sons and friends were shocked by this proceeding, and induced him to part with her. Since that time thousands of dollars have been paid her for the purpose of keeping her quiet, but to no avail. She arrived in Frankfort a few days ago, and, going directly to the Berry residence, asked for her husband. The eldest of the sons responded by kicking her out of the grounds, cutting her face and breaking some of her ribs.

The census gave the population of Kansas as 996,300. The population is undoubtedly a round million. Completed census returns from Wyoming territory show a population of 21,900. The census for 1870 was 9,276.

Who is Mrs. Winslow?

As this question is frequently asked, we will simply say that she is a lady who for upwards of thirty years has untiringly devoted her time and talents as a female Physician and nurse, principally among children. She has specially studied the constitution and wants of this numerous class, and, as a result of this effort, and practical knowledge, obtained in a lifetime spent as nurse and physician, she has compounded a Soothing Syrup, for children teething. It operates like magic—giving rest and health, and is moreover sure to regulate the bowels. In consequence of this article, Mrs. Winslow is becoming world-renowned as a benefactor of her race; children certainly do rise up and bless her; especially is this the case in this city. Vast quantities of the Soothing Syrup are daily sold and used here. We think Mrs. Winslow has immortalized her name by this invaluable article, and we sincerely believe thousands of children have been saved from an early grave by its timely use, and that millions yet unborn will share its benefits, and unite in calling her blessed. No mother has discharged her duty to her suffering little one, in our opinion, until she has given it the benefit of Mrs. Winslow's Soothing Syrup. Try it, mothers—try it now.—*Ladies' Visitor*, New York City. Sold by all druggists. 25 cents a bottle. 2

The Health of New Orleans.

At this period of the year the public generally turns its gaze to New Orleans for news of the public health there. The name and recollections of the past fever-stricken years are still fresh in every one's memory. The world-famed Charity Hospital there is the great rock of comfort as a protection to the citizens, and its half century of excellent management gives them confidence of its future ability to stay "the pestilence that walketh in darkness." The support of this establishment has been guaranteed by the large revenue paid by the Louisiana State Lottery for its franchises; any information about which will be cheerfully given, on application in person or by mail to M. A. DAUPHIN, No. 319 Broadway, New York city, or same person at New Orleans, La.

IT MAKES NO DRUNKARDS,

Breaks no Hearts, Excuses no Crimes.

Dr. David Kennedy's FAVORITE REMEDY is not a disguised enemy of the human race; where it cannot help, it does not harm. FAVORITE REMEDY is a combination of vegetable alteratives. It does not heat nor inflame the blood, but cools and purifies it. In all cases of Kidney troubles, Liver complaints, Constipation of the Bowels, and the delicate derangements which afflict women, the action of FAVORITE REMEDY is beyond praise. Thousands of grateful people voluntarily testify to this, in letters to Dr. Kennedy; and with a warmth and fullness of words which mere business documents and certificates never possess. It makes no drunkards—excuses no crimes—breaks no hearts. In its coming there is hope, and in its wings there is healing. We challenge a trial and are confident of the result. Dr. Kennedy would have it understood that, while he is engaged in the introduction of his medicine, "Favorite Remedy," he still continues the practice of his profession, but confines himself exclusively to *Office-practice*. He treats all diseases of a chronic character, and performs all the minor and capital operations of surgery.

THE

New Hampshire Gazette!

Established 1756.

The Gazette is published every Thursday and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of news, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

John Mullins of Silver, Col., married the daughter of Moccasin Bill on Wednesday, Aug. 25th, and was shot dead from the bush, and killed, Sunday.

With occasional exceptions, the diseases peculiar to women have a common origin, and they may therefore, have a common cure. All local treatment aims at effects, but Lydia E. Pinkham's Vegetable Compound aims at the cause. Send to Mrs. Lydia E. Pinkham, 233 Western Avenue, Lynn, Mass., for pamphlets.

At a picnic on Saturday at Shannondale, Chariton county, Mo., two negroes quarrelled, and one shot the other dead. Shortly after, Pat O'Brien, constable, attempted to arrest the murderer, but he resisted, and swore no man could arrest him or take his pistol, whereupon O'Brien killed him with a shot gun.

The Women at Home.

Our mothers, wives and daughters! Home is not home at all without them. Yet they may die and leave the house silent and sad any day. Husbands and fathers, a word in your ears. The ladies are not always to blame when they are low-spirited and "cross." They are sick. Don't you be fools or brutes and think they'll come out all right if you are only "firm" and mean yourselves. Put a bottle of Dr. David Kennedy's Favorite Remedy on the shelf, and tell them to use it. The color will come back to their cheeks and the laugh to their lips. Go and get it at once down town, or mail one dollar to the Doctor's address at Rondout, N. Y.

Hon. Moody Hobbs of Lowell, Mass., died at his home in that city Saturday night, Aug. 28th. He was born in Pelham, N. H., and became a civil engineer and surveyor. He was twice a member of the New Hampshire senate, and filled the office of superintendent of schools in Pelham twenty-three years. He leaves a wife and two daughters in Lowell. A son and daughter born of his first marriage live in Pelham.

Charles Chamberlain of West Lebanon was engaged in hauling stone on Saturday last, and when about to unhook the chain it snapped and struck him on the head, inflicting very serious if not fatal injuries. Several fractures were made on the head, besides series bruises on the face. The attending surgeon fears the worst.

At Manchester, Monday evening, William E. Beauregard, aged nineteen years, was sky-larking with Edgar F. Colburn, a carpenter about twenty-five years of age, in the latter's house, when Colburn aimed an "unloaded" gun at Beauregard, pulled the trigger, and sent a heavy charge of buckshot into his head, killing him instantly.

The *Daily Blade* is a new paper published at Concord, the first number bearing date September 1st. The prospectus says "it will be a republican journal, and will labor in a truthful spirit for the advancement of pure republican principles, and to cultivate honesty in politics, having in view the promotion of good government, local, state and national. It will be interested in all public affairs, will discuss fearlessly all topics of public interest, and will not hesitate to attack abuses wherever found. The *Blade* will take strong ground in favor of all laws and enterprises which tend to improve the moral welfare of society, and will make uncompromising war on the rum traffic, maintaining that its total prohibition is an easy possibility, dependent only upon the will of the people who make the lawmakers and create the public servants whose duty is to enforce the laws." Mr. M. V. B. Stimson is the authorized agent to solicit advertisements and subscriptions for the new paper.

James R. Preston, a shoemaker by trade, and living with a family in Auburn, shot himself Friday morning, the bullet glancing off a rib and entering the right lung. Preston is thirty-six years old, and for the past four years has not lived with his family. His, wife and a daughter reside in Manchester. He will probably recover. He threatens to make another attempt on his life. His family troubles are the cause of his despondency.

The Methodist camp-meeting closed at Weirs on Saturday, with a hand-shaking service. The meetings have been well attended, and much interest has been manifested.

PERFECTLY SAFE IN THE MOST INEXPERIENCED HANDS!

For Diarrhœa, Dysentery, Cramps, Cholera, AND ALL THOSE NUMEROUS TROUBLES OF THE STOMACH AND BOWELS SO PREVALENT AT THIS SEASON.

No Remedy known to the Medical Profession has been in use so long and with such uniformly satisfactory results as

PERRY DAVIS' VEGETABLE PAIN KILLER.

It has been used with such wonderful success in all parts of the world in the treatment of these difficulties, that it has come to be considered

AN UNFAILING CURE FOR ALL SUMMER COMPLAINTS

and such it really is when taken in time and according to the very plain directions inclosing each bottle.

In such diseases, the attack is usually sudden and frequently very acute; *but with a safe remedy at hand for immediate use, there is no danger of a fatal result* which so often follows a few days' neglect.

The vacillation to wait and see if the morrow does not bring a better feeling, not infrequently occasions a vast amount of needless suffering, and *sometimes costs a life.* A timely dose of Pain Killer will almost invariably save both, and with them the attendant doctor's fee.

It has stood the test of forty years' continued use in all countries and climates, and is perfectly safe in any person's hands.

It is recommended by Physicians, Nurses in Hospitals, and persons of all classes and professions who have had opportunity for observing its wonderful results when all else failed.

THE BEST EVIDENCE.

I have long used the medicine known as PERRY DAVIS' PAIN KILLER in my family, and would not on any account be without it. When Cholera was last epidemic here, I paid no medical attendant but the Pain Killer, and although my self and several members of my family were attacked severely, I am happy to say that the Pain Killer was equal to every emergency. I consider I should not be doing my duty to the community did I not say this much. If I were attacked by cholera to-day, Pain Killer would be the only remedy I should use. I have thoroughly tested it, and know it can be relied on.

E. E. BERGINSENN,
Galena, Illinois.

No family can afford to be without it, and its price brings it within the reach of all.

The use of one bottle will go further to convince you of its merits than columns of newspaper advertising. Try it, and you will never do without it.

Price 25c., 50c., and $1.00 per bottle. You can obtain it any drug store or from

PERRY DAVIS & SON, Proprietors, Providence, R. I.

Used in the principal Lunatic Asylums, Hospitals, Reformatories, Excellent for Ladies and Weakly Persons and the Aged.

HUNT'S REMEDY

THE GREATEST KIDNEY AND LIVER MEDICINE EVER KNOWN.

HUNT'S REMEDY has saved from lingering illness and death hundreds who have been given up by physicians to die.

HUNT'S REMEDY cures all Diseases of the Kidneys, Bladder, Urinary Organs, Dropsy, Gravel, Diabetes, and Incontinence and Retention of Urine.

HUNT'S REMEDY encourages sleep, creates an appetite, braces up the system, and renewed health is the result.

HUNT'S REMEDY cures Pain in the Side, Back, or Loins, General Debility, Female Weakness, Distressing Sleep, Loss of Appetite, Bright's Disease, and all Complaints of the Urino-Genital Organs.

HUNT'S REMEDY quickly induces the **Liver** to healthy action, removing the causes that produce **Bilious Headache, Dyspepsia, Sour Stomach, Nervousness, Piles, &c.**

By the use of **HUNT'S REMEDY** the Stomach and Bowels will speedily regain their strength, and the patient will be perfectly cured.

HUNT'S REMEDY is purely vegetable, and **Need a want never before furnished to the public, and the utmost reliance may be placed in it.**

HUNT'S REMEDY is prepared expressly for the above diseases, and has never been known to fail.

One trial will convince you. For Sale by all Druggists. Send for Pamphlet to

JAMES PYLE'S PEARLINE

THE GREAT INVENTION FOR WASHING AND CLEANSING

Is hard or soft water, **WITHOUT SOAP,** and without danger to the finest fabric.

SAVES TIME and LABOR AMAZINGLY,

and is rapidly coming into general use. Sold by all Grocers; but beware of vile counterfeits. Its great success brings out dangerous imitations, but **PEARLINE** is the only safe article. Always bears the name of **James Pyle, New York.**

DAY'S Kidney PAD

A discovery which cures by the natural process.

A REGULATOR AND ABSORPTION.

all diseases of the **Kidneys, Bladder, Urinary Organs and Nervous System,** when nothing else can. It is a positive remedy in the most obstinate cases, and the first cure for those painful and much dreaded affections.

Diabetes and Bright's Disease,

while its cures of **Gravel, Dropsy, Catarrh of the Bladder, Brickdust Deposit, Painful Urination, High-Colored Urine, Nervous Weakness and Pain in the Back** seem more like miracles than cases of natural healing.

DELICATE FEMALES

or victims of a wasted or perverted energy, caused by irregular habits, the abuse of nature and mental or physical over-work, will find in this greatest relief in the use of DAY'S KIDNEY PAD, which strengthens and invigorates the invalid and restores the vigor of health.

PAIN IN THE BACK.

We say positively, and without fear of contradiction, that DAY'S KIDNEY PAD is the only certain and permanent cure for every form of this prevalent and distressing complaint.

YOUNG MEN

suffering from nervous and physical debility, loss of memory, or vitality impaired by the errors of youth or to close application to hard or work, may be restored and manhood regained.

Avoid all kidney medicines which are taken into the system by way of the stomach; it is an old treatment well tried and proven inefficient, though some fools effecting a separate cure of one complaint, find now the seeds of more troublesome and permanent disorders. The price of our Pad brings it within the reach all, and it will speedily save many times its cost in doctors bills, medicine and plasters, which at best give but temporary relief. It can be used without fear or harm, and with certainty of a permanent cure. Sent by express, carefully packed, free, by mail (free of postage) on receipt of the price. Regular size, $2; Large (for incontinence or retention in children), $3; Special (extra size), $5.00. Our book, "How I Lost and How I Saved," giving a history of this new discovery and a large record of most remarkable cures, sent free. Address

DAY KIDNEY PAD CO., Toledo, O.

CAUTION. Owing to the many worthless Kidney Pads now selling, we caution the public against these. We deem it our duty to the afflicted to warn them. Ask for **DAY'S KIDNEY PAD,** and take no other.

THE "WENTWORTH,"

Newcastle, N. H.

This Hotel will open June 26. It has accommodations for 400 guests, and offers *more* attractions for pleasure and sport than any other seaside resort in the country. Its high situation affords beautiful views, both inland and seaward, its healthful atmosphere, the easy manner in which it can be reached, its advantages for boating, bathing and fishing, excellent drives and attractive walks, all combine to make it one of the most charming places on the coast of New England.

Since last year extensive additions have been made, among them one hundred and fifty sleeping rooms, a spacious Music Hall for dancing, theatricals and concerts, bowling alleys, billiard room, a passenger elevator operated by steam, a large and commodious stable for private equipages, the grounds lighted by the electric light, steam yacht for excursions, &c., &c.

The temperature of the bathing at the "Wentworth" is especially inviting to those unable to endure the shock incident to more exposed localities. An enclosed body of salt water, covering an area of fifty acres, makes a safe and pleasant place for boating at all times for ladies and children. The drives to the neighboring beaches and other points of attraction in this vicinity are unsurpassed. The verands, fifteen feet in width, surrounding the house, form an extended promenade of over 1000 feet in length, while the view is unexcelled in beauty and grandeur.

An orchestra of twelve selected musicians, under the direction of Mr. John J. Braham, has been engaged for the season.

The house is furnished throughout in black walnut, has the *best* of beds, its sleeping rooms are of ample size, well ventilated, and from *all* sides of the house charming views presented. It will be found of an unexceptionable character. The "Wentworth" is situated three miles from Portsmouth, N. H., in the ancient town of Newcastle, and is reached from Boston in two hours' ride over the Eastern Railroad. Address

The untold miseries that result from indiscretions in early life may be alleviated and cured. Those who read this assertion should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE; or SELF-PRESERVATION.

Exhausted vitality, nervous and physical debility, or vitality impaired by the errors of youth or too close application to business, may be restored and manhood regained.

Two hundredth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jeweled medal by the National Medical Association. It contains beautiful and very expensive engravings. Three hundred pages, more than 50 valuable prescriptions for all forms of prevailing disease, the result of many years of extensive and successful practice, is the one of which is worth ten times the price of the book. Bound in French cloth; price only $1, sent by mail post-paid.

The London Lancet says: "No person should be without this valuable book. The author is an able benefactor."

The Tribune says: "The author has had unprecedented success in dealing with nervousness of all kinds and its affections, whether due to pernicious habits or inherited. He is a Nervo-specialist, and therefore knows what of he writes with such power and ability."

An illustrated sample sent to all on receipt of 6 cents for postage.

The author refers, by permission, to Hon. P. A. Bissell, M. D., president of the National Medical Association.

STONES IN THE KIDNEYS and BLADDER Expelled—Long Suffering of one of TROY'S best People.

A LUCKY MAN.

Mr. James Andrews, of No. 10 Marshal Street, Troy, N. Y., has suffered for several years from the formation of Stones in the Kidneys and Bladder, and had doctored with many of the best Physicians without receiving any benefit. He was induced to try Dr. Kennedy's "Favorite Remedy," and the following extract from Mr. Andrews letter tells the whole story:

TROY, N. Y., April 8th, 1880.

Dr. D. Kennedy, Rondout, N. Y.:

DEAR SIR,—I received your letter to-day, and you are welcome to use any part of my letter as may seem best. Had I not used the "Favorite Remedy" I should have been a great sufferer to this day. The stone that passed from me has a small piece broken off, but I have some one I enclose so that you can see for yourself of what it is composed.

I am quite willing to testify under oath to all I have written in regard to my sickness and recovery, and words fail to fully express my feelings in gratitude to you for my deliverance from so terrible a disease.

With a real grateful heart I remain, yours most respectfully, JAMES ANDREWS.

RUPTURE

DR. J. A. SHERMAN—AND THE ONLY DR. SHERMAN known to the public for the past 35 years or more for his successful method of treating Rupture without the annoyance and injury trusses inflict, may now be consulted weekly at his New York and Boston offices. Dr. Sherman is the discoverer of the only known cure for Rupture by local external treatment.

No man is safe who has a Rupture, no matter how insignificant he may consider it, for every man who has died from it once flattered himself that it was but a trifling ailment, and every man who now suffers from it and the injury of trusses, to such an extent that life has no enjoyments, once regarded it as unworthy special attention. It is not a stand-still affliction; it is steadily progressive, even unto death, and he is wise who takes the proper means to be effectually relieved of it before the day of suffering and gloom comes upon him.

Patients from abroad can receive treatment and leave for home same day. During treatment any kind of active exercise or labor can be performed without interfering with the treatment, and with safety from the dangers of strangulated Rupture.

HIS BOOK ON RUPTURE

gives the most reliable proofs from distinguished professional, gentlemen, clergymen, and merchants of his success, and the popularity therefrom throughout this country and the West Indies. The afflicted should read it and inform themselves.

It is illustrated with photographic likenesses of extremely bad cases before and after cure, and mailed free to those who write for it. In consequence of the great demand for Dr. Sherman's personal services, he will, till further notice, divide his time between his New York and Boston offices as follows: Saturday, Monday, and Tuesday he may be consulted at his New York office, and Wednesday, Thursday, and Friday, at his Boston office, each week. What Broke "Sierra's" Back.

A Tale of the Boom of '78—Buying at $9 and holding at $285—The Coming Boom.

The Chicagoan who has tasted of the excitement born of wheat "privileges," the Frisean who looked upon a mining "boom" as the most glorious contingency of the mineral market, and the New Yorker who has alike "gone short" and "covered with a call" in the days of rapid fluctuations, his choice line of stocks, never forget in their day of tribulation caused by the stagnation consequent upon the subsidence of a "movement," that if they were not sufficiently fortunate to unload at the most favorable opportunity, they might have done so. The systematic and long-headed operators on margin, and buyers who pocket their possessions at low prices and hold on for a "rise," take few chances, satisfied with a generous profit, and content to dash in again and out, with short turns which exhilarate them and the market amazingly. The "lambs" and their associates, the less conservative majority, sometimes let their greed absorb their judgment, and many of them in the long run have but lost opportunities and the experience of disaster to freshen their memories for the much hoped for campaigns of the future. They languish for a season, envy the "lucky dogs," their neighbors, whose wise action in critical moments they neglected to follow; and recuperating slowly await the coming of the next "boom," each reasoning in his own fashion on the peculiarly fascinating and perhaps deceptive thought; "What I *might* have done before, I *may* do again!" So, out of the chaos of confusion and the dust of disaster, comes a constantly increasing number who actually yearn for the excitement of the "exchange," and scent the coming "boom" with a delirium of expectation which demands of the magnates "another deal," and "The woods are full of them" to-day, impatient for the announcement.

The famous mining "boom" of '78, on the San Francisco market, made quick fortunes and rapid change from wealth to want. The bonanza in Sierra Nevada was extending to Union Consolidated, and Johnny Skae and his associates were the kings of the market. A "deal" with the "Comstock crowd" not at the bottom, convinced the public that sheer merit was at last the propelling force, and orders poured in by mail and telegraph that raised prices from ten to twenty per cent daily, on an irregularly regular ascending scale. Everybody bought, and it was a "gamble" in which everybody won. San Francisco, in remembrance of its palmiest days, was wild at the prospect, as stocks rose higher and higher. The "bears" covered their shorts and went with the tide until it promised to rise to its fullest heights, and no reaction seemed probable until it spent its still evidently increasing force. The bonanza firm, true to their traditions, bided their time, and in the height of the excitement began negotiations for an alliance. There was "nothing in" about Johnny Skae. He was saturated with success. The Comstockers might "join in" with the outside public and increase their millions by keeping the market along—but Skae *et als* had no stock to part with, not a share. Negotiations failing, the bonanzaites prepared for a vigorous raid on Sierra Nevada. Its owners heard the rumors, but were undismayed. Their wealth was a constantly increasing quantity, and the market was all one way. Bluff on either side was useless. Both were strong, but Johnny held possession. Then as a last resort came an offer and a threat, in this wise: Permission had been refused the bonanza firm and the public alike to visit the Sierra Nevada bonanza. Mackey at last sent word to the management: "Admit an expert I will name to your mines, and let his investigations be thorough. If, as you aver, the Sierra Nevada has a genuine bonanza, we will send the stock up among the thousands; refuse, and we break the market to-morrow." All this time the bonanza was actually showing richer. Each successive blast showed a widening vein; and refusal of such a proffer of help from the only combination of capital which might have the power to break the market at some future critical period, seemed absurd in the highest degree. The Skae associates deliberated, acceded—and were lost.

Mackey chose his man, one of his trusted lieutenants whose name is as familiar as any on the Pacific slope—Mr. Frank Ashiston. Ashiston appeared at Skae's headquarters, the superintendent of Sierra Nevada was called up from the bowels of the earth, and when the remarks his companion was Mackey's right bower in mining. The occasion was big with the fate of thousands whose fortune all was at the mercy of this one man, whose hopes for morrow were as bright as had been their experience of the day. Had they known the object of Ashiston's visit, they would even then have balked it as a good omen with them thought that anything the bonanza firm would take hold of would be good enough for them. As it was, their ignorance was blissful. Every cross-cut and the richest stoping ground was visited, and eagerly shown by the jubilant superintendent, and good reason had he for his faith. The wonders of the bonanza exceeded the expectation of Mackey's expect. He came, he saw—was conquered. The minutes extended to hours, and surfeited with the sight of bonanzic millions, he started for the winze to hasten to the fresh air and speed a favorable message to the waiting Mackey. It was all one to the imperturbable bonanza chief whether the report prove favorable or otherwise. His influence added to the strong upward movement of the market, would make things boom, and the bonanza exchequer would

SAMUEL CLEAVES & SON.

bulge with fresh millions in either event. Expecting a favorable report, he was yet prepared for the reverse. Every artery through which the great firm's orders were wont to pulsate, was in working condition awaiting his command, and the immense labyrinth of veins communicating with that great body the "Stock Exchange," offered nothing to clog the freest flow when the command should be issued.

Is it Fate that leads us almost to the heights of our ambition, and floors us at the summit? Are things possible that seem probable, and at the touch fall us? Did Providence "hew their ends rough" for the Skae associates, that bright autumnal day when the horn of plenty had exalted itself in the streets of Frisco, and the holders of Sierra Nevada stock were joyfully expectant? Who can tell? It is the unexpected, you known, which comes to pass. Eager to convey his newly-gotten information to his chief, Osbiston shook hands with the superintendent as he climbed into the cage. The "super" was about to give the word for the engine to start, and a delay of ten seconds brought disaster and distress to thousands, east and west. A workman hurriedly appeared in search of the superintendent, to whom he announced that a blast was ready in one of the richest portions of the vein. The over-zealous superintendent, not satisfied with letting well enough alone, induced Mr. Osbiston to delay his departure for five minutes. The rumble of the explosion was heard ere they regained the locality, and so soon as the smoke had cleared away sufficiently the mining expert had cleared the scattered timbers, picked up and pocketed one specimen of the rock thrown out, and with a hasty adieu, with no glance at his prize and no thought of its being other than rich ore, was speedily drawn to the mouth of the mine and to daylight.

Every revolution of the engine, every stroke of the piston, every second which lessened the distance the cage must rise ere it discharged its occupant, were fateful. A hasty glance at the "specimen" of that final blast had overthrown the previously-conceived opinion of the amazed expert. In lieu of the rich piece of ore he expected to draw from his pocket, came forth an irregular-shaped object with no trace of mineral at any point—a representative of the worst fears of every toiling miner. It was a revelation which meant disaster, speedy and crushing, to exultant "bulls"—ripe with profit to desponding "bears." One brief word—"HORSE," was the lightning announcement in cipher which went over the wires to the expectant Mackey, followed shortly by the briefest particulars that could be condensed into a message in the space of three minutes by the energetic Osbiston;—then away like mad this expert bounded on the swiftest piece of horse-flesh at his command to relate the details of his discovery to the bonanza king who, miles distant, was impatient of his coming. Quick to act, his orders were issued before the horse and rider were in sight, and the interview following the hour when Osbiston, spurring the animal to his utmost, arrived, and threw the rein to the waiting stable-boy, was big with fate to the financial world.

The first onslaught on the market was laughed at, and Mackey's brokers under the lead of the "Grand Vizier" found no difficulty in improving their line of "shorts." The day closed with unwonted excitement, and the night was a sleepless one for "bull" and "bear." The continued onslaught of the bonanza firm's brokers on the market, day after day, soon had its effect, and their ranks were rapidly recruited as, bit by bit, the truthful information they had from their expert leaked out. The confidence of the Skae associates changed to concern, their frantic efforts to sustain the market were vain, and a grand "tumble" in Sierra Nevada was inaugurated, the entire market feeling the decline. Yet, the original purchasers of Sierra at low figures, were loath to part with their stock, and held on for a reaction that never came. Some of them hold the stock to this very day.

The experience of Judge C—, of San Francisco, is a notable one. He is a well-known operator, sagacious in his selection of purchases, though his sagacity in this instance furnishes the exception to the rule that exceptions govern. The Judge had an early "pointer," and his 900 shares of Sierra cost him but $9 per share outside of brokers' commissions. He tranquilly saw the stock go to $20, then to $50, $100, $200, $250, and held on for $1000, like grim death. It did touch $285, the highest premium that gold ever reached in inflation times, and each succeeding rise only anchored him more securely in the faith that his maximum hopes would be ultimately reached, and that perhaps Sierra Nevada would make him a millionaire. His dream was rudely disturbed, and down came his aircastle. Mrs. C— sported a fine mansion with all the luxurious trimmings attached, in New York city. Her lord saw the necessity of economy now that disaster had come, and writing home to her laconically suggested that a few servants and one span of horses might be dispensed with! "Did you accede to the suggestion?" remarked a lady confidante. "Did I? Not I," was the disdainful reply, as she proudly drew herself up to the full measure of her stature; "if," emphasizing the word, "if Judge C— was foolish enough to see his investment of $8100 enlarge to $256,500, and failed to realize before trouble came, he may do his own economizing!" True enough, the equipage of Mrs. C— rolls daily through Central Park and over the Boulevard, her lavish expenditures show no evidence of stringency of purse, and her benevolence and generosity of heart are proverbial. And what of Judge C—? I met him in California street a few weeks ago, during a hurried business trip, and our conversation drifted on mining stocks. "Judge," said I, "if the question be a fair one, what did you do with that block of 1878 Sierra Nevada stock?" "I have it now," was the cool rejoinder, but his far-away "eternity-look," as a lady friend hath it, was more expressive in meaning than the most timely selection of words "Webster's Unabridged" could have conveyed.

There is no more enthusiastic believer, however, than Judge C—, in the future of the Nevada mines. There are ebbs and floods, bad years and good years, the market. Two years have past, Kearneyism is rapidly decaying, New York has a new mining board born of San Francisco inspiration. The Leadville craze has had its day, prospectors are "lighting out" for the "Gunnison country" just as in former years they started for Pike's Peak. "What occurred once may occur again!" Similar circumstances cause similar results. Business is buoyant all over the north and west—the south being a practically uninterested integer. People are prosperous. Thrift follows enterprise. Mining, infant of so few years' growth, promises a brilliant future for those who systematically and honestly pursue it as an avocation. Solid, sensible development and not spasmodic effort will fill the future of this great Nation, with success. The advent of Gen. Grant to this industry is but one of many significant signs of the times. There will be the same proportion of wild-cats, to all legitimate enterprises. As for the coming "boom," there are great expectations. The recall of Osbiston from Colorado, where for the past year he has been developing the "Hukill" and "Freeland" points to early movements. The street is already full of rumors that a "deal" will be made this fall in "Gou. Virginia," "Best and Belcher," and Sharon's old mine, the biggest at Gold Hill, the "Silver Hill." A symptom which the *quid-nunes* regard as favorable, is the reduction of the quarterly assessment on holders of the stock of "Silver Hill," from fifty cents to twenty-five cents per share; as is the resumption of "Con. Virginia" dividends. In other words the bonanza kings seem confident that the buying public need the encouragement of a "deal" which will revive the San Francisco market and give the "American Mining Board" in New York a healthy impulse. The necessity of delay is past. ERGO.

Is It Possible

That a remedy made of such common, simple plants as hops, buchu, mandrake, dandelion, etc., makes so many and such marvelous and wonderful cures as Hop Bitters do? It must be, for when old and young, rich and poor, pastor and doctor, lawyer and editor, all testify to having been cured by them, we must believe and doubt no longer. See other column.—*Post.*

—Smith found the census-taker a very delightful fellow; the only man he had met who seemed to take an interest in hearing him tell all about himself.

How to Get Sick.

Expose yourself day and night; eat too much without exercise; work too hard without rest; doctor all the time: take all the vile nostrums advertised; and then you will want to know

How to get Well.

Which is answered in three words—Take Hop Bitters! See other column.—*Express.*

—The Prince of Wales' two sons are somewhat lively. While on a sea voyage, recently, the younger was heard to exclaim, "Come, 6ub, tune up your fiddle, and give us 'God save your old grandmother.'"

Equally adapted to the feeble or robust, male or female, are Malt Bitters.

FOR VICE PRESIDENT.

Chester A. Arthur,

OF NEW YORK.

John Chinaman, Mariner.

The Chinese steamer Ho Chung, a large iron vessel, arrived at San Francisco Aug. 30th from Canton *via* Hopolulu. She landed 450 Chinese passengers at Honolulu, but brought a large cargo to San Francisco.

The advent of John Chinaman as a contestant for the maritime trade of the world may mark the beginning of a revolution in that business, for China has inexhaustible stores of iron and coal, and as labor costs scarcely anything in that country it is certain that steamships can be built more cheaply there than anywhere else, and sailed more cheaply after they are built than the vessels of any other nation can be. European and American shipbuilders and owners look askance at the new comer, until their eyes are as slanting as his.

Will the heathen Chinee be able to monopolize the ocean carrying trade of the world, with his cheaply-built and cheaply-sailed steamships? If so, what are you going to do about it? Many years ago John Chinaman built a wall along the northern boundary of his possessions, to make the outside barbarian stop outside; it would be odd if at the present day the barbarians should have to built a wall around the rest of his possessions to keep him inside.

The people of Austin, Texas, who have no sewers, refuse to allow the government to lay a sewer from the new custom house to the Colorado river.

Gen. Supt. S. J. Kimball of the United States life-saving service has ordered the equipment of the forty-two life-saving stations along the New Jersey coast, and they were manned Sept. 1st. This is one month earlier than usual, on account of predictions of unusually heavy September gales. Two hundred and fifty-two men, including a captain to each station, compose the life-saving patrol on the New Jersey coast.

The coinage at the United States mint in Philadelphia, during August, aggregated 3,909,600 pieces, valued at $2,406,800. Of this amount there were 96,400 eagles, 63,200 half eagles, 1,100,000 silver dollars and 2,680,000 cents.

Two young sons of Nathan Whitaker of Martinsville, Md., were instantly killed by lightning on the 30th ult. A third son of Mr. Whitaker, and a son of Mr. Henry Lewis, were fatally injured. The boys had sought the shelter of a tree, which was struck.

Two months ago Michael Perot of Grand Rapids, Mich., conceived the idea that he had a cancer in his stomach, and abstained from eating food until Saturday, Aug. 28th, when he died of starvation. An autopsy revealed the fact that all the organs were healthy, except the brain, which was disordered. He fasted twenty-three days longer than did Dr. Tanner.

The $1,500 supposed to have been stolen from the Hampden Riding park at Springfield, Mass., has been found, safe in bank. There was no robbery, only a mistake in book-keeping.

Chronicle Correspondence.

WASHINGTON, D. C., Aug. 30th.

The latest full convert to democracy as shown in Saturday night's dispatches is General Benjamin F. Butler. The general is a man of great ability, of vast information, of a certain sort of popularity among the people, and with a record that don't suit any party. There are many democrats who will rejoice at, and many who will regret his return to the party he left twenty years ago; and in the like way republicans will be divided in feeling as to his loss. I mention the case principally because the general is better known here than elsewhere,—better, perhaps, than in Massachusetts. He has a magnificent residence here, built of granite from his eastern quarries. A good story is told of the manner in which this stone was brought here. A United States vessel had been ordered here from a port within easy reach of the quarries owned by the general. He kindly offered to furnish ballast, and did furnish it, in the shape of the material of which his palace here is built. This palace is really three houses in a row, one of which Senator Jones has long occupied, one of which the government rents—perhaps because of the friendly act of the general in supplying ballast—and the other is the general's residence when here. It is said that the two rented houses bring in enough every three years to pay for the whole structure.

It seems that Senator Conkling has authorized a member of the national republican committee to state that he will make four speeches in Indiana and three in Ohio. General Grant, it is said, will preside at the first meeting in the west at which Senator Conkling speaks. It is now given out authoritatively that the national committee will send no money to the south, and that no republican speakers will go there under their auspices. This last is doubted by many, as it will be remembered that at the recent republican conference in New York a contrary decision was announced. Mr. Blaine, after the election in Maine, will stump the west, going as far as California. General Garfield has informed the national committee that he considers it very important to carry Indiana in October, and, beginning in a few days, the committee will flood that state from end to end with their best speakers.

At the headquarters of the two political committees here—the congressional committees—there is now more activity than before. Senator Wallace has arrived, seeming to appreciate the propriety of actual work, and Secretary Walker is here also, this being their first meeting officially since the beginning of the campaign. Mr. McPherson, who is secretary of the republican committee, and has real control of it, is excellently qualified for the place, and is doing good work.

IT MAKES NO DRUNKARDS,

Breaks no Hearts, Excuses no Crimes.

Dr. David Kennedy's FAVORITE REMEDY is not a disguised celebrity of the humble race; where it cannot help, it does not harm. FAVORITE REMEDY is a combination of vegetable alteratives. It does not heat nor inflame the blood, but cools and purifies it. In all cases of Kidney troubles, Liver complaints, Constipation of the Bowels, and the delicate derangements which afflict women, the action of FAVORITE REMEDY is beyond praise. Thousands of grateful people voluntarily testify to this, in letters to Dr. Kennedy; and with a warmth and fullness of words which mere business documents and certificates never possess. It makes no drunkards—excuses no crimes—breaks no hearts. In its coming there is hope, and in its wings there is healing. We challenge a trial and are confident of the result. Dr. Kennedy would have it understood that, while he is engaged in the introduction of his medicine, "Favorite Remedy," he still continues the practice of his profession, but confines himself exclusively to *Office* practice. He treats all diseases of a chronic character, and performs all the minor and capital operations of surgery.

AROUND HOME.

The steamer Stamford was at this harbor on the 1st inst., with a party from Newburyport.

The steamer Florence made an excursion trip from Newburyport to the Shoals on Wednesday.

Elder Simeon Sweet, for fifty-five years a minister of the Christian denomination, and well known in this city, where he was at one time a preacher, died in Beverly, Mass., on the 21st ult., at the age of eighty-five years.

Julia Wilson, the young girl who played the part of "Tot," the little street waif, in "Joshua Whitcomb," when it was performed here and in other places last season, has been left $12,000 by the will of her grandfather when she becomes of age.

The offerings at St. Andrew's by the sea, Rye, this season, have been sufficiently liberal to extinguish the debt, and leave a sum in the treasury of the church for the purpose of beautifying the grounds. An enlargement of the church edifice is proposed.

It is stated that at a meeting of the trustees of the Portsmouth savings bank, held on Wednesday, the 1st inst., the trustees voted to expend a limited sum to enlarge and improve their banking house in connection with the First national bank. The latter are to make the improvements if they choose, the savings bank making the above-mentioned payment towards the cost.

The time table of the steamer Fearless, running between this city and Kittery point, touching at Kittery and the "lower forside," will be as follows on and after Monday, Sept. 6th: Leave Frisbee's wharf, Kittery point, at 8:30 and 10:30 o'clock A. M., and 1:30 and 4:00 P. M.; leave Adams & Co.'s wharf, foot of Daniel street, Portsmouth, at 9:30 and 11:30 A. M., and 3:00 and 6:00 P. M. Fare ten cents each way.

The republicans of Rye held their caucus for the choice of delegates to the several conventions on Monday evening, Aug. 30th, and elected the following-named gentlemen: State convention—William C. Walker, John D. Marston; Congressional—John T. Marden, Levi T. Sanborn; Councillor—Emmons B. Philbrick, J. Jenness Rand; Senatorial—John O. Foss, Lewis E. Walker; County—George G. Lougee, Thomas W. Rand.

The proposals for the purchase of one hundred and twelve shares in the Portsmouth & Dover railroad advertised in this paper were opened on Wednesday noon of this week at the office of the president of the road. The bids were—for seven shares, by Mayor Guppey of Dover, $102.50 per share; for twenty shares, by Albert R. Hatch, $101; for fifty shares, by W. H. Rollins and others, at $102; and for one hundred and twelve shares, by Wm. H. Hackett, at $101.25 per share.

Aberle's Mammoth Minstrels will give a variety entertainment at Music hall this evening. Among the names of the performers we notice Bobby Newcomb, Billy Bryant, Dave Reed and Alfred Holland, whom we know to be first-class in their several specialties, and a number of others whose reputations are high. The company is a large one, and presents an attractive programme; and as the temperature is now about right for attending shows, they will probably have a good audience. See advt.

The crew of a Cape Cod schooner which brought a small dead whale into our harbor a few days ago were unable to sell it. They however procured a large cauldron and set up try works on Fishing islands, and are now engaged in procuring oil from the blubber which they obtained by cutting in. This is the first time within the memory of the oldest inhabitant that a whale has been cut up inside of Fort point, though it is said that a small whale wrs driven ashore on Seavey's island by a swordfish in 1867 or '68.

On Monday night of this week a valuable iron-grey colt owned by Hon. J. W. Fogg Hobbs of North Hampton was stolen from the pasture where he was kept.

The people of Newburyport have voted (not more than one-third of the voters taking interest enough in the matter to cast a vote) to pay $6000 per year for twenty years, for water for fire purposes. In this city for eighty years the aqueduct company have furnished water for extinguishing fires without charge. It is customary to complain of the aqueduct company with or without cause, but they have exhibited a liberality in this matter which deserves unqualified praise from all candid citizens.

The American Union Telegraph Co. have extended their lines to Dover, and there have established an office at the corner of Central and Washington streets. When this line extends itself so that messages do not have to be handed over to the Western Union to be transmitted, and properly advertises its business, if it does not sell out to its colossal rival, the W. U. T., it may do some business. At present it seems to hide its light, as if fearing it might be called upon to do some business if it announced its readiness for this purpose.

"A boy who knows how to manage a gun is, upon the whole, less likely to be shot than one who is a bungler through ignorance; and a good swimmer is less likely to be drowned than a poor one. If, now and then, a skilled sportsman is shot, or an expert swimmer drowned, the fault is seldom his own, and if the person really to blame had received proper training, the accident would probably not have occurred. The same argument holds good with regard to small boats," says Mr. Charles L. Norton, in the September *St. Nicholas*, and he proceeds to explain to the boys, with the aid of many diagrams, how to rig and sail small craft, winding up with the injunction, "First learn to swim, before you try to sail a boat."

The long continued drought seems to have seriously diminished the water supply of nearly every city in New England. The rivers and ponds are lower than for many years, and in some cities serious inconvenience has resulted. In Portsmouth, notwithstanding the increased use by breweries, steam engines, locomotives, steamboats, and people in their residences, the supply seems adequate, though the water does not flow into the third story of houses supplied by the Middle street main, as has been the case for some time past. The directors of the Aqueduct company are making every effort to increase their supply, and have succeeded in accomplishing this result to some extent. The reliability and excellence of pure spring water furnished at a comparatively inconsiderable outlay, compared with the expenditure made in many other places, is a source of congratulation, and we hope the efforts of the company to add to their supply will be crowned with entire success.

BOARD OF INSTRUCTION.

The regular monthly meeting of the Board of Instruction was held on the evening of the 1st inst.; present Mayor Sise, Mrs. Wilson, Mrs. Knight, and Messrs. Locke, Hoyt, Goodrich, Knight, Newton and Pender.

It was voted that $15 per annum be the tribute fee paid by non-residents who pay no real-estate tax, for each child of such non-residents who may attend the public schools of the city.

The district committees were authorized to introduce drawing into the district schools, without additional expense being incurred.

POLICE COURT.

WEDNESDAY, Sept. 1;—*Batchelder, J.*

George A. Alton, for one drunk, was fined $3, costs $6.90.

Alton was before the court a few days ago on a charge of being a common drunkard, but was let off on probation, on his promise to sign the pledge and keep it. Having failed to fulfill his promise the old case was brought forward, and he was sentenced to spend ninety days at the county farm and to pay $8.04 costs.

Michael Scully, drunk, $9.90. Brentwood.

YORK COUNTY ITEMS.

The "Campers' spring" at Pocahontas point, Gerrish's island, is dry, for the second time within our recollection.

While bathing in the surf at Old Orchard, Sunday morning, the 29th ult., Mr. E. C. Adams, of New Orleans, lost a diamond ring valued at $150.

Prof. Geo. W. Atherton of Rutgers college, New Jersey, addressed the largest political audience assembled at Kennebunk for years, on the night of the 31st ult., occupying a stand on Main street, where a mammoth Garfield & Arthur flag was swung to the breeze. The Kennebunk cornet band furnished music in a creditable manner. There has not been a democratic or greenback speech or flag raising thus far in Kennebunk.

Political Notes.

Irish-American republican clubs, composed principally of voters who have hitherto acted with the democratic party, have been organized in Biddeford, Lewiston, Portland and other cities of Maine, the membership increasing with unexpected rapidity.

The Richmond (Va.) *Whig*, democratic, in printing the certificates of democrats that Wade Hampton *did* say at Staunton what he was first reported to have said, indulges in the following remarks about Hampton: "That Hampton should have been so silly and indiscreet at Staunton as to talk of funderism, and even democracy, as the cause of Lee and Jackson, was no great matter; but that he should have taken so much pains to deny it, and that, too, with all solemnity, is a matter of grievous magnitude. We gave yesterday the certificates of four well-known Staunton funders that the account of Hampton's speech, which appeared in the *Valley Virginian*, was substantially correct, and we here reproduce it as a warning to funders to let 'outsiders' attend to their own affairs, particularly such men as Hampton, who preach the payment by others of every fraudulent claim, while they themselves illustrate how the bankrupt law can settle with creditors at fifty cents on the dollar, and leave the debtors rich."

At Portland, Me., on the 30 ult., there was a parade of republican uniformed clubs, with several flag raisings and an artillery salute. While the salute was being fired a drunken ruffian attempted to throw a lighted match into a powder-can, but was arrested and locked up; several stones were found in his pocket. He was taken before the court the next morning, and sent to jail for thirty days, so he will not be able to vote for "fusion and reform" on the 13th inst.

When a democrat talks about republican "corruption" and urges the need of "reform," all that is necessary is to draw his attention to the fact that during democratic administrations the loss to the country by defalcation of officials ranged from $3.56 for every $1000 disbursed, under Pierce, to $11.71 for every $1000, under Van Buren. In Lincoln's time, in the demoralization of the war period, the loss was seventy-six cents on every $1000; under Grant it was thirty-four cents; and under President Hayes it has been one-third of one cent on every $1000. These are official figures, and they are calculated to silence any democrat who talks about the necessity of a change in the administration.

The democratic state convention of Massachusetts met at Worcester on Wednesday, Gen. Butler was proposed as the nominee for governor, but refused to allow his name to be used. The fight was then between Hon. Wm. Gaston and Hon. Charles P. Thompson; we don't know who won, and it does not matter, as the republican candidate will be elected by a majority of many thousands.

Peter M. Baum, of the Dutchess county, New York, bar, is on trial, charged with obtaining a fraudulent divorce through false testimony. Annie R. Rose of New York has been on the witness stand, and swears that all the testimony she gave, on which the referee reported in favor of the divorce, was false. The suit was Simmons vs. Simmons, the wife suing for a divorce from her husband in Japan.

Mrs. Swan of Lafayette, Ind., a devout Roman Catholic, killed herself because her son married a Protestant.

Mrs. Jemima Groves of Brimfield, Mass., celebrates her 106th birthday on Friday. She enjoys good health.

In East or West, or North or South,
They to themselves an outrage do,
Who cannot boast a fresh sweet mouth,
With teeth like pearls begemmed with dew,
When SOZODONT all this supplies,
And works the charm before our eyes.

MESSRS. GEO. W. M. BALLOU & Co., bankers, of Boston and New York, have been negotiating large railroad loans. They are now closing out at a high premium $1,250,000 New York & New England Railroad 7s and $1,500,000 Cincinnati Hamilton & Dayton 6s.

COUGHS.—"*Brown's Bronchial Troches*" are used with advantage to alleviate Coughs, Sore Throat, Hoarseness and Bronchial Affections. For thirty years these Troches have been in use, with annually increasing favor. They are not new and untried, but, having been tested by wide and constant use for nearly an entire generation, they have attained well-merited rank among the few staple remedies of the age.

THE THROAT.—"*Brown's Bronchial Troches*" act directly on the organs of the voice. They have an extraordinary effect in all disorders of the Throat and Larynx, restoring a healthy tone when relaxed, either from cold or over-exertion of the voice, and produce a clear and distinct enunciation. *Speakers and Singers* find the Troches useful.

A COUGH, COLD, CATARRH OR SORE THROAT requires immediate attention, as neglect often times results in some incurable Lung Disease. "*Brown's Bronchial Troches*" will almost invariably give relief. Imitations are offered for sale, many of which are injurious. The genuine "*Brown's Bronchial Troches*" are sold *only in boxes*.

Though Shaking Like an Aspen Leaf

With the chills and fever, the victim of malaria may still recover by using this celebrated specific, which not only breaks up the most aggravated attacks, but prevents their recurrence. It is infinitely preferable to quinine, not only because it does the business far more thoroughly, but also on account of its perfect wholesomeness and invigorating action upon the entire system.

Grape Culture and Wine.

Mr. A. Speer, of New Jersey, one of the largest grape producers in the east, commenced but a few years ago, in a small way, to make wines from currants, blackberries, and other fruits. He now controls large vineyards of the Opoto grape, from which his famous Port Grape Wine is made, and which chemists and physicians say rivals the world for its beneficial effects on weakly and aged persons, and the consumptive.

For sale by A. P. Preston, David Kimball, F. B. Coleman, druggists; H. F. Gerrish, C. E. Laighton & Son, grocers.

Laughing off a Duel.

"Speaking of the Cash-Shannon duel," said an exchange fiend, putting his feet in the waste basket, "we need a few more men like Judge Dooly. He laughed out of duels with an audacious wit that compelled even the admiration of his enemies. You remember he said, when they threatened that if he didn't fight his name would fill the columns of a newspaper, that he had rather fill ten newspapers than one coffin. Once he went on the field with a man who had St. Vitus dance. His opponent was standing at his post, his whole frame jerking nervously from his malady. Dooly, in the soberest manner, left his post, and cutting a forked stick, stuck it in the ground in front of his opponent.

'What does this mean?' asked his opponent.

'Why,' says Dooly, "I want you to rest your pistol in that fork, so that you can steady your aim. If you shoot at me with that hand shaking so, you'll pepper me full of holes at the first fire!'

Then there was a laugh all round and the duel was put off without a day."—*Atlanta Constitution.*

HUNT'S REMEDY

THE GREATEST

KIDNEY AND LIVER MEDICINE

EVER KNOWN.

HUNT'S REMEDY has cured from lingering disease and death hundreds who have been given up by physicians to die.

HUNT'S REMEDY cures all Diseases of the Kidneys, Bladder, Urinary Organs, Dropsy, Gravel, Diabetes, and Incontinence and Retention of Urine.

HUNT'S REMEDY cures Pain in the Side, Back, or Loins, General Debility, Female Diseases, Disturbed Sleep, Loss of Appetite, Bright's Disease, and all Complaints in the Urinary and Kidney Organs.

HUNT'S REMEDY quickly induces the Liver to healthy action, removing the causes that produce Bilious Headache, Dyspepsia, Sour Stomach, Costiveness, Piles, &c.

By the use of HUNT'S REMEDY the Kidneys and Bowels will speedily regain their strength, and the Blood will be perfectly purified.

HUNT'S REMEDY is purely vegetable, and meets a want never before furnished to the public, and the utmost reliance may be placed in it.

HUNT'S REMEDY is prepared expressly for the above diseases, and has never been known to fail.

One trial will convince you. For Sale by all Druggists. Send for Pamphlet to WM. E. CLARKE, Providence, R. I.

Prices, $1.25 per bottle, or $6.50 (large size).

PERFECTLY SAFE IN THE MOST INEXPERIENCED HANDS!

For Diarrhœa, Dysentery, Cramps, Cholera, AND ALL THOSE NUMEROUS TROUBLES THE STOMACH AND BOWELS SO PREVALENT AT THIS SEASON.

No Remedy known to the Medical Profession has been in use so long and with such uniformly satisfactory results as

PERRY DAVIS' VEGETABLE PAIN KILLER.

It has been used with such wonderful success in all parts of the world in the treatment of these difficulties, that it has come to be considered

AN UNFAILING CURE FOR ALL SUMMER COMPLAINTS

and such it really is when taken in time and according to the very plain directions inclosing each bottle.

In such diseases, the attack is usually sudden and frequently very acute; *but with a safe remedy at hand for immediate use, there is seldom danger of its fatal result* which so often follows a few days' neglect.

The inclination to wait and see if the morrow does not bring a better feeling, not infrequently occasions great amount of needless suffering, and *sometimes costs a life.* A timely dose of Pain Killer will almost invariably save both, and will then put the attendant doctor's fee, in your pocket.

It has stood the test of forty years' constant use in all countries and climates, and is perfectly safe in any person's hands.

It is recommended by Physicians, Nurses in Hospitals, and persons of all classes and professions who have had opportunity for observing the wonderful results which have always followed its use.

THE BEST EVIDENCE!

I have long used the medicine known as PERRY DAVIS' VEGETABLE PAIN KILLER in my family and would not on any account be without it. When Cholera was last epidemic here, I used no medicine of any sort but the Pain Killer, and although myself and several members of my family were attacked severely, I am happy to say that the Pain Killer was equal to every emergency. I consider it should be the duty and duty to the community did I not say this much. If I were attacked by the Cholera to-day, Pain Killer would be the only remedy I should use. I have thoroughly tested it, and know it can be relied on.

E. E. BERGINSEN,
Galena, Illinois.

Messrs. PERRY DAVIS & SON:

I know you need no testimonial to convince you that your medicine is all that you claim for it, but I cannot restrain the impulse to communicate to you the fact that in my family it has truly done wonders. I administer it to my children (one eighteen months, and the other three years old) with perfect success. It regulates their bowels, and stops all diarrhœa. Myself and wife resort to it in all cases, both for internal and external use. I've used it in my family for five years, and *will not be without it.* Feeling myself under much obligation to you, in many times being relieved from pain, I am very truly yours, L. F. MOORE,
Baugall, Dutchess Co., New York.

No family can afford to be without it, and its price brings it within the reach of all.

The use of one bottle will go further to convince you of its merits than columns of newspaper advertising. Try it, and you will never do without it.

Price 25c., 50c., and $1.00 per bottle. You can obtain it any drug store or from

PERRY DAVIS & SON, Proprietors, Providence, R. I.

KIDNEY-WORT

THE ONLY MEDICINE

That Acts at the Same Time on

THE LIVER, THE BOWELS, and the KIDNEYS.

These great organs are the natural cleansers of the system. If they work well, health will be perfect. If they become clogged, dreadful diseases are sure to follow with

TERRIBLE SUFFERING.

Biliousness, Headache, Dyspepsia, Jaundice, Constipation and Piles, or Kidney Complaints, Gravel, Diabetes, Sediment in the Urine, Milky or Ropy Urine; or Rheumatic Pains and Aches,

are developed because the blood is poisoned with the humors that should have been expelled naturally.

KIDNEY-WORT

will restore the healthy action and all these destroying evils will be banished; neglect them and you will inevitably suffer.

Thousands have been cured. Try it and you will add one more to the number. Take it and health will once more gladden your heart.

Why suffer longer from the torment of an aching back?

Why bear such distress from Constipation and Piles?

Why be so fearful because of disordered urine?

KIDNEY-WORT will cure you. Try a package at once and be satisfied.

It is a dry vegetable compound and

One Package makes six quarts of Medicine.

Your Druggist has it, or will get it for you. Insist upon having it. Price, $1.00.

H. H. RICHARDSON & CO., Proprietors, Burlington, Vt.

(Will send post paid.)

A discovery which cures by the natural process.

CORRUPTION

of all diseases of the Kidneys, Bladder, Urinary Organs and Nervous System, when nothing else can. It is comfortable to the patient, positive in its effects, and the first cure for those painful and much dreaded affections.

Diabetes and Bright's Disease,

while its cures of Gravel, Dropsy, Catarrh of the Bladder, Brickdust Deposit, Painful Urinating, High-Colored Urine, Nervous Weakness and Pain in the Back seem more like miracles than cases of natural healing.

DELICATE FEMALES

or victims of wasted or prostrated energies, caused by irregular habits, the abuse of nature and mental or physical over-exertion, will find their greatest relief in the use of DAY'S KIDNEY PAD, which strengthens and invigorates the invalid and restores the vigor of health.

PAIN IN THE BACK.

We say positively, and without fear of contradiction, that DAY'S KIDNEY PAD is the only certain and permanent cure for every form of this prevalent and distressing complaint.

YOUNG MEN

suffering from nervous and physical debility, loss of memory, or vitality impaired by the errors of youth or to close application to business or study, may be restored and manhood regained.

Avoid all kidney medicines which are taken into the system by way of the stomach; it is an old treatment well tried and proven inefficient, though sometimes effecting apparent cures of one complaint, but sow the seeds of more troublesome and permanent disorders. The price of our pad brings it within the reach of all, and it will usually save many times its cost in doctors bills, medicines and plasters, which at best give but temporary relief. It can be used without fear or harm, and with certainty of a permanent cure, for sale by druggists generally, or sent by mail (free of postage) on receipt of the price. "Regular Pad, $1.00; Child's Pad (for incontinence of urine in children), $1.50. Special (extra size), $2.00. Our book, "How a Life was Saved," giving a history of this new discovery and a large record of most remarkable cures, sent free. Write for it. Address

DAY KIDNEY PAD Co., Rochester, N. Y.

CAUTION. Owing to the many worthless Kidney Pads now offered for sale on the strength of our reputation, we deem it due the afflicted to warn them. Ask for DAY'S KIDNEY PAD, and take no other.

ELDREDGE'S LAGER, and
REFINED CIDER.

Of the different summer beverages manufactured at this establishment it is hardly necessary to say a single word. They have become popular wherever they are introduced, and can be found in many private families and on sale in every hotel, saloon and restaurant in this locality.

The Lagers bottled by me are from the best breweries in the country, and it is safe to say that there is no better in the world.

☞ Orders may be left at my establishment for any of the above, which will be delivered anywhere within the city limits without extra charge.

TESTIMONIALS.

I regard Mr. Eddy as one of the *most capable* and successful solicitors with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more capable of securing for them an early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, October 19, 1870.

R. H. EDDY, Esq.—*Dear Sir:* You procured for me, in 1840, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have occasionally employed the best agencies in New York, Philadelphia and Washington, but I still strongly prefer the whole of my business, in your line, and advise others to employ you. Yours truly, GEORGE DRAPER.

SPEER'S

PORT GRAPE WINE!

Grapes in the Vineyard of Speer's Port Grape Wine.

SPEER'S PORT GRAPE WINE,

FOUR YEARS OLD.

This Celebrated Native Wine is made from the juice of the Oporto Grape, raised in this Country. Its Invaluable

Tonic and Strengthening Properties

are unsurpassed by any other Native Wine. Being the pure juice of the Grape, produced under Mr. Speer's own personal supervision, its purity and genuineness are guaranteed. The youngest child may partake of its generous qualities, and the weakest invalid use it to advantage. It is particularly beneficial to the aged and debilitated, and suited to the various ailments that affect the weaker sex. It is in every respect A WINE TO BE RELIED ON.

Speer's P. J. Sherry,

A delicate, fine flavored Sherry, from the Spanish grape, equal to the finest brands imported from Lisbon.

SPEER'S P. J. OR PEDRO J. BRANDY.

This noted Brandy is a pure distillation from the grape and is equal to the finest Hennessy or Otard Brandies; for medicinal purposes it can be relied upon as strictly pure.

Speer's Sambuci Wine!

celebrated for its beneficial qualities, highly esteemed by eminent physicians, used in European and American Hospitals and by the first families in Europe and America.

Excellent for weak and debilitated persons, the aged and infirm; improving the appetite and benefitting infants and children.

AS A DIURETIC,

it imparts a healthy action to the Kidneys and Urinary organs, very beneficial in Dropsy, Gout and Rheumatic affections.

KNOW THYSELF.

The untold miseries that result from indiscretions in early life may be alleviated and cured. Those who doubt this assertion should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE; or SELF-PRESERVATION.

Exhausted vitality, nervous and physical debility, or vitality impaired by the errors of youth or too close application to business, may be restored and manhood regained.

Two hundredth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. Three hundred pages, more than 50 valuable prescriptions for all forms of prevailing disease, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in French cloth; price only $1, sent by mail post-paid.

The London Lancet says: "No person should be without this valuable book. The author is a noble benefactor."

The Tribune says: "The author has had unprecedented success in dealing with nervousness of all kinds and its affections, whether due to pernicious habits or inherited. He is a Nervo-specialist, and therefore knows whereof he writes with such power and ability."

An illustrated sample sent to all on receipt of 6 cents for postage.

The author refers, by permission, to Hon. P. A. Bissell, L. M. D., president of the National Medical Association.

Address Dr. W. H. PARKER, No. 4 Bulfinch Street, Boston, Mass. The author may be consulted on all diseases requiring skill and experience. 6m4th 6dinovo

STONES IN THE KIDNEYS and BLADDER Expelled--Long Suffering of one of TROY'S best People.

A LUCKY MAN.

Mr. James Andrews, of No. 10 Marshal Street, Troy, N. Y., had suffered for several years from the formation of Stones in the Kidneys and Bladder, and had doctored with many of the best Physicians without receiving any benefit. He was induced to try Dr. Kennedy's "Favorite Remedy," and the following extract from Mr. Andrews letter tells the whole story:

TROY, N. Y., April 8th, 1880.

Dr. D. Kennedy, Rondout, N. Y.:

DEAR SIR,—I received your letter to-day, and you are welcome to use any part of my letter as may seem best. Had I not used the "Favorite Remedy" I should have been a great sufferer to this day. The stone that passed from me has a small piece broken off, but the large one I enclose so that you can see for yourself of what it is composed.

I am quite willing to testify under oath to all I have written in regard to my sickness and recovery, and words fail to fully express my feelings of gratitude to you for my great deliverance from so terrible a disease.

With a real grateful heart I remain yours most respectfully, JAM'S ANDREWS.

THE

New Hampshire Gazette!

Established 1756.

The Gazette is published every Thursday and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of news, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

CANTERBURY SHAKERS' LIFE-INVIGORATING SARSAPARILLA.

The Great Blood Purifier, Kidney Remedy and Mild Laxative.

WE, the undersigned, having used DR. CORBETT'S SHAKER SARSAPARILLA SYRUP in our practice, and having examined the formula by which it is prepared, would cheerfully commend it to the community as the cheapest, safest, and most efficacious of all the preparations of Sarsaparilla in the market. Its highly concentrated state, (there being in a given amount of Syrup twice the amount of Vegetation Extract that any other contains, the care, skill, and economy of its manufacture, are sure guarantees of its purity and effect. Daily Chronicle.

Old Time Chronicles, No. 187.

BY UNCLE JOSEPH.

Boston early, and its name.—There is a Boston in England. In it lived a minister named John Cotton. He was a nonconformist to the established church, and in 1621 was brought to trial, when quite a number testified to his non-conformity. What the result was does not appear. But he wrote a letter to Bishop Williams, which evinced a most excellent Christian spirit.

Mr. Cotton emigrated to this country. The precise time of his coming cannot be given, but probably it was about the time Boston was settled in 1630.

The first settlers of Boston began at first in Charlestown. Not liking the water there, not considered good, they went across the river and established themselves in what is now Boston. There was but one man there, perhaps with his family. This name was Blackstone. He afterwards went to the border of Rhode Island. The place took the name Blackstone, which it still bears.

The settlers while in Charlestown formed a church and had Rev. John Wilson for their minister. This became the first church in Boston. Its first house of worship, and the first built in Boston, stood on the south side of what is now State street. It had mud walls and a thatched roof. Mr. Wilson for some reason did not preach here long, and Oct. 17th, 1633, Rev. John Cotton was installed pastor. He continued seventeen years to his death Dec. 23d, 1652, aged sixty-seven years. Before his death a new church edifice was erected. It stood on Washington street where Joy's buildings afterwards were.

The Indian name of Boston was Shawmut. The first settlers called it Tramount, Tremont or Trimountain. But very soon after the settlers came, indeed the same year, Sept. 7th, 1630, the name Boston was given it in honor of Rev. John Cotton, who, with probably a few others were from Boston in England. It has borne the name two hundred and fifty years. It became a city in 1822, fifty-eight years ago.

Mr. Cotton, who in some sense was the first minister of Boston, as Mr. Wilson did not preach long, was a Puritan in principles, an excellent man, and did much to establish the Puritanic faith. This influence was felt long. He was the first of a noble line of ministers in this country, that bore the name of Cotton, many of them if not all his descendants. Among them may be named as those living in this state, Rev. Sanborn Cotton and Rev. John Cotton of Hampton, Rev. Theophilus Cotton, the first minister of Hampton Falls, Rev. Josiah Cotton, the first minister of Sandown and Rev. Samuel Cotton, minister of Litchfield.

Three Things.

A thoughtful man once said that two things settled the question of our happiness or misery, viz.: Our relations to our Creator and to women. There is one more—our relations with our own blood in our veins. Impure blood will produce tumors. It did so in the case of Mrs. Walter Hinckley, of Cotuit, Mass. The doctors could do nothing for her. A neighbor brought from Dr. David Kennedy, of Rondout, N. Y., a bottle of his "Favorite Remedy." She tried it and became better. "No woman," writes Mrs. H., "can afford to be without Favorite Remedy." It will cost you only one dollar to make the experiment. The good result is sure.

Harry Casey, aged nineteen years, a son of Col. S. F. Casey of Washington, and grandson of Gen. Silas Casey, was drowned, while bathing at Narragansett Pier, on the 1st inst.

With occasional exceptions, the diseases peculiar to women have a common origin, and they may therefore, have a common cure. All local treatment aims at effects, but Lydia E. Pinkham's Vegetable Compound aims at the cause. Send to Mrs. Lydia E. Pinkham, 233 Western Avenue, Lynn, Mass., for pamphlets.

FOR PRESIDENT,

James A. Garfield,

OF OHIO.

FOR VICE PRESIDENT,

Chester A. Arthur,

OF NEW YORK.

A Bad Move.

It is reported that a movement is on foot for the transfer of the meteorological work of the signal service to the interior department. Better let it remain where it is, with the war department. Under the present organization the signal service of the United States has been brought to a degree of perfection far ahead of anything of the kind in any other country, and the proposition to split it up so as to make part of it an adjunct of the "political machine" should be sat down upon very heavily by the people. The subordinates in the signal service bureau are of value in proportion to their experience, and under the present rule their retention and advancement depends upon their efficiency and trustworthiness; under the proposed change they would be appointed and discharged for political reasons, and the efficiency of the service would of necessity be greatly impaired. The change should not be made.

A Frank Acknowledgment.

Gen. Chalmers of Mississippi, who represents in congress the "shoe-string district" of his state, so called because it is five hundred miles long and only ten or fifteen miles wide, having been so arranged by the democrats in order to crowd into it a republican majority of over fifteen thousand, which majority Chalmers' friends overcame by a "judicious show of force" before election and judicious counting afterward,—this Gen. Chalmers has been making democratic speeches, in one of which he is reported by the New York *World* to have said:

The cry that we will bankrupt the government with southern war claims is absurd. None can be paid under the law, except the claims of loyal men, and the idea that the confederate brigadiers will bankrupt the government and impoverish themselves with taxation to pay war claims to southern union men, whom they hate as much as the copperheads were hated by the union men of the north, is too ridiculous to need refutation.

There are two points in the statement that are worthy of attention. The first is that the cry about the payment of the enormous southern war claims in case of a democratic victory is absurd, because "none can be paid under the law, except the claims of loyal men." The people of the north know all that; they also know that it is to the republican party they are indebted for the fact that such is the law, and that in order to maintain that law as it is a republican victory is necessary at the coming election, as a democratic president and congress would make short work of repealing it.

The other point to which we would call attention is Chalmers' declaration that the "confederate brigadiers" now hate the southern Union men "as much as the copperheads were hated by the Union men of the north" during the war—a declaration which, coming as it does from one of the confederate brigadiers, carries with it more weight than a hundred columns of the "reconciliation" twaddle of the northern democratic editors. And if the confederate brigadiers, who rule the democratic party and will rule the national government in case of a democratic national victory, are so bitter in their hatred of the men who favored the Union, their hatred for the Union itself cannot be less.

Admitting the correctness of Chalmers' statements, it is certain that the national treasury will be quite as secure from a rebel-war-claim raid, and the southern Union men quite as safe from the vengeance of rebel brigadiers, in case of a republican victory, as though the democrats had won.

"An Amusing Affair."

A late number of the Charlestown, S. C., *News and Courier* has an account of what it calls "an amusing affair" at Abbeville Court House in that state, the story thus reading: "The republican county convention met here yesterday at eleven o'clock. Business was suspended, and everybody turned out to hear what the rads would say. Only two members of the convention were white, Tolbert and Keller. When Tolbert rose to address the meeting everywhere was confusion. Our boys cried, 'Take him down! Black him! Make him kiss Ab Titus!' Amid the confusion and excitement Col. Cothran appeared and attempted to persuade the boys to retire, and allow them to go on with the meeting. The boys did not go worth a cent. Col. Cothran was enthusiastically called for by the whites. He mounted the rostrum and delivered a short and meaning speech. He told the rads this is our country, and it shall remain ours."

The Situation in Indiana.

The following account of the political situation in Indiana is taken from the Newburyport *Herald*:

It was expected that the democratic national convention would nominate Mr. Hendricks of Indiana, and that of course the state would vote the democratic ticket. The people had adopted an amendment to the constitution changing the date of election from October to November. The vote of Indiana for the democratic state ticket in October would greatly help the party throughout the country, and so the democratic supreme court decided that the amendment was null and void. Mr. Hendricks was not nominated, and Indiana is likely to vote for the republican state ticket, and now there is to be a rehearing. This cannot be had until after the election in October, and the republican judges who will be chosen are expected to decide that the constitutional amendment was valid, so that the October election will be of no effect, and they will not be judges, and their decision will be void, in which case the previous decision will be valid, and so they will be judges whose opinion is of authority, and it will be a game like that of the children of "Ringy, ringy, rounder." The situation is peculiar and embarrassing to the democrats, who are anxious to have their partisan decision reversed before the election in October, which is scarcely possible. To the republicans it is not so distressing. The moral effect of a republican victory in Indiana would be as great if the decision of the supreme court should be reversed as if it should stand. It is one of the most curious and interesting situations which has ever occurred in our politics.

News and Notes.

Three children of Charles Wilson, a prominent farmer of Surrey county, Virginia, were fatally poisoned last week, having eaten berries of the deadly nightshade.

A boy at Winamac, Ind., put a revolver into his pocket before being punished by his parents, and after quietly taking his whipping, shot them both dead.

Since the passage of the silver bill there have been coined to date, $68,189,750 in standard silver dollars. Of this amount $19,886,443 is outstanding in circulation. During the month of August there were paid out from the mints $1,285,483 in standard silver dollars, against $314,826 in July.

A wooden bridge over the river Ebro, near Logrono, Spain, fell while a battalion of troops was crossing it on the 2d inst., and one captain, three lieutenants and sixty-four men were drowned.

The number of vessels belonging to or bound to or from ports in the United States, reported totally lost and missing during the past month is twenty-five, of which seventeen were wrecked, two abandoned, two burned, one sunk by collision, two foundered, and one is missing. The list comprises two ships, seven barks, three brigs and thirteen schooners, and their total value, exclusive of cargoes, is estimated at $355,000.

At Richmond, Va., on the 1st inst., the case of Capt. John S. Wise, charged with being about to engage in a duel with Dr. George Ben. Johnston, came up in the police court. Capt. Wise surrendered the previous day, and was present in court. After several witnesses had been examined, Capt. Wise made his statement about the affair, and said he now considered the matter as a farce, and at an end. He was placed under bonds in the same amount, $5000, as Johnston.

Eight prisoners confined in the Clinton county, Iowa, jail, during the absence of the jailer on the 1st inst. overpowered the turnkey, and escaped. In their flight they carried the turnkey's revolver and pocket-book with them.

Thomas McDonald, aged about twenty-eight years, a farmer living near Commercial point, Pickaway county, Ohio, was taken from his house on the night of the 31st. ult by a mob of unknown persons, and hung to a tree near his house. McDonald went to that place from Kentucky some years ago, and has been long regarded as a desperate, quarrelsome and vindictive man.

It is now stated that Rev. D. M. De Hughs, of Cinnamonson, N. J., who was said to have jumped from a Delaware river ferry boat at Philadelphia and committed suicide recently, has run away with a young woman of Camden instead.

Some ingenious rascals have made photographs of greenbacks and circulated them in the back counties of Mississippi, among ignorant people, as a new style of government checks. A local bank discounted $19,000 of them, not detecting the fraud, and sent them to Washington for redemption.

Samuel Doane, aged sixteen years, was drowned in the river at Lewiston, Me., on the 1st inst., by the upsetting of a boat. A lad attempting to rescue him was nearly drowned.

The city of Cleveland has sold $176,000 worth of six per cent bonds at 106.19. The purchasers were Chas. A. Sweet & Co. and Geo. W. Ballou, of Boston. This is the largest price ever paid for Cleveland city bonds. Messrs. Ballou & Co. have been engaged in supplying their customers with securities like the above-named bonds. The quotations of five per cent bonds of what is denominated a western city, goes to show that with the growth of the country confidence in the ability of the west to meet its municipal obligations grows as the years come. Once a Cleveland bond at almost any rate would not sell above par. Cleveland, however, is far above many cities of the west in the matter of credit.

Messrs. James R. Osgood & Co. will shortly publish Mr. Charles T. Congdon's brilliant series of journalistic reminiscences, covering a period of half a century. The same firm will shortly commence the issue of "Dramatic biographies," being sketches of prominent actors who have figured in the history of the American stage. Later in the fall, will appear the "Records and reminiscences of the radical club of Chestnut street, Boston," prepared under the direction of Mrs. John T. Sargent, a book concerning which there are great expectations both in Boston and the country.

Over one hundred feet of the famous Shaker bridge across Mascoma lake, Enfield, slid off and sank, Sept. 1st. The bridge is one-fourth of a mile long, and constructed from the bottom of the lake of logs, dirt and stone, and the sinking was because of the weight. It will cost several hundred dollars to repair it.

—The Prince of Wales has $200,000 insurance on his life.

—Mayor Prince, of Boston, the other day, received a letter from an Illinois woman asking him to get her a small piece of silk to match a dress, enclosing a sample, and adding: "Please do look well in all the stores."

—A coasting vessel was tossing about in the heavy storm of last Thursday, when one of the sailors, hanging on a rope, thoughtfully observed to a companion similarly employed; "Think of the poor devils caught at a picnic in such weather as this."

—"Ella, is your father at home?" said a bashful lover to his sweetheart. "I want to propose something very important to him." "No, Clarence, papa is not at home, but I am. Couldn't you propose to me as well?" And he did with perfect success.

—They have taken to holding Sunday schools in tents out west, and when a deluded boy crawls under one of these tents only to find himself just in time to be seized and asked if he is looking for the path to Heaven, he feels awfully disgusted, and so does the teacher when the boy replies, "No, I'm looking for the monkey's cage."

—A brilliant and useful future is predicted for the milkweed, which has heretofore been considered only a cumberer of the ground. Its seeds yield a finer oil than linseed; its gum can be used in place of India rubber; and from its floss a fabric resembling Irish poplin has been made; while the young shoots are in the spring eaten by some people, instead of asparagus, which they resemble in flavor.

IT MAKES NO DRUNKARDS,

Breaks no Hearts, Excuses no Crimes.

Dr. David Kennedy's FAVORITE REMEDY is not a disguised enemy of the human race; where it cannot help, it does not harm. FAVORITE REMEDY is a combination of vegetable alteratives. It does not heat nor inflame the blood, but cools and purifies it. In all cases of Kidney troubles, Liver complaints, Constipation of the Bowels, and the delicate derangements which afflict women, the action of FAVORITE REMEDY is beyond praise. Thousands of grateful people voluntarily testify to this, in letters to Dr. Kennedy; and with a warmth and fullness of words which mere business documents and certificates never possess. It makes no drunkards—excuses no crimes—breaks no hearts. In its coming there is hope, and in its wings there is healing. We challenge a trial and are confident of the result. Dr. Kennedy would have it understood that, while he is engaged in the introduction of his medicine, "Favorite Remedy," he still continues the practice of his profession, but confines himself exclusively to *Office* practice. He treats all diseases of a chronic character, and performs all the minor and capital operations of surgery.

AROUND HOME.

The poles for the democratic campaign flag at the south bridge were put up on Thursday last. The flag is to be raised next Tuesday evening.

A complimentary hop was given to Commander Yates and the officers of the U. S. S. Alliance on Thursday evening at the new Franklin hall. The affair was admirably managed and greatly enjoyed. Harlow furnished the music.

Olive Branch Lodge, Knights of Pythias, of Dover, are laying out for a good time on Friday, Sept. 10th. The lodges of the order in Portsmouth, Rochester, Farmington, Great Falls, Newmarket and Exeter, and Haverhill, Mass., have been invited to join in a clam bake at Dover point, and other festivities.

Aberle's Mammoth Minstrels made a fine show on their street parade, Thursday, there being a big lot of them and their uniform a very neat one. In the evening they gave a really good show to a smaller audience than the excellent entertainment deserved. They would have a much larger house were they to come again.

Mr. George W. Perry, a student with John S. Perry, dentist, was badly injured on Thursday afternoon by the explosion of a vulcanizer, a concern used by dentists to harder rubber dental-plates. His left hand was badly torn by a piece of the machine, his right hand was slightly cut, and he received a blow in the chest from a fragment which caused bleeding at the lungs. How serious his injuries were could not once be told. At the time the vulcanizer exploded it was carrying a pressure of one hundred pounds to the square inch, it having been tested up to three hundred and eighty pounds. The noise of the explosion was heard a long way; and Mr. Perry's escape from immediate death seems remarkable.

"Perkin's Congressional District Vote Map of the United States." This is an outline map of the United States, 24 by 38 inches in size, showing the state frontiers, the boundaries of the congressional districts, their sizes and shape, and the official number of each. Their votes in the election of 1878, for members of congress, are indicated with great care, within the boundaries of each district, by a system of colored bars, one inch long for each 25,000 votes, red for republicans, blue for democrats, and white for the various third parties. Marginal tables confirm these records, by giving the precise number of votes of each party in each district during the election of 1878. It shows at a glance the political complexion of various localities, and will prove of great convenience to all who study the political condition of the Nation. Price fifty cents, in neat cloth case. Special rates to clubs. Mr. Myers has it on sale.

EXCURSIONS.

Steamer Stamford will make a trip from this city to the Shoals and back on Sunday, leaving Commercial wharf at one o'clock; fare for the round trip, fifty cents. The Stamford will leave Commercial wharf at eight o'clock Monday morning for Boston, where she will remain until midnight and then start for this port, thus allowing her passengers ample time to visit the gardens, theatres, etc.; fare for the round trip, one dollar. See advertisement.

Tuesday, September 7th, there will be an excursion from Portsmouth to Fabyan's and return over the Eastern railroad; tickets will be only $2.25 for the round trip, and good for six days. Full particulars will be duly announced.

MARK WENTWORTH SHEAFE.

The death of Mr. Sheafe, announced in our columns this morning, bring to mind a name once famous in business circles in Portsmouth—a name well known throughout the state as identified with the wealth of the old town, once the only considerably rich community in the province.

Mark Wentworth Sheafe was the son of William and Ann Wentworth Sheafe. His mother, Ann Wentworth, was the daughter of Thomas Wentworth, who was a graduate in 1758 at Harvard college, and who built the house facing Peirce's island, afterward occupied by Col. William Gardner, one of the best-built of the old houses in Portsmouth, celebrated in its day for beautiful situation and hospitable entertainments, and a frequently visited spot by strangers. Thomas Wentworth was the son of Mark Hunking Wentworth, who once resided in the house which stood at the western corner of Daniel and Chapel streets, and was for a long time the home of the late Mark Wentworth Peirce, and before it was demolished to make a site for the High School building was occupied by Rev. Rufus W. Clarke, a former pastor of the North parish. Thomas' father was an own brother to John Wentworth, the last royal governor of New Hampshire.

Thomas Wentworth died in 1768. His portrait, painted by Blackburn in 1761, is now in possession of one of his descendants, and is remarkable as a work of art. Mark Hunking Wentworth was the owner of much land in this vicinity. The farm known then as the Oak Hill farm, and later as the Abednego Robinson farm, on Sherburne road, with land extending to Goslin road, afterwards sold to Wm. Simes, Kittredge Sheldon, Ira Haselton and James Pickering. The Robinson farm was recently purchased by one of his descendants, Wm. A. Peirce, esq., for the proprietors of the Portsmouth Aqueduct.

The Daniel street house was inherited by entail from Sir Charles Mary Wentworth by Mark Wentworth Sheafe. The late Col. Joshua W. Pierce and the late Jacob S. Pickering, esq., each married daughters of William and Ann Wentworth Sheafe.

William Sheafe's residence was on Congress street, in the house in which Col. Peirce last resided. It formerly had a front yard high above the street, and the front door was reached by a high flight of steps. These were changed about thirty-five years ago by Col. Peirce, who built a flight of granite steps in front of the main entrance. They were afterwards removed, and a new entrance made in the basement story. This house was at one time occupied by John Hale Sheafe, the father of Mr. William Sheafe, who after the death of his uncle, Mr. Samuel Sheafe, removed to Boston, and upon his departure from Portsmouth the last male representative of the family went beyond our borders. Most of the real estate owned by the Sheafe family has been alienated, Mr. Wm. Sheafe retaining however the farm upon the Middle road, leading to the Plains.

YORK COUNTY ITEMS.

The schooner Emily A. Staples was taken on the marine railway at Kittery at noon on Thursday last.

The dry dock at the navy yard was hauled into the stream on Thursday, the 2d inst., in readiness to take up the steamer Leyden to-day.

The French Canadians of Biddeford have organized a republican club, with a uniformed company of seventy-five members for street parades.

The steamer Fearless, Mr. Keen's new Kittery point and Portsmouth ferry-boat, is forty feet long and of nine feet beam, draws three feet and ten inches of water when light, and will carry about seventy-five passengers.

The mass state temperance convention of Maine, at Old Orchard on the 1st inst., was attended by a great number of people. Hon. Anson P. Morrill was chosen chairman, and made an address. Mr. J. K. Osgood, the first candidate for governor of Maine nominated by Col. Stone's alleged state temperance convention; Senator Blair of New Hampshire; Gen. Perry of Portland, and others, addressed the meeting. The universal sentiment appeared to be that the republican party of Maine is the party of temperance, and that the so-called temperance movement engineered by Joshua Nye and Col. Stone was not even intended to advance the temperance cause, but simply to aid the democratic party in the political contest now being carried on.

Political Notes.

The democrats of Massachusetts, in state convention at Worcester on the 1st inst., nominated Charles P. Thompson for governor, Alpha E. Thompson for lieutenant governor, Michael F. Donohoe for secretary of state, Patrick A. Collins for attorney general, Francis J. Parker for treasurer, and Charles R. Field for auditor.

General Denis F. Burke, who commanded the Irish Brigade in Hancock's corps, and who has been actively engaged in the campaign in Vermont under the auspices of the Irish republican committee, reports that the Irish voters of Vermont are leaving the democratic party in large numbers, and forming Irish republican associations in the principal places of that state.

The democrats will, of course, be defeated in Maine, and they deserve their defeat. Their scandalous attempt last winter to accomplish by force and fraud what they had failed to accomplish in the election covered them with merited disgrace, and no honest man should wish to see them relieved of the penalty.—*New York Herald.*

Naval Gazette.

Commander Edwin M. Shepard is detached from command of the Constellation, and Lieut. Comdr. F. A. Cook from the Despatch, and both ordered to resume duty at the naval academy.

The court summoned on the late rope-walk fire at the Charlestown, Mass., navy yard, has concluded its investigation, and sent the report on to Washington. They estimate the loss on the building to be $18,000, and on the machinery, etc., $7,000, making a total loss of $25,000.

Dress Parade.

We cannot help pitying the people whose whole life seems to be spent on "dress parade." The soldier often thinks it not the least of his hardships to pass an hour daily in the exercise; but give a certain sort of man or woman the means, and they will make a businss of it. The starchiest of collars, the longest cuffs, the tightest dresses, the snuggest coats, and the most uncomfortable array of fixings and finery, they stick to—literally and figuratively—through the summer weather. A man arrayed in a loose linen suit and a pair of slippers—minus a collar and cravat—taking his comfort on his own veranda at nightfall, is to them a vulgar creature, while a lady who appears in a single muslin wrapper, at a prescribed hour in the morning, whatever the state of the weather, has her "bringing up" very thoroughly impeached in their court. For the adult people who find satisfaction in sacrificing their comfort to the idea of propriety, perhaps no pity is necessary—for as somebody said of conceited people, they have within themselves the supreme source of satisfaction. But a plea for the children is in order.

We have seen the doll-baby fashions of the town, for little girls and boys, transferred to the country-house and summer resort. Only the other day a group of children playing at croquet excited our sympathies. The girls were arrayed in starched and embroidered white dresses, and decked out in gay sashes, delicate stockings, and no end of finery that one hour of good, honest play such as a girl of six or twelve years old is entitled to, would reduce to a helpless wreck and ruin. They stepped round prettily, but in a constrained, artificial way, clearly showing they were on dress parade, even in the golden morning hours, and were painfully conscious of it. Even the active, sturdy little boys were in a measure sacrificed to their clothes, as they very soon found out if they went to rolling in the sand, or climbing trees, or tumbling each other about in plays that are just what the little animals need to develop their bodies and teach them active habits and self reliance.

On the cars, recently, we saw a family of eight children coming from the west to the seashore, whose dress and appearance won for their parents—a stanch, cheery, substantial-looking elderly couple—our instant respect and admiration. There were girls of an age that takes kindly to fine raiment—from six to sixteen—but one and all they were clad in light, loose-fitting, neatly-trimmed flannel suits, just the thing for comfortable and healthful traveling. They wore no bustles nor stays to interfere with their ease in sitting or reclining. No piles of hair twisted and pinned on the top of their heads, to keep the brain hot, but all their fine tresses were combed smoothly back from the forehead and face, and worn in plain braids down the back. The boys were dressed with equal sense and fitness, and when they were settled at their summer home there was no "distinction of sex" in the freedom and swiftness with which the children clambered over the rocks, roamed through the fields and woods, and played the merry games of childhood. May they, and all such favored ones, live long to call their mother blessed!—*Golden Rule.*

—The members of the bicycle club always date their letters "B. C." This will astonish future antiquarians.—*Punch.*

—At a recent marriage the bride was a young damsel who had been a great flirt. When the clergyman asked the usual question, "Who gives this woman away?" a young fellow present exclaimed, "I can, but I won't."

In East or West, or North or South,
They to themselves an outrage do,
Who cannot boast a fresh sweet mouth,
With teeth like pearls begemmed with dew,
When SOZODONT all this supplies,
And works the charm before our eyes.

COUGHS.—"*Brown's Bronchial Troches*" are used with advantage to alleviate Coughs, Sore Throat, Hoarseness and Bronchial Affections. For thirty years these Troches have been in use, with annually increasing favor. They are not new and untried, but, having been tested by wide and constant use for nearly an entire generation, they have attained well-merited rank among the few staple remedies of the age.

THE THROAT.—"*Brown's Bronchial Troches*" act directly on the organs of the voice. They have an extraordinary effect in all disorders of the Throat and Larynx, restoring a healthy tone when relaxed, either from cold or over-exertion of the voice, and produce a clear and distinct enunciation. *Speakers and Singers* find the Troches useful.

A COUGH, COLD, CATARRH OR SORE THROAT requires immediate attention, as neglect often times results in some incurable Lung Disease. "*Brown's Bronchial Troches*" will almost invariably give relief. Imitations are offered for sale, many of which are injurious. The genuine "*Brown's Bronchial Troches*" are sold *only in boxes.* Tu,th&f,&o

ARE THE KIDNEYS "Vital Organs?" Decidedly, yes. Without them life is impossible; and they appear to be peculiarly susceptible to severe and fatal derangements. They are, moreover, exceedingly difficult to treat, and the ailments affecting them are liable to end at any time in Bright's Disease. In our opinion, formed upon the conclusions of many skilled physicians, Hunt's Remedy, the great Kidney and liver medicine, is the best ever administered for kidney, bladder, liver and urinary diseases. It cures like a magic spell.

Sold by all druggists. Trial size 75 cents.

The Women at Home.

Our mothers, wives and daughters! Home is not home at all without them. Yet they may die and leave the house silent and sad any day. Husbands and fathers, a word in your ears. The ladies are not always to blame when they are low-spirited and "cross." They are sick. Don't you be fools or brutes and think they'll come out all right if you are only "firm" and mean yourselves. Put a bottle of Dr. David Kennedy's Favorite Remedy on the shelf, and tell them to use it. The color will come back to their cheeks and the laugh to their lips. Go and get it at once down town, or mail one dollar to the Doctor's address at Rondout, N. Y.

It is now stated that the sick men taken off the towboat Raven, at Vicksburg, Tenn., are not suffering with yellow fever, as was feared.

Coughs, hoarseness, asthma or any irritation of the throat or bronchial tubes, will be relieved by taking Dr. Bull's Cough Syrup. It has cured thousands. Recommend it to your friend and neighbor. Your druggist keeps it. Price twenty-five cents.

One man was killed and five others badly mangled by an accident in a coal mine near Shenandoah, Pa., on the 1st inst.

Nervous debility, weakness and decline prevented by a timely use of Malt Bitters.

The Fiery Food of the Mackerel.

In *Harper's Magazine* for September casual mention is made of a mysterious live seed of which the mackerel is exceedingly fond, and the presence of which is thought to attract the schools to the northern bays along the Maine coast. "Middleton" made inquiries in reference to this substance, but "could only hear that it was red, excessively hot like pepper, and floated in the water." The fish eat it with avidity, and according to Middleton it is so hot that it will burn its way out of a fish in a few hours after it is partaken of.

This, according to the observation of the fishermen, appears to be an error. The fact is that the digestive organs of the fish are strong enough to carry off the substance, whatever it is, and it only begins its work of destruction after the mackerel is dead. A reporter for the *Advertiser* in a conversation lately with a number of Portland fish-dealers and fishermen learned some interesting facts about the operation of this curious stimulant. The thing is by no means new, although it has attracted more attention of late years than formerly. The fishermen take large quantities of mackerel off Cape Elizabeth during the months from June to September. The fish are brought to the Portland market. Within two hours, in some cases, from the time when they are caught, the young mackerel which have eaten this "seed" begin to have the appearance of being rotten. The bones separate from the flesh and protrude, and everything indicates that the fish is in a state of dissolution. The larger mackerel are not affected so quickly, because the flesh is harder. Sometimes the fish are packed and shipped without discovering that they have eaten of the mysterious substance. Then the dealers are sure to be informed the next day that the whole lot was rotten when they reached their destination.

The taking of the "seed" becomes apparent in three hours after the fish are taken. It is then possible to tell which of them have it inside of them. The affected ones have a smooth, slimy feeling to the hand, while those that have not partaken are firm, and rougher to the touch. It does not injure the flavor of the flesh in the least. If the fish are eaten before they become quite soft no peculiar taste is noticed. If the fish are salted before the substance has begun its work, they are not at all affected. The appearance of the inside of the fish which has satisfied his greed, is peculiar. The intestines are completely filled with a brick-red liquid, thinner than blood and lighter in color. When the fishermen work for any length of time cleaning these affected fish the fiery substance is apt to make their hands sore, although it takes some time for the effects to be noticed.

What this "red seed," so-called, is, is only a matter of conjecture. Conversation with several fishermen fails to elicit much information in regard to it. It is a small, round substance which floats in the water, and it can be gathered by the hand in small quantities. It is not fiery to the touch any more than the common red peppers which grow in nearly every farmhouse window in Maine. It is a species of seaweed, and probably is not stronger in its pungent effects than ordinary pepper. The mackerel is the only merchantable fish which is fond of eating it in sufficient quantities to injure its sale. Jelly fish eat the "seed" in large amounts, and the mackerel voraciously tear them to pieces to obtain it from their stomachs. Herring and menhaden also partake of it in small quantities. Why the mackerel is so excessively fond of the peppery seed is a question that may never be solved.—*Portland Advertiser.*

—Scene—A court of law; trial for manslaughter is going on; Pat in the witness box. Counsel for the prisoner: "Did you see the prisoner at the bar knock down the deceased?" Pat: "No, yir honor; he was alive when I see him knocked down."

WM. F. CLARKE, Proprietor, H. J. POOR, Manager, Hartford, Conn.

PERFECTLY SAFE IN THE MOST INEXPERIENCED HANDS!

For Diarrhœa, Dysentery, Cramps, Cholera, AND ALL THOSE NUMEROUS TROUBLES OF THE STOMACH AND BOWELS SO PREVALENT AT THIS SEASON.

No Remedy known to the Medical Profession has been in use so long and with such uniformly satisfactory results as

PERRY DAVIS' VEGETABLE PAIN KILLER.

It has been used with such wonderful success in all parts of the world in the treatment of these difficulties, that it has come to be considered

AN UNFAILING CURE FOR ALL SUMMER COMPLAINTS

and such it really is when taken in time and according to the very plain directions inclosing each bottle.

In such diseases, the attack is usually sudden and frequently very acute; *but with a safe remedy at hand* for immediate use, *there is seldom danger of the fatal result* which so often follows a few days' neglect.

The inclination to wait and see if the morrow does not bring a better feeling, not infrequently occasions a vast amount of needless suffering, and *sometimes costs a life.* A timely dose of Pain Killer will almost invariably save both, and with them the attendant doctor's fee.

It has stood the test of forty years and is in all countries and climates, and is perfectly safe in any person's hands.

It is recommended by Physicians, Nurses in Hospitals, and persons of all classes and professions who have had opportunity for observing the wonderful results which have always followed its use.

THE BEST EVIDENCE!

I have long used the medicine known as PERRY DAVIS' VEGETABLE PAIN KILLER in my family and would not on any account be without it. When Cholera was so epidemic in this place, I used no medicine of any sort but the Pain Killer, and although myself and several members of my family were attacked severely, I am happy to say that the Pain Killer was equal to every emergency. I consider it should not be doing my duty to the community did I not say this much. If I were attacked by the Cholera to-day, Pain Killer would be the only remedy I should use. I have thoroughly tested it, and know it can be relied on.

E. E. BERGINSKEN,
Galena, Illinois.

Messrs. PERRY DAVIS & SON:

I know you need no testimonial to convince you that your medicine is all that you claim for it, but I cannot restrain the impulse to communicate to you the fact that in my family it has truly done wonders. I administer it to my children (one eighteen months, and the other three years old) with perfect success. It regulates their bowels, and stops all diarrhœas. Myself and wife resort to it in all cases, both for internal and external use. I've used it in my family for five years, and *will not* be without it. Feeling myself under obligation to you in many times being relieved from pain, I am very truly yours, L. F. MOORE,
Beacon St., Dutchess Co., New York.

No family can afford to be without it, and its price brings it within the reach of all.

The use of Pain Killer will further to convince you of its merits than columns of newspaper advertising. Try it, and you will never do without it.

Price 25c., 50c., and $1.00 per bottle. You can obtain it any drug store or from

JAMES PYLE'S PEARLINE

THE GREAT INVENTION

FOR WASHING AND CLEANSING

In hard or soft water, WITHOUT SOAP, and without danger to the finest fabric.

SAVES TIME and LABOR AMAZINGLY, and is rapidly coming into general use. Sold by all Grocers; but beware of vile counterfeits. Its great success brings out dangerous imitations, but PEARLINE is the only safe article. Always bears the name of James Pyle, New York.

A CHEMICAL which cures by the natural process.

ABSORPTION.

all diseases of the Kidneys, Bladder, Urinary Organs and Nervous System, which none else can. It is comfortable to the patient, positive in its effects, and free from pain for those painful and much dreaded affections,

Diabetes and Bright's Disease,

while its cures of Gravel, Dropsy, Catarrh of the Bladder, Retention, Incontinence, Painful Urinating, High-Colored Urine, Nervous Weakness and Pain in the Back seem more like miracles than cases of natural healing.

DELICATE FEMALES

or victims of wasted or prostrated energies, caused by irregular habits, the abuse of nature and mental or physical over-exertion, find their greatest relief in the use of DAY'S KIDNEY PAD, which strengthens and invigorates the invalid and restores the vigor of health.

PAIN IN THE BACK.

We say positively, and without fear of contradiction, that DAY'S KIDNEY PAD is the only certain and permanent cure for every form of this prevalent and distressing complaint.

YOUNG MEN

suffering from nervous and physical debility, loss of memory, or exhausted vitality, impaired by the errors of youth or to close application to business or work, may be restored and manhood regained.

Avoid all kidney medicines which are taken into the system by way of the stomach; it is an old treatment well tried and long experienced, though sometimes effecting apparent cures of one complaint, they sow the seed of more troublesome and permanent disorders. The price of our Pad brings it within the reach of all, and it will annually save many times its cost in doctors bills, medicines and plasters, which at best give but temporary relief. It can be used without fear of harm, and will certainly effect a permanent cure. For sale by druggists generally, or sent by mail (free of postage) on receipt of the price, $1.00 per Pad, $2.00. Child's Pad (for incontinence of urine in children), $1.50. Special (extra size), $3.00. Our book, "How a Life was Saved," giving a history of this new discovery and a large record of most remarkable cures, sent free. Write for it. Address

DAY KIDNEY PAD CO., Toledo, O.

CAUTION. Owing to the many worthless imitations of DAY'S KIDNEY PAD, we now ask those seeking a sale for our specifics to see that they are furnished with the genuine. Ask for DAY'S KIDNEY PAD, and take no other.

KNOW THYSELF.

The untold miseries that result from indiscretions in early life may be alleviated and cured. Those who doubt this assertion should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE; or SELF-PRESERVATION.

Exhausted vitality, nervous and physical debility, or vitality impaired by the errors of youth or too close application to business, may be restored and manhood regained.

Two hundredth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. Three hundred pages, more than 50 valuable prescriptions for all forms of prevailing disease, the results of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in French cloth; price only $1, sent by mail post-paid.

The London Lancet says: "No person should be without this valuable book. The author is a noble benefactor."

The Tribune says: "The author has had unprecedented success in dealing with nervousness of all kinds and its affections, whether due to pernicious habits or inherited. He is a Nervo specialist, and therefore knows whereof he writes with such power and ability."

An illustrated sample sent to all on receipt of 6 cents for postage.

The author refers, by permission, to Hon. P. A. Bissel, L.L. M. D., president of the National Medical Association.

Address Dr. W. H. PARKER, No. 4 Bulfinch Street, Boston, Mass. The author may be consulted on all diseases requiring skill and experience. dm&th&sdlnov80

STONES IN THE KIDNEYS

and BLADDER Expelled--Long Suffering of one of TROY'S best People.

A LUCKY MAN.

Mr. James Andrews, of No. 10 Marshal Street, Troy, N. Y., had suffered for several years from the formation of Stones in the Kidneys and bladder, and had doctored with many of the best physicians without receiving any benefit. He was induced to try Dr. Kennedy's "Favorite Remedy," and the following extract from Mr. Andrews letter tells the whole story.

TROY, N. Y., April 5th, 1880.

Dr. D. Kennedy, Rondout, N. Y.:

DEAR SIR,—I received your letter to-day, and you are welcome to use any part of my letter as may seem best. I feel that I owe the "Favorite Remedy" I should have been a great sufferer to this day. The stone that passed from me has a small piece broken off, but the large one I enclose so that you can see for yourself of what it is composed.

I am quite willing to testify under oath to all I have written in regard to my sickness and recovery, and would fail to fully express my feelings of gratitude to you for my great deliverance from so terrible a disease.

With a real grateful heart I remain yours most respectfully, JAMES ANDREWS.

THE

New Hampshire Gazette!

Established 1756.

The Gazette is published every Thursday and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of news, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

— THE —

NEW HAMPSHIRE GAZETTE

Contains more original matter

Than any other paper of its size in the State, the editors working more with their pens than with their scissors.

TO ADVERTISERS

THE N. H. GAZETTE

Presents an excellent opportunity for a week's invitation to customers, at a reasonable rate, and all those who desire to reach patrons in Rockingham and York counties will find it an economical medium. The GAZETTE is in many instances the only paper taken by families, and it is read to a large extent in localities whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

Daily Chronicle.

Political Notes.

Mr. A. T. Wimberly, chairman of the national greenback state committee of Mississippi, was waited upon by a democratic committee in Yalabusha county, August 23d, and warned to cease advocating the greenback cause, on penalty of death. He declined to quit the campaign; and pretty soon we shall hear probably of "a difficulty" in which one A. T. Wimberly was involved, and which left him with a load of buckshot in his body.

Gen. Weaver, greenback candidate for president, is now stumping Maine in behalf of the demogreenback ticket. When he and his friends were in the south, speaking for the greenback cause, the democrats made things lively for them, the Memphis *Avalanche*, a democratic paper, taking a humorous view of it all, as follows: "The jolly Weaver first sailed into the Alabama affair. But he retired early. He was a campaigner of some experience, and did not think it was wise to wait until he was knocked down by that 90,000 majority. Then J. H. Randall, another greenbacker, sailed in. His stay was also brief. Not that he apprehended the deluge of democratic votes. But the pressing hospitalities of the 'boys of Shubuda' rather overpowered him. He could not appreciate a brass band. He had no sense of humor. When the 'boys' called him a 'damnyankee' he failed utterly in seeing the point of the joke. Other playful remarks of the 'boys' seemed to have been misinterpreted by Mr. Randall, and when they told him he had 'better get out' he literally construed the remark to mean an invitation to leave the country. And he accordingly left." Weaver sputtered considerably about the democratic bulldozing of greenbackers in the south, when he addressed a meeting in Boston, but he does not refer to it in Maine; it might injure the cause.

The *Herald* thinks that it is "a very senseless piece of business" to mention Candidate English's mortgage foreclosures, and it considers his getting into his hands, at sheriff's sales, nearly four hundred pieces of poor men's property in Indianapolis, most of it property which had been paid for up to the last installment, evidence that he was "a shrewd business man." Shylock, we believe, was "a shrewd business man," but if he was nominated for the vice presidency, his shrewd business transactions would not greatly advance his political chances. It might be "exceedingly childish" to bring them up against him, but people in general would be apt to think that a man who had accumulated a vast fortune by dispossessing the poor of their homes did not deserve very well of the public. That is what is the matter, just now, with Candidate English.—*Boston Journal.*

Is It Possible

That a remedy made of such common, simple plants as hops, buchu, mandrake, dandelion, etc., makes so many and such marvelous and wonderful cures as Hop Bitters do? It must be, for when old and young, rich and poor, pastor and doctor, lawyer and editor, all testify to having been cured by them, we must believe and doubt no longer. See other column.—*Post.*

—Miss Murnford has an elderly admirer, who the other day presented her with a handsome lace collar. "Now," he said, with a sort of elephantine playfulness, "do not let any one else rumple it." "No, dear," answered Lavinia. "I will be careful to take it off."

Grape Culture and Wine.

Mr. A. Speer, of New Jersey, one of the largest grape producers in the east, commenced but a few years ago, in a small way, to make wines from currants, blackberries, and other fruits. He now controls large vineyards of the Opoto grape, from which his famous Port Grape Wine is made, and which chemists and physicians say rivals the world for its beneficial effects on weakly and aged persons, and the consumptive.

—An old angler says that a fish does not suffer much from being hooked. Of course not. It is the thought of how his weight will be lied about that causes him anguish.

I have been troubled with asthma for twelve years, and have employed skillful physicians of Boston, also two of the leading physicians of Augusta, without effect. I have felt nothing of this trouble since taking Adamson's Botanic Cough Balsam.

—At the close of the sermon the minister became impressive. Raising his voice, he said, "Judgment! judgment!" and a small boy in the vestibule shouted, "Out on first!"

Dr. Bull's Cough Syrup has been before the public for years, and is pronounced by thousands superior to all other articles for the cure of coughs, colds, influnza and all pulminary complaints.

Another Ocean Horror.

A despatch to the New York *Herald* from St. Augustine, Florida, dated Sept. 2d, says: "There is very little doubt that the steamer City of Vera Cruz, of the Mexican line, which sailed from New York Aug. 25th for Havana and Vera Cruz, went down in the recent hurricane, which has already strewn our coast with wrecks. Only the faintest hopes remain that any of the passengers survived. Portions of the mail carried by the ill-fated vessel were washed ashore yesterday some miles south of this city. One mail bag contained letters for Cuba and Mexico posted in Paris, France, Aug. 13th, and another lot was found with envelopes bearing post-mark New York, Aug. 25th. On a closer examination several bills of lading of the City of Vera Cruz were discovered. On Saturday afternoon a large steamer, supposed to be the Vera Cruz, passed the brig Caroline Eddy, then about sixty miles from the coast, off St. Augustine. This brig was soon struck by the hurricane and wrecked, drifting on the beach. Near the place where she was lost the letters were discovered. At the time the steamer was sighted she was headed south, the wind then blowing very hard and the gale rising. The City of Vera Cruz must have been struck by the hurricane, and probably foundered on Saturday night or Sunday morning."

The City of Vera Cruz was a wooden vessel, 1874 tons register, built at Greenpoint, L. I., in 1874, by J. English, for Alexandre & Sons' line between New York, Havana and Mexico. She was a screw vessel, 296 feet long, thirty-seven feet beam and twenty-six feet deep, and had a draught of nineteen feet of water. She had three decks, was brig rigged, and her motive power consisted of two compound cylinder engines. The material of her timbers were white oak, chestnut and hackmatack. She had a propeller fifteen feet six inches in diameter, with a pitch of twenty-three feet. Iron strips four inches wide and five-eighths of an inch in thickness, doubled and diagonally laid, strengthened the vessel materially. She had accommodations for one hundred passengers and was finely furnished.

She was loaded lightly on this trip. The cargo consisted of potatoes, provisions and general merchandise, amounting in all to about $50,000. Capt. Van Cise was in command, an expert seaman and one of the most careful men in the trade; the first officer, Capt. Horn, has also been a commander for years. A crew of fifty picked men were on the steamer, and there were about thirty passengers.

Tax-Case Decision.

The supreme court of New Hampshire in the case of the appeal of the Boston, Concord & Montreal railroad from the assessment by the board of equalization, has delivered an opinion, prepared, it is understood, by Chief Justice Doe, in which the court says that whatever the true, legal character of the tax may be it is not entirely a municipal tax of the railroad towns. And, as the facts found by the referees are only such as would be material if the tax were a tax of these towns, the court has not the facts necessary for making such order as justice requires. The report must be recommitted for the finding of the other facts.

In the case of the Atlantic & St. Lawrence railroad company the court say the lease of the road has no tendency to show anything but the value of the whole road, in three states, in 1853. And it may be impossible to ascertain the value of the New Hampshire part in 1879, without finding the value of the whole at that time. When the value of the whole is ascertained, there may be difficulty in finding the value of the New Hampshire part. But that difficulty, like all others in the case, is one of fact and not of law. Upon all evidence which the referees regard as of any weight, they will find what was the fair market value of the New Hampshire part of the road, on the 1st day of April, 1879. Upon the questions of proportional valuation and rate, they will proceed according to the directions given in the case of the Boston, Concord & Montreal railroad.

News and Notes.

In returning from Lanesville to Newburyport, Mass., in a boat, last Thursday afternoon, Capt. Makinney, his grandson, and a boy named Thurlow, were capsized on the bar and barely escaped drowning, being rescued by the steamer Gen. Bartlett.

Victoria, the celebrated Apache chief, is getting discouraged, and well he may. For a year or more he has been constantly chased by the United States troops, who have harassed and kept him running continually. Numerous skirmishes have taken place in which the Indians were always worsted. Latterly they ran over the Mexican border only to be met by the troops there and driven back again like a foot ball. Having to run thus between two fires would have discouraged even Tecumseh himself, whom Victoria nearly equals as a fighter. The capture and disarming of these Apache marauders will be a great blessing to the settlers of New Mexico and Arizona. Victoria has murdered a good many of them and burned their ranches during his flying raids.

Roserio Meli, an Italian brigand recently arrested at San Francisco, Cal., for the murder of two English tourists in Italy, has been remanded to jail to await the action of the Italian consul. Extradition papers signed by the president are in the hands of the Italian consul, and Meli will be sent home by an early vessel.

The police of Buffalo, N. Y., have arrested a pair of burglars and counterfeiters whose work has extended over a large territory, and has been wholesale in its nature. In April last a store in Buffalo was broken open, and large quantities of boots and shoes stolen. Suspicion rested upon George Hawthorne; he disappeared, but was arrested about two weeks since; confessed the crime, and implicated one Edward Anderson, who was arrested at Sinclairville, N. Y., on the 31st ult. During last fall Anderson manufactured a large quantity of spurious small coins, and, with the aid of Hawthorne and one Moore, passed them in Buffalo and elsewhere. They also committed burglaries at Lancaster, Gosport and Suspension Bridge, in New York state, and also at several places in Canada.

Coroner Heemann of New York on the 2d inst. submitted to a jury and newspaper reporters sixteen cases of suicide of recent occurrence, in the hope that some practical suggestion might be made on the question of how to check the alarming increase of this species of crime. The sole recommendation made by the jury was that the old French mode of dishonoring a suicide, by exposing the nude body to public view and afterward dissecting it, be adopted in New York.

Mrs. Hetty A. Mackie, widow of Dr. Andrew Mackie, who died at New Bedford, Mass., on Monday, Aug. 30th, aged seventy-seven years, was a daughter of Capt. Bradford of Plymouth, of the United States army, and was a direct descendant of Gov. William Bradford, the second governor of Plymouth colony. Through her mother she was descended from Gov. Thomas Hinckley, who from 1680 to 1692 was the last governor of Plymouth colony before its consolidation with Massachusetts Bay. She was born at Portland, Me., where her father was stationed at the time. Mrs. Mackie's youthful days were mostly spent in Plymouth, but after her marriage she became a resident of New Bedford.

It is announced from South America that Chili intends to annex Bolivia, and to hold Tarapaca, in Peru, until Peru pays a heavy war indemnity. This appears at first sight to be rather rough on Bolivia, which only went into the war as an ally of Peru, but in the end it would no doubt be a good thing for the people of the annexed republic; under Chilian rule they would have stable and good government, which they have never yet enjoyed for any length of time.

A mysterious murder is reported to have occurred in Liverpool county, Nova Scotia, Sept. 2d, an unknown man having murdered a woman who accompanied him in a carriage, and left the body in the woods near the scene of the crime after building a fire over the remains of his victim. The officers are on the track of the murderer.

It is said that many women are stored away in the cellar of the lunatic asylum at John, N. B., in which no person accustomed to the decencies of life could be hired by any sum to pass an hour. Other accommodations are deficient, and the inhumanity involved in the present arrangements is so great that no St. John newspaper would care to describe it.

The southern Utes have mostly signed the new treaty, and Ouray's death it is believed will delay the work of the commission but very little.

New Hampshire Items.

Some boys in Franklin, recently, captured a nest of three young gray squirrels which they brought home, and finally gave to the cat, supposing that she would make a meal of them. Instead of eating them she adopted them, and her own kittens being removed, she now gives the squirrels the same care and attention as if they were her own offspring.

The law term of the supreme court began at Concord, Thursday forenoon, 2d inst. Eight candidates were admitted to the bar, and N. E. Reed of Newport was expelled for illegal practice.

The fall term of Dartmouth college opened on the 2d inst. The number of new students admitted is about the same as last year.

The Ellsworth timber lands, 5,000 acres, were sold on the 2d inst. to Massachusetts and other parties. There are 60,000,000 feet of spruce and hemlock; in some places 100,000 feet of spruce to the acre. J. W. Morrison, the manager, of Compton village, will build a road about four miles long, from Pemigewasset river, to make the lands accessible.

Thursday last, at Weirs, the third day of the New Hampshire Veterans' reunion was occupied mostly by the Lowell veterans in dedicating their new building. A business meeting of the association was held, and officers chosen for the ensuing year. At four o'clock camp was broken. This has been the largest reunion ever held by the association, and they propose to meet at the same place again next year. From 20,000 to 25,000 persons were present on Wednesday, the second day of the meeting.

A Sure Mosquito Killer.

The Pyrethrum rosum, or "Persian chamomile," is the powdered leaf of a harmless flower growing in Caucasian Asia in great profusion, where for centuries it has been used to rid the natives of unwelcome guests from the insect world. It can be purchased at almost any reliable druggist at about seventy cents per pound, all ready prepared for use.

With a finely powdered dust made from these flowers, the mosquito, the house-fly, the wicked flea, and the disgusting crimson bedbug can may all be put to flight or murdered. It is only necessary to heap up into a little cone one teaspoonful of the drug pyrethrum, touch it with a lighted match, and watch the thin blue line of smoke as it rises to the ceiling and is wafted through the air, changing the busy drone of insect life into a weak wail of insect woe. Pretty soon down they come plump on to the table and over your paper, on their tiny backs, and then sheath their lancets, curl up their hair-like legs, and are no more.

Smoke from the Persian chamomile, or its dusty powder, is most efficacious, but the purity of the drug must be assured. It must have a bright buff color, be light, readily burned, and give a pleasant tea-like fragrance; one pinch should kill a dozen flies, confined in a bottle, at once; where it fails of these properties it has been adulterated.

In common use in large or breezy rooms, whether from great dilution it fails to kill, it nevertheless produces on insect life, through its volatilized essential oil or resin, undoubted nausea, vertigo, respiratory spasm, and paralysis. It acts upon them through the minute spiracles, the breathing tubes, that stud the surfaces of their little bodies, and from the delicate network of veins in their tiny wings. To human beings it is entirely innoxious and not disagreeable.—*Harper's Bazar.*

Who is Mrs. Winslow?

As this question is frequently asked, we will simply say that she is a lady who for upwards of thirty years has untiringly devoted her time and talents as a female Physician and nurse, principally among children. She has specially studied the constitution and wants of this numerous class, and, as a result of this effort, and practical knowledge, she has obtained, in the opinion, until she has given it the benefit of Mrs. Winslow's Soothing Syrup. Try it, mothers—try it now.—*Ladies' Visitor*, New York City. Sold by all druggists. 25 cents a bottle. 2

IT MAKES NO DRUNKARDS,

Breaks no Hearts, Excuses no Crimes.

Dr. David Kennedy's FAVORITE REMEDY is not a disguised enemy of the human race; where it cannot help, it does not harm. FAVORITE REMEDY is a combination of vegetable alteratives. It does not heat nor inflame the blood, but cools and purifies it. In all cases of Kidney troubles, Liver complaints, Constipation of the Bowels, and the delicate derangements which afflict women, the action of FAVORITE REMEDY is beyond praise. Thousands of grateful people voluntarily testify to this, in letters to Dr. Kennedy; and with a warmth and fullness of words which mere business documents and certificates never possess. It makes no drunkards—excuses no crimes—breaks no hearts. In its coming there is hope, and in its wings there is healing. We challenge a trial and are confident of the result. Dr. Kennedy would have it understood that, while he is engaged in the introduction of this medicine, "Favorite Remedy," he still continues the practice of his profession, but confines himself exclusively to *Office* practice. He treats all diseases of a chronic character, and performs all the minor and capital operations of surgery.

AROUND HOME.

A good horse is to be sold by auction at the navy yard to-day.

The yacht Loiterer, of Boston, arrived at this port on Thursday last, on her way to Mt. Desert.

Gilson is selling cider vinegar, green ginger root, and all of the condiments used in pickling, at low prices.

The excursion to Fabyan's over the Eastern railroad will take place on Wednesday, the 8th inst., instead of on Tuesday as first announced.

The Boston *Sunday Globe* will not be for sale in this city hereafter, as the train on which it has been brought during the summer is discontinued.

Mr. Lamprey opens his new term of juvenile dancing lessons at Franklin hall, Sept. 15th, and is prepared to instruct in all the new and improved styles.

The quarterly supper of the Mechanics' Fire Association took place at the Rockingham house Friday evening, with Mr. S. S. Fletcher as the host of the evening.

Aldrich & Parsloe's Californian drama, "My Partner," F. S. Chanfrau, and Clark & Marble's "Tile Club," are among the entertainments that will be presented in this city shortly.

The "Social Hymn and Tune Book" which has been adopted by the Unitarian society and will be introduced next Sunday, is now ready, and may be obtained at Goodrich's bookstore.

At a hotly contested republican caucus held in ward five, Lynn, Mass. on the 27th ult., Mr. Willis L. Hidden, formerly of this city, was chosen a member of a committee of four whose duty it should be to select a city committee.

The schooner Grace Choate arrived at this port on Thursday evening, the 2d inst., with two hundred barrels of mackerel, just taken. Her decks were piled up with them, and she sold thirty barrels to a Gloucester schooner for bait, before coming in.

The republicans of Greenland have chosen delegates to the several conventions as follows: State, J. Clement Weeks, John E. Holmes; congressional, Herbert C. Tafts, W. H. Brackett; county, John E. Holmes, S. A Hatch; councillor, John W. Weeks, N. P. Ordway; senatorial, Moses Pearson, George W. Weeks.

Mrs. George Slade, of Chelsea, Mass., who is summering at Mrs. John Johnson's in this city, on a recent visit to York supposed she had lost her pocket-book containing about eighty dollars, but on her return Mr. Cochran, of whom she hired a team, found the portmonnaie containing the money in the carriage, and returned it to her.

The next meeting of the Rockingham County Temperance Convention will be held in the town hall at Kingston, Sept. 9th, at ten o'clock in the forenoon. Resolutions have been prepared for discussion concerning the proper training of children, on the important subject of the removal of temptation from their way, and the expediency and advantage of assemblies for the agitation of the different phases of the temperance question. For dinner the former plan has been adopted. Seats in the four-horse barge for this meeting may be seasonably secured at the store of Bro. Joseph Pettigrew in this city. Tickets seventy-five cents each.

A chiropodist named Pollock, who "worked" this city successfully for one week in each of several successive months, a year or two ago, but finally departed with a dark cloud on his reputation, has recently developed quite a talent for getting out of the lockup. He got drunk way through, in Salmon Falls, and was incarcerated in the "lobby" at that place, from whence he escaped in less than an hour after being locked up, and went to Old Orchard beach, to which place he was followed by an officer, taken back to Salmon Falls, and again locked up, "extra precautions" being taken this time. Notwithstanding the "extra precautions" the "doctor" disappeared again within twenty minutes, leaving locks, doors and windows just as the officers had left them.

Levi F. Kenniston of Newmarket, who drove with his team into a ditch on Pleasant street, Dover, on the night of August 26th, has filed a notice with the city clerk of Dover, through A. L. Mellows, esq., his attorney, that his rigging was injured to the amount of $100 by that accident, and that he desires to be reimbursed by the city.

The fifty-sixth annual meeting of the Newmarket Manufacturing company took place on Thursday last, when the following officers were elected: Directors, W. D. Pickman, B. W. Crowninshield, J. W. D. Joy, G. B. Silsbee, N. G. Saltonstall, John Webster, Samuel A. Halley; treasurer, John Webster; clerk, Timothy M. Joy. Subsequently a dinner was partaken of at Silver's hotel.

Daniel Donovan, who was arrested at his home in Charlestown, Mass., a few days ago, for stealing two trunks from the custody of the Eastern railroad while they were in transit between this city and Boston, was on Thursday last arraigned before the police court at Lawrence, Mass., on a charge of robbing the clothing store of Thomas Dobson of that city on the 17th of May last, and was held in $1000 for trial.

HOSTETTER'S CELEBRATED

STOMACH BITTERS

Though Shaking Like an Aspen Leaf

With the chills and fever, the victim of malaria may still recover by using this celebrated specific, which not only breaks up the most aggravated attacks, but prevents their recurrence. It is infinitely preferable to quinine, not only because it does the business far more thoroughly, but also on account of its perfect wholesomeness and invigorating action upon the entire system.

The Horse's Frogs.

If we were to go to many a blacksmith and ask him if he did not think nature had made a mistake in putting the clumsy frog into the horse's foot, he would hardly be ready to say yes, and very likely would put on a surprised look, and perhaps explain that in some countries horses did very well without shoes, and so the frog was left to care for itself. But while not ready to take ground with you in any criticism of the plan upon which the foot is constructed, you have but to look in the corner of the shop where two horses stand newly shod; lift up their feet and observe for yourself, thus if the smith has not said it, the knife has said the frog is a bad thing, and must be cut away.

The horses do not stand on the ground, but nearly half an inch higher on the iron of their shoes, and which takes the weight of the horse on the outer shell of the hoof. The practice is as sensible as would be for a man who had to travel on all fours, taking the weight on the nails of his fingers and toes rather than on the cushion which lies behind them. It is always the soft part—the india rubber part of the feet of animals that have such—which receives the weight, and not the shelly, hard part.

We know what an elephant's foot is; it is all rubberlike. The horse has the same encased in a shell, which gives him accuracy and steadiness of movement. Now, I am speaking practically of frog. It grows slowly, the frogs rapidly. The healthy foot of the colt shows a centre, if not projecting, at least level with the side of the hoof. He does not take his weight wholly on the rim of his feet. Old horses would have feet more like them if blacksmiths would allow they knew a little less than nature, and really knew enough to read her intentions.

The object in shoeing the animal, aside from the occasional one of changing its gait, is simply to prevent the wear and shattering of the outer shell, and to enable it to take a firmer hold of the ground, escaping the slippery places of the unshod horn. It is an unfortunate incident of our shoeing, that the horse is raised from the ground as a boy is when he mounts stilts.—*Farm and Fireside.*

A Soldier's Revenge.

Schonmaker tells this story of his experience at Libby prison in the Philadelphia *Times*:

There was one man among my prisoners for whom I had neither respect nor sympathy—the notorious Dick Turner, ex-inspector of rebel prisons. A thorough brute was he—the fit fellow of such an inhuman monster as Wirz. When I assumed command of the Richmond prisons there were turned over to me complaints against Turner that in bulk would have heaped high a bushel basket; and when his capture was effected I ordered that he be incarcerated in the vilest dungeon of Libby—a front basement cell. Soldiers in the city, many of whom had only been released from the same prison by Richmond's fall, visited Libby in numbers every day, and the main object of every visit seemed to be to seek out and insult Turner.

As inspector of prisons he had scrupled at no baseness, and the days of the Spanish Inquisition were not more black with terrible deeds than was his regime in Richmond. But not mine is it to here dwell upon his record of infamous viciousness. I soon found it unwise to hold him as a public curiosity, and issued orders refusing admission to the prison basement. One day I was personally sought by a one-armed officer from a Connecticut regiment, who so strongly urged permission to see Dick Turner, that I for the once allowed my rule to be waived, and accompanied the visitor to the Libby cellar. I called the prisoner to the front of the cell, and my one-armed companion, advancing, demanded:

"Dick Turner, do you know me?"

"No."

"Don't know me, eh? Have you forgotten how you had me piled with a hundred other Union boys in a cell up stairs, and how you slashed me over the face with an ox-whip. The scar is there yet," almost hissed the man on the outside of the grated door. "Don't you see it?"

The hand was raised as if to point out the long scar that extended across the forehead, temple and cheek; but for no such purpose was the movement. A moment later a tightly clinched fist struck through the little opening in the door full upon the eyes of the prisoner, and Dick Turner sprawled senseless upon the floor of his cell. But he was not killed. Never after would I allow any visitor, under any circumstances, to approach Turner's cell.

BRIGHTON CATTLE MARKET.

For week ending Wednesday, Sept. 1.

[Reported for the Boston Journal.]

Amount of stock at market—Cattle 3902; sheep and lambs 2600; swine 18,225; number western cattle 3536; eastern cattle 193; milch cows and northern cattle 173.

Prices of beef cattle per 100 lbs live weight—Extra quality $5 37½ and $5 62½; first quality $5 00 and $5 25; second quality $4 50 and $4 87½; third quality $3 12½ and $4 12½; inferior grades of orange oxen, bulls, &c., $3 25 and $4 00.

Brighton Hides 8½c per lb.

Brighton Tallow 3½ and 3¾c per lb.

Country hides 7½ and 8c per lb.

Country Tallow 3½ and 4c per lb.

Calf skins 10 and 11c per lb, or from $1 25 and $1 75 per skin.

Lamb Skins Pelts $1 each.

Slaughter sheep $1 to $5 each.

The western cattle in market this week were of a large grade than those of the week ago. Prices remain unchanged and the trade for butchers' beef cattle did not open so actively as it did last week. There has been a fair demand for shipping cattle for the English market, the best fore selling at $5 50 and $5 62½ per 100 lbs live weight. There were but a few good beef cattle brought in from Maine, most of the stock from that section being very poor. The supply from Maine will probably increase each week as the season advances, as the trade for working oxen and store cattle usually commences early in the fall and continues until cold weather.

Working Oxen—We quote sales of 1 very extra pair, good for 3 to 4 Hoosier pairs, at $360; 1 pr, weight 3740 lbs, girth 7 ft 6 in, for $180; 1 pr, girth 7 ft 2 in, live weight 3300 lbs, $150; 1 pr, girth 6 ft 10 in, live weight 3220 lbs, $130; 4 pairs, girths 6 to 6½ ft, live weight 2800 lbs, $115; 1 pr three-year-old steers, girth 6 ft 2 in, live weight 20 0 lbs, $95; 1 pr three-year-old steers, girth 6 ft, live weight 1800 lbs, $80; 2 pairs, girth 7 ft, live weight 2800 to 3000 lbs, $125 per pair.

Store Cattle—With the exception of milch cows and working oxen there were but very few store cattle in market, most of the stock of that class being sold for beef.

Milch Cows—There has been a fair call for good milkers at prices ranging from $35 to $50 each. We quote sales of 2 cows at $40 each; 1 cow at $42; 1 do $45; 1 do $50; 1 cow and 2 springers $135; 1 do $84; 3 cows and calves and 2 springers $187 50 the lot; 1 extra cow and calf $90; 2 at $37 each.

Sheep and Lambs—There came from the west were all owned by butchers, who employ agents at the west to buy and ship direct to them each week for slaughtering purposes. Western sheep cost land, ed at Brighton 5½c, lambs 6 and 6½c per lb live weight. There were a few brought in from Maine which were taken by butchers, to slaughter and market on commission.

Swine—18,225 head, limited at the slaughter houses 6c per lb live weight, all owned by butchers.

PERFECTLY SAFE IN THE MOST INEXPERIENCED HANDS!

For Diarrhœa, Dysentery, Cramps, Cholera, AND ALL THOSE NUMEROUS TROUBLES OF THE STOMACH AND BOWELS SO PREVALENT AT THIS SEASON.

No Remedy known to the Medical Profession has been in use so long and with such uniformly satisfactory results as

PERRY DAVIS' VEGETABLE PAIN KILLER.

It has been used with such wonderful success in all parts of the world in the treatment of these difficulties, that it has come to be considered

AN UNFAILING CURE FOR ALL SUMMER COMPLAINTS

and such it really is when taken in time and according to the very plain directions inclosing each bottle.

In such cases, the attack is usually sudden and frequently very acute; *but with a safe remedy at hand for immediate use, there is seldom danger of its fatal result* which so often follows a few days' neglect.

The inclination to wait and see if the morrow does not bring a better feeling, not infrequently occasions a vast amount of needless suffering and sometimes costs a life. A timely dose of Pain Killer will almost invariably save both, and with them the attendant doctor's bill.

It has stood the test of forty years' constant use in all countries and climates, and is perfectly safe in any person's hands.

It is recommended by Physicians, Nurses in Hospitals, and persons of all classes and professions who have had opportunity for observing the wonderful results which have always followed its use.

THE BEST EVIDENCE!

I have long used the medicine known as PERRY DAVIS' RADWAY'S PAIN KILLER in my family and would not on any account be without it. When Cholera was last epidemic here, I used no medicine of any sort but the Pain Killer, and although myself and several members of my family were attacked severely, I am happy to say that the Pain Killer was equal to every emergency. I consider I should not be doing my duty to the community did I not say this much. If I were attacked by the Cholera again, the Pain Killer would be the only remedy I should use. I have thoroughly tested it, and know it can be relied on.

E. E. BERGINSENN,

Galena, Illinois.

Messrs. PERRY DAVIS & SON:

I know you need no testimonial to convince you that your medicine is all that you claim for it, but I cannot restrain the impulse to communicate to you the fact that in my family it has truly done wonders. I administer it to my children (one eighteen months, and the other three years old) with perfect success. It regulates their bowels, and stops all diarrhœa. Myself and wife resort to it in all cases, both for internal and external use. I've used it in my family for five years, and will not be without it. Feeling myself under much obligation to you, in many times being relieved from pain, I am very truly yours, L. F. MOORE,

Baugall, Dutchess Co., New York.

No family can afford to be without it, and its price brings it within the reach of all.

The use of one bottle will go further to convince you of its merits than columns of newspaper advertising. Try it, and you will never do without it.

Price 25c., 50c., and $1.00 per bottle. You can obtain it any drug store or from

PERRY DAVIS & SON, Proprietors, Providence, R. I.

STONES IN THE KIDNEYS and BLADDER Expelled—Long Suffering of one of TROY'S best People.

A LUCKY MAN.

Mr. James Andrews, of No. 10 Marshal Street, Troy, N. Y., had suffered for several years from the formation of Stones in the Kidneys and Bladder, and had doctored with many of the best Physicians without receiving any benefit. He was induced to try Dr. Kennedy's "Favorite Remedy," and the following extract from Mr. Andrews' letter tells the whole story:

TROY, N. Y., April 8th, 1880.

Dr. D. Kennedy, Rondout, N. Y.:

DEAR SIR,—I received your letter to-day, and you are welcome to use any part of my letter as may seem best. Had I not used the "Favorite Remedy" I should have been a great sufferer to this day. The stone that passed from me has a small piece broken off, but the large one I enclose so that you can see for yourself of what it is composed.

I am quite willing to testify under oath to all I have written in regard to my sickness and recovery, and words fail to fully express my feelings of gratitude to you for my great deliverance from so terrible a disease.

With a real grateful heart I remain yours most respectfully, JAMES ANDREWS.

The Dark Horse.

In the olden days, the period of my story, every man who had a horse of any kind was sure it was faster than his neighbors', and to test this, races were instituted on the Plains to Tabor's and perhaps beyond—about a mile stretch anyhow, and hundreds of people went up from Portsmouth to see the sport. There were several such races, and tho' those were innocent days, betting was indulged in to a limited extent, merely to give an interest to the affair. Some astonishing time was made, of which however, I have no memoranda. I think this was, before trotting became fashionable, and the horses were run, as they are in old England to-day, kicking up a great dust in the country road, and creating a profound excitement among the spectators.

The races at last became monotonous, pretty much the same horses appearing each time, though the field was one open to all; when one day there came along a stranger with a dark horse which he wanted to enter. He couldn't say much for his horse, or mare, he said, only she was a pretty good goer, and, he having heard of their races, thought he would like to try, in a friendly way, how her speed compared with that of their horses. This was a very plausible proposition, and no objection could be made to his entering. His mare, besides, didn't promise any great things. She was ordinary looking, with her head almost down to her toes—I think horses have toes—and a general drooping air about her. The knowing ones noted everything, and saw nothing in the new comer to be afraid of; on the contrary, saw an easy victory.

Her owner walked her once or twice over the track, with no more signs of life in her, and he was bantered by some to bet. Well, he said, he wasn't so sure about the propriety of betting where the race was only for amusement, but he did not care if he risked a little, to make it interesting; and quite a pool was made on equal terms. The mare held down her head, as if she were ashamed of the affair, or was suffering from an attack of feminine modesty. The preliminaries of the race being arranged, the contestants went up the road to their respective places. The new horse had awakened a new interest, and every one was on the alert to note the result. The terminal bound was down in front of Libby's tavern, and Sherburne's walls were filled with excited spectators; the judges standing—I forget who they were, but I think Hiram Locke was one—with watches in hand, to note the time of arrival.

On they came at last, pelting down the road, the drivers uttering their customary yells. One familiar horse after another came into view, with the black mare a little behind them all. Then a shout went up that made the owner of the mare wild almost. He could hardly speak from excitement, his face was white as chalk, and when he could articulate he challenged bets—two, three, four—anything—to one. His enthusiasm awakened excitement among the spectators. Pocket-books were drawn out, and the owner of the mare stood ready to cover any bet that offered, until hundreds and perhaps thousands were put up. I well remember the interest I felt in it, though I knew better than bet, because I had no money.

The race stood as it had begun, best heats two in three, and the mare had lost two chances. They went back to their starting places, and the shout that followed the word "go" reached us where we stood. Soon we saw the cloud of dust and heard the urging of the drivers, and the first horse that appeared was the black mare, her neck stretched out, her nostrils distended, and her feet throwing the dirt behind her as if in defiance of her pursuers, who were lengths behind. The driver dismounted as coolly as if he had been out taking an airing, and, wiping down his horse, asked if there were any who would bet on the last chance. There were but few takers, and many thought ruefully of their depleted pocket-books.

The third trial was as disastrous as the second, and the mare came in an easy victor. The stranger rode off on his mare, and it was believed that the dark horse was the celebrated mare Eclipse, which was said to be in New England at this time. I think that was the last of the Portsmouth Plains races.—*B. P. S., in Portsmouth Weekly.*

Three Things.

A thoughtful man once said that two things settled the question of our happiness or misery, viz.: Our relations to our Creator and to women. There is one more—our relations with our own blood in our veins. Impure blood will produce tumors. It did so in the case of Mrs. Walter Hinckley, of Cotuit, Mass. The doctors could do nothing for her. A neighbor brought from Dr. David Kennedy, of Rondout, N. Y., a bottle of his "Favorite Remedy." She tried it and became better. "No woman," writes Mrs. H., "can afford to be without Favorite Remedy." It will cost you only one dollar to make the experiment. The good result is sure.

—Horsemen believe that Maud S. will soon attain a speed so terrific that a straight track will be necessary to prevent her from running into the rear of her own sulky.

From B. Frank Swan, son of M. M. Swan, Jeweller, 154 Water St., Augusta, Me.—I have been troubled with asthma for twelve years, and have employed skillful physicians of Boston, also two of the leading physicians of Augusta, without effect. I have felt nothing of this trouble since taking Adamson's Botanic Cough Balsam.

—The Chicago *Times* rises to remark that the late General Myer rendered his country some signal service.

Mothers never fail to recommend Mack Bitters as nourishing and strengthening.

Republican Mass Meeting.

A republican mass meeting will be held at Concord on Tuesday, Sept. 7th, immediately after the state and congressional conventions—probably about two o'clock—to be addressed by Col. Robert G. Ingersoll of Illinois, and others. Gen. Walter Harriman will preside, and the third regiment band will be in attendance. Tickets now on sale at the Concord railroad station in this city, good for three days, the fare for the round trip being $2.35.

Loss of the City of Vera Cruz Confirmed.

The reported loss of the steamer City of Vera Cruz was confirmed on the 4th inst. by a dispatch from St. Augustine, Fla., announcing the arrival there of seven survivers from the wreck. The steamer was struck by the hurricane on Saturday night, and after laboring heavily all night, with a drag ahead to keep her bows on to the sea, she was fairly torn to pieces by the waves, and went down at about half-past five o'clock Sunday morning, Aug. 29th, thirty miles off the coast. Capt. Van Cise, who with his officers and crew behaved bravely all through, was washed overboard about an hour before the steamer went down, as were many of the seamen. When the vessel sank a number of the crew and passengers were carried down in the vortex, others being left floating on buoys, doors, or bits of timber and other wreckage, and after being tossed about from twenty-four to thirty-six hours, thirteen of them were thrown ashore about thirty miles south of San Augustine. The survivors include one engineer, one oiler, three passengers and eight seamen. None of the women on board were saved.

The West India Hurricane.

The Kingston (Jamaica) *Bulletin* of Aug. 20th says the hurricane on the night of the 18th was the most destructive in the memory of the oldest inhabitant. Vessels were sunk and driven ashore, wharves destroyed, roofs blown off, trees uprooted, and a catalogue of other damages sustained impossible now to estimate. The destruction to shipping is as follows: Brigantine Caroni, sunk; West India Company's steamer American, stranded; barques Akbar and Everhard Delius sustained considerable damage, and the latter is already condemned. The coasters suffered severely, not one riding out the gale in safety. Every wharf was blown away. It is believed that several lives were lost, as many persons from the vessels are missing. All the penitentiary vessels foundered, and those at Port Royal sustained considerable damage. The damage on land is roughly estimated at £100,000. The cocoanut trees are all snapped in pieces. Substantial houses fell before the fury of the wind, to say nothing of the tenements of the poorer classes; the villages of the Allmantown, Brownstown, Bassmoretown, Hannahstown, Smith's Village and Fletchersland having sustained considerable damage. All the churches and chapels suffered. Three severe shocks of earthquake are said to have been felt during the storm. Intelligence from other parts of the island indicates great destruction of houses, trees, etc., everywhere. At Port Royal the naval dockyard and hospital were much damaged.

Commodore Chas. W. Pickering has returned from his summer sojourn in the White mountain region.

Capt. O. C. Badger, with Mrs. Badger, is in town for a few weeks' visit.

Capt. R. F. Bradford returned last week from special duty as one of a board of visitors at Newport to witness torpedo experiments.

The U. S. S. Tennessee sailed from Boston on Friday for Newport, R. I.

News and Notes.

Secretary Turner of the national board of health is informed positively that the yellow fever reported on Mississippi boats does not exist.

Charles Miller, aged sixteen years, died last Thursday at Hillsdale, Westmoreland county, Penn., from injuries received two days before at the hands of a miner named Larkins. It appears that Miller had tramped to Hillsdale some weeks ago, and obtained work in the mines. The old miners, being jealous of new comers, endeavored, by means of annoying him, to drive him away. On the day of the assault one of them threw dirty water upon him, which he resented. Larkins interfered, kicking and otherwise abusing him, from the effects of which he died Thursday evening.

Stephen Richardson, colored, was hanged at Wilmington, N. C., Friday, for the murder of his mother-in-law, Lucy Phinney, on the night of July 19th. Death was almost instantaneous.

Villiere Powell, aged nineteen years, and Achille Thomas, aged twenty-three, both colored, were hanged Friday in St. James parish, La., in the presence of 3,000 spectators, for the murder of Theogene Gaudet, a storekeeper, on the 29th of May last. They confessed their guilt on the scaffold.

At Indianapolis, Friday, Judge Heller of the criminal court overruled a motion for a new trial in the cases of Mrs. Brown and Joseph Wade, convicted of the murder of Mrs. Brown's husband, and sentenced them to be hanged Oct. 28th.

Fifty Canadian barges and American boats were loaded at Ottawa, Friday, with lumber for the American market. They took about 1,000,000 feet.

The barque Salmon P. Chase, of the United States revenue marine, arrived at New Bedford on Friday last from a cruise across the Atlantic ocean.

The official report of the bridge disaster on the Ebro river in Spain states that the total number of men drowned is ninety-six. The lieutenant who laid the pontoon was among the lost.

Mr. Bennett's yacht Jeannette is believed to have been lost in the Arctic, as no tidings of her can be gleaned.

There is anxiety about the water supply for Brooklyn. Chief Engineer Van Buren says that the storage reservoir will be exhausted unless measures are at once taken to increase the supply, and the city will be restricted to the use of less than 24,000,000 gallons a day, while its daily consumption now is from 30,000,000 to 33,000,000 gallons.

An official despatch has been received in London from Getta, Afghanistan, dated Sept. 3d, saying that Gen. Roberts, commanding the British forces at that point, had attacked and dispersed Ayoob Khan's force, capturing twenty-seven guns.

The annual conclave of the Grand Commandry of Knights Templar of the state of New Hampshire, will be held at Concord on Tuesday, Sept. 28th.

Political Notes.

While a republican procession was parading the streets of St. Albans, Vt., one evening last week, one of the torch-bearers was fatally injured by a missile thrown by a democratic rough, and others in the procession were badly hurt in the same manner. Democratic methods seem alike everywhere.

The De Pauws of New Albany, Ind., who have lately declared themselves in favor of the republican ticket, have the largest plate glass works in the country and employ 1000 men in the season. They understand that if the democratic free trade policy were to be adopted the fires would go out in their furnaces. A third of the population of New Albany are fed through their enterprise, and the immediate formation of a Garfield club among their hitherto democratic workmen indicates that labor as well as capital is taking the alarm at the possibility of democratic ascendency.

The southern democrats act up to Gen. Hancock's idea of "a free ballot and a full count"—if that was what he said; they act up to it anyway, whether he said it or not. There was a county election in Shelby county, Tenn., early last month, and the democrats did nobly. In the first ward of Memphis, where the census returns give 1086 as the whole number of males over twenty-one years of age, 1408 votes were declared, of which the democrats had 1168; in the third ward, where the census shows 940 males of voting age, 1105 votes were declared, the democrats having 1005 and the republicans just an even hundred. The court is mightier than the ballot down that way.

The Greenville, South Carolina, *News* says: "We do not advocate the use of the shot-gun, or the bull-whip, but we do hold that the white or black republican should be regarded as a social leper to be shunned, despised and hated—that in future, he should receive no favor or recognition—that the last farthing should be relentlessly exacted, and that all kindness of manner toward him should cease." This is conciliation.

"The states of the south," says the Chicago *Inter-Ocean*, "one by one are paying their bonded debt by a wet sponge across the face of the ledger. They are all solid for Hancock and the party of repudiation. In five years past, $277,000,000 of honest debts, due mostly to northern and foreign capitalists, have thus been disposed of, and more are in prospect. These are the people who propose to run our national affairs for us. Their credentials do not impress us as being exactly what they should be."

Gen. Chalmers of Mississippi, who is back in Washington after stumping in Maine, says there is no hope for the fusionists in that state.—*Traveller.*

Married, at Faneuil Hall, Boston, on Saturday night, the Widow Butler and the democratic party. And may God have mercy on both their souls.—*Troy Times.*

—A young lady resembles ammunition, because the powder is needed before the ball.

—Now that it is *en regle* to indulge in oysters, it may be well to know that the heat used in cooking oysters destroys the union of glycogen with the hepatic diastase which produces in the raw oyster spontaneous digestion.

In East or West, or North or South,
They to themselves an outrage do,
Who cannot boast a fresh sweet mouth,
With teeth like pearls begemmed with dew,
When SOZODONT all this supplies,
And works the charm before our eyes.

These loans have advanced steadily in price and in public favor rank among the first. Measrs. Ballou & Co. have now taken quite a large amount of the Toledo, Delphos & Burlington Railroad first mortgage six per cent bonds, 30 years to run, the mortgage being only $7000 per mile upon a completed road. At 92½ and accrued interest these securities look very attractive. We understand that the right to advance the price is reserved, and may be soon taken advantage of.

Who is Mrs. Winslow?

As this question is frequently asked, we will simply say that she is a lady who for upwards of thirty years has untiringly devoted her time and talents as a female Physician and nurse, principally among children. She has specially studied the constitution and wants of this numerous class, and, as a result of this effort, and practical knowledge, obtained in a lifetime spent as nurse and physician, she has compounded a Soothing Syrup, for children teething. It operates like magic—giving rest and health, and is moreover sure to regulate the bowels. In consequence of this article, Mrs. Winslow is becoming world-renowned as a benefactor of her race; children certainly do rise up and bless her; especially is this the case in this city. Vast quantities of the Soothing Syrup are daily sold and used here. We think Mrs. Winslow has immortalized her name by this invaluable article, and we sincerely believe thousands of children have been saved from an early grave by its timely use, and that millions yet unborn will share its benefits, and unite in calling her blessed. No mother has discharged her duty to her suffering little one, in our opinion, until she has given it the benefit of Mrs. Winslow's Soothing Syrup. Try it, mothers—try it now.—*Ladies' Visitor*, New York City. Sold by all druggists. 25 cents a bottle. 2

HOSTETTER'S CELEBRATED STOMACH BITTERS

Though Shaking Like an Aspen Leaf

With the chills and fever, the victim of malaria may still recover by using this celebrated specific, which not only breaks up the most aggravated attacks, but prevents their recurrence. It is infinitely preferable to any quinine or bitters; it does the business far more thoroughly, but also on account of its perfect wholesomeness and invigorating action upon the entire system.

IT MAKES NO DRUNKARDS,

Breaks no Hearts, Excuses no Crimes.

Dr. David Kennedy's FAVORITE REMEDY is not a disguised enemy of the human race; where it cannot help, it does not harm. FAVORITE REMEDY is a combination of vegetable alteratives. It does not heat nor inflame the blood, but cools and purifies it. In all cases of Kidney troubles, Liver complaints, Constipation of the Bowels, and the delicate derangements which afflict women, the action of FAVORITE REMEDY is beyond praise. Thousands of grateful people voluntarily testify to this, in letters to Dr. Kennedy; and with a warmth and fullness of words which mere business documents and certificates never possess. It makes no drunkards—excuses no crimes—breaks no hearts. In its coming there is hope, and in its wings there is healing. We challenge a trial and are confident of the result. Dr. Kennedy would have it understood that, while he is engaged in the introduction of his medicine, "Favorite Remedy," he still continues the practice of his profession, but confines himself exclusively to *Office* practice. He treats all diseases of a chronic character, and performs all the minor and capital operations of surgery.

AROUND HOME.

The Portsmouth Gas Co. pays a dividend of four per cent. on Monday, Sept. 6th.

Yacht Eagle, of Marshfield, Keene master, arrived at this port Sunday morning from Marblehead.

The Stamford starts from Commercial wharf for Boston this morning at eight o'clock, leaving Boston at midnight on her return.

The steam yacht Ideal, of New York, a very handsome schooner-rigged vessel of one hundred and nineteen tons register, arrived at this port on Friday afternoon, and sailed on Saturday.

Col. B. W. Hoyt of Epping, formerly of Ex-Gov. Prescott's staff, is prominently named as the republican candidate for Railroad Commissioner to be selected in the state convention on Tuesday.

The schooner Riverside, which put into the lower harbor in distress about the 27th ult., having been in collision off Cape Ann, sailed for her destination on Friday last, having completed her repairs.

Among the passengers on the Cunard steamer Marathon, which sailed from Boston for England on Saturday, was Willis E. Nowell, the noted young violinist, who goes to Berlin to attain a greater degree of perfection in his specialty of the violin.

The republican caucus in ward four was held Friday evening, and the following named delegates to the several conventions were chosen: State—Oliver H. Locke, John E. Colcord; Congressional Chas. N. Osgood, Charles W. Gardner; Senatorial—Wm. H. Rollins, John O. Ayers; Councillor—John Nutter, William B. Randall; County—Michael J. Vaughan, Joseph B. White.

At a meeting held by the republicans of Newcastle on Wednesday evening, Sept. 1st, the following-named persons were chosen as delegates to attend the several conventions: State—J. Mahlon Bickford and Charles E. Whitehouse; Congressional—Moses R. Curtis and Albert H. Bickford; Councillor—Edwin D. Rand and John W. Amazeen; County—John E. Yeaton and Albert H. White; Senatorial—Robert W. Yeaton and Chas. W. Cole.

The eagerly anticipated political discussion between Darius C. Durgin, a republican farmer of Strafford, and John R. Palmer, Esq., democrat, of Dover, came off in Dover city hall on Thursday evening of last week, and produced lots of fun, though probably not a hundred voters changed their minds in consequence of the arguments presented. There were over a thousand people present, ten cents admission being charged; the Sawyer's Mills band made their first public appearance, having volunteered their services, and played very well for a new organization; and after paying all expenses the managers of the affair handed over to each of the disputants the sum of $32.35.

The democrats last week organized a Veterans' Hancock & English club, with David Urch as captain, William Kennedy as first lieutenant, and George E. Hodgdon as second lieutenant. Major Urch, as a new recruit, is put prominently forward. The major was once a republican, and would be one now had it not occurred that in an evil hour the governor failed to make him inspector of the state militia, which he wanted very badly to be; this caused him to perceive that republicanism was a very bad thing, and he became an ardent greenbacker; and the greenback party having gone up, he is now a democrat. George E. Hodgdon, Esq., the second lieutenant of the Hancock Veterans, is another recruit from the greenback party; he was always a democrat, however, until he was led away by greenbackism, and some people wonder why the republican greenbacker should be exalted while the democratic greenbacker is put down to third place, they not understanding that it is necessary for the good of the party that those former members who now return after playing truant awhile should be severely disciplined, to teach them not to do so any more.

The steamer Stamford made a trip from Newburyport to the Shoals and this city, Saturday, with a small party.

Capt. Frank Bird, formerly in command of the Shoals steamer Major, is now captain of the steamer Rose Standish, of the Boston and Hingham line.

The Penobscot Indians whose tents were pitched near the Universalist church in this city for a number of weeks this summer, are now at Kennebunk, Me.

The democrats of Stratham have chosen the following delegates to the several conventions: State—George W. Chase, Isaac S. Wiggin; Councillor and Congressional—Z. K. Wiggin, George W. Ayres; Senatorial—John S. Scammon, George J. Robinson; County—Thomas Piper, Charles E. Gear.

Portsmouth contributed $190.49 to the New Hampshire Bible society's fund during the year ending June 1st, 1880, the subscriptions of the several sects and churches being as follows: Spiritualist, Jewish and Infidel, twenty-five cents each; Catholic, seventy-five cents; Free-will Baptist, $1.65; Nothingarian, $2.00; Quaker, $2.85; Advent, $4.10; Universalist, $16.37; Methodist, $18.88; Christian, $20.51; Episcopal, $20.65; Unitarian, $27.05; Baptist, $33.35; Congregational, $41.58.

Everybody in this section of country knows of the popularity of Laighton Bros. & Co. as landlords of the Appledore and Oceanic hotels at the Shoals, but every one is not so fortunate as to know personally of their promptness in business matters. Friday evening they sent in to several of our local tradesmen for their bills, which were rendered, to the amount of over a thousand dollars, and by the return boat Capt. Rand brought in checks for the full amounts, which were distributed and duly honored before bank-closing hours.

WATER.

Mr. Editor: We hope that at the next meeting of the directors of the S. P. C. A., the subject of the need of more water for public accommodation will be discussed. It need hardly be said that there is, at the present time, but one public place in this city where a farmer or any other owner of a horse can obtain water, and that is at the pump opposite the jail. We know that we are passing through a remarkably dry spell, and that everywhere in this region there is a scarcity of water. But it is just these exigencies that lay bare our sore lack in this direction; and we hope that some plan may be devised, if not to supply our immediate wants, yet one that may remove any future suffering for the lack of that element of nature which should be as free as the air we breathe. Our municipal managers would do well to visit the neighboring city of Dover, and see how much better that is supplied with public drinking places for man and beast than are we. Or Manchester, or many other cities and towns where this need is fully covered. Don't stop to speculate whether an abundance of water will cause less liquor to be drank or not! No matter if it don't. That is not the point. Our duty as a municipality is to give the public an adequate supply of pure water that can be readily had at all times, particularly during the summer season, and no reasonable man or woman will object to being taxed to cover the expense, whatever it may be. GRAND DEMOCRATIC FIZZLE.

All Eliot—that is, all the republican portion of it—has been on a broad grin ever since last Thursday evening over the grand democratic fizzle in that town on that evening. For several days previous the fences and grocery stores in the western part of York county had blossomed as the rose with huge posters announcing a "grand open-air democratic mass meeting" in Eliot, said "mass meeting" to be addressed by the "gifted" Col. Grover of Illinois. The evening came, and so did the "gifted," but the democrats did not mass worth a cent; even the announment that the "Hancock Guards" would parade only managed to draw an audience of sixty-eight persons.

The *Times* of Friday evening is correct in saying that the colonel spoke for two hours—and from appearances he would have been speaking now if anybody had been willing to "die the death;" as it was the colonel found himself almost alone with the trees, whose leaves sighed and yawned in the evening breeze. The *Times* says: "The meeting closed with two cheers for the speaker, three for Gen. Plaisted, three for Gen. Sam. Anderson, and three for Gen. Hancock." We will make affidavit that those eleven cheers were all flat, for they were not heard. The colonel succeeded in making his audience understand that he was once a republican, became disgruntled because his services were unappreciated, and ended by tumbling into the democratic fold.

The Hancock Guards were out "with full ranks," according to the *Times* report. They turned out with just thirteen torches—not one more nor less—said torches being proudly borne aloft by seven legal voters and four boys, two of the later carrying two torches each. It is said that Ichabod Cole could have "Chawed board nails" when he saw those eleven torch-bearers struggling along the dusty roads.

Thus ended the "grand open-air democratic mass meeting" in Eliot.

S. POINTER.

CHARLES ROBINSON.

Our community heard with regret, on Saturday, of the sudden though not unexpected death of Charles Robinson, a gentleman widely known for his long and uninterrupted career in mercantile circles in Portsmouth. Mr. Robinson's friends several years since were informed that a disease of the heart had developed which sooner or later would cause his death. With an indomitable will, and a courage possessed but by few invalids, Mr. Robinson manfully contested day by day for his existence, continuing down to the very last the interest in his business and social relations, and literally "dying in the harness." As a merchant and man of business, as a member of a leading religious denomination and as the friend of good morals and sound government and everything that made for the good, as well as the head of a family and a prominent citizen in our community, Mr. Robinson will be missed from the circles in which he has moved for three score years.

Mr. Robinson early entered the store of his father on Market square, whence he removed more than forty years ago to Bow street. Here in the days when corn and flour came to Portsmouth exclusively by water, a large wholesale business was transacted.

Mr. Robinson was noted for his strict attention to business as well as the honest and straight forward manner of his dealings. He was firm in his convictions of right and wrong, never hesitating to declare and maintain his position upon all important questions of morals, politics, religion and finance. He had no patience with men who trim to attain popular favor. He was outspoken as to his sentiments, because he was honest in his opinions.

In politics, Mr. Robinson always had his views, based upon his own judgment of his fitness of men and measures. In his opinions was a strong individuality. He gathered his political lessons from his own conscience, not from any party dictation. If a candidate selected by the party in politics, with which he affiliated was not in his judgment a proper man for a position, he did not hesitate to show his opposition to his election. He represented his ward in the legislature in 1861 and 1862, and again served in 1872. In the legislature he brought to bear that sound, practical common sense which characterized his business career, and exerted a wide influence, always given in favor of sound legislation and judicious measures.

Mr. Robinson was one of those men who, successful in the care of his own business, was ot much service in trust positions, and he shew his remarkable breadth of character in the fact that whatever may have been his estimate of a man in a moral sense he never for a single moment allowed a shadow of personal prejudice to influence his duty in any trust relations.

Upon the organization of the National Mechanics and Trader's bank on the 30th of March, 1864, Mr. Robinson was chosen one of the directors of the bank, a position to which he has been annually reelected ever since, and which he filled at the time of his decease. He was admitted as a member of the corporation of the Portsmouth Savings bank August 9th, 1871. He was chosen a trustee Sept. 4th, 1872, and in August 1873 was chosen one of the committee of investments. He resigned the latter position, to the duties of which he had given much valuable time and counsel, at the recent annual meeting in August. He was for nine years the faithful treasurer of the Piscataqua Missionary society, a labor of love cheerfully performed because his heart was in the work of the organization. He was also for several years one of the trustees of Piscataqua lodge, I. O. O. F.

He united with the North church Nov. 2d, 1838, and was chosen a deacon in 1858, remaining in office until his decease. He was noted for his constant attendance upon all the stated ministrations of the gospel. Indeed it was observed by nearly the entire congregation how remarkably punctual he was at church services, long after his state of health was such as would have been considered by most persons as an excuse for absenting themselves. He always evinced a decided interest in parish matters. Here, as elsewhere, his peculiar independence of ideas asserted themselves, but his heart was always in the good work, and with unselfish zeal he labored for the cause of religion. Strong in his tastes, and decided in his views, some times in the parish's history the pulpit may have been occupied by men not wholly to his liking, but whether it was for the favorite pastor, or some one less in accordance with his notions, the regular timely reminder of the parishioner's liberality towards his minister, from his store-house, was never omitted.

In Mr. Robinson's departure, Portsmouth loses one of its most successful merchants, who had a reputation for credit second to none, whose obligations were ever promptly met, and who bore a name widely known throughout the state, when wholesale business was conducted at our wharves and on our streets. A life devoted to his special business, a career devoid of the temptations, even to speculate, or to attain wealth save by a legitimate process; fixed and unswerving principles; unceasing industry, and a clear and comprehensive knowledge of business with an uninterrupted mercantile training, rendered Mr. Robinson not only a good business man, but with added habits of thrift and foresight, made him a successful merchant. He acquired a competence, but never sought from this cause a cessation of his duties or relief from diligence in business.

He was twice married. His first marriage was with Miss Flavilla S. Nay, June, 1, 1846. His second marriage was to Mrs. Maria P. Shackford, Sept. 25th, 1871. His widow and three children survive him. His age was sixty-two years.

YORK COUNTY ITEMS.

The Saco river is lower than for many years, and the Pepperell mills at Biddeford have been obliged to shut down in a large number of their rooms on account of the scarcity of water.

The democratic town committee of York have unanimously elected Hon. Edward C. Moody, chairman of the elections committee of Garcelon's famous council, to a similar position on the town committee.

The team which was driven away from York by Mrs. G. W. Carleton and Miss Hodge, and advertised for in one hundred and fifty towns by Hon. E. C. Moody, was recovered after an absence of ten days. Detective Plaisted succeeded in returning the team, and secured the twenty-five dollars reward. Plaisted is now on the track of the thieves. Mr. John F. Todd of York has also recovered his team, stolen at about the same time, but in this case also the thieves are still at large.

ARE THE KIDNEYS "Vital Organs?" Decidedly, yes. Without them life is impossible; and they appear to be peculiarly susceptible to severe and fatal derangements. They are, moreover, exceedingly difficult to treat, and the ailments affecting them are liable to end at any time in Bright's Disease. In our opinion, formed upon the conclusions of many skilled physicians, Hunt's Remedy, the great kidney and liver medicine, is the best ever administered for kidney, bladder, liver and urinary diseases. It cures like a magic spell.

Sold by all druggists. Trial size 75 cents.

The Women at Home.

Our mothers, wives and daughters! Home is not home at all without them. Yet they may die and leave the house silent and sad any day. Husbands and fathers, a word in your ears. The ladies are not always to blame when they are low-spirited and "cross." They are sick. Don't you be fools or brutes and think they'll come out all right if you are only "firm" and mean yourselves. Put a bottle of Dr. David Kennedy's Favorite Remedy on the shelf, and tell them to use it. The color will come back to their cheeks and the laugh to their lips. Go and get it at once down town, or mail one dollar to the Doctor's address at Rondout, N. Y.

Here is More of it.

The New York *Herald* has been looking over the business that is annually transacted by the Chicago & North-Western Railway company, and the more the writer considers it the more he wonders at the immense magnitude of its transactions, the great length of its lines, the incomparable wealth, fertility, and expansiveness of the sections that it penetrates, and the brilliant future which this gigantic corporation has before it. In collecting the data for his article, the *Herald* finds that the North-Western operates 2,100 miles of road, and reaches every important point almost in northern Illinois, Wisconsin, in northern Michigan, in Iowa, in Minnesota, and runs many miles in Dakota. If its lines were laid eastward from New York they would extend more than two-thirds of the way across the Atlantic, or they would reach from the pine clad hills of Maine to the sunny shores of the Gulf of Mexico. The *Herald* continues:

Take down your map and trace its routes. Fix your eye on Chicago as a starting point. Westward in nearly an air line you will trace its California line until you reach Missouri river at Council Bluffs, opposite Omaha—here is a single run of nearly 500 miles. Back to Chicago again you look northwest, and follow another of its routes through Madison, the capital of Wisconsin, into Minnesota, and on to St. Paul and Minneapolis—this is 400 miles more. Again looking from Chicago you can trace a line through Sparta, Wis., La Crosse, in the same state; Winona, Owatonna and New Ulm, in Minnesota, and northwestward far into Dakota—here we have 625 miles more of road. Again coming to Chicago, we see two lines running northwardly—one along the lake shore to Milwaukee, and thence to Fond du Lac, and the other running more inland, through Janesville, Watertown, etc., also to Fond du Lac; thence north, through Oshkosh, De Pere, Green Bay and Escanaba, Negaunee, Ishpeming and Marquette—here is another 440 miles of road. Then we have a line from Chicago to Elgin, Rockford and Freeport; another from Clinton, Ia., to Anamosa, in the same state; another from Kenosha, on Lake Michigan, to Rockford, in northern Illinois; and, after all longer lines, we have many short spans to traverse before we have found out all of the Chicago & North-Western Railway.

The surprise and admiration that are here manifested by the writer at the colossal transactions of this single railway corporation—the natural offspring and product of the city of Chicago—will find other similar food to feed upon in the great west, if he will take the trouble to look about him a little.

The Forbidden Fruit.

There is a wide difference of opinion as to the number of apples eaten by Adam in the garden of Eden. Some say Eve 8 (ate) and Adam 2 (too), total 10; and others, Eve 8 and Adam 8, total 16; others say if Eve 8 and Adams 8 2, the total is 90; but if Eve 8 1 and Adam 8 2, the total is 163; if Eve 8 1 and Adam 8 1 2, the total is 893; if Eve 8 1 1st (ate one first) and Adam 8 1 2, the total is 1623; if Eve 8 1 4 Adam and Adam 8 1 2 4 Eve, the total is 8938; if Eve 8 1 4 Adam, and Adam 8 1 2 4 2 oldy Eve, the total is 82,056. Still wrong. Eve when she 8 1 8 1 2 many, and probably felt sorry for it; so Adam in order to relieve her grief 8 1 2. Therefore if Adam 8 1, 8 1 4 2 oldy Eve's depressed spirits, they both 8 81,896,864 apples.—*Christian at Work.*

They bury people when they go to sleep. I saw one of them in the graveyard, and do you suppose I'll sleep here to-night and have them bury me?"

PERRY DAVIS' VEGETABLE PAIN KILLER.

It has been used with such wonderful success in all parts of the world in the treatment of these difficulties, that it has come to be considered

AN UNFAILING CURE FOR ALL SUMMER COMPLAINTS

and such it really is when taken in time and according to the very plain directions inclosing each bottle.

In most cases, the attack is usually sudden and frequently very acute; *but with a safe remedy at hand for immediate use, the e is seldom danger of a fatal result* which so often follows a few days' neglect.

The inclination to wait and see if the morrow does not bring a better feeling, not infrequently occasions a great amount of needless suffering, and *sometimes costs a life.* A timely dose of Pain Killer will almost invariably save both, and with them the attendant doctor's fee.

It has stood the test of forty years' constant use in all countries and climates, and is perfectly safe in any person's hands.

It is recommended by Physicians, Nurses in Hospitals, and persons of all classes and professions who have had opportunity for observing the wonderful results which have always followed its use.

THE BEST EVIDENCE.

Messrs. PERRY DAVIS & SON:

I know you extend no testimonial to convince you that your medicine is all that you claim for it, but I cannot restrain the impulse to communicate to you the fact that in my family it has truly done wonders. I administer it to my children (one eighteen months, and the other three years old) with perfect success. It regulates their bowels, and stops all diarrhœa. Myself and wife resort to it in all cases, both for internal and external use. I have used it in my family for five years, and *will not be without it.* Feeling myself under much obligation to you, in many ways being relieved from pain, I am very truly yours, L. F. MOORE.

Rhoadell, Dutchess Co., New York.

No family can afford to be without it, and its price brings it within the reach of all.

The use of one bottle will go further to convince you of its merits than columns of newspaper advertising. Try it, and you will never do without it.

Price 25c., 50c., and $1.00 per bottle. You can obtain it any drug store or from

PERRY DAVIS & SON, Proprietors, Providence, R. I.

Rev. I. P. L. GAUS, Galena, Ill., writes—"For over ten years I had been a great sufferer from Kidneys, which was most excruciating and almost insufferable. Doctoring brought no relief, and I was induced to abroad and seek the climate of my youth. In Germany and Switzerland, eminent physicians, after close examination, declared my sufferings to arise from disease of the Kidneys, of long standing, and could do me no good. I was, however, benefited by the climate and consequently returned. No account had I been back and resumed my pastoral work, when the old trouble grew so bad as to lame as to make life a burden. A few months ago I came in possession of one of Day's Kidney Pads, put it on, and the effects were truly wonderful. The pains are gone, and I am now, after wearing the second Pad, entirely gone, and there can be no doubt but I am entirely cured, as I write this some weeks after its use, and am strong and look again the very picture of health. I write this perfectly voluntarily, and it is dictated only by truth and gratitude. Indeed, I consider the Day Kidney Pad Co., God's agents and great benefactors of mankind. May all the suffering be helped as I have been to my earnest wish."

CHAS. DAVIS, 124 Myrtle Street, Boston: "I have now used DAY'S KIDNEY PAD thirty days, and it has done me more good than any remedy I have ever tried."

LARIMORE & DEAN, Druggists, Niles, Mich.—"DAY'S KIDNEY PAD is selling well. It is having a large sale and gives better general satisfaction than any other we ever sold."

CASPER WEITZEL, Policeman, Lancaster, Pa.—"I have been a great sufferer from Kidney complaint for years, but now your Pad says I feel better than I have in 15 years."

Dr. A. A. STONE, Decatur, Ill.—"Your Pad is doing a good work here. It sells every day and gives universal satisfaction."

For sale by druggists, or sent by mail (free of postage) on receipt of the price—Regular, Pad, $2.00; Special Pad (extra size), $3.00; Children's, $1.50. Our book, "Kidney Disease," sent free. It gives history of this new discovery, and a large record of most remarkable cures, sent free. Write for it. Address,

DAY KIDNEY PAD CO., TOLEDO, O.

CAUTION. Owing to the many worthless Kidney Pads in market, we deem it necessary to caution the public against imposition, and to guard against a sale on our reputation, we deem it due the afflicted to warn them. Ask for DAY'S KIDNEY PAD and take no other.

KNOW THYSELF.

The untold miseries that result from indiscretions in early life may be alleviated and cured. Those who doubt this assertion should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE, or SELF-PRESERVATION.

Exhausted vitality, nervous and physical debility, or vitality impaired by the errors of youth or too close application to business, may be restored and manhood regained.

Two hundredth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. Three hundred pages, more than 50 valuable prescriptions for all forms of prevailing disease, the result of many years of extensive and successful practice, dedicated one of which is worth ten times the price of the book. Bound in French cloth; price only $1, sent by mail postpaid.

The London Lancet says: "No person should be without this valuable book. The author is a noble benefactor."

The Tribune says: "The author has had unprecedented success in dealing with nervousness of all kinds and its affections, which are the fruitful parent of vice, crime and misery."

The Times says: "Ladies and gentlemen may be cured in secrecy by the author, who may be consulted on all diseases requiring skill and experience. HEAL THYSELF

STONES IN THE KIDNEYS

and BLADDER Expelled—Long Suffering of one of TROY'S best People.

A LUCKY MAN.

Mr. James Andrews, of No. 10 Marshal Street, Troy, N. Y., had suffered for several years from the formation of Stones in the Kidneys and Bladder, and had doctored with many of the best Physicians without receiving any benefit. He was induced to try Dr. Kennedy's "Favorite Remedy," and the following extract from Mr. Andrews letter tells the well-known story.

TROY, N. Y., April 8th, 1880.

Dr. D. Kennedy, Rondout, N. Y.:

DEAR SIR—I received your letter to-day, and you are welcome to use any part of my letter as may seem best to you. I did not use the "Favorite Remedy" I should have been a great sufferer to this day. The stone that passed from me has a small piece broken off, but the large one is entire so that you can see for yourself of what it is composed.

I am quite willing to testify under oath to all I have written in regard to my sickness and recovery, and words fail to fully express my feelings of gratitude to you for my great deliverance from so terrible a disease.

With a real grateful heart I remain yours most respectfully, JAMES ANDREWS.

THE

New Hampshire Gazette!

Established 1756.

The Gazette is published every Thursday and sent to Subscribers at the low price of

$1.50 per year, paid in advance,or

$2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of news, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

CANTERBURY SHAKERS' LIFE-INVIGORATING SARSAPARILLA.

The Great Blood Purifier, Kidney Remedy and Mild Laxative.

WE, the undersigned, having used DR. CORBETT'S SHAKER SARSAPARILLA SYRUP in our practice, and having examined the formula by which it is prepared, would cheerfully recommend it to the community as the cheapest, safest, and most efficacious of all the preparations of Sarsaparilla in the market. Its highly concentrated state, (there being in a given amount of Syrup to use the amount of Vegetation Extract that any other contains, the care, skill, and cleanliness of its manufacture, are sure guarantees of its purity and efficacy. A. R. CROCKER, M. D., W. D. BUCK, M. D., S. BUNTON, M. D., J. S. ELLIOT, M. D., JAMES HARR, M. D., Z. COLLINS, M. D., M. G. J. TEWKSBURY, M. D., A. G. FRENCH, M. D., JOSIAH CROSBY, M. D., A. G. FRENCH, M. D., JOSIAH CROSBY, M. D., A. G. GALE, M. D., JAMES A. GREGG, M. D.

Those who have failed to be benefitted by other Sarsaparillas should not fail to make a single trial of the Blood Purifying and Life Invigorating Compound of Shaker Sarsaparilla, Dandelion, Yellow Dock, Mandrake, Blue's Cohosh, Garget, Indian Hemp, and the Berries of Juniper and Cubeb, combined with Iodide of Potassium made by the Society.

Prepared by the CANTERBURY SOCIETY OF SHAKERS, Shaker Village, N. H., and signed by Thos. Corlett, its inventor. Sold everywhere. Inquire for Corlett's Shaker Sarsaparilla.

Daily Chronicle.

The Confederacy in Washington.

The following table shows to what an extent the states lately in rebellion are represented in the United States Congress by prominent military or civil officers of the late confederacy:

	Congressional Districts.	*Ex-Confederates.*
Alabama	10	5
Arkansas	6	6
Florida	4	2
Georgia	11	8
Louisiana	8	6
Mississippi	8	6
North Carolina	11	6
South Carolina	7	6
Tennessee	12	8
Texas	11	6
Virginia	11	8
Total	95	72

In six of these states both senators are included in the second column of this table. It appears, therefore, that more than seventy-five per cent of the senators and representatives in the forty-sixth national Congress from the states lately in rebellion were formerly prominent in the confederate army or in the confederate congress. Many of them were members of the conventions which passed the ordinance of secession. Let us see what proportion of the democrats in Congress these men represent:

Democratic senators		42
Of these, ex-confederates		16
Democratic representatives		148
Of these, ex-confederates		56

From this it appears that thirty-eight per cent of the democrats in the senate are ex-confederates, and also thirty-eight per cent of the democrats in the house. This is undoubtedly an under-estimate, for in some cases members of Congress have not included in their published biographies an account of their connection with the confederacy. These men have brought with them to the capital, and placed in office there many other ex-confederates, who have displaced Union veterans.

—Sermonettes are advocated as the right sort of things in hot weather for church-goers.

—A Deadwood miner played base ball with a case of nitro-glycerine, just to show his companions that he wasn't afraid of the stuff. The only trace of him left was a hole in the ground.

—It is a great mistake in mothers to take so much pains teaching their children to speak. What a world of trouble it takes to make some babies talk, and what a world of trouble they make with their everlasting talking after having once learned how to do it.

R. V. PIERCE, M. D.:

Dear Sir—My wife, who had been ill for over two years, and had tried many other medicines, became sound and well by using your Favorite Prescription. My niece was also cured by its use, after several physicians had failed to do her any good. Yours truly,

THOMAS J. METHVIN.

"Best of All."

BALTIMORE, MD., March 5th, 1879.

DR. R. V. PIERCE:

Dear Sir—My family have used your Favorite Prescription and it has done all that is claimed for it. It is the best of all preparations for woman's complaints. I recommend it to all families.

G. S. WATERMAN, Druggist.

—An eastern girl visiting Colorado fell in love with a desperado. She became romantic, had a scarlet saddle cloth for her fine broncho, a green dress for herself, with a gold-mounted leather belt and a sheath knife. In the band of her Derby hat she wore a smaller knife. She discovered that the man had several wives, who had mysteriously disappeared. Her romance was undone, and she wanted to go home.

Is It Possible

That a remedy made of such common, simple plants as hops, buchu, mandrake, dandelion, etc., makes so many and such marvelous and wonderful cures as Hop Bitters do? It must be, for when old and young, rich and poor, pastor and doctor, lawyer and editor, all testify to having been cured by them, we must believe and doubt no longer. See other column.—*Post.*

—One ought to get as much consolation as possible out of one's grievances. Most persons will admire the cheerful and hopeful spirit of the colored man who, when struck by lightning, simply rubbed the abraded spot of his skull and remarked: "Dat makes free times I've been struck; now I shouldn't wonder if it let me alone."

—Dr. James Currie, Dentist in Baltimore, writes: "I have used Dr. Bull's Cough Syrup personally and in my family for two or three years, and am prepared to say that there is nothing to compare to it as a remedy for Coughs, Colds, etc."

—An exchange advises selecting for seed corn even-rowed ears, and ears whose rows are straight and regular on the cob. "Ears that taper are the best because better protected by the husks, and then, too, the silk—the female part of the plant—remains alive longer. The reason for selecting the top ear for seed is that it is always more fully developed, more uniform, and more vigorous in its germination, having been better fertilized while in the silk."

The friends of temperance will find Malt Bitters invigorating and strengthening.

Democratic "Saving."

One of the astounding lies put forth in the democratic national platform, and reiterated by democratic papers, is that a saving of $40,000,000 has been saved in the annual appropriations. The persons that concocted that falsehood must either have been stupidly ignorant of what they were talking about, or else imagined that people in general do not read. The truth is, that up to June 30th, 1876, the moneys used were appropriated by a republican congress, and for the year 1873-6 the sum appropriated was $255,500,000. For several years previously reduction had been going on, till that point had been reached. During the year 1876-7 the 44th congress—democratic—reduced the appropriations to $238,500,000 or a reduction of $20,000,000, and followed up their economical furor the next year by appropriating only $237,000,000. This would have been creditable, had not the villainous policy of refusing money for the actuals needs of important departments of the government been adopted; but even then it will be seen that the total decrease for 1877-8 (the year of the largest reduction) was only $21,500,000. But in the very next year, 1878-9, they carried the sum to $267,000,000, or about $11,000,000 above the last republican allowance, and for 1879-80 have run it up to $298,000,000, or nearly *forty millions of dollars above the last republican outlay.* Now, what can be said of a party that will come out boldly and bluntly and assert that they have reduced appropriations $40,000,000, when the facts and figures show that they have increased them that sum?

"Once More Unto the Breach, Dear Friends."

The last dying struggle of the greenedemback party of York county, Me., is advertised to take place to-morrow at Long sands, York beach, at ten o'clock A. M. Col. A. M. Waddell of North Carolina, late of the Confederate States army, and others, will address the meeting, and point out to the voters of Maine how they should vote on the question as to whether the men who for four years fought to destroy the Union or those who fought to preserve it should control its government for the next four years. A chowder will be served at twelve o'clock, and "all are invited to bring a spoon." Gen. Butler has an invitation to be present, and if the democrats believe that the stories told about and the charges made against this gentleman by the democratic press during the war and ever since had the slightest foundation in truth, we presume they will take good care to leave their *silver* spoons at home. Ex-Councillor Moody of York, of Garcelon-steal fame, is chairman of the committee of arrangements.

News and Notes.

About one o'clock Sunday morning Etta D. Laha, a little girl nine years old, living at Fall River, Mass., walked in her sleep through a third-story window, and fell a distance of twenty-five feet. She sustained a fracture at the base of the skull, and died from her injuries Sunday afternoon.

John Farrell, of Newburyport, seven years old, fell into the water Saturday near Plum island bug-light, and was carried off by the undertow. The dead body was recovered in about four hours.

Henry Grier, an old negro, while fishing in the Little river, near Newbury, S. C., Saturday, found the bodies of his two sons. The younger had a bullet wound near the left nipple, just above the heart, and the elder a wound in the left side, near the shoulder. A piece of leather strap was around the neck of each.

At Newburyport, on the 4th inst., the children of Mr. Daniel Bridges met all together at the home of their parents for the first time in thirty years. There are seven sons and three daughters, and there has never been a death in the original family. There are twenty-seven grandchildren and ten great-grandchildren, and there have been seven deaths among the grandchildren.

Mrs. Daniel Mahoney of Fall River, Mass., lost her life by a singular accident, Friday night. Being thirsty she arose to get a drink, and dropped a glass goblet. Stooping in the dark to pick it up, one of the arteries below the knee was severed by the broken glass. She delayed calling for assistance, and after calling for it died from loss of blood.

On the 4th inst. the editor of the Newburyport *Herald* found his house cat in the entry window, trying to catch a humming-bird. He drove pussy away and held out his forefinger to the tiny bird, which immediately alighted upon it and sat there for about two minutes, evidently feeling it a place of safety, when having recovered from its terror it flew away.

The three free ice water fountains of the Business Men's Moderation society in New York city dispensed over 63,000 drinks on Saturday.

One captain, seven lieutenants, four ensigns and ninety-eight private soldiers—one hundred and ten in all—perished by the recent fall of a bridge over the river Ebro in Spain.

The French government has granted a subsidy of $100,000 for the re-establishment of a line of steamers between Montreal and Havre.

A French firm has secured 100,000 acres of phosphate land in the Ottawa (Can.) valley, and extensive shipments will hereafter be made.

Intense excitement was created at Long Branch, Sunday, by the narrow escape from drowning of seven persons. The surf boat, which went to the rescue of the imperilled persons, upset. Fortunately no lives were lost.

Russian papers contain an account of the explosion of a floating tank of kerosene on the way from Baku to Tsaritsm on the Volgla, and containing 1,000 tons of the fluid. A workman entered the reservoir with a naked light, and it is believed that thirty persons perished.

Another plot to blow up the Czar of Russia has been frustrated. Two mines partly completed were discovered at different points on the railroad over which the Emperor was about to pass on his journey to a distant province. It is fortunate for the Czar his subjects are not Americans. He would have been blown sky-high long ago. The Russian plots and the machinery for them are very clumsy.

Naval Gazette.

The unexpired portion of the sentence of Pay Inspector Geo. L. Davis has been remitted.

The Constellation has been put out of commission at Annapolis, Md.

The Despatch has left Annapolis for the Norfolk navy yard.

The Trenton, flagship of the Mediterranean squadron, has arrived at Gibraltar. Rear Admiral Howell visited Lord Napier of Magdala, the governor, and sailed east on the 2d inst.

New Hampshire Items.

The republican convention to nominate the next governor of New Hampshire meets in Concord to-day. After the convention is over there will be a public meeting at which Col. Robert C. Ingersoll will deliver an address. Reduced fare from this city to Concord and return over the Concord & Portsmouth railroad to-day.

At a meeting of the governor and council on Friday, Frank S. Dodge, high sheriff of Merrimack county, was appointed warden of the state prison, vice Pillsbury, whose commission has expired. The appointment will take effect when the new prison is occupied, about the first of October.

Political Notes.

Up in Vermont, the democrats assert, republican manufacturers seek to have men in their employ vote the republican ticket. In New Hampshire, democratic manufacturers seldom have in their employ any but those of their own political faith. It would be an anomaly to find republican workmen in democratic employ, save in cases where their services were indispensable.

The Dover democrats have chosen delegates to the congressional convention who are solid for Thomas Jefferson Smith as the democratic candidate for congress in this district. The convention is to be held Sept. 16th.

Another republican procession has been stoned; this time in Farmington, Me. One of the scoundrels was captured, and proved to be a notorious character named Mel. Farmer—well known in Farmington police circles He is an enthusiastic democrat, of course.

At Lake Maranascook, Maine, last Friday afternoon, was held the greatest outdoor meeting ever seen in that part of Maine. Fully 8000 people were present, all of whom were obliged to travel a considerable distance. The orators were Col. Ingersoll and Gen. Geo. A. Sheridan.

A stranger entered the main hall at the state house recently, and after glancing around at the battle flags, assumed a solemn air, and turning to other visitors said: "The war is over now, and these things should be kept out of sight;" and with a menacing shake of his head he concluded, "We've going to fix things this fall so they will be." The politics of that stranger could not be mistaken.—*Concord Monitor.*

The democrats of this city have been "cracking to the skies" Col. A. M. Waddell, late of the confederate army, who spoke here Wednesday evening last. It will be remembered that among the strong statements that the colonel indulged in, the following was made in the most solemn and emphatic manner: "A northern republican can speak in any part of the south, with perfect freedom and absolute safety." The remark that he made to one of our citizens, an hour or so afterward, seems to differ somewhat from the above. The gentleman referred to is one of our most prominent Irish republicans, and being alone with the colonel, the conversation naturally took a political turn. The colonel expressed surprise on learning that our friend was a republican, claiming that every Irishman belonged to the democratic party. With this assertion our friend could not agree, and said to the colonel, "Your party has had for its platform—slavery, state sovereignty, free trade, and repudiation; the republican party has democratic platform; what have you got left?" To this the colonel replied: "I don't care to discuss these points; but let me tell you, if you expressed such radical sentiments down south *they would hang you.*" This is no "republican lie," but is capable of absolute proof. How do you like it, Mr. Democrat? — *Biddeford Times.*

Too Knowing.

A few weeks ago I met a young man on the Sound steamer. He had been out of school nearly a week. He was a bright, handsome young fellow, and was the brightest being on the boat. He bubbled over with broad cuffs and information, and his estimation of himself and his collar were of the same height. He told how the Seawanhaka disaster occurred and how it could have been prevented. He never expressed an opinion; he laid down incontrovertible facts. If another passenger said, "There is a lighthouse," this young man "begged his pardon, it was a shot tower." If a traveler told his wife those lighthouses were kept by the United States government, the young man was sorry to correct him, but they were maintained by the state of New York. When some one else pointed out the prison building on Blackwell's island, the young man disliked to contradict him, but those were the barracks and government buildings on Governor's island. Somebody said we were running very fast, but the young man, scarcely repressing a pitying smile, said we were running twenty-eight minutes behind time. Presently he started, looked over the water with an expression of intense concern, shut his field-glass and snapped it in its case, and, explaining that we were headed too close to a certain reef, which he named, hurried up stairs to speak to the pilot about it.

I don't know how he and the pilot got along, but when he came back the young man was quiet and wore a subdued air, and smoked a mild little cigarette as meekly as though there had been some tobacco in it. It was painfully evident that he had learned something, and I felt grieved and hurt on his account. I came very near feeling angry at the person who had imparted the information, because the newly acquired knowledge had not made the young man happier. Indeed, it had rather destroyed his happiness. It had made him miserable. Previous to taking his little special course in the pilot house he had honestly believed that he knew more about the Sound than the pilot. He knew far more than any other or all of the passengers. And nobody contradicted him. It was sadly apparent that he didn't know anything. But he didn't know that. And if he had staid below with the rest of us, he never would have known it. But he need endeavor to tell the pilot about a reef that was not, never had been, and will never be. Poor boy. I felt for sorry him.—*Hawkeye.*

IT MAKES NO DRUNKARDS,

Breaks no Hearts, Excuses no Crimes.

Dr. David Kennedy's FAVORITE REMEDY is not a disguised enemy of the human race; where it cannot help, it does not harm. FAVORITE REMEDY is a combination of vegetable alteratives. It does not heat nor inflame the blood, but cools and purifies it. In all cases of Kidney troubles, Liver complaints, Constipation of the Bowels, and the delicate derangements which afflict women, the action of FAVORITE REMEDY is beyond praise. Thousands of grateful people voluntarily testify to this, in letters to Dr. Kennedy; and with a warmth and fullness of words which mere business documents and certificates never possess. It makes no drunkards—excuses no crimes—breaks no hearts. In its coming there is hope, and in its wings there is healing. We challenge a trial and are confident of the result. Dr. Kennedy would have it understood that, while he is engaged in the introduction of his medicine, "Favorite Remedy," he still continues the practice of his profession, but confines himself exclusively to *Office* practice. He treats all diseases of a chronic character, and performs all the minor and capital operations of surgery.

15,000 feet (board measure) best selected White Pine Boards, 1 inch thick, 12 to 15 inches wide, 14 to 18 feet long.

To be well seasoned, and perfectly free and clear of all defects, as sapwood, knots, holes, shakes, splits, crossgrain, coarseness of quality or stains.

15,000 feet (board measure) Black Walnut, equal quantities 1 inch, 1¼ inch, 1½ inch thick.

3,000 feet (board measure) Black Walnut, equal quantities 2¼ in., 2½ in., 3 in. thick.

To be of the best quality, from 12 to 20 inches wide, and 12 to 16 feet long.

To be sawed fair and full to the thickness, well seasoned, and free from shakes, splits, knots, stains, sapwood and other defects.

All to be delivered to the Bureau of Construction and Repair, at this Navy Yard, within thirty days from date of award.

Bidders are informed that this lumber will be subjected to a rigid inspection, that a full compliance with the specifications in all respects will be insisted upon, and that no article inferior to the standard will be accepted.

Samples will be shown and full information furnished on application to the Naval Constructor. Responsible security is required on the bids for prompt and faithful delivery.

The right is reserved to reject any or all bids, blank forms for which are to be had at this office.

AROUND HOME.

The steamer Stamford had about two hundred passengers to Boston, Monday.

Sir William Richards of Ottawa, one of the law judges of Upper Canada, has been staying at Marden's boarding house, Rye beach.

The democratic senatorial convention for the Portsmouth district will be held at the court house in this city on Thursday, Oct. 7th, at eight o'clock P. M.

The democrats had a flag-raising at the south bridge, Saturday evening. Henry F. Wendell was chairman, and speeches were made by Albert R. Hatch, Daniel Marcy and David Urch—representing both ends of the party, the Bourbon element and the bran-new recuit with a grievance.

In accordance with general order No. 1 from the adjutant general's office of the 1st Regt. N. H. N. G., the Portsmouth City Guards, Capt. James E. Ford commading, will leave this city by the evening train over the Concord & Portsmouth railroad on Monday, the 13th inst., to go into camp at Manchester for four days, commencing the 14th. The City Guard is the only local company attached to any regiment.

The fourth field day of the Essex Institute (of Salem, Mass.,) will be held at Newcastle on Thursday, Sept. 9th. The party will leave Salem by the Eastern railroad train due in this city at 2:35 o'clock P. M., and on arriving will take carriages for Newcastle and the Wentworth hotel, where quarters are engaged for a night and until after dinner on Friday, when carriages will be taken for the old mansion built by Gov. Benning Wentworth in 1750; after inspecting this ancient building and the relics there to be seen, the party will drive to this city, and return to Salem on one of the afternoon trains.

Monday forenoon the sloop Rambler and the cat-boat Rattler started from Mr. Lewis Holmes' boat-wharf, each boat containing three seamen from the U. S. S. Alliance, bound on a sail down river. About ten minutes after they sailed, and while they were running with sheets started, the steamtug Clara Batemen came up behind them and hit the Rattler, sinking her at once, the three men who composed her crew being picked out of the water by the steamer and the other boat. Who was to blame for the accident we do not know, but there must be a blunder somewhere when a steamboat and a sailing vessel with a free wind, both bound in the same direction and in broad daylight, come in collision.

Portsmouth has for many years been somewhat noted for the skill in dentistry of its regular practitioners, but on Sunday last an irregular practitioner performed an operation which for neatness and despatch is ahead of anything previously reported. A young lad named Percy O. Smart, son of R. D. Smart, Esq., who had been out for a ride was descending from the carriage, when the horse gave a vigorous whisk of his tail, twisted the end of a hair around one of the boy's front teeth, and "yanked" it out so quickly that the lad had hardly time to feel it going. The captured tooth was flourished wildly in the air like a slungshot, for two or three whisks of the horse's tail, and then went flying across the street.

A huge dog which was at the Boston & Maine depot in Dover last Saturday morning, in charge of an express messenger, took a notion to have a run about the city, and away he went, dragging with him the express messenger, who being a little man was wholly unable to impress upon the mind of the huge brute the fact that he, the brute aforesaid, was incustody. The pair made some lively time up and down street, the dog evidently having a glorious time, and the little man taking steps each about fifteen feet long as he pluckily held to the cord attached to the dog's collar. A citizen of superior avoirdupois finally lent a hand, and the dog's much-enjoyed excursion about town was at an end. The express man says that the next time an elephant labelled "This is a dog" is sent over that line, the owner may hire a fat man to hold the critter.

Rev. Dr. Leeds of Baltimore preached at St. Andrews-by-the-sea, Rye, on Sunday.

The new brick lock-up at Seabrook is finished, and the justices of the peace in that town are now ready for business.

Rev. William A. Rand of South Seabrook, and Rev. Edward A. Rand of Boston, are at the White mountains. They are both workers, and fairly entitled to a vacation if they can get it.

The delegates so far chosen to the democratic state convention from this city, Dover, Stratham and other neighboring towns, are believed to be "solid" for Frank Jones as a candidate for governor. That Mr. Jones can have the nomination if he wants it is understood on all hands.

The "old blue hen" whose exploits were years ago celebrated in the once popular song which related how "she used to lay two eggs a day—on Sundays she laid three," has been outdone in Dover, according to the local papers, which assert that on Friday last a pullet belonging to a Mr. Quinn of Dover laid *four* eggs.

From all around us come complaints of a scarcity of water unprecedented in recent years. A young gentleman who drove from Portsmouth to Hampton and back, Sunday, was unable to get a drink of water for his horse from the time he left until he returned to this city, though he tried at a dozen or more different farm houses where he saw wells near the road. Several of the wells were dry, and the answer at every other place was that there was absolutely not a bucket of water to give away, every drop being needed for home consumption. The grass in many places is so dried up and killed that the fields present as brown an appearance as is usual after the heavy frosts have set in.

"DEMOCRATIC" PROCEEDINGS?

At a democratic caucus of ward two held in ward one, at which were present a few of the old Bourbons who constitute themselves guardians for life of the democracy of that ward, a list of delegates was prepared by a committee of three. Their names have since appeared in the papers.

It is a singnlar fact that in these thirty delegates selected for the several conventions by the Bourbons the name of not a single citizen of foreign birth appeared, although it is well known that two-thirds of the democratic voters of that ward are either of Irish birth or extraction. Some of them are gentlemen of good education, well informed, and active workers. They have held offices of trust and responsibility to the satisfaction of their constituents. Why it is that they were overlooked?

Is it to please a few solitary individuals, who think they carry the democratic party in their breeches' pockets?

The three committee-men aforesaid never held any public positions other than having small jobs on the navy yard or petty offices in and around the city building.

The democrats boast, as they ought, of their devotion to the purity of the ballot; but on account of the frailty of human nature they do not always carry out their principles.

How different is this from the present action of the republican caucuses, in which all nominations are generally, if indeed not always, made in accordance with democratic principles!

Now it is understood that the democrats of ward two intend to call another democratic caucus in ward two when there can be a full expression of democratic ideas.

The democratic gentlemen of foreign birth are somewhat loquacious; why not give them an opportunity of speaking at some of the flag raisings, or upon other public occasions?

There is a current report that in ward one a like course had already been taken as in ward two. That is quite likely. In fact it would appear that orders have been issued from headquarters to pursue the same course all along the line.

IRISH AMERICAN.

BOW MISSION SERVICES.

The gospel temperance meeting, Saturday evening, was in charge of Mrs. Hooper. Rev. I. A. Cargile of Alabama addressed the meeting, his remarks being highly enjoyed. Several other persons spoke, among them Mr. Clark of Kittery.

On account of the extreme heat, the bethel service on Sunday afternoon was more lightly attended than usual; the meeting, however, was very interesting.

The reform club, by invitation, attended the temperance lecture at the Methodist church, though some of the members enjoyed a social sing at the mission hall. L.

There will be a special meeting for consecration and prayer at the mission hall this (Tuesday) afternoon at three o'clock; all interested are invited to attend.

YORK COUNTY ITEMS.

The schooner Rising Sun is discharging a cargo of coal at Neal's wharf, Kittery.

A young man named Edward Hatch was drowned in the Salmon Falls river near South Berwick on Sunday, while bathing.

The schooner Emily A. Staples came off the ways at Kittery on Monday afternoon, and was towed into the stream by the steamer Mystic.

The French Americans of Biddeford have formed a Garfield & Arthur club one hundred strong, and last week procured uniforms for street parade.

At the republican caucus held in Eliot on Saturday evening, the 4th inst., Mr. Nathaniel Knowlton was unanimously nominated for representative in the legislature.

The Mousam river is so low that R. W. Lord & Co. of Kennebunk have had to shut down their mill. All the mills on the Saco river and its tributaries are injuriously affected by the low water.

A Capt. Patterson of Saco drove to Fortune's rocks, near Old Orchard, one day last week, and on his arrival hitched his horse to a fence. On returning some time after he found the horse across the fence, and upon a stake which had torn his body in such a manner that he had to be killed.

Messrs. Ward, Maddock and Bilbruck of this city, with gentlemen from Lawrence, Mass., and Pawtucket, R. I., are spending a few days at Pocahontas point, Gerrish's island. They have chartered the steamer Little May to make trips to the most interesting points along the adjacent coast.

Interesting gospel meetings were held on Sunday, the 5th inst., in the Methodist and Christian Baptist churches at York village, by workers from Portsmouth. The services were very well attended, considering the excessive heat of the day. Similar services are to be held at Cape Neddick and other places in York county, and at Newcastle, Rye, Dover point, etc., in Rockingham county, on future Sundays.

Grape Culture and Wine.

Mr. A. Speer, of New Jersey, one of the largest grape producers in the east, commenced but a few years ago, in a small way, to make wines from currants, blackberries, and other fruits. He now controls large vineyards of the Ogeto grape, from which his famous Port Grape Wine is made, and which chemists and physicians say rivals the world for its beneficial effects on weakly and aged persons, and the consumptive.

—A little girl in Belfast, Me., dropped her doll and broke its arm. The doll was a favorite one, and the accident was to the child a calamity of the severest nature. The tears started, the lips were trembling with grief, when a bright thought struck her; with a beaming face she exclaimed: "Papa, I don't know as I care after all; perhaps it will be put in the paper!"

A Modernized Numbskull.

A fellow writing from Portland, Me., over the signature of "Observer," to the Boston *Post*, says in relation to the coming election in that state:

Of the results of the election it is idle to speculate. If favorable to the republicans, the effect of their victory will be robbed of its prestige abroad. From their open confession it will be a purchased one. No honest man can dispute it.

No sensible man can dispute that the *Post's* correspondent is a numbskull as well as a liar, when he tells such a silly story as that the republicans of Maine "openly confess" that if they win in the coming election their victory "will be a purchased one." The fact is that the democratic managers anticipate the overwhelming defeat of the party which endorses forgery and perjury in making up election returns, and their party papers are preparing to avert the moral effects of the defeat as far as possible by declaring that large numbers of the immaculate democracy are for sale to the highest bidder, and that the republicans are to purchase their votes! For a pure and incorruptible "reform" party, the democratic organization is singularly corrupt and purchasable, according to the statements of the democratic papers.

It is possible that "Observer" was a member of the counting-out gang of forgers and perjurers; if not he evidently was fitted to be, so far as his regard for truth is concerned.

—A Rutland man snapped a revolver at his dog to let a lady see the thing wasn't loaded. He got ninety cents for the animal's pelt, besides saving the tax on the dog.

—George Eliot, before she was married to Mr. Cross, rid herself of every scrap of clothing and ornament that belonged to her life with her first husband, Lewes. Her trousseau was a very large one, and she was married in white silk and orange blossoms.

—A friend of Clara Bagnal, of Toronto, dressed himself to represent a ghost, and presented himself before her. She was of a nervous temperment, and the shock proved too much for her. She fell in a fit, only to wake a raving maniac. For six years she was bereft of reason, and now she is dead.

—In the beautiful church of St. Mary at Bury St. Edmunds, England, is an altar-tomb surmounted by a recumbent figure of a starved man, the details of which are well executed and ghastly enough. It was erected to the memory of John Baret, who died of starvation in 1462, while attempting to fast forty days and forty nights.

COUGHS.—"*Brown's Bronchial Troches*" are used with advantage to alleviate Coughs, Sore Throat, Hoarseness and Bronchial Affections. For thirty years these Troches have been in use, with annually increasing favor. They are not new and untried, but, having been tested by wide and constant use for nearly an entire generation, they have attained well-merited rank among the few staple remedies of the age.

THE THROAT.—"*Brown's Bronchial Trochee*" act directly on the organs of the voice. They have an extraordinary effect in all disorders of the Throat and Larynx, restoring a healthy tone when relaxed, either from cold or over-exertion of the voice, and produce a clear and distinct enunciation. *Speakers and Singers* find the Troches useful.

A COUGH, COLD, CATARRH OR SORE THROAT requires immediate attention, as neglect often times results in some incurable Lung Disease. "*Brown's Bronchial Trochee*" will almost invariably give relief. Imitations are offered for sale, many of which are injurious. The genuine "*Brown's Bronchial Troches*" are sold *only in boxes.* Tu,Th&S,&o

PERFECTLY SAFE IN THE MOST INEXPERIENCED HANDS!

For Diarrhœa, Dysentery, Cramps, Cholera, AND ALL THOSE NUMEROUS TROUBLES OF THE STOMACH AND BOWELS, SO PREVALENT AT THIS SEASON,

No Remedy known to the Medical Profession has been in use so long and with such uniformly satisfactory results as

PERRY DAVIS' VEGETABLE PAIN KILLER.

It has been used with such wonderful success in all parts of the world in the treatment of these difficulties, that it has come to be considered

AN UNFAILING CURE FOR ALL SUMMER COMPLAINTS

and such it really is when taken in time and according to the very plain directions inclosing each bottle.

In such diseases, the attack is usually sudden and frequently very acute; *but with a safe remedy at hand for immediate use, there is no slow danger of the fatal result* which so often follows a few days' neglect.

The inclination to wait and see if the morrow does not bring a better feeling, not infrequently occasions a fatal delay; the opportunity sufficient, and *sometimes only a sip.* A timely dose of Pain Killer will almost invariably save both, and with them the attendant doctor's fee.

It has stood the test of forty years and is used in all countries and climates, and is perfectly safe in any person's hands.

It is recommended by Physicians, Nurses in Hospitals, and persons of all classes and professions who have had opportunity for observing the wonderful results which have always followed its use.

THE BEST EVIDENCE:

I have long used the medicine known as PERRY DAVIS' VEGETABLE PAIN KILLER in my family and would not on any account be without it. When Cholera was last epidemic here, I used no medicine of any sort but the Pain Killer, and although myself and several members of my family were attacked severely, I am happy to say that the Pain Killer was equal to every emergency. I consider I should not be doing my duty to the community did I not say this much. If I were attacked by the Cholera to-day, Pain Killer would be the only remedy I should use. I have thoroughly tested it, and know it can be relied on.

E. E. BERGINSENN,
Galena, Illinois.

No family can afford to be without it, and its price brings it within the reach of all.

The use of one bottle will go further to convince you of its merits than columns of newspaper advertising. Try it, and you will never do without it.

Price 25c., 50c., and $1.00 per bottle. You can obtain it any drug store or from

KIDNEY-WORT

The Only Remedy

THAT ACTS AT THE SAME TIME ON

THE LIVER, THE BOWELS, and the KIDNEYS.

This combined action gives it wonderful power to cure all diseases.

Why Are We Sick?

Because we allow these great organs to become clogged or torpid, and poisonous humors are therefore forced into the blood that should be expelled naturally.

KIDNEY-WORT WILL CURE

BILIOUSNESS, PILES, CONSTIPATION, KIDNEY COMPLAINTS, URINARY DISEASES, FEMALE WEAKNESSES, AND NERVOUS DISORDERS,

by causing free action of these organs and restoring their power to throw off disease.

Why Suffer Bilious pains and aches?
Why tormented with Piles, Constipation?
Why frightened over disordered Kidneys?
Why endure nervous or sick headaches?
Why have sleepless nights?

Use KIDNEY-WORT *and rejoice in health. It is a dry, vegetable compound and* **One package will make six quart of Medicine.** *As a proof of this, try half a dollar package for you. Price, $1.00.*

DAY'S Kidney PAD

IS STRONGLY ENDORSED.

Rev. E. P. Lyons, Galena, Ill., writes—"For over ten years I had been a great sufferer from pains in the small of the back and region of the Kidneys, which at times became excruciating, and almost insufferable. Doctoring brought no relief, and I was finally advised to go abroad and seek the climate of my youth. In Germany and Switzerland, without any other treatment, the continuance of my sufferings to arise from disease of the Kidneys of long standing had done no good. I was, however, benefited by the climate and consequently returned home, and had been back and resumed my pastoral work, when the old trouble came on so intense as to make life a burden. A few months ago I came in possession of one of Day's Kidney Pads, put it on, and the effects were truly wonderful. The pains at once grew less and are now, after wearing the second Pad, entirely gone, and there can be no doubt but that, in my case, I may write this some weeks after its use, as an strong and look again the very picture of health. I write this perfectly voluntarily, and it is dictated only by truth and gratitude, indeed, I consider the Day Kidney Pad a boon, God's angels and great benefactors of mankind. May all the suffering be helped as I have been by my simple testimony."

CHAS. DAVIS, 124 Myrtle Street, Boston: "I have now used Day's Kidney Pad thirty days, and it has done me more good than any remedy I have ever tried."

LARIMORE & DEAN, Druggists, Niles, Mich.—30 days in business—"Have Kidney Pads in having a large sale and gives better general satisfaction than any remedy we ever sold."

CASPER WEITZEL, Policeman, Lancaster, Pa.—"I have been a great sufferer from Kidney complaint, and was recommended Day's Kidney Pad as being better than I have in 15 years."

Dr. A. J. STONER, Decatur, Ill.—"Your Pad is doing a great deal of good, and I feel bound to give it my testimony."

For sale by drug stores, or sent by mail free of postage on receipt of the price—Regular, Pad, $2.00; Special Pad (extra size), $3.00; Children's, $1.50. KNOW THYSELF.

The untold miseries that result from indiscretions in early life may be alleviated and cured. Those who doubt this assertion should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE, OR SELF-PRESERVATION.

Exhausted vitality, nervous and physical debility, or vitality imparted by the errors of youth or too close application to business, may be restored and manhood regained.

Two hundredth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. Three hundred pages, more than 50 valuable prescriptions for all forms of prevailing disease, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in French cloth; price only $1, sent by mail post-paid.

The London Lancet says: "No person should be without this valuable book. The author is a noble benefactor."

The Tribune says: "The author has had unprecedented success in dealing with nervousness of all kinds and its affections, which or due to pernicious habits or inheritance. He is a Nervo-specific, and therefore knows whereof he writes with such power and ability."

An illustrated sample sent to all on receipt of 6 cents for postage.

The author refers, by permission, to Hon. P. A. Bissell, M. D., president of the National Medical Association.

Address Dr. W. H. PARKER, No. 4 Bulfinch Street, Boston, Mass. The author may be consulted on all diseases requiring skill and experience. HEAL THYSELF

STONES IN THE KIDNEYS

and BLADDER Expelled—Long Suffering of one of TROY'S best People.

A LUCKY MAN.

Mr. James Andrews, of No. 10 Marshal Street, Troy, N. Y., had suffered for several years from the formation of Stones in the Kidneys and bladder, and had doctored with many of the best physicians without receiving any benefit. He was induced to try Dr. Kennedy's "Favorite Remedy," and the following extract from Mr. Andrews letter tells the whole story.

TROY, N. Y., April 8th, 1880.

Dr. D. Kennedy, Rondout, N. Y.:

DEAR SIR,—I received your letter to-day, and you are welcome to use any part of my letter as may seem best. Had I not used the "Favorite Remedy" I should have been a great sufferer to this day. The stone that passed from me has a small piece broken off, but the large one I enclose so that you can see for yourself of what it is composed.

I am quite willing to testify under oath to all I have written in regard to my sickness and recovery, and words fail to fully express my feelings of gratitude to you for my great deliverance from so terrible a disease.

With a real grateful heart I remain yours most respectfully, JAMES ANDREWS.

THE

New Hampshire Gazette!

Established 1756.

The Gazette is published every Thursday and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of news, foreign and domestic; editorials upon current topics; New Hampshire Items; carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents of Portsmouth to be read by all who take place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

—THE—

NEW HAMPSHIRE GAZETTE

Contains more original matter

Than any other paper of its size in the State, the editors working more with their pens than with their scissors.

TO ADVERTISERS

THE N. H. GAZETTE

Presents an excellent opportunity for a weekly invitation to customers, at a reasonable rate, and all those who desire to reach patrons in Rockingham and York counties will find it an economical medium. The Gazette is in many instances the only paper taken by families, and it is read to a large extent in localities whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

The South American War.

The war between Peru and Chili is ended, a treaty having been arranged. By its provisions Peru surrenders the monitors Manco Capac and Atahualpa, razes the fortifications of Callao, surrenders all the artillery of Callao, engages not to augment a navy for twenty years, and will reimburse to Chili the cost of the war. Chili engages to pay half of the exterior debt of Peru. With the signing of the treaty ends a desultory but destructive war of two years' duration, which grew out of a frontier dispute of long standing. The strip of territory claimed by the respective states, Chili and Bolivia, is a stretch of desert, which would be utterly worthless were it not for the guano deposits and mineral resources of the coast. These sources of wealth were developed by Chilian enterprise, and brought into competition with Peruvian products. The Bolivian officials undertook to serve their Peruvian allies by imposing a heavy export duty on nitrate of soda, and when payment was refused, the property of the manufacturers and traders was confiscated. As these acts were in direct violation of a commercial treaty, the Chilian government despatched a fleet to Antofagasta, disembarked troops and reoccupied the works. The Peruvian government made officious offers of intervention, but the discovery that a secret compact was in existence between Bolivia and Peru led Chili to declare war upon both.

NO PUFFERY. Nothing can be more offensive to conscientious journalism than indiscriminate puffery. But it is a pleasure to speak candidly and correctly in praise of such a medicine as HUNT'S REMEDY for the Kidneys, Bladder, Liver, and Urinary Organs; a specific and positive cure that has been before the public for twenty-five years, and has rescued from suffering and the grave even the victims of Bright's Disease. The facts in regard to HUNT'S REMEDY, the Great Kidney and Liver Medicine, are attested by high authority.

Three Things.

A thoughtful man once said that two things settled the question of our happiness or misery, viz.: Our relations to our Creator and to women. There is one more—our relations with our own blood in our veins. Impure blood will produce tumors. It did so in the case of Mrs. Walter Hinckley, of Cotuit, Mass. The doctors could do nothing for her. A neighbor brought from Dr. David Kennedy, of Rondout, N. Y., a bottle of his "Favorite Remedy." She tried it and became better. "No woman," writes Mrs. H., "can afford to be without Favorite Remedy." It will cost you only one dollar to make the experiment. The good result is sure.

FOR PRESIDENT.

James A. Garfield,

OF OHIO.

FOR VICE PRESIDENT.

Chester A. Arthur,

OF NEW YORK.

Republican State Convention.

The republican state convention met in Concord on Tuesday, the organization being as follows:

President, Daniel Barnard of Franklin;

Vice Presidents, Nathan B. Prescott of Derry, Charles M. Murphy of Dover, J. L. Hoyt of Laconia, Charles F. Parker of Wolfeborough, Stephen Kenrick of Franklin, David Gillis of Nashua, James Burnap of Marlow, James Turner of Sunapee, Evarts W. Farr of Littleton, E. Aldrich of Colebrook;

Secretaries, S. D. Tilton of Raymond, G. A. Peavey of Centre Harbor, F. P. Rowell of Newport, Frank Hartshorn of Amherst;

Sergeant-at-arms, John Underhill of Chester:

Doorkeepers, George H. Bartlett of Sunapee, George A. Perkins of Goffstown, William H. Caswell of Northwood, and Geo. A. Dickey of Derry.

The committees on credentials and resolutions each consisted of one member from each county, Daniel J. Vaughan of Portsmouth being chairman of the committee on resolutions.

Charles H. Bell of Exeter was unanimously nominated for governor, by acclamation, amid great enthusiasm.

Ezra H. Winchester of Portsmouth and Nathaniel White of Concord were nominated as presidential electors at large, by acclamation.

The convention was harmonious throughout, and was by far the most enthusiastic ever seen in the history of the republican party of the state. At the announcement of the nomination of Mr. Bell hearty cheers were given, as also on the nomination of Messrs. White and Winchester. If any democrat had before any hope of the democracy carrying New Hampshire on the second of November, a visit to this convention must have convinced him that there will be no show for Hancock in the Granite State. The republicans never were in better order to meet the best man of the democratic side, and the hope was expressed that the "unconquerable democrat" from Strawberry Bank would be put upon the course. From all sections of the state came greetings which gladdened the hearts of the republicans; and New Hampshire, as Mr. Jewell of the national committee remarked early in the campaign, cannot be called a doubtful state.

Our Next Governor.

The nomination of Hon. Charles H. Bell for governor is one to which, in point of fitness, not even the most irrepressible democrat can object. Mr. Bell as speaker of the New Hampshire house of representatives shew his capacities for public service. While holding the appointment of senator in congress he made a very favorable impression at Washington, and won the respect and esteem of the members of the senate of either party.

The nomination for governor comes to Mr. Bell not by any personal effort of his, but by reason of the exercise of good judgment by the republicans in making the selection. If elected, an event of which there can be no reasonable doubt, he will do credit to the state in the office, and the sons of the Granite State all over the Union, no less than our citizens at home, will have cause of congratulation to see the chair of state filled by a man who will add dignity and character to the office, as will Governor Bell.

News and Notes.

William Henry Josephs, better known as Harry Josephs, the burlesque actor, died in Boston on the 6th inst.

Miss Sarah Noyes of Williamstown, aged twenty-five years, while bathing in a small mill-pond on Laurel Lake stream at Lee, Mass., last Sunday afternoon, was drowned.

The trial of James Thomas De Jarnette, for the murder of his sister in July, commenced at Danville, Va., Monday. The jury consists of eight white men and four negroes. It will probably last several days. The defence is insanity. This is the case in which the murderer discovered his sister in a house of ill fame, and killed her "to wipe out the stain on the family honor."

Henry Kinghorn, a Scotchman of Hartford, Conn., forty-five years old, shot his wife through the head, Friday night, and she died in two hours. Kinghorn is a hard drinker and his wife had long suffered from his abuse. She was a hard worker, and helped largely in support of the family by dressmaking. She was busy working at a sewing machine, when her worthless husband placed the pistol near her head, and discharged it. He went to the station house and surrendered himself to the police. He confesses the deed, says he meant to kill his wife, and purchased the pistol that morning for that purpose.

James McGee of Greenwich, Conn., assaulted his wife with a sickle. The blow fell on a comb in the woman's hair, or otherwise might have been fatal. Mrs. McGee brought into use the man's pistol, of which she had obtained possession. She fired, and the bullet lodged in his leg, ending the battle.

Charles Middlebrook, of Weston, Conn., who eloped some months ago with his wife's sister, has returned. His wife received him generously, forgiving and taking him back. He reports that the woman with whom he eloped is somewhere beyond Hartford, waiting anxiously to hear from her old home, he acting as a sort of mediator with her husband to induce him to receive her back again to his favor.

A fearful drought prevails all over Vermont, and manufacturers have been compelled to suspend work for want of sufficient water to run their machinery. The springs and streams are lower than they were ever known to be before. The potato crop is suffering severely, pastures are parched, and the forest foliage is changing, as if touched by frost.

Mrs. Catharine Furey, of Providence, R. I., was stoned to death on Sunday by two young roughs, named Owen and Frank O'Brien. Frank is in custody.

W. J. Nooning and Ida P. Standing ran away from Fall River, Mass., to Newport, R. I., Sunday night, and were married. Early next morning the girl's father arrived at Newport, but on learning that the runaways had been legally united he went back again.

The ship Eric the Red, of Bath, Me., Capt. Allen, which sailed from New York June 10th, for Melbourne, has been totally lost off Cape Otway, a headland on the southwest coast of Australia. The Eric the Red was a good ship 1580 tons register, built in 1871 at Bath, where she was owned by Messrs. E. & A. Sewell. It is understood there is not much insurance upon the ship, which was valued at about $50,000.

Joseph Thibeau, keeper of the Digby almshouse, in Nova Scotia, has been arrested on charge of murdering an inmate of the institution named Charlotte Hill. This was the case in which the dead body of the murdered woman was found partially consumed in a pile of burning brush in the woods.

Hattie F. Morrison, an eighteen-years-old daughter of Robert P. Morrison, a grain dealer of Lawrence, Mass. left home Monday morning ostensibly to attend the high school, instead of doing which she went to Haverhill with her lover, a machinist named William A. Lewis, and got married. After the ceremony the married couple went to the house of the groom's father, in Windham, N. H., to which place they were followed by the bride's father, who took his daughter home. The husband returned to Lawrence and procured legal assistance, and the bride being of age was given up by her parents.

Steamer Harworth, with 2000 steel rails from Barrow-in-Furness, John Anderson master, was in collision with a huge iceberg in the Straits of Belle Isle on Sunday night, 29th ult., smashing a hole in her bow twenty feet in width, breaking the stem into atoms, and giving her an involuntary deck load of tons of ice, which toppled over upon her from the iceberg, and threatened to sink her by sheer weight. She went down forward so much that the stern was lifted high up out of the water, and threatened to pitch her bow formost into the depths. Two men were washed overboard, but one was rescued. It took two days to repair damages. The steamer has arrived at Montreal, and will discharge and repair.

Mrs. Alonzo Hamilton committed suicide by drowning in the Androscoggin river at Lewiston, Me., Monday evening. She left a note saying she was tired of living. She leaves a husband and four children. Her husband is a carpenter.

Isaac Woodruff of Hadley, Mass., committed suicide late on Saturday night by jumping into the Connecticut river from the bridge. He was formerly a well-to-do farmer, but reverses had affected his mind. He was about sixty years of age.

Mary Rinn, seventy-five years old, of Lawrence, Mass., fell down stairs Monday, breaking her neck and fracturing her skull.

"Every politician isn't a statesman," remarked John Lay, in a Texas saloon. This expression was regarded by Den Moore, the town constable, as a personal insult, and he shot Lay at once.

A St. Louis preacher has consigned 200,000 of the people of St. Louis to hell for reading the Sunday papers. "They are getting off pretty light, considering the character of the papers," says the spiteful Chicago *Times*.

The steamship San Salvador sailed from Truxillo Aug. 7th for Havana, and was due there on the 11th. She has not been heard of since sailing, and is supposed to have gone down with all hands.

Steamship Nevada sailed from Liverpool for New York on Saturday, with 347 Mormon recruits for Utah. They are mostly English, Scotch and Welch.

—The minister who divides his discourses into too many heads will find it difficult to procure attentive ears for all of them.

—"Yes," said the steward of the steamer, "I admit that the salt beef was bad, the potatoes rotten, the bread sour, the tea poor—but the rest of the provisions were good." What were the rest of the provisions?" "Oh, salt, pepper and mustard."—*Graphic.*

MESSRS. GEO. WM. BALLOU & Co., bankers, of New York and Boston, have bought a large amount of the first mortgage six per cent. bonds of the Toledo, Delphos & Burlington Railroad Company, and we understand that they will offer them in the market at 91½ and accrued interest, reserving the right to advance the price at any time. The mortgage is at the rate of less than $7000 per mile of road, and the company has no floating debt. Messrs. Ballou & Co. have been very successful in all their operations, and we hear that this is one of the cheapest investment securities in the market.

Thirty Years' Experience of an Old Nurse.

Mrs. Winslow's Soothing Syrup is the prescription of one of the best Female Physicians and Nurses in the United States, and has been used for thirty years with never failing safety and success by millions of mothers and children, from the feeble infant of one week old to the adult. It corrects acidity of the stomach, relieves wind colic, regulates the bowels, and gives rest, health and comfort to mother and child. We believe it the Best and Surest Remedy in the world, in all causes of Dysentery and Diarrhœa in Children, whether it arises from teething or from any other causes. Full directions for using will accompany each bottle. None genuine unless the fac-simile of Curtis & Perkins is on the outside wrapper. Sold by all Medicine Dealers. 25 cents a bottle. 3

IT MAKES NO DRUNKARDS,

Breaks no Hearts, Excuses no Crimes.

Dr. David Kennedy's FAVORITE REMEDY is not a disguised enemy of the human race; where it cannot help, it does not harm. FAVORITE REMEDY is a combination of vegetable alteratives. It does not heat nor inflame the blood, but cools and purifies it. In all cases of Kidney troubles, Liver complaints, Constipation of the Bowels, and the delicate derangements which afflict women, the action of FAVORITE REMEDY is beyond praise. Thousands of grateful people voluntarily testify to this, in letters to Dr. Kennedy; and with a warmth and fullness of words which mere business documents and certificates never possess. It makes no drunkards—excuses no crimes—breaks no hearts. In its coming there is hope, and in its wings there is healing. We challenge a trial and are confident of the result. Dr. Kennedy would have it understood that, while he is engaged in the introduction of his medicine, "Favorite Remedy," he still continues the practice of his profession, but confines himself exclusively to *Office* practice. He treats all diseases of a chronic character, and performs all the minor and capital operations of surgery.

AROUND HOME.

Mr. William G. Billings was on Monday evening elected treasurer of the Piscataqua Lodge, No. 6, of Odd Fellows, in place of Isaac Dow, deceased.

Mrs. Lyman Lougee has settled her claim against the city of Dover for injuries received by falling upon the street, accepting $200 in full of all demands.

Three car loads of machinery arrived on Monday last for the new shoe factory, in which building it was stored under the direction of Mr. Charles A. Canney, who does the trucking for the corporation.

A small barn on the depot road, so-called, in Seabrook, belonging to Mrs. Stephen Knowles, was destroyed by fire on Saturday night. The fire was of incendiary origin, Mrs. Knowles being away at the time. The house was saved with difficulty.

A stranger looking south and west over the north millpond from the bridge, and seeing the Eldredge company's brewery, the roundhouse and machine shop of the Eastern railroad, the new shoe factory and the Kearsarge mill, would get the impression that Portsmouth is an important manufacturing city.

The democrats had two flag-raisings on Tuesday evening, one from the quarters of the Hancock Veterans in the old custom house on Penhallow street, and one from the democratic headquarters in Congress hall. At the latter place the ensign was set "Union down"—indicative of the hopelessness of the democratic cause, no doubt.

The *Times* of Tuesday evening, referring to "Irish American's" communication in the CHRONICLE of Tuesday morning, says "There is not enough of the Irish-democratic varnish on it to cover its republican origin." The writer of the communication never voted a republican ticket in his life—and probably never will, for we expect to see him carry the straight democratic ticket at the next election, irritated as he is now; the voters of Irish extraction may growl at the way in which they are snubbed or wholly ignored by the democratic rulers, but they generally vote the ticket all the same—which is all the managers want of them, anyway.

There was a democratic flag-raising in South Seabrook on Saturday afternoon, in front of the residence of Samuel Eaton. Charles H. Lamprey of Hampton was presiding officer, and speeches were made by Harrison G. Johnson and Capt. J. P. L. Wescott of Newburyport, and Hon. Isaac Bradford of Exeter. The Atlantic cornet band furnished music, and several hundred people were present. South Seabrook has one hundred and seventy-five voters, of whom about forty are republicans; arrangements are being made to put up a Garfield & Arthur flag in the neighborhood. There are now flying in Seabrook five large flags, of which three bear the names of the republican candidates for president and vice president. Another Garfield & Arthur flag is shortly to be raised opposite the residence of Moses Knowles, Esq.

Mr. Editor: There is a statement going the rounds of the democratic press that there is a democratic organization in this city of Union veterans of the late war, numbering considerably over a hundred, all of whom will vote for Hancock and reform. In the same paragraph and almost in the same sentence, and without giving any cause for the vast number on the sick list, we find that the marching force of the organization will be *fifty-one men*. We are no less skeptical concerning the marching fifty-one than of the enormous hospital list boasted of by local democratic ink-slingers; and to give the gallant major (who if in the war at all was a private in some 100-days regiment stationed far in the rear out of harm's way) a chance to show how "great is his command," we will wager him the best hat that can be bought in this city that there are not fifty-one Union veterans of the late rebellion residing within the limits of Portsmouth, who saw actual service in the field—army or navy—and can show honorable discharges therefrom—who are democrats and will vote for Hancock in the ensuing election. Now let the *Times* publish the names of the marching fifty-one, conditioned as above—if it can—and the hat is yours, major.

UNION REPUBLICAN SOLDIER.

The democrats of Newington have chosen delegates to the various conventions as follows: State—Gilbert P. Hoyt, Israel S. Hoyt; Congressional—Frederick Pickering, Valentine M. Coleman; Councillor—William C. Pickering, Jackson M. Hoyt; Senatorial—Joshua B. Pickering, Jr., James B. Pickering; County—Nehemiah Pickering, Thomas B. Hoyt.

The democrats of Greenland have chosen the following delegates to the several conventions: State—E. A. Peterson, Wm. O. Junkins; Congressional—John S. H. Frink, Nathan Berry; Councillor—Charles Foss, Joseph Simpson; County—John S. Seavey, Lorenzo B. Duntley; Senatorial—John Hatch, Wm. H. Packer.

The sea-side residence of Samuel H. Goodall, Esq., at South Seabrook beach, is fast approaching completion.

"Companion *de voyage*" is good. The French editor of the *Times* has returned from his—vacation.

YORK COUNTY ITEMS.

John Tutu of Biddeford attempted suicide Monday afternoon by shooting himself through the lungs, inflicting a fatal wound. He had been on a spree for several days.

Francis D. Jordan, a native of Biddeford, but for many years a resident of Savannah, Ga., where he went before the war, was drowned in the surf at Tybee island on the 29th of August. He was nearly fifty-three years of age.

Hon. Thomas B. Reed of Portland, member of congress from the 1st district of Maine, and Major Horace L. Piper of Washington, D. C., will address the citizens of Kittery on the political issues of the day, in Trefethen's hall on Saturday evening next at eight o'clock. All are invited, irrespective of "race, color or previous condition of servitude."

The schooner Mayflower, Quinn master, bound from Bangor for Boston with a cargo of barrels and bricks, went ashore at Seven-bush island in Cape Porpoise harbor on the afternoon of the 5th inst., and filled. She will probably be a total loss. The cargo was insured, but the vessel was not. The Mayflower registered about fifty-seven tons, and belonged to Boston.

A Boston paper having sent to the editor of every paper in Maine asking for estimates as to the probable result of the coming election in their respective districts, the editor of the Biddeford *Times* sends the following as the outlook for the first congressional district: "I have got estimates of the probable result of this district for governor and congressman, and find that they agree in giving to Gov. Daniel F. Davis and Congressman Thomas B. Reed about 800 majority in York county and 1700 in Cumberland, making a total in the district of 2500."

A young man named Frank Jameson was drowned while bathing in the surf at Old Orchard beach last Sunday afternoon. He and a young man named Gorham went into the water together; soon the latter missed his comrade, and gave an alarm. It was not long before the dead body of Jameson was washed up on the beach, and although several doctors did their utmost to resuscitate him it was of no avail. The deceased was a young man who resided with his parents about a mile from the Old Orchard depot. It is supposed he was attacked with cramps.

There was a narrow escape from a possible big blaze at the navy yard on Monday night. The sergeant of the guard at the yard gate noticed that the Franklin ship-house was brilliantly lighted up inside, and prompt investigation shew that a fire had started by spontaneous combustion. A part of the building has been in use by a riggers' gang, and a bag on which some of the men had wiped oil and tar from their hands, and which had then been dropped on the floor, had taken fire. The bag was nearly consumed, and a small place burned in the floor, but a few buckets of water sufficed to extinguish the fire.

Political Notes.

The Washington *Post* of Tuesday morning says no well-informed democrat expects to carry Maine next Monday.

The democratic press is devoting its energies to an effort to prove that Secretary Sherman and the republican party had nothing to do with securing resumption. Oh, of course not. It was the declaration in the national democratic platform of 1876 that the resumption act was a "hindrance to resumption," and ought to be repealed, which did the business.

The democrats are trying to make the north believe that "State rights" according to the ancient "doctrines and traditions" is not identical with the doctrine of secession. It is true that Andrew Jackson summarily squelched the secession interpretation of state rights, but in 1861 James Buchanan, his cabinet, and the democratic party reversed Jackson's decision, and upheld the Calhoun interpretation by maintaining that the national government had no power to coerce rebellious states. There is no escape from your party's past history, gentlemen.

Ben Butler's assertion that there were as many democrats as republicans in the Union army, recalls the fact that, out of the total vote polled by soldiers in the field during the war, 326,437 were cast by republicans and 41,803 by democrats.

Judge Black is troubled because Garfield is no better than his party. Well, suppose he is not? The party is running on its record, and is not a bit afraid to have it shown up. The judge probably regards Hancock as better than his party; so do we; nevertheless his party will control him. This election will be a test of parties, and the country is asked to decide whether it will continue with the one at present in charge, or change and put in power the one which has existed only as a hindrance for all the good which the other has accomplished.

A charge from Milwaukee against General Butler, in connection with the Soldiers' Home, is so serious as to be almost incredible. It is nothing more nor less than that he has appropriated about $300,000 belonging to the institution. The public generally will await his defence before forming an opinion. We have already formed ours, which is that Butler will land on his feet this time, as he has so many times before. Ben Butler is not a saint—very decidedly not; but neither is he altogether a fool.

—St. Julien has won even higher honors than Dr. Tanner. He is a much faster and more interesting animal.

—A bride of a week returned to her parents, at Bay City, Mich., because her husband made her black his boots.

—An exchange says: "Mrs. Langtry is anxious to tread the boards behind the footlights." That is probably because there is not room enough on the stage boards for her to tread in front of the footlights.

—Things a man never forgets—his first snub, the first girl he ever kissed, his first night at a theater, his first pair of pantaloons, his first cigar, and how much better he might have done in the world had he followed some other occupation.

—"Why," some writer asks, "is a brilliant man less brilliant with his wife than with any one else?" Well, we suppose she asks him for money oftener than any one else. You take to borrowing money regularly and constantly of your dearest and most brilliant friend, and see what will become of his brilliancy in your presence.—*Burlington Hawkeye.*

—A good story was told some years ago of a Galveston colored congregation, whose pastor had bucked off the Sunday school funds at monte. He was duly tried, and the verdict was: "The Rev. Amindab Bledso am acquitted of the sin of gambling, pervided he pays de money back by next Sunday night. In de meantime the members of dis congregashun is warned again playin' keards with Brudder Bledso."

—Rev. J. W. Grubbs officiated at what was intended to a mock marriage, at Springfield, Mo., but afterward declared that the knot was legal, and made a formal record of the certificate. The couple were indignant at this action, and had the clergyman prosecuted. He was fined twenty-five dollars for making a false return; but he has appealed, and for months the pair will not know whether or not they are husband and wife.

—A Wisconsin peddler assured each purchaser of a cake of soap that, on using it until the center was reached, a $10 note would be found therein. The buyers cut the cakes open, and found no money. The swindler was arrested. He argued that the complainants, by cutting into the soap instead of using it in the ordinary way, had violated the terms of the sale, and therefore could not legally proceed against him. The justice ruled that the defense was sound, and discharged the prisoner.

—President Seguier never spared the lawyers in his court, and some of his remarks concerning them were quite in the savage vein of Czar Peter. When the docket was called one day, a case was named where neither advocate was present. "Go on with the case," said the president, gleefully; "now we have a chance of getting at the truth." On another occasion, where only one side was present: "Let him argue both sides," said Seguier, settling himself in his chair; "Begin now for the plaintiff."

TREMPELEAU, WIS., May, 1880.
I am taking Kidney-Wort and find it to be all that it is recommended.
REV. N. COOK.

TEMPLE MILL, FLORIDA., March 24, 1880.
I am employed in getting out timber, and my work is very hard, chopping, lifting and wading in the water a good deal. It brought on Kidney complaint and rheumatism, for which I have been taking Kidney-Wort with great benefit. It is a truly patent medicine. I have never taken which I can recommend, which I have done to many here, and to the druggist in town. A. B. BURR.

—A lady inquiring as to the best way of marking table-linen, the Chicago *Tribune* replies: "Blackberry pie is our choice, although a baby with a gravy dish is highly esteemed by many."

Dr. Bull's Cough Syrup should be kept in every family. A slight cough if unchecked, is often the forerunner of consumption, and a timely dose of this wonderful medicine has rescued many from an early grave.

—Mme. Gerster is proud of her baby. Its voice in the upper register is very fine, and its sustained notes as heard in the middle of the night are something unusual for one so young.—*Musical Critic.*

Could Not Get up Stairs.

Mrs. R. C. Robins makes a statement that for years she has been a great sufferer from kidney affection, and that for several months the pain in her back were so severe she could not get up stairs. She has now worn a Day's Kidney Pad for four weeks, is free from pain, and believes herself entirely cured.

—"If Jones undertakes to pull my ears," said a loud-mouthed fellow on a street corner, "he will just have his hands full." The crowd looked at the man's ears and smiled.

Our sales of *Adamson's Botanic Balsam* increase every week. Please ship us ten gross immediately. If our sales continue to increase in future as they have in the past, we shall have to buy ten gross a month.

New Publications.

G. T. Ridlon of Biddeford, Me., has issued a "Contribution to the Genealogy of the Burbank and Burbanck Families in the United States," and will send it to any address on receipt of fifty cents. It was printed by C. P. Pike, of Saco.

The untiring "Fool's Errand" still keeps the track, and Fords, Howard & Hurlbert, the publishers, have had to make a duplicate set of plates, and are now printing it simultaneously in Boston and New York. Only by this means are they able promptly to fill their orders. The presidential campaign has added to its impetus, and it is having a special sale among voters, with campaign biographies for its only rivals. Meanwhile Judge A. W. Tourgee, now the avowed author of "A Fool's Errand," is in New York, secluded and hard at work upon his new novel, which he will call "Bricks without Straw." It will be ready early in September. Competent critics who have read the proof-sheets of this book unhesitatingly say that it excels its predecessor, "A Fool's Errand," in power, in the treatment of vital questions, and in skilful elaboration of the romance and delineation of character. Judge Tourgee wrote a portion of it in Canada, to secure the copyright there and in England, in both which countries it will be published. It will be issued in handsome 12mo form, with a frontispiece illustration by White. If the advance orders are an indication of the popular demand for the book, it is said to give promise of an enormous sale.

We have received the "Folio" for September, containing the following pieces: "His name is 'General G.,'" song by H. B. Roney; "Norah Marie," song by Robert Leslie; "Peaches and cream," waltz by T. P. Ryder; "Gen. Winfield Scott Hancock's march," by E. H. Bailey; "Tourists' polka," by Chas. D. Blake; "Seek ye the Lord," quartette by Eben H. Bailey. This number also contains a portrait of J. Astor Broad, a rising musical composer.

"Brentano's Monthly" for August is at hand, containing its usual full reports of all legitimate sporting events, and much interesting reading of a miscellaneous character. Brentano's Literary Emporium, No. 39 Union square, New York; $4 per year.

Naval Gazette.

The steamer Tropic, at Philadelphia from Port Antonio, Jamaica, reports that on Sept. 1st, in latitude 38 45, longitude 74 20, she spoke the United States steamer Vandalia, and took her mail. All were well.

—George Larkin shot at Libby Steele, in a St. Paul street, and was instantly killed with a knife by Robert Barton, her escort.

—A soft answer, etc.—Mamma: "You are very naughty, children, and I am extremely dissatisfied with you all!" Tommy: "That is a pity, mamma! We're all so thoroughly satisfied with you, you know."

—It is true that a woman can't very often get a seat in a street-car, but she avenges herself by the way she spreads her self, her goods and chattels over four seats in a railroad car, every time she gets a chance.

The Women at Home.

Our mothers, wives and daughters—Home is not home at all without them. Yet they may die and leave the home silent and sad and any day. Husbands and fathers, a word in your ears. The ladies are now always to blame when they are low-spirited and—worse! They are sick! Don't you be fools or brutes and think they'll come out all right if you are only "firm" and mean yourselves. Put a bottle of Dr. David Kennedy's Favorite Remedy on the shelf, and tell them to use it. The color will come back to their cheeks and the laugh to their lips. Go and get it at once down town, or mail one dollar (see the Doctor's address at Rondout, N. Y.)

—Sara Bernhardt has ordered forty-seven different toilets for her American engagement. American women, who don't know a word of French will have no difficulty in understanding them.

Among all the valuable pleasant medical preparations, LYDIA E. PINKHAM'S COMPOUND ranks first as a curative agent in all those diseases from which women suffer so much. It is prepared at 233 Western Avenue, Lynn, Mass. Send to Mrs. Pinkham for pamphlets.

PERFECTLY SAFE IN THE MOST INEXPERIENCED HANDS!
For Diarrhœa, Dysentery, Cramps, Cholera,
AND ALL THOSE NUMEROUS TROUBLES OF THE STOMACH AND BOWELS, SO PREVALENT AT THIS SEASON.
No Remedy known to the Medical Profession has been in use so long and with such uniformly satisfactory results as

PERRY DAVIS' VEGETABLE PAIN KILLER.

It has proved itself, since its introduction, a medicine of extraordinary merit, and has been used with great success in all parts of the world in the treatment of those difficulties, and may always be relied on when taken in time and according to the very plain directions inclosing each bottle.

AN UNFAILING CURE FOR ALL SUMMER COMPLAINTS

and such it really is when taken in time and according to the very plain directions inclosing each bottle.

In such diseases, the attack is usually sudden and frequently very acute; *but with a safe remedy at hand* for immediate use, *there is no such danger if a cure should result* which so often follows a few days' neglect.

The inclination to wait and see if the morrow does not bring a better feeling, not infrequently occasions a sudden and fatal termination of life. A timely dose of Pain Killer will almost invariably save both, and with them the attendant doctor's fees.

It has stood the test of many years' experience and is in all countries and climates, and is perfectly safe in any person's hands.

It is recommended by Physicians, Nurses in Hospitals, and persons of all classes and professions who have had opportunity for observing the wonderful results which have always followed its use.

THE BEST EVIDENCE:

I have long used the medicine known as PERRY DAVIS' VEGETABLE PAIN KILLER in my family and find it not the new-fangled nostrum of the day. When Cholera was last epidemic here, I used it so successfully and took it myself, that I thought it only my duty to make the Pain Killer, and its properties, known to my fellow-citizens. My family were all cured very soon, and I am happy to say that the Pain Killer has stood its every emergency. I cannot but think it should be in every family, as it is invariably did I not say this much. If I were attacked by the Cholera today, I know Pain Killer would be the only medicine I would take, for I know it thoroughly tested, and know it can be relied on.
E. E. BRIGGS, Sr., Galena, Illinois.

Messrs. PERRY DAVIS & SON:
I know you need no testimonial to convince you that your medicine is all that you claim for it, but I cannot resist the impulse to communicate to you the fact that in my family it has truly done wonders. I administered to my children (one eighteen months, and the other five years old) with perfect success. It regulates their bowels, and stops all diarrhœa. Myself and wife resort to it in all cases, both for internal and external use. I've used it in my family for five years, and will not be without it. Feeling myself under much obligation to you, in many times being relieved from pain, I am very truly yours.
L. F. MOORE,
Baugall, Dutchess Co., New York.

No pain is too severe to be relieved by it, and its price brings it within the reach of all.

The Dose is the bottle and you must be its judge, and we think it will convince you of its merits than volumes of newspaper advertising. Try it, and you will never do without it.

Price 25c., 50c., and $1.00 per bottle. You can obtain it any drug store or from

TRADE MARK. DAY'S Kidney PAD

IS STRONGLY ENDORSED.

Rev. E. F. L. GAUSS, Galena, Ill., writes—"For over ten years I have been a great sufferer from pains in the small of the back and region of the kidneys, which was most excruciating and at times almost insufferable. Doctoring did me no good, and I was half advised to go abroad and seek the climate of my youth. In Germany and Switzerland, and other countries, after close examination, declared my sufferings to arise from disease of the kidneys of long standing, and could do me no good. I was, however, benefited by the climate and consequently returned. No sooner had I been back and resumed my pastoral work, then the old trouble grew again so intense as to make life a burden. A few months put it on, and the effects were truly wonderful. The pains at once grew less and are now, after wearing the second Pad, entirely gone, and there can be no doubt that I am entirely cured, as I write this some weeks after its use. I am strong and look again the very picture of health. I write this perfectly voluntarily, and it is dictated only by truth and gratitude. Indeed, I consider the Day Kidney Pad a God-send to agents and great benefactors of mankind. May all the suffering be helped as I have been to my earnest wish."

CHAS. DAVIS, 124 Myrtle Street, Boston: "I have now used Day's Kidney Pad three weeks and it has done me more good than any remedy I have ever tried."

LARIMORE & DEAN, Druggists, Niles, Mich.—(30 years in business)—"Day's Kidney Pad is having a large sale and gives better general satisfaction than any remedy we ever sold."

CASPER WEITZEL, Policeman, Lancaster, Pa.—"I have been a great sufferer from kidney complaint, and after wearing your Pad 28 days I feel better than I have in years."

Dr. A. J. STONER, Decatur, Ill.—"Your Pad is doing great good here. Recommend it every day and gives universal satisfaction."

For sale by druggists, or sent by mail (free of postage) on receipt of the price—Single, Pad, $2.00; Special Pad (extra size), $3.00; Children's, $1.50. Our book, "How Life was Saved," giving the history of this new discovery, and a large record of most remarkable cures, sent free. Write for it. Address,

A Noble Red Man.

Ouray was a good man and a great Indian. No chief ever lived who combined the attributes of the civilized man as he did with those of the wild man of the forest. He added a robust frame, a keen eye, a sinewy arm and superior cunning and a sharp perception to a sound judgment, a firm will and a disposition to do right. A warrior in his earlier days, he became in mature life a lover of peace, an agrarian, a philosopher. Once drifted into this life, he became a statesman and a diplomat. The assault of civilization upon the mountain bulwarks of savagery found Ouray in the prime of manhood. Though unused to the ways of the great world outside of the Sierra Madres, ignorant of the existence of the "Americano," except as introduced to them by the Mexicans, unaware of the extent of the great land to the eastward, untaught as to the story of Columbus, of Cabot and of Pocahontas, he was yet prepared to meet and understand the new people to whom he was introduced. This indicated that there was a spark of humanity in the bosom of Ouray which is not possessed by the commonality of his race. The first impulse of most of them is to murder and plunder and resist all inroads. Ouray discovered that the invaders might become agreeable neighbors, and saw the possibility of learning from them the arts of life and happiness. History records no instance from the very beginning in which he has not treated the whites with civility and hospitality, and the life which he adopted was in many respects that of his Caucasian brother. He lived in a house, cultivated a farm, and connubially became a monogamist. He became acquainted with the prominent white men, and though he may have used this acquaintance to advance his private aims, he also made it useful in promoting the interests of his people.

Up to the present time Ouray's services have been indispensable to the government in conducting any negotiations with the Ute Indians. It has proved quite impossible to obtain cessions of land or the surrender of prisoners without invoking his aid, and it must also be said that when his services have once been enlisted, there has been no failure. He has proved capable of controlling the Indians in their national dealings with the whites, and at the same time, it must be said to his credit, that he has never failed to do what lay in his power to do for his people. He obtained the best possible prices for them for all lands, secured the most liberal terms to them in the administration of the laws and screened them to the utmost extent when they were sought for by the authorities. On the other hand, he stood between the whites and danger from Indian attacks, and did all in his power to prevent collisions or ambushes. This was certainly the part of a just and humane mediator, of a lover of peace and of his people. All honor to Ouray. In him the Great Uncompahgre has fallen. He was the head of his tribe, the chief of his race.—*Denver (Col.) Tribune.*

GREAT DISTRESS is often suddenly experienced from an attack of cramp in the stomach, colic or other painful affections for the relief of which nothing is superior to Dr. Pierce's Compound Extract of Smart-Weed, or Water-Pepper, compounded from the best French brandy, Jamaica ginger, smart-weed, or water pepper, and anodyne gums. For diarrhœa, dysentery, bloody flux, cholera morbus, its warming, soothing astringent and healing properties render it a perfect specific, unsurpassed as an anodyne and stimulating embrocation or liniment. Should be kept in every family. Sold by druggists at fifty cents.

THE REPUBLICAN PLATFORM.

The following are the resolutions adopted by the republicans of New Hampshire in state convention assembled, at Concord, Sept. 7th:

The Republicans of New Hampshire, adhering to their party organization, which prevented slavery extension, put down a slaveholder's rebellion, saved the Union of the states, abolished human bondage, decreed manhood suffrage and established itself as the advocate and protector throughout the national domain of equal rights before the law to all citizens, and a free ballot to every voter; and opposing the Democratic party, which made itself the defender of slavery extension, encouraged secession and rebellion, opposed and prolonged the war for the Union, resisted emancipation and impartial suffrage, and made itself the ally of terrorism and murder as means for the suppression of all free suffrage at the south—hereby declare, as appropriate to the opening of a new political campaign,

I. That we approve and endorse the platform adopted by the Republican National Convention at Chicago, and cordially support the candidates for President and Vice President there nominated.

II. That the National Republican party is sacredly pledged to the complete protection of all its citizens in the free enjoyment of all their civil, political and public rights, to be not only theoretically conceded, but actually and fully exercised in every part of the Union, and that for securing the same, it is the solemn obligation of the legislative and executive departments of the government to put into immediate and vigorous exercise all their constitutional powers, and that we demand a Congress and Chief Executive whose courage and fidelity to these duties shall not falter until these results are placed beyond dispute or recall.

III. That if any state shall attempt to limit or abridge directly or indirectly the freedom of the citizen or his untramelled right to the labor of his hands; shall oppose or neglect to provide for universal education; shall impede or destroy by legislation, intimidation or fraud the exercise of the right of suffrage, either for national or state offices; shall overcome lawful majorities by turbulent, armed, or rebellious minorities; shall adopt or tolerate oppression, terrorizing, whippings or murder as election practices, or omit to enact and enforce laws for the punishment of such crimes; in any and all of these cases we demand the active interposition of the federal government to furnish the citizens of the states that protection and those benefits which state action fails to supply; and for these purposes we advocate the vigorous enforcement of all existing laws of Congress, and if found necessary, the enactment of new legislation and the adoption of additional constitutional amendments.

IV. That the party that has maintained the financial integrity of the republic by the resumption of specie payments, and the honest discharge of the national liabilities, thereby lifting the industries of the country from unparalleled depression to unprecedented prosperity, should not be supplanted by a party which has repudiated its financial obligations, and done all in its power to debase the national currency and throw a perpetual blight upon the industries and prosperities of the nation.

V. That we point with pride to the present Republican National Administration, and congratulate the country upon its financial success and its faithful performance of its public duties, in spite of the systematic opposition of a democratic senate and house of representatives.

VI. That in the nomination of James A. Garfield for President, the republican party presents for the suffrages of the American people a brave and successful Union general, a tried and experienced statesman, whose integrity and ability have won not only the admiration and confidence of his political associates, but also the respect and esteem of his opponents; that in Chester A. Arthur, our candidate for Vice President, we have an eminent citizen of New York, whose patriotism, honesty, and business capacity are unsurpassed, and we pledge them our hearty and enthusiastic support.

VII. That we recur to the administration of state affairs by the republicans of New Hampshire for twenty-four years, against the ability and honesty of which no serious charge has ever been made by our bitterest opponents, as a reason for continuing state control in republican hands; and we hereby commend Honorable Charles H. Bell, this day nominated for governor, and James E. French, Charles A. Smith and E. J. Tenney, nominated for railroad commissioners, as candidates in every respect worthy the votes of the people of the state.

Republican Nominations.

In addition to the nominations already reported, the state convention selected James E. French of Moultonborough, Charles A. Smith of Manchester and E. J. Tenney of Claremont as candidates for railroad commissioners.

The third district congressional convention was held immediately after the adjournment of the state convention. Hon. Evarts W. Farr was unanimously renominated for Congress, by acclamation; and Henry L. Tilton of Littleton was nominated for presidential elector.

Vermont Election—Good Enough!

The state election in Vermont was held on Tuesday, the 7th inst., and resulted in an old-fashioned republican victory. That the state would go republican was of course a foregone conclusion; but the democrats had made a vigorous campaign, and hoped and expected to reduce the republican majority, which would be a moral victory for the cause of Hancock and the rule of the solid south. Instead of this result being attained, the republican majority has been largely increased, the vote throughout the state being very heavy.

In 1876 Hayes' majority over Tilden was 23,838; at the state election in 1878, the republican plurality on the governor vote over the democratic candidate was but 20,038, and the republican majority over all opposition only 16,634. At the late election, in spite of the vigorous exertions and loud bragging of the democrats, and the "sweeping enthusiasm" for Hancock, the republicans have rolled up the heaviest majority for many years, the latest report putting it at 25,000.

Another Colliery Horror.

By an explosion in Seaham colliery, near Durham, Eng., Sept. 8th, both shafts of the mine were blocked, though they are half a mile apart. Between 250 and 300 men were in the pit, but it is hoped many will be saved.

News and Notes.

Three thieves were captured in New York on the night of the 7th inst., with twenty sealskin sacques in their possession, which they had stolen. The goods were valued at $10,000. Two of the thieves were shot, each in two places, before surrendering.

The Florida orange crop is reported ruined by the great storm. The loss is said to be a million and a half.

Dr. Thomas E. Williams, a promising young physician of Texas, was run over by a train at Meridian, Miss., on the 7th inst., and instantly killed.

Henry P. Bowker, aged fifteen years, and J. R. Garrage, aged twelve years, of Malden, Mass., have been arrested on a charge of breaking into and robbing the hardware store of A. W. Rogers, and held in $500 for trial. The bulk of the stolen property has been recovered.

Capt. Alexander M. Hamilton, a well known citizen of Harrisburg, Penn., was found dead on the evening of the 7th inst., in his office, shot through the head with a pistol.

Monday night W. J. Knapp of Utica, N. Y., committed suicide by jumping into the Niagara river, just above the falls on the American side. The only witness was a young lady. The body was not recovered.

There is another idiot fasting against time. Charles Livingston of Brooklyn, twenty-seven years old, having commenced a fast intended to last forty-two days, on the 6th inst., in that city.

Besides the vessels previously reported as having been wrecked on the Florida coast by the hurricane which destroyed the steamship City of Vera Cruz, the following were lost: Schooner Ross, Eppinger master, bound from Cedar Keys to New York, wrecked sixteen miles north of Cape Carnaveral, the first mate being drowned; brig Song, Reade master, from Apalachicola for Philadelphia, lost at Turtle island; two unknown vessels wrecked near New Smyrna inlet; and a large ship, dismasted, in the breakers near St. Sebastian, the crew being still on board. A large portion of the bottom of a ship, newly coppered, apparently a vessel of about 2,000 tons, and a lot of mahogany, went ashore on the 6th inst. at St. John's bar.

E. B. Hall, of Toledo, whose term of office as treasurer of Lucas county, Ohio, has just expired, is a defaulter to the amount of $47,000. Hall was elected by the "national" party and had served one term. In a note to his deputy he admits his defalcation, and requests him to inform his bondsmen. Hall has left the city. Further developments show that he has been using the public funds for the purpose of speculation. The county treasurer is also the designated custodian of the city funds, separate bonds being given. It is thought his sureties are good for the deficit, which is about $50,000. Hall is an old resident of Toledo, and has hitherto borne an unsullied reputation.

Tom McDonald was one of the hardest drinkers at Commercial Point, Ohio, yet he was not a profit to the only saloon in the village, because when on a spree he would drive out the proprietor, Beaver, and give away the liquors to all who asked. Beaver at last put a stop to that diversion by giving McDonald a terrible whipping. McDonald lay for several days in bed, and while recovering he spent a large part of his time sharpening a knife with which to kill Beaver. As he had always carried out his threats it was generally supposed that Beaver's days were numbered, but one night, just as McDonald had recovered sufficiently to walk, a mob took him out and hanged him. "No doubt they were friends of mine," Beaver naively remarks.

Mrs. Hennessy, an American lady, Viscount Fleury, and two natives of England were drowned Sept. 3d, at Roscoff, off Cape Finisterre, France, by a yachting accident.

Poor Weaver.

The *Observer*, a rabidly partisan democratic sheet published at Utica, N. Y., says of Gen. Weaver, the greenback candidate for president:

In plain words, Mr. Weaver has been bought up, body and soul, by the republican managers. It has been known for weeks that Marshall Jewell paid Weaver's Alabama expenses, and sent word down there to his republican committeemen to aid the greenback ticket all they could. Since the election in that state, Weaver has been as thoroughly an adjunct of the republican party as any Logan or Woodford of them all. He has been sent into Maine now to act as a tender to Jim Blaine's machine, and it must be admitted that he is earning his money admirably. We should "admire to know," as they say down in the Pine Tree state, just how much Weaver was bought for.

The Boston *Post* copies this item, and adds: "This going around warming republican beds ought to be well paid for, and we guess it is." Gen. Weaver's offence is that in stumping through Maine, as the greenback candidate for president, he has advocated the interests of the greenback party instead of advising his supporters to play second fiddle to the democracy, and persisted in telling of the fraud and violence practised by the southern democrats toward the greenbackers of that section.

IT MAKES NO DRUNKARDS,

Breaks no Hearts, Excuses no Crimes.

Dr. David Kennedy's FAVORITE REMEDY is not a disguised enemy of the human race; where it cannot help, it does not harm. FAVORITE REMEDY is a combination of vegetable alteratives. It does not heat nor inflame the blood, but cools and purifies it. In all cases of Kidney troubles, Liver complaints, Constipation of the Bowels, and the delicate derangements which afflict women, the action of FAVORITE REMEDY is beyond praise. Thousands of grateful people voluntarily testify to this, in letters to Dr. Kennedy; and with a warmth and fullness of words which mere business documents and certificates never possess. It makes no drunkards—excuses no crimes—breaks no hearts. In its coming there is hope, and in its wings there is healing. We challenge a trial and are confident of the result. Dr. Kennedy would have it understood that, while he is engaged in the introduction of his medicine, "Favorite Remedy," he still continues the practice of his profession, but confines himself exclusively to *Office* practice. He treats all diseases of a chronic character, and performs all the minor and capital operations of surgery.

AROUND HOME.

The tow-boats on the river have been very well employed lately. The Clara Bateman towed seven vessels up from below on the 7th inst.

Mr. John Dixon arrived in New York from Europe on the 6th inst., by the steamship Anchoria, and reached home on the evening of the 8th.

The schooner Helen F. Tredick arrived at this port on Wednesday forenoon, 8th inst., with one hundred and seventy-five barrels of mackerel, one-half of them being number one's.

Sixty men of the crew of the U. S. S. Alliance came ashore on the 7th inst., for three days' liberty. Some of them went to Boston, others to Dover or Kittery, and a number remained in this city.

The boat Rattler, sunk in the river on the 6th inst. by collision with the steamtug Clara Batemen, was picked up off Eliot neck on the 7th, and brought down to Mr. Holmes' premises on the 8th.

Work has been commenced at enlarging the old well near the Eastern railroad station, from which the big tank is filled. The well is to be enlarged into a circular reservoir twenty feet in diameter and twenty or more feet in depth.

The September term of the supreme court for Strafford county began at Dover on Tuesday, Sept. 7th, before Hon. L. W. Clark. Divorce cases were heard on Wednesday. Attorney General Tappan is in attendance before the grand jury. Several important state cases will come before this body.

Dun-fish, for which the Isles of Shoals were once famous, are still cured there to some extent, principally by Mr. Lemuel B. Caswell on Smuttynose island. Mr. Caswell has this year made one hundred quintals of dun-fish, fifty quintals of which he has sold. Some of them went to Cincinnati, some to St. Louis, and one shipment was sent to Oregon.

Capt. Joseph Haley, who ran the little steamer Pinafore between Appledore and Star islands during the "season" now ended, came in on Tuesday, the 7th inst., his job being of course finished for this year. He is a careful man, and one of the best-natured souls in existence—two very necessary qualifications in the skipper of a steamer that runs "summer boarders" altogether.

The schooner yacht Wm. H. Russell, Drown master, with a party of seven farmers from Greenland, went on a fishing excursion, Monday of this week, and arrived back at the wharf Wednesday morning. She anchored in the lower harbor on Tuesday evening, and part of her passengers came up by way of Newcastle. The catch, which was a fair one, consisted of cod, haddock and hake, mostly taken between Hampton beach and the Isles of Shoals.

It is reported that Howe Call, Esq., the "silver-tongued orator" of the New Hampshire greenbackers, started for New York on the 8th inst., where he will be assigned to the stump by the democratic national committee, in whatever state they may deem his services of most value. This is a little rough on the old hide-bound democratic element, which never went browsing in greenback pastures, and is mad way through at Mr. Call's open-armed reception by the great mass of Portsmouth democrats on his return to the true faith. It is understood that Mr. Call will advocate democratic-greenback principles—whatever they may be.

THAT FLAG-RAISING.

There were several amusing incidents connected with the democratic flag raisings on Tuesday evening of this week, which republicans think are too good to keep.

At the unfurling of the flag at the old custom house on Daniel street, a democratic veteran was discovered seated on the wooden awning, tenaciously holding on to a sign which projected above the awning front. As the flag unrolled, the enthused individual raised himself, and swinging his right arm aloft cried out, "Three cheers for—hic—three cheers for—hic—Hendricks and *Indian!*" Roars of laughter and derision, intermingled with shouts of "Crawl off and die," "Go hang yourself," and "Snake him through the window" went up from the crowd,—and the fellow who "fought mit" Hancock subsided and "joined the mule train."

While Mr. Bradford was speaking at the Congress street demonstration, another veteran, who for an hour had been steadily holding a torch that the eloquent! speaker might find his way through the De Golyer and Credit Mobilier labyrinths, showed signs of weariness, and moving uneasily about, brought his torch alarmingly near the head of the orator, who anxiously dodged back and forth, lest his raven locks should be singed; this continued some moments, when the situation was taken in by the lynx-eyed chairman, who immediately stepped toward and gave that torch a vigorous upward stroke, thus putting that veteran "on guard," and assuring the speaker that his personal safety was being looked after.

This said that the usually genial face of the *Times* reporter was a study during this meeting. He had been anxiously awaiting and expecting that cheers would be given for Hancock and English at the proper times, and had vainly essayed to start these little episodes, but somehow they would not go. At last, when the speaker got through and Col. Wendell come to the front and called for cheers for the speaker *only*, our young friend was frantic, and rushing pell mell through the fast disintegrating crowd seized the coat-tails of Major Urch, and came dangerously near pulling that gentleman backwards over the bandstand, crying, "Dave! we must not let this meeting close without cheering for Hancock and English." This was a supreme moment for the major, and he "leaped into the breach;" but recruits always get excited, so he forgot all about the candidates, and fizzed thusly: "Fellow citizens, let us give three cheers for *this handsome flag* we have erected to-night." As the crowd did not seem over anxious to cheer for a flag that was "union down," the response was very weak.

THE HANCOCK VETERAN ROUSED.

In reply to "Union Republican Soldier," we say: * * Neither are we in want of a hat. But we *are* in need of campaign funds. We also like to maintain, your slurs to the contrary notwithstanding, any and all pretentions we have ever made as a Union soldier. I have never bet a dollar in my life, but in this case I have taken the trouble to deposit with Messrs. Butler & Laighton a receipt for $500 deposited in a Portsmouth bank, and will make this bet: That we can produce a list—and will publish if necessary—of fifty-one Hancock and English veterans of the army and navy, who served as soldiers or sailors during the rebellion, belonging in Portsmouth, and who will vote for Hancock and English; also that the "gallant major" referred to can produce an honorable discharge from the volunteer army of the United States, and that he was at the front, fighting for the perpetuation of the Union, two or three years after some of your so-called "Boys in Blue" skedaddled from Bull Run fight, came directly home, and never returned. * * Now put up or shut up.—DAVID URCH, [*in Times of Sept. 8th.*]

Mr. Editor: Five hundred dollars! Whew! I have not half that amount of money lying around loose, and I have neither time nor inclination to importune political friends to make up a "pot" for political bluffing purposes.

As the major does not want a hat, I will change the terms of my wager to read as follows:

I will wager Major Urch $10 (ten dollars) that there are *not* fifty-one Union veterans of the late rebellion residing within the limits of Portsmouth who saw *actual* service in the field—army or navy—and can show honorable discharges therefrom, who are democrats and will vote for Hancock at the ensuing election. These to be marching men, as indicated in the CHRONICLE of Sept. 8th.

I will further wager $10 (ten dollars) that Major Urch was *not* in the armies of the Union for the term of three years, two years nor one year during the rebellion, and that he was not in a battle or skirmish during his term of service.

The two bets to be taken together.

It *will be necessary* to publish the list of the fifty-one, and show their discharges.

The writer has altered his wager merely to accommodate the major with his coveted campaign funds—if he can win them. Now, Major, come to time if you mean business. I have deposited twenty dollars in the hands of Mr. I. P. Miller, who is authorized to act.

UNION REPUBLICAN SOLDIER.

GRAND RALLY.

There will be a grand republican mass meeting in Friend Hill's grove at North Berwick village on Friday, the 10th inst., commencing at one o'clock P. M. Gen. W. H. Gibson of Ohio, Gen. Adam E. King of Maryland, Hon. J. Hale Sypher of Louisiana, Hon. E. B. Smith and Maj. H. L. Piper of Washington, and Hon. E. H. Gove of Biddeford, will address the people. Music will be furnished by the North Berwick cornet band, the Great Falls Cadet band, and the Great Falls Garfield & Arthur glee club. A free lunch will be served at noon in Mechanics' hall. Reduced fares on the railroads. This will be the last grand rally of this campaign in York county.

Tickets to North Berwick and return will be sold at the Eastern railroad depot in this city for one fare, good on any regular train.

POLICE COURT.

WEDNESDAY, Sept. 8; *Batchelder, J.*

Mary Dwyer was complained of for an assault on Nellie McGill. Case continued to ten o'clock Thursday morning, defendant being held in $100 for her appearance. Abby Dwyer, complained of for keeping a place of business open on Sunday, had her case continued to the same time and on the same terms.

DEMOCRATIC DELEGATES.

The democrats of ward three held their caucus Wednesday evening, the 8th, and elected delegates to the several conventions as follows;

State—Chas. A. Sinclair, Alexander Robinson;

Congressional—Frank W. Rand, Winthrop Hoyt;

Councillor—Geo. A. Blaisdell, William H. Canty;

County—Jas. G. Locke, Harry J. Freeman.

Senatorial—Thos. D. Wardwell, Geo. A. Jackson.

Delegates to the senatorial convention were instrucied to use their influence to place in nomination a candidate who would use his efforts to secure the ten hour law in the state of New Hampshire.

Ward Committee—Edward D. Coffin, Josiah H. Morrison, Simon H. Mills, Frank W. Rand, Daniel J. Ayers, Wm. H. Canty, Frank G. Sherburne, Jere. Sanborn, William Alton, Washington I. Drake, George A. Blaisdell, Wm. J. Holmes.

YORK COUNTY ITEMS.

The schooner Cocheco went on the railway at Kittery on the 8th inst., to have her bottom cleaned.

Mr. George W. Damon, of Kittery, last spring planted a single potato procured in one of the British provinces. On the 7th inst. he dug his crop from this potato, and it weighed just sixty-four pounds.

It is now announced that the pilots of St. Augustine, Fla., five in number, were aware of the wreck of the steamer City of Vera Cruz on Monday, Aug. 30th, but kept it a secret for two days, while they stole the cargo and plundered the corpses which were washed ashore on Anastasia island, opposite St. Augustine. The main part of the steamer was beached on this island, twelve miles from the city.

COUGHS.—"*Brown's Bronchial Troches*" are used with advantage to alleviate Coughs, Sore Throat, Hoarseness and Bronchial Affections. For thirty years these Troches have been in use, with annually increasing favor. They are not new and untried, but, having been tested by wide and constant use for nearly an entire generation, they have attained well-merited rank among the few staple remedies of the age.

THE THROAT.—"*Brown's Bronchial Troches*" act directly on the organs of the voice. They have an extraordinary effect in all disorders of the Throat and Larynx, restoring a healthy tone when relaxed, either from cold or ever-exertion of the voice, and produce a clear and distinct enunciation. *Speakers and Singers* find the Troches useful.

A COUGH, COLD, CATARRH OR SORE THROAT requires immediate attention, as neglect often times results in some incurable Lung Disease. "*Brown's Bronchial Troches*" will almost invariably give relief. Imitations are offered for sale, many of which are injurious. The genuine "*Brown's Brokchial Troches*" are sold *only in boxes.* Tu,th&f,&c

Is it Possible

That a remedy made of such common, simple plants as hops, buchu, mandrake, dandelion, etc., makes so many and such marvelous and wonderful cures as Hop Bitters do? It must be, for when old and young, rich and poor, pastor and doctor, lawyer and editor, all testify to having been cured by them, we must believe and doubt no longer. See other column.—*Post.*

—If we could see others as we see ourselves there would be more good looking people in the world.

Speer's Sambuci Wine for Invalids.

Is invaluable in all cases where a gentle stimulant, tonic or diuretic is applicable, such as nervous weakness and general debility.

Excellent for rheumatism and kidney complains.

Received the highest premium—a medal, awarded by the American Institute, N. Y., at their late fair, for the best medicine wine.

For sale by A. P. Preston, David Kimball, F. B. Coleman, druggists; H. F. Gerrish, C. E. Laighton & Son, grocers.

—It is only when a man pawns his watch that he realizes how little money time is worth.

D. R. V. G. is guaranteed by all druggists to cure dyspepsia, or money refunded.

—New Hayen allows its paupers to take Turkish baths at a dollar each, the town paying the bills.

Dr. Bull's Cough Syrup is a purely vegetable compound, innocent in nature, and wonderful in effect. For children it is invaluable, curing croup, whooping cough, etc., in a few hours. Price 25 cents a bottle. For sale by all druggists.

The U. S. S. Vandalia, Comdr. Meade commanding, arrived at Fortress Monroe on the 7th inst. from Cuba. On the 6th she fell in with the wreck of brig City of Moule, of Portland, Me., waterlogged and abandoned, and fired three broadsides into the wreck to destroy it.

The Despatch was put out of commission at Portsmouth, Va., on the 6th inst.

New Hampshire Items.

Extensive forest fires are reported in the northern part of the state, and serious loss must result unless rain comes.

Amos J. Chase has died at Manchester, from the shock occasioned by the loss of his right hand a week before, tetanus having developed.

Professor Hitchcock recently found a boulder on Mt. Washington of great significance, showing that the mountain was completely submerged during the glacial period, contrary to the opinion hitherto entertained. It corresponds to the character of the rock on Cherry mountain, ten miles northwest, and 3,000 feet below the summit of Mt. Washington. It was taken down the mountain, and goes to the Natural History rooms in Boston.

Political Notes.

At the Alabama state election, held on the 6th inst., the democratic counters were very moderate, the majority of the democrats over the greenbackers being only forty or fifty thousand in the whole state. The first reports are to the effect that the constitutional amendment repudiating the state debt has been defeated.

An application has been formally made to Judge Baxter of the United States court for the appointment of supervisors at the coming election in Cincinnati.

Not Highly Respectable.

There was a little shooting scrape at a little town in the interior of Texas not long ago, and it was not long before a Galveston News reporter was on the spot interviewing one of the principals.

"So you are going to write it up," said the survivor.

"Yes, I want all the facts."

"I don't care a cent what you say about the shooting, but I have one little favor to ask."

The reporter said he would grant it cheerfully if he could.

"Well," said the shootist, "I want you to put down that my grandfather was one of Lafitte's pirates, and the worst cutthroat of the gang."

The reporter stared a little, but the shootist went on to say:

"Please put in that one of my uncles was hung by the vigilance committee in San Francisco, and two more of them are making shoes in the Illinois penitentiary; that another one of them is practising law in New York, and my only sister ran away from home with the clown of a circus; that as for as you can learn there is not a member of the family that has not done something disgraceful."

"Why, what do want all that in the paper for?"

"Because I am sick of reading in the papers that every fellow who has a little shooting scrape belongs to one of the most respectable families in the country. Just put it down, for once, that one of the parties to the unfortunate affair belongs to a highly disreputable family. If you don't put it that way you will wish you had."

It is reported from Berlin that Hans Von Bulow has had a shock of paralysis, and lost the use of his right hand.

Advices from Hong Kong to Aug. 11th say that the destruction of property in Manilla by the last earthquake amounts to $6,000,000.

PERFECTLY SAFE IN THE MOST INEXPERIENCED HANDS!
For Diarrhœa, Dysentery, Cramps, Cholera,
AND ALL THOSE NUMEROUS TROUBLES OF THE STOMACH AND BOWELS SO PREVALENT AT THIS SEASON.
No Remedy known to the Medical Profession has been in use so long and with such uniformly satisfactory results as

PERRY DAVIS' VEGETABLE PAIN KILLER.

It has been used with such wonderful success in all parts of the world in the treatment of these difficulties, that it has come to be considered

AN UNFAILING CURE FOR ALL SUMMER COMPLAINTS

and such it really is when taken in time and according to the very plain directions inclosing each bottle.

In such diseases, the attack is usually sudden and frequently very acute; *but with a safe remedy at hand* for immediate use, *there is seldom danger if the fatal result* which so often follows a few days' neglect.

The inclination to wait and see if the morrow does not bring a better feeling, not infrequently occasions a vast amount of needless suffering, and *sometimes costs a life.* A timely dose of Pain Killer will almost invariably save both, and with them the attendant doctor's fee.

It has stood the test of fifty years' constant use in all countries and climates, and is perfectly safe in any person's hands.

It is recommended by Physicians, Nurses in Hospitals, and persons of all classes and professions who have had the opportunity for observing the wonderful results which have always followed its use.

THE BEST EVIDENCE;

I have long used the medicine known as PERRY DAVIS' VEGETABLE PAIN KILLER in my family and would not on any account be without it. When Cholera was so epidemic here, I used no medicine of any sort but the Pain Killer, and although myself and several members of my family were attacked severely, I am happy to say that the Pain Killer was equal to every emergency. I consider I should not be doing my duty to the community much longer if I withheld my testimony. Cholera is now prevalent in this place, and the only remedy I should use. I have thoroughly tested it, and know it can be relied on.

E. E. BERGINSEN,
Galena, Illinois.

Messrs. PERRY DAVIS & SON:

I know you need no testimonial to convince you that your medicine is all that you claim for it, but I cannot restrain the impulse to communicate to you the fact that in my family it has truly done wonders. I administer it to my children (one eighteen months, and the other three years old) with perfect success. It regulates their bowels, and stops all diarrhœa. Myself and wife resort to it in all cases, both for internal and external use. I've used it in my family for five years, and *will not* be without it. Feeling myself under much obligation to you, in many times being relieved from pain, I am very truly yours,

L. F. MOORE,
Dingall, Dutchess Co., New York.

No family can afford to be without it, and its price brings it within the reach of all.

The use of one bottle will go further to convince you of its merits than columns of newspaper advertising. Try it, and you will never regret it.

Price 25c., 50c., and $1.00 per bottle. You can obtain it any drug store or from

PERRY DAVIS & SON, Proprietors, Providence, R. I.

KIDNEY-WORT

The Only Remedy THAT ACTS AT THE SAME TIME ON THE LIVER, THE BOWELS, and the KIDNEYS.

This combined action gives it wonderful power to cure all diseases.

Why Are We Sick?

Because we allow these great organs to become clogged or torpid, and poisonous humors are therefore forced to clean the blood that should be expelled naturally.

JAMES PYLE'S

PEARLINE

THE GREAT INVENTION FOR WASHING AND CLEANSING

In hard or soft water, WITHOUT SOAP, and without danger to the finest fabric.

SAVES TIME and LABOR AMAZINGLY, and is rapidly coming into general use. Sold by all Grocers; but beware of vile counterfeits. Its great success brings out dangerous imitations, but PEARLINE is the only safe article. Always bears the name of James Pyle, New York.

IS STRONGLY ENDORSED.

Rev. E. F. L. GAUSS, Galena, Ill., writes—"For over two years I have been a great sufferer from pains in the small of the back and region of the kidneys, which was followed by excruciating and at times almost insufferable. Doctoring brought no relief, and I was finally advised to go abroad and seek the climate of my youth. In Germany and Switzerland eminent physicians, after close examination, declared my sufferings were the disease of the kidneys of long standing, and could do me no good. I was, however, benefited by the climate and consequently returned. No sooner had I been back and exposed my paternal home than the old trouble grew again so intense as to make life a burden. A few months ago I came in possession of one of Day's Kidney Pads, put it on, and the effects were truly wonderful. The pains at once grew less and are now, after wearing the second Pad, entirely gone, and there can be no doubt that I am entirely cured, as I write this some weeks after its use, and am strong and look again the very picture of health. I write this perfectly voluntarily, and it is dictated only by truth and gratitude. Indeed, I consider the Day Kidney Pad a God-send to many and great benefactors of mankind. May all who suffer be helped as I have been is my earnest wish."

CHAS. DAVIS, 124 Myrtle Street, Boston: "I have used Dr. Day's Kidney Pad for a few months, and it has done me more good than any remedy I have ever tried."

LARIMORE & DEAN, Druggists, Niles, Mich.—"30 years in business."—DAY'S KIDNEY PAD is having a large sale and giving the general satisfaction than any remedy we ever sold.

CASPER SWITZEL, Policeman, Lancaster, Pa.—"I have been a great sufferer from kidney complaint, and after wearing your Pad 36 days I feel better than I have in 15 years."

Dr. A. J. STONER, Decatur, Ill.—"Your Pad is doing a great good here. It sells every day and gives universal satisfaction."

For sale by druggists, or sent by mail (free of postage) upon receipt of the price—Regular Pad, $1; Special Pad (extra size), $1.25; Children's, $1.00. Our book, "How I lost the wool," giving the history of this new discovery, and a large record of most remarkable cures, sent free. Write for it. Address,

DAY KIDNEY PAD CO., TOLEDO, O.

CAUTION. Owing to the many worthless Kidney Pads now seeking a sale on our reputation, we deem it necessary to affix our signature to each Pad. Ask for DAY'S KIDNEY PAD and take no other.

THE New Hampshire Gazette!

Established 1756.

The Gazette is published every Thursday and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of news, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or the neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

TO ADVERTISERS

THE N. H. GAZETTE

Presents an excellent opportunity for a weekly invitation to customers, at a reasonable rate, and all those who desire to reach patrons in Rockingham and York counties will find it an economical medium. THE GAZETTE is in many instances the only paper taken by families, and it is read to a large extent in localities whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

KNOW THYSELF.

The untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt this assertion should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE, or SELF-PRESERVATION, Exhausted vitality, nervous and physical debility, or vitality impaired by the errors of youth or too close application to business, may be restored and manhood regained.

Two hundredth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. Three hundred pages, more than 50 valuable prescriptions for all forms of prevailing disease, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in French cloth; price only $1, sent by mail post-paid.

The London Lancet says: "No person should be without this valuable book. The author is a noble benefactor."

The Tribune says: "The author has had unprecedented success in dealing with nervousness of all kinds and its affections, whether due to pernicious habits or inherited. He is a Nervo specialist, and therefore knows whereof he writes with such power and ability."

STONES IN THE KIDNEYS AND BLADDER Expelled--Long Suffering of one of TROY'S best People.

A LUCKY MAN.

Mr. James Andrews, No. 10 Marshal Street, Troy, N. Y., had suffered for several years from the formation of Stones in the Kidneys and Bladder, and had doctored with many of the best Physicians without receiving any benefit. He was induced to try Dr. Kennedy's "Favorite Remedy," and the following extract from Mr. Andrews' letter tells the whole story.

TROY, N. Y., April 8th, 1880.

Dr. D. Kennedy, Rondout, N. Y.:

DEAR SIR,—I received your letter to-day, and you are welcome to use any part of my letter as may seem best. Had I not used "Favorite Remedy" I should have been a great sufferer to this day. The stone that passed from me has a small piece broken off, but the large one I enclose so that you can see for yourself of what it is composed.

I am quite willing to testify under oath to all I have written in regard to my sickness and recovery, and would add to fully express my feelings of gratitude to you for my great relief from a disease so terrible a disease.

With a full grateful heart I remain yours most truly, JAMES ANDREWS.

CANTERBURY SHAKERS' LIFE-INVIGORATING SARSAPARILLA.

The Great Blood Purifier, Kidney Remedy and Mild Laxative.

WE, the undersigned, having used DR. CORBETT'S SHAKER SARSAPARILLA SYRUP in our practice, and having examined the formula by which it is prepared, would cheerfully recommend it to the community as the cheapest, safest, and most efficacious of all the preparations of Sarsaparilla in the market. Its highly concentrated state, (there being in a given amount of Syrup twice the amount of Vegetation Extract that any other contains,) the care, skill, and cleanliness of its manufacture, are sure guarantees of its purity and effect. T. R. CROSBY, M. D., W. D. BUCK, M. D., S. BUNTON, M. D., J. S. ELLIOT, M. D., JAMES BAHR, M. D., Z. COLBURN, M. D., M. G. J. TEWKSBURY, M. D., A. G. FRENCH, M. D., JOSIAH CROSBY, M. D., A. G. FRENCH, M. D., JOSIAH CROSBY, M. D., A. G. GALE, M. D., JAMES A. GREGG, M. D.

Those who have failed to be benefitted by other Sarsaparillas should not fail to make a single trial of the Blood Purifying and Life Invigorating Compound of Shaker Sarsaparilla, Dandelion, Yellow Dock, Mandrake, Black Cohosh, Garget, Indian Hemp, and the Berries of Juniper and Cubeb, combined with Iodide of Potassium made by the Society.

Prepared by the CANTERBURY SOCIETY OF SHAKERS, Shaker Village, N. H., and signed by Thos. Corbett, its inventor, sold everywhere. Inquire for Corbett's Shakers' Sarsaparilla.

A Remarkable Battle.

The savory musk melon, when in soft condition, is a missile of disastrous effect at short range. Pedestrians on Asylum street on a recent afternoon witnessed an amusing illustration of this. It appears that Rev. J. B. R. Walker had some trouble with a delinquent debtor who owed for a book on the installment plan. In the employ of Mr. A. M. Hurlbut, fruit dealer, on Asylum street, was a young Mr. Johnson, who had formerly been in Mr. Walker's office, and knew of the debtor's affair. Mr. Walker called upon him and requested that he interest himself in the matter. The young man consulted Mr. Hurlbut, who advised him that he was under no obligations to do so, as he had left Mr. Walker's office. The young man took this ground, and was firm in his refusal. Mr. Walker called at the fruit store, to prevail upon him to attend to the matter by threats against the boy—that if he refused to go he would have him arrested, etc.

Finally Mr. Hurlbut interfered in behalf of his employee, and Mr. Walker promptly turned upon him. The controversy assuming an unpleasant tone, Mr. Hurlbut ordered the reverend gentleman off the premises, whereupon Mr. Walker grasped him by the shoulder, tearing his coat, and also struck him a severe blow on the head with his umbrella. For a moment Mr. Hurlbut was so surprised that he hesitated to act, but his eye lighted on a basket of musk melons standing by the doorway. The weather had been warm, and they were a trifle over-ripe and soft. In an instant Mr. Walker received a nice, large, mushy one full in the face. Before he could clear his eyes another plastered his features with its odorous material. Mr. Hurlbut was in for it now, and as it wasn't a very good day for musk melons, he gave them to Mr. Walker as fast as he could deliver them.

The fusilade was thick and fast, and the crowd which had gathered enjoyed the fun. Mr. Walker stood his ground until he was musk melon from top to toe, and then turned away. The melons were not all exhausted, and Mr. Hurlbut dived down into the basket again and again, and evened up Mr. Walker's *tout ensemble*, so to speak, by plastering the gentleman's back as long as he was within range. Mr. Walker finally passing out, of range, and the shots going off target, the battle came to an end. The sympathies of the numerous spectators were evidently on the side of Mr. Hurlbut, and the melon-choly appearance of the belligerent divine was the cause of much mirth.—*Hartford Courant.*

How to Feed Bran.

Bran or ground feed is best fed to cows upon moistened cut hay; it being mixed with the hay it will be beaten together and raised and masticated. But if it is not fed with cut hay, it should be fed dry and in small quantity each time, for if fed alone it is not raised and re-masticated, but goes to the third and fourth stomachs. If fed in slop it is swallowed without mastication, and mixed with little or no saliva, but if fed dry it cannot be swallowed until it is mixed with saliva, and the saliva assists in digestion. When food is masticated, the act of rumination causes the saliva to flow and mix with the food. We have experimented and find that when fed alone dry ground feed is better digested than when fed wet.—*Live Stock Journal.*

Three Things.

A thoughtful man once said that two things settled the question of our happiness or misery, viz.: Our relations to our Creator and to women. There is one more—our relations with our own blood in our veins. Impure blood will produce tumors. It did so in the case of Mrs. Walter Hinckley, of Cotuit, Mass. The doctors could do nothing for her. A neighbor brought from Dr. David Kennedy, of Rondout, N. Y., a bottle of his "Favorite Remedy." She tried it and became better. "No woman," writes Mrs. H., "can afford to be without Favorite Remedy." It will cost you only one dollar to make the experiment. The good result is sure.

—"Can I give my son a college education at home?" asks a fond parent. Certainly. All you want is a base-ball guide, a racing shell and a package of cigarettes.—*Chicago Tribune.*

NO PUFFERY. Nothing can be more offensive to conscientious journalism than indiscriminate puffery. But it is a pleasure to speak candidly and correctly in praise of such a medicine as HUNT'S REMEDY for the Kidneys, Bladder, Liver, and Urinary Organs; a specific and positive cure that has been before the public for twenty-five years, and has rescued from suffering and the grave even the victims of Bright's Disease. The facts in regard to HUNT'S REMEDY, the Great Kidney and Liver Medicine, are attested by high authority.

Sold by all Druggists. Trial size, 75 cents.

—Rev. S. F. Smith, who wrote "My Country, 'Tis of Thee," is still living in Newton, Mass. He says he wrote the verses on a waste scrap of paper one dismal day in February, 1832, while at Andover seminary, and "had no intention nor ambition to create anything that should have a national reputation."

Why suffer with dyspepsia, or many ails caused by it, when D. R. V. G. is guaranteed by your own druggist to give satisfaction, or money refunded.

—The English is not a gallant language else it would never use the same word to denote one who tends on horses and a newly married man.

Cleansing, purifying, strengthening and nourishing beyond all others are Malt Bitters.

County Nominations.

The convention of the republicans to nominate county officers to be supported at the election on the 2d of November takes place at Exeter on Tuesday, Sept. 14th.

The republicans have a responsibility in the results of this convention, because they not only name the candidates but the incumbents of the offices, and it becomes the body to see that the best men are selected for the offices to be filled at the polls.

Pre-eminently the office of County Commissioner is important. The expenditure of thirty to forty thousand dollars annually calls for the exercise of good judgment, sound economy and practical sagacity, combined with integrity that knows no departure from duty. We learn that from various towns in the county requests have come to Portsmouth asking Mr. Newton Johnston to again serve as commissioner. Mr. Johnston has proved an able man in this position. All over the county, those who have had business with the commissioners attest to his faithful service and his careful regard for the interests of the tax-payers of the county. His re-election will be a positive advantage to the county. Mr. Burley of Epping is a man widely known as a prominent citizen of his town, and one of the most substantial men who has ever served upon the board. We are not aware whether he or Mr. Underhill will accept a nomination, as Portsmouth pays a liberal share of the county tax and by usage one of the commissioners is selected from our city, while our delegates usually support such other candidates as the best advised men from other sections of the county bring forward.

There seems to be no opposition to the renomination of Col. J. Horace Kent for the office of Sheriff. Indeed, from all parts of the county there appears to be but one sentiment, which concedes the acknowledged fitness of Mr. Kent for this position, and the general expectation is that he will be heartily renominated.

One of the new elective offices under the amended constitution is that of Register of Probate. The present incumbent is Woodbury M. Durgin, Esq., formerly of Northwood, known to many citizens of the county as a former county commissioner. He is a faithful and obliging officer, always at his post, and we hear no one else named in connection with his office.

The office of Register of Deeds is one in which our own citizens never like to see a change. The register is of more service as his experience in the office extends. Mr. George W. Weston is from Windham. Like Mr. Durgin, the discharge of his duties compels his present residence in Exeter. He is a man of agreeable ways, always courteous in his office, and is popular all over the county. We understand he will be a candidate for re-election. Mr. J. E. Holmes of Greenland we are told is also to be a candidate before the convention, and will perhaps have the support of a number of the delegates.

The County Solicitor, Walter C. Harriman, Esq., will we are informed be again before the convention for renomination, which according to the usage of the party he doubtless will receive. We have heard of no candidate in opposition to Mr. Harriman. The office is far more laborious than remunerative, and presents but few inducements to legal competitors.

For County Treasurer we believe there is but one voice, and that is for the faithful incumbent, Geo. E. Lane of Exeter. When we consider the heavy bond required and the very insignificant salary paid to the county treasurer, the wonder is that the office can be filled by so good a treasurer as Mr. Lane has proved. Probably were it not for the fact that Mr. Lane is treasurer of a savings bank he could hardly afford to fill the office, a position that heretofore has sought him, and in the selection for which the county has been fortunate in finding such an incumbent.

There may be new men who will come up for some of these positions before the convention, but however much in a political sense a thorough rotation might be regarded as expedient, it seems in the coming convention that experienced officials will be more likely to be selected than new and untried candidates.

The Vermont Election.

The significance of the great republican victory in Vermont on the 7th inst. is not found in the fact that the republicans had a large majority, for that was a certainty before a vote was cast, but in the fact that the republican majority is larger than at any state election for the past ten years, in spite of the desperate efforts of the democrats to reduce it, and their boasts that it would be done. The following table shows the vote for governor at the five previous elections:

Year	Rep.	Dem.	G. B. & scat.	Rep. Maj.
1870	33,367	12,958		21,309
1872	41,346	16,618		24,728
1874	35,582	13,257		22,325
1876	44,725	19,988	75	24,662
1878	37,381	17,347	3835	16,068

The average republican majority at these five elections was very nearly 21,500. The returns at hand from the last election, up to the present time, (Thursday night, the 9th inst.,) indicate a republican majority of very nearly 27,000, a gain in round numbers of 5,500 over the average majority of the five elections, of 10,500 over the majority at the election of 1878, and of 3500 over the majority in 1876, the year of the last presidential election.

The democratic papers are trying to make out that it was only a shower anyway. The Portsmouth *Times* of Wednesday evening had evidently heard something about it, for it contained the following: "Returns from the Vermont election indicate that the republicans hold the state with less than their average majority"—and that was all it had to say on the subject. The Manchester *Union* of Thursday, commenting on a pre-election statement of the Boston *Herald* that the republican majority must reach 23,838 or the result would be a victory for the democrats, said "It looks like a democratic victory." The Boston *Post* of Thursday, while giving the figures showing a republican majority of over 26,000 already assured, did a little "editing by headlines," as follows: "A substantial democratic victory," and "Returns from all but twenty-one towns show a small republican gain!" And the Boston *Globe* of Thursday beats them all by claiming through a correspondent a "net gain" of 1000 votes for the democrats, and editorially asserting that the republican gain "must be very small, if indeed they have held their own." The democratic "newspapers" evidently count with confidence on the ignorance of their readers.

Mrs. Byron Clark, of Easton, recently committed suicide by taking oil of cedar.

George Bickford, a farmer of Rochester, was killed on the afternoon of the 6th inst. by a vicious bull. Mr. Bickford leaves a wife and several children.

News and Notes.

Gen. McClellan is in the trenches again. He is now president of the underground railroad in New York city.

By a forest fire in Upton, province of Quebec, Sept. 6th, 450 persons were turned out of their homes and four men were burned to death.

The provincial synod of the Anglican church opened in Synod hall, Montreal, on the 8th inst. A deputation from sister churches in the United States, including the bishop of New Hampshire and Rev. Drs. Payne and Beardsley from New York, was present. The bishop of New Hampshire invited the synod to send a deputation to the general convention, which meets in New York next October.

Near Eufala, Alabama, Robert Magruder and Mr. McOliver were riding in a buggy when Magruder suddenly shot and killed McOliver, and then throwing himself on McOliver's body, shot and killed himself.

Rossario Meli, the Italian bandit, arrested in San Francisco charged with the murder of two English tourists in Italy, has been extradited, and started on the French steamer Canada from New York for Italy.

Edward J. Fanning, of Chelsea, Mass., twenty-one years of age, was instantly killed on the 8th inst. at Everett, near the Chelsea line, by being struck by a locomotive while attempting to cross the track of the Eastern railroad. Fanning was driving a tin-cart at the time, and the cart was demolished and the horse killed.

A fire broke out in the Manhattan market in New York on the night of the 7th inst., and damage to the amount of from $400,000 to $1,000,000 was done before it was put out.

Jerome B. Brown, aged seventy years, and his wife, aged fifty-two, of Adams, Mass., were instantly killed on a railroad crossing at North Adams on the 9th.

Neil Burgess, "the Widow Bedott," was married on the 8th inst. to a Miss Stoddart at San Francisco.

Thomas C. Burton, of Cambridgeport, Mass., was killed at Lynn on the 8th inst. by being run over by a large excursion wagon or barge. There were thirty-six persons in the barge, among them being Burton's wife, bound to the beach for a day's pleasure, and Burton slipped and fell beneath the wheels while attempting to climb to the the driver's seat, the vehicle being in motion at the time.

From 130 to 140 lives are now reported to have been lost by the Seaham colliery explosion.

Thirty thousand nail makers of East Worcestershire and Staffordshire, England, have struck against repeated reductions of wages, amounting to twenty per cent.

Naval Gazette.

The U. S. S. Constitution, from Halifax for New Bedford, arrived at Newport, R. I., on the 7th inst.

The training ship Portsmouth, Comdr. Crowninghield commanding, sailed from Newport, R. I., on the 7th inst., for Gardiner's bay, Long Island.

Political Notes.

It is interesting to remember, when the democrats are talking so loudly of the electoral commission as a "fraud," that one hundred and eighty-five democrats in Congress voted *for* the bill, and only sixteen against it. It was a democratic measure, and was opposed by a majority of the republicans in Congress. It was only after their own device resulted to their disadvantage that the democrats denounced it.

There was a disgraceful scene at a recent political meeting near Lynchburg, Va. Cabell, the present democratic congressman from that district, and a candidate for re-election, engaged in joint debate with Stowell, the readjuster candidate. The debate became excited and a riot followed, in the course of which a relation of Cabell's struck the readjuster candidate four times on the head with a large pistol, and seriously injured him.

The question of secession may have been settled by the war, but the question of nullification is not settled, and to-day the great problem to be solved by the American people is whether the national government shall retain to itself sufficient power to preserve its own life, or whether it shall humble itself at the feet of several states, and surrender the rights with which it is invested under the constitution.—*Secretary Thompson.*

—A new Chinese theatre was opened in Portland, Oregon, August 19th, and the dramatic critics were equal to the occasion. "The orchestra comprised a fiddle, two banjos, a machine that made a noise like two boys with sticks striking a paling fence going at full speed, and three pairs of cymbals—one pair as large as wash-tubs. The *ensemble* playing was a happy medium between the sounds of two pigs under a gate, and the melody of a boiler factory, with a slight preponderance of the latter. The most thrilling scene was when ten actors, dressed like Indians, fairies and turkey gobblers, tackled an old woman, threw her across a block, and sawed away at her neck for a minute with wooden swords, after which the woman turned a somersault and walked off the stage dead."

IT MAKES NO DRUNKARDS,

Breaks no Hearts, Excuses no Crimes.

Dr. David Kennedy's FAVORITE REMEDY is not a disguised enemy of the human race; where it cannot help, it does not harm. FAVORITE REMEDY is a combination of vegetable alteratives. It does not heat nor inflame the blood, but cools and purifies it. In all cases of Kidney troubles, Liver complaints, Constipation of the Bowels, and the delicate derangements which afflict women, the action of FAVORITE REMEDY is beyond praise. Thousands of grateful people voluntarily testify to this, in letters to Dr. Kennedy; and with a warmth and fullness of words which mere business documents and certificates never possess. It makes no drunkards—excuses no crimes—breaks no hearts. In its coming there is hope, and in its wings there is healing. We challenge a trial and are confident of the result. Dr. Kennedy would have it understood that, while he is engaged in the introduction of his medicine, "Favorite Remedy," he still continues the practice of his profession, but confines himself exclusively to *Office* practice. He treats all diseases of a chronic character, and performs all the minor and capital operations of surgery.

AROUND HOME.

Capt. Henry Erben, U. S. N., commanding the sloop-of-war St. Marys, is in town on a short visit.

Andrew H. Young is building a large block of dwelling houses on his land in Dover, on Summer street, near his residence, to be rented.

The Sawyer mansion, near the railroad station of Sawyer's Mills in Dover, has been enlarged by the addition of a tower placed upon one of its corners.

Surveys have been held on the schooner Mary S. Hontvet, and the libel case will be tried in the district court of the United States in this city, on the 21st inst. probably.

The partial alarm of fire on Thursday evening was caused by a brush fire in Kittery, a locomotive engineer sounding his whistle through a mistake as to the location of the fire.

George W. Guppy, Esq., formerly editor and proprietor of the Portsmouth *Daily Times* and the *States and Union*, which under his editorial management were the liveliest democratic papers in the state, has declared for Garfield and Arthur.

Mr. George A. Perkins, the ice man, lost a valuable team horse—one of the best animals in his stable—on the night of the 8th inst. The horse was sick only one day, and we are informed that the veterinary experts were puzzled to name the disease.

A meeting of the Garfield & Arthur club will be held at the club headquarters in Franklin hall on Monday evening next at eight o'clock, to act upon the report of the committee on permanent organization, and to attend to other business of importance.

Miss Edith S. Tufts, daughter of Dr. Charles A. Tufts, and Miss Minnie H. Young, daughter of Col. Andrew H. Young, have left Dover to enter Wellesley college. Miss Tufts was the valedictorienne, and Miss Young delivered the salutatory, at the graduation exercises of the class of '79, of the Dover high school.

A company of Hancock and English cadets is to be formed by the boys at the high school. There are already a good number of signatures on the roll, and these boys like their elders, mean business.—*Times.*

When girls and boys talk religion, love and politics in the schools, it is about time they should leave the schools for the active business of life.

The New Hampshire club had its monthly meeting and dinner at Young's hotel in Boston on Wednesday afternoon, the 8th inst. Among those present were Ex-Gov. Cheney, A. H. Young of Dover, Hon. Walter Aiken, Hon. B. A. Kimball of Concord, Hon. Emmons B. Philbrick of Rye, Frank A. McKeen, Esq., John C. French, Esq., Col. B. W. Hoyt and Col. A. Chandler.

Thomas Pearl, of Dover point, on the 4th inst. discovered that somebody had been raiding on the pork barrel in his cellar, and stolen about two hundred pounds of pork. Further search revealed the fact that books, albums, a horse blanket and other articles had left for parts unknown. Remembering that Canney, the "Pirate of the Piscataqua," had involuntarily left considerable of his plunder with City Marshal Entwistle, Mr. Pearl came to this city and identified a number of articles as having been stolen from his house.

A NEW DEPARTURE.

That stronghold of democracy, the Brewery Ward, in which Col. Sinclair and Josiah Morrison were elected to positions by the democratic delegate caucus held on Wednesday evening of this week, shows a disposition toward "economy and reform," as the Congress street flag reads, which comes from a quarter little expected.

In the vast establishments at the west end which do so much for the democracy, whose managers pay for the flags and promise the offices, we had supposed that ten hours would hardly pass for a day's work, but the well considered resolution of the caucus is probably the result of a plan to increase the pay of the laborers, who now work twelve hours, one gang by day and another by night. Indeed, while some of these delegates are devoutly singing praises in their places of worship upon the day of sacred rest, the work goes on.

But the time for a change has arrived. The democracy have resolved, — and when we say the democracy have resolved, we mean that there would not be such a resolution passed by a democratic caucus choosing Col. Sinclair a delegate to the state convention unless it had been well considered,—that ten hours should constitute a day's work!

Perhaps Mr. Jones, who rises with the lark and works early and late, may regard this as good democratic doctrine; but men like him have usually chosen to make their own contracts, independent of legislation, and we wager a year's subscription against a barrel of XX that if such an enactment passes there will be about as much attention paid to it at the breweries at the west end as is paid to the law prohibiting the sale of ardent spirits by those who do not approve of the enactment.

"MAN PROPOSES," ETC.

A prominent merchant doing business on Market street recently approached a veteran of the Boys in Blue with an urgent request that he should join the Hancock veterans, promising as a bounty "sufficient cloth to make a sail for his boat." Whether the "cloth" was to be of first quality duck, or remnant cotton at six and one-quarter cents per yard, has not transpired. But at all events the merchant was as unsuccessful in this transaction as he was in the distribution of fire-arms to oppose the draft during the war. And so the work goes bravely on. Let us see! was it fifty-one recruits? This would have made fifty-two. "Rah for Hendricks and *Injun!*" Z.

WOULD NOT BET.

A prominent gentleman in democratic politics in Maine was in town on Thursday, talking about the election. He thought Hancock might be elected; at any rate, Frank Jones would be chosen the next governor of New Hampshire. "Do you wish to make ten dollars by an even bet of that?" enquired a Garfield man who has heretofore been identified with the democrats. "No," said the Maine man; "perhaps if Mr. Jones is nominated he may not care to put forth efforts to get elected." The man had heard from the blue-ribbon democrats.

DEMOCRATIC DELEGATES.

The democrats of ward four held their caucus Wednesday evening, and chose the following as delegates:

State convention—Daniel Marcy, James W. Lefavour;

Senatorial — Alonzo K W. Green, George W. Watkins;

Congressional — Richard D. Smart, George S. Leach;

Councillor — Benjamin F. Mugridge, Howell C. Russell;

County—Joseph R. Holmes, Albert B. Trefethen.

POLICE COURT.

THURSDAY, Sept. 9; *Batchelder, J.*

Abby Dwyer, for violation of Sunday ordinance, (continued case,) was fined $5, costs $6.90. Paid.

Mary Dwyer, for an assault on Nellie McGill, (continued case,) was fined $3, without costs. Paid. On a complaint for brawl and tumult Mary Dwyer was discharged.

PORTSMOUTH CAVALRY.

At a meeting of the Portsmouth Cavalry, held on Tuesday of this week, the following non-commissioned officers were appointed:

Sergeants—1st, Floron Barri; 2d, Stoner H. Gates; 3d, George A. Perkins; 4th, C. Morris Tredick; 5th, Henry H. Ham, Jr.; 6th, George W. Berry.

Corporals—1st, Freeman H. Marden; 2d, John P. Tibbetts; 3d, Herbert W. Coffin; 4th, Hanson W. Seavey.

Quartermaster-sergeant, John S. Perry.

WRECK.

The schooner Eddie F. Treat, of Bath, Me., Capt. George F. Hodgdon, bound from Bangor for Boston with a cargo of wood and slate, while endeavoring to make this harbor at about midnight on Wednesday, the 8th inst., misstayed when off Frost's point, Rye, when too near the shore to ware ship, and was obliged to let go both anchors to keep off the beach. The sea was very high at the time, and the wind blowing strongly with heavy flaws, but the schooner hung on until Thursday morning, when Capt. Hodgdon succeeded in effecting a landing, and came up to town to get a tow-boat, the crew remaining ashore near the vessel. At about ten o'clock in the forenoon one of the chains parted; the other still held, but as the tide went down the doomed schooner struck heavily on the bottom, bilged, and was soon torn to pieces by the sea, becoming with her cargo probably a total loss. The Eddie F. Treat registered eighty-six tons, and the captain thinks was not insured, though the cargo probably was.

UNCLE TOM'S CABIN.

On Wednesday evening next, at Music hall, Anthony & Ellis' Ideal company will present Uncle Tom's Cabin, a play which had a wondrous run thirty years ago all through the northern states, and which still "draws" better than most of the modern dramas. Of this entertainment the Pittsburg, Pa., *Leader* says:

We can heartily commend Anthony & Ellis' Ideal Uncle Tom's Cabin as one of the very best moral entertainments that has ever been presented to this community. There is not a word, or gesture, or picture, or sentiment that is not pure, chaste, elevating and satisfying. It is a grand picture of moral beauty and vivid portrayal of virtue among the lowly and oppressed. Saint or sinner cannot help to be improved by witnessing its performance, and gazing on its scenes of bewildering splendor and enchantment.

YORK COUNTY AFFAIRS.

Leander Perkins, of Wells, a few days ago captured in a brook in that town a turtle weighing thirty pounds.

The schooner Samuel McManemy, Reeves master, from Philadelphia with 434 tons of Cumberland coal for the department of construction and repair at the navy yard, is discharging at the coal-wharf on Seavey's island.

The attendance at the democratic mass meeting, at York beach on the 8th inst., was estimated at 5,000. Ephraim C. Spinney, Esq., of Kittery, presided, with T. J. Driscoll of Berwick as vice president. Speeches were made by Ex-Gov. Garcelon, Col. Anderson and others.

Hon. Daniel W. Lord died at Malden, Mass., recently, at the age of eighty years. He was a native of Kennebunkport, and lived there a large part of his life, being for many years a large ship owner and builder. He was an active whig politician in the Harrison times, and was a member of the council of Gov. Kent, who was made famous by the style in which Maine "went" for him according to the doggerel of the day.

Liquid Fuel.

A novel kind of fuel, which, under certain circumstances, will supersede coal for use in steamships and locomotives, has been tried with great success in the Russian steamer Czarewitch, the swiftest mail-boat on the Caspian sea. This magazine of dormant energy, as we may term raw fuel, is simply the fluid refuse of petroleum oil, and, after being blown into a spray by means of a jet of steam from the boiler of the engine, it is ignited inside the furnace, and burns with a roaring sheet of flame. Such a mode of combustion has several prominent advantages over the usual coal fire. It requires no stoking, and the flame can be manipulated like a jet of gas, and the steam pressure easily kept up to a required degree. The fuel is a valuable property for fast cruisers in time of war, and for blockade runners. Moreover, there are no ashes, and the smoke is free from sulphur.—*London Globe.*

—Market report for travellers—Trunks are heavy and are going down with a crash—at all the railway stations.

—Some Philadelphians named their mine the "Scooper," and the name proved prophetic. They have been scooped.

COUGHS.—"*Brown's Bronchial Troches*" are used with advantage to alleviate Coughs, Sore Throat, Hoarseness and Bronchial Affections. For thirty years these Troches have been in use, with annually increasing favor. They are not new and untried, but, having been tested by wide and constant use for nearly an entire generation, they have attained well-merited rank among the few staple remedies of the age.

THE THROAT.—"*Brown's Bronchial Troches*" act directly on the organs of the voice. They have an extraordinary effect in all disorders of the Throat and Larynx, restoring a healthy tone when relaxed, either from cold or over-exertion of the voice, and produce a clear and distinct enunciation. *Speakers and Singers* find the Troches useful.

A COUGH, COLD, CATARRH OR SORE THROAT requires immediate attention, as neglect often times results in some incurable Lung Disease. "*Brown's Bronchial Troches*" will almost invariably give relief. Imitations are offered for sale, many of which are injurious. The genuine "*Brown's Bronchial Troches*" are sold *only in boxes.* Tu,th&f,6o

The Women at Home.

Our mothers, wives and daughters! Home is not home at all without them. Yet they may die and leave the house silent and sad any day. Husbands and fathers, a word in your ears. The ladies are not always to blame when they are low-spirited and "cross." They are sick. Don't you be fools or brutes and think they'll come out all right if you are only "firm" and mean yourselves. Put a bottle of Dr. David Kennedy's Favorite Remedy on the shelf, and tell them to use it. The color will come back to their cheeks and the laugh to their lips. Go and get it at once down town, or mail one dollar to the Doctor's address at Rondout, N. Y.

Rowen or Second Crop.

It is better to cut the second crop of grass as early as the first part of September, if possible. If left until the latter part of the month the days are shorter, the sun not as hot, the nights longer with heavy dews, which prevent the early opening of the hay the second or third day. Then the second crop ought to be taken off in ample season to allow the grass to spring up sufficiently to protect the roots from the effects of the winter. We like the second crop hay especially for cows giving milk, and when the land is kept in good condition there is no difficulty in getting a fair crop. It should be well dried, or it will mold and become unfit for cattle. It is doubtful if it pays to cut the second crop of grass unless it will yield nearly, or quite, a ton to the acre. A man remarked in our hearing to-day, that his second is crop was better than his first. This may be true this year, but it ought not to be generally. By top dressing grass lands one may be pretty sure to get a second crop that will pay for cutting. There is a prejudice in the minds of some against rowen for cows giving milk, but we are inclined to regard it as valuable. If any one knows of any good reason why second crop grass is not good for milch cows, will he please give it to us.—*Congregationalist.*

Putting up Tomatoes.

We have each year a year a quantity of little yellow plum and red cherry tomatoes, which I find are excellent pickled. I stick a clove into every tomato, and put them into a jar which I fill with cold cider vinegar. I have some now which I have kept over, that are as nice as they were last winter. We like them best with baked beans. Large ripe tomatoes can be used in the same way, but are not quite so nice.

Preserved Tomatoes.—Tomatoes when peeled, (the skin loosened by a hot water bath,) and stewed with three-fourths their weight in sugar and a few sliced lemons, make nice preserves. This sauce is especially for those who are unable to obtain a good supply of fruit for winter use.

Tomato Figs.—Procure a quantity of small ripe tomatoes; peel and slightly cook them; spread on dishes and flatten a little, and sprinkle with white or light brown sugar. When dry enough to keep well, but not hard and dry, pack in small boxes with sugar between each layer. They are said to be very nice, and can not be distinguished from real figs.

Canned Tomatoes.—It is sometimes advisable to preserve the tomatoes whole for canning. To do this it is necessary to peel and put them into the oven in a basin or pan. No stirring is needed, and they can be placed in the cans with a spoon and be covered with their own juice. Grapes treated in the same manner will also retain their shape, though I care very little for canned grapes.—*Gussie Thomas, in Country Gentleman.*

—The difference between a fair in the south and in the north, is that in the former racing is the principal attraction, and in the latter nobody thinks of it, and all wonder how it happens that there is any, and they happened at the stand just as it began.

—A circus manager wanted a new name for his show, and a sophomore collegian suggested "monohippic aggregation" as good, and the circus man had got three towns billed before he was informed that "monohippic" meant "one-horse."—*Boston Post.*

No Proof More Convincing

Could be produced to satisfy us that there is true merit in Day's Kidney Pad than the fact that it is being imitated. Already several worthless kidney pads are seeking a sale on the good reputation of this original and excellent pad.

—The son of a clergyman was delivering a college valedictory, when, in pulling out his handkerchief, he pulled out a pack of cards. "Hulloa," he exclaimed, "I've got on father's coat."

Mothers, do not let your darlings suffer with the whooping cough, while you have a remedy so near at hand. Use Dr. Bull's Cough Syrup, and the little sufferer will soon find relief. Price 25 cents.

TRADE MARK DAY'S Kidney PAD

IS STRONGLY ENDORSED.

Rev. E. F. L. GAUSS, Galena, Ill., writes—"For over ten years I had been a great sufferer from pains in the small of the back and region of the kidneys, which was most excruciating and at times almost insufferable. Doctoring brought no relief, and I was finally advised to go abroad and seek the climate of my youth. In Germany and Switzerland eminent physicians, after close examination, declared my sufferings to arise from disease of the Kidneys, of long standing, and could do me no good. I was, however, benefited by the climate and consequently returned. No sooner had I been back and resumed my pastoral work, when the old trouble grew again so intense as to make life a burden. A few months ago I came in possession of one of Day's Kidney Pads, put it on, and the effects were truly wonderful. The pains at once grew less and are now, after wearing the second Pad, entirely gone, and there can be no doubt that I am entirely cured, as I write this some weeks after its use, and am strong and look again the very picture of health. I write this perfectly voluntarily, and it is dictated only by truth and gratitude. Indeed, I consider the Day Kidney Pad Co., God's agents and great benefactors of mankind. May all the suffering be helped as I have been is my earnest wish."

CHAS. DAVIS, 124 Myrtle Street, Boston: "I have been using DAY'S KIDNEY PAD thirty days, and it has done me more good than any medicine I have ever tried."

LAMBORN & DEAN, Druggists, Niles, Mich.—"30 years in business.—"DAY'S KIDNEY PAD is having a large sale and gives better general satisfaction than any remedy we ever sold."

CASPER WEITZEL, Policeman, Lancaster, Pa.—"I have been a great sufferer from Kidney complaint, and after using your Pad, I say I feel better than I have in 15 years."

DR. A. J. STONER, Drugstore, Ill.—"Your Pad is doing great good here. It sells every day and gives universal satisfaction."

For sale by drug stores, or sent by mail (free of postage) on receipt of the price—Regular, Pad, $2.00; Special Pad (extra size), $3.00; Children's, $1.50. Our book, "How a Life was Saved," giving the history of this new discovery, and a large record of most remarkable cures, sent free. Write for it. Address,

DAY KIDNEY PAD CO., TOLEDO, O.

CAUTION. Owing to the many worthless Kidney Pads now seeking a sale on our reputation, we deem it due the afflicted to warn them, not to accept any Kidney Pad as DAY'S KIDNEY PAD and take no other.

The untold miseries that result from indiscretions in early life may be alleviated and cured. Those who doubt this assertion should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE; or SELF-PRESERVATION. Exhausted vitality, nervous and physical debility, or vitality impaired by the errors of youth or too close application to business, may be restored and manhood regained.

Two hundredth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. Three hundred pages, more than 50 valuable prescriptions for all forms of prevailing disease, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in French cloth; price only $1, sent by mail post-paid.

The London Lancet says: "No person should be without this valuable book. The author is a noble benefactor."

The Tribune says: "The author has had unprecedented success in dealing with nervousness of all kinds and its affections, whether due to personal habits or inherited. He is a Nervo specialist, and therefore knows whereof he writes with such power and ability."

STONES IN THE KIDNEYS

and BLADDER Expelled--Long Suffering of one of TROY'S best People.

A LUCKY MAN.

Mr. James Andrews, of No. 10 Marshal Street, Troy, N. Y., had suffered for several years from the formation of Stones in the Kidneys and Bladder, and had doctored with many of the best physicians without receiving any benefit. He was induced to try Dr. Kennedy's "Favorite Remedy," and the following extract from Mr. Andrews' letter tells the whole story.

TROY, N. Y., April 8th, 1880.

Dr. D. Kennedy, Rondout, N. Y.:

DEAR SIR,—I received your letter to-day, and you are welcome to use my name in any way it may seem best. Had I not used the "Favorite Remedy" I should have been a great sufferer to this day. The stone that passed from me has a small piece broken off, but the large one I enclose so that you can see for yourself or what it is composed.

I am quite willing to testify under oath to all I have written in regard to my sickness and recovery, and would add to full express my feelings of gratitude to you for my great deliverance from so terrible a disease.

With a real grateful heart I remain yours most respectfully, JAMES ANDREWS. sep11

The Two Miss Amberleys.

Within the vine-clad window two charming girls, in the severely simple attire that fashion prescribes for traveling. Without a long, well-knit, masculine figure lies perdu in the grass, face invisible, being covered by the owner's hat. To him there saunters another gentleman, dark, stylish, wide-awake.

"Hullo, Kingston! Wake up; got something to tell you." And he unkindly draws away the sheltering hat, disclosing a handsome, angry face.

"Confound you! What makes you pester a fellow so in this warm weather?" says the victim sitting up indiscomfortably.

"Did I spoil your nap? Have a cigar, instead. I wanted to tell you of the new arrival, Aggie Amberley, the great heiress, with her cousin and companion. There's a chance for you to get a rich wife, my boy!"

"Don't want one. Hang this cigar, it don't draw! A poor man like myself can't afford to marry a rich wife."

"I should say that he couldn't afford to marry anything else," laughed the other, "and Aggie Amberley is a beauty as well as an heiress. You don't often meet such a prize!"

"You had better make up to her yourself," said Kingston, dryly.

"Perhaps I shall, and leave you the cousin, who is also a beauty in another style. Hanged if I'll tell you which is which, though! And you'll never know from the manner of our hosts towards them. There are no worshippers of the golden calf in this house."

"Humph!" said Kingston, and smoked a few minutes in silence; then he broke out: "The man that marries a woman for her money is the meanest creature that crawls on this earth! You have money enough of your own, Preston, for your motives to be above suspicion, but as for me—by Jove! I would not marry a rich woman if I loved her ever so well! I've no fancy for the name of fortune-hunter."

"Bravo, Don Quixote!" laughed his friend. "Now, suppose we go and take a swim. You need some cooling off."

They strolled away unconscious of fair eyes watching them.

Then said one young lady to the other:

"If that fellow does not marry a rich woman, my name is not Aggie Amberley!"

A few days later Mrs. Courtney and her guests were grouped on the lawn—the ladies with some dainty needlework, Mr. Preston reading aloud to them; Harry Kingston in his favorite position, flat on his back in the grass, working at a certain problem which had been troubling him for some days—Which was Aggie Amberley? That tall, stylish blonde in lilac silk, with pond lilies on her bosom, or this graceful, dark-eyed fairy in fluttering white muslin?

"The fair-haired one for money! She looks more like a fashionable beauty, as Jim Preston said the heiress was. Not that charming little gypsy. Providence would never bestow a fortune upon a girl with such a bewitching face. It would be too much partiality. But she doesn't look much like a poor relation either. I'd give a good deal to hear one of those young ladies call the other by her Christian name."

Said the fair Miss Amberley: "Aggie, have you a needleful of violet silk."

Said the dark Miss Amberley: "No, Aggie; but I can get you some upstairs."

Harry fairly gasped.

Later he learned that the blonde was called Agnes and the brunette Agatha.

Then he began to notice that Miss Agatha dressed more simply than her cousin and that she was always ready to offer small services which the other accepted calmly. And one day the young lady expressed it as her opinion that riches must be a great burden, although, to be sure, Cousin Aggie had such a mind for finances! But for her part, she hoped no one would leave her a fortune.

This was said in a confidential way, with her great eyes looking earnestly into his.

"And what eyes the little thing has," thought Kingston, "they look a fellow's heart right out of his body."

After that Kingston grew a good deal more happy solved. Another had taken its place. How much money was necessary for the luxury of marriage? Jim Preston was courting Miss Agnes Amberley without any attempt at disguise. Perhaps his example was a little bit infectious. At all events Kingston and Miss Agatha were thrown much together, and their confidential talks increased in number and interest. On the last day of Kingston's visit he took a farewell stroll with Agatha. They stopped on a little rustic bridge thrown over a hollow. They were telling each other their first impressions.

"So you thought my cousin looked as if she were born in the purple. And pray what did you think of me?"

"You'll be angry."

"Oh, no, I won't."

"Well, then, I said to myself, 'What a dear little gipsy.'"

Of course Miss Amberley was not angry. She had said she would not be, but she struck her hand hard against the rough wood-work.

"Take care, you will hurt yourself. And now, may I ask your first opinion of me?"

"I thought—that is, I said to myself—'There is a man I shall just enjoy making a fool of,'" she answered, spitefully. "Oh!"

She had run a great splinter into her hand. It was very painful. Harry worked forgivingly to get it out. Just as he succeeded, Miss Amberley turned alarmingly white and murmured:

"Don't be frightened—how foolish I am—I feel like—" and but for his arm she would have fallen.

Kingston was too much bewildered to do anything but hold her tight and cover the wounded hand with kisses.

News and Notes.

A San Francisco despatch says: "Capt. Smith, of the steamer Josephine, just arrived from Skagil, reports that while ascending that river on Tuesday last, when opposite Mt. Baker, he observed the mountain in a state of violent eruption. Flames were streaming up from the summit, and a large volume of smoke ascending."

A despatch from Gen. Terry, dated St. Paul, Minn., Sept. 9th, says: "The commanding officer at Fort Keough reports that Big Road and 200 Sioux Indians surrendered at that post to-day. The general opinion at the headquarters is that the Indians, being tired of roaming about and fighting, will shortly surrender, and Sitting Bull will find himself without any followers."

Hon. Marshall O. Roberts died at Saratoga, N. Y., on Saturday, at the age of sixty-six years.

Deputy United States Marshal Kyle has arrived at Fort Smith, Ark., with nine prisoners from Okelona. Among them are two Seminoles charged with murdering two white men, Bateman and Davis, in the Chickasaw country, two hundred miles west, in November, 1878. There were six full-blood Seminoles engaged in the murder. The deed was deliberate. Bateman being shot off his horse, and Davis met the same fate six miles from where Bateman was killed. The murderers had no rest from the marshals since that moment. One, Billy Bowlegs, a son of the famous Florida Seminole war chief, shot himself through the heart; another was killed in a feud, and but two of the six are left. They live in a full-blood Seminole settlement, and the officers will soon have them. The murderers found only $13 on their victims, which they divided.

Mrs. Cynthia Sargeant, a highly respected widow lady, seventy years of age, living alone at Fort Ann, N. Y., was brutally murdered last Thursday night at her home. There was nothing disturbed, to indicate that the crime was committed for robbery.

A despatch from Port Huron, Mich., states that "Dr." John Buchanan, the bogus medical diploma dealer, who it was thought committed suicide by drowning some weeks ago, was arrested last Thursday night at St. Clair, Mich., and will be taken to Philadelphia.

At Atlatta, Indian Territory, on the 10th inst., an Indian named Dixon was executed for the murder of Mrs. Washington a year ago. A spot was made on the prisoner's bare breast, and Abner Woods, (the prisoner's cousin), who was chosen executioner, fired the ball true to the mark. Dixon's head fell forward on his breast, and he expired without a struggle.

At Port Henry, N. Y., in an ore bed, a petrified fish, fifteen feet long and three feet thick at the largest part, was recently found in the shaft about thirty feet below the service, and twenty feet deep in the solid rock.

The *Cape Ann Bulletin*, of Gloucester, Mass., tells the following: "The captain and owner of a small schooner now at Portland has had hard luck. He has fished on Georges seventeen years, and last spring concluded he would come to this city, sell his little home, pay off the mortgage, and with the proceeds go to Boothbay, and live quietly. He got as far as Portland, and had a new dory stolen from his vessel. After he arrived in this city he accidentally lost his right index finger. He lifted the mortgage by selling the house, and had $233.50 left. This money he put in an envelope, and the envelope in an inside pocket. He set sail for Boothbay with his family in his vessel, and on the passage, when off Cape Elizabeth, leaned over the side of the vessel to pull in a rope. As he leaned over, the envelope fell from his pocket into the water, and as $1.50 of the money was in silver the whole sank before his eyes."

A western paper says "Gen. Grant will spend the coming winter in New York city and Washington. During his sojourn at the capital he will be the guest of General Beal. There is a report that Grant's particular business at Washington is to recover some diamonds sent to the White House during Grant's administration by a high Prince of Japan as a present to Mrs. Grant, which were never received by her, but were appropriated by one of the general's private secretaries or somebody else, and disposed of for $5,000. It is said that Grant never knew that the diamonds had been sent until recently, after the donor had made inquires about them, being surprised because he had received no acknowledgment. They are still held by the person (probably a certain pawnbroker) who bought them of the thief, and he is willing to surrender them on receiving his advance and $1,500 additional, for his care of them, and secrecy. It is probable that Grant will get the diamonds by a compromise with the thief. The offense legally is but a breach of trust in the District of Columbia, and that is not criminal."

A battery gun was tested at New Haven, Thursday, that fired 12,828 shots in one minute. It was invented by Myron Colony. The workmanship of the new gun is rather intricate, but those who attended the public exhibition seemed convinced that the weapon could do all that was claimed for it.

There is an actress travelling in the English provinces who claims to be a daughter of Edwin Forrest.

Sara Bernhardt has bought 300 pairs of gloves for her American tour. She will also bring along a pair of her own kids.

It is announced from London that the official inspector in his report puts the number of dead by the Seaham coal mine disaster at 165. The explosion made seventy-six widows and 284 orphans. Thirty corpses were recovered up to Friday evening.

A stream of lava is running from Mount Vesuvius, near the new railway, to the crater. Some imprudent visitors have been injured.

A girl was found nailed to a plank, so that she could move neither hands nor feet, and floating on the Yangtse river, in China. Beside her was the head of a Buddhist priest and some coins. An inscription said: "This money is provided for her coffin when she is dead." She belonged to a wealthy family, and her two brothers, petty mandarins, used this cruel treatment because she married the priest whose head was on the plank with her.

Victor Piollet, a democrat who was almost elected state treasurer of Pennsylvania in 1875, is reported to have said lately: "We are going into Philadelphia this fall with a majority of twenty thousand for Hancock and English, and we will carry the city or burn the d—d town. We will not vote as we shoot, but we will shoot as we vote. The city belongs to us and should give us a democratic majority unless we are defrauded out of it, and if they do that, I go in for shooting every republican son-of-a-gun."

Decency Towards Horses.

A horse cannot be screamed at and cursed, without becoming less valuable in every particular. To reach the highest degree of value the animal should be perfectly gentle and always reliable, but if it expects every moment that it is in the harness to be "jawed" at and struck, it will be in a constant state of nervousness, and in its excitement as liable through fear to do something which is not expected, as to go along doing what you started it to do. It is possible to train a horse to be governed by the word of mouth, almost as completely as it is to train a child, and in such training the horse reaches its highest value. When a horse is soothed by the gentle words of his driver—and we have seen him calmed down from great excitement by no other means—it may be very fairly concluded that he is a valuable animal for all practical purposes, and it may be certainly concluded that the man who has such power over him, is a humane man and a sensible one. But all this simply means that the man must secure the animal's confidence. Only in exceptional instances is a horse stubborn or vicious. If he understands his surroundings, and what is required of him, he gives no trouble. As almost every reader must know, if the animal when frightened can be brought up to the object he will become calm. The reason is that he understands that there is nothing to fear. So he must be taught to have confidence in the man who handles him, and then this powerful animal, which usually no man can handle, if it were disposed to be vicious, will give no trouble. The very best rule, therefore, which we would lay down for the management of the horse, is gentleness and good sense on the part of the driver. Bad drivers make bad horses, usually.—*Western Rural.*

The Women at Home.

Our mothers, wives and daughters! Home is not home at all without them. Yet they may die and leave the house silent and sad any day. Husbands and fathers, a word in your ears. The ladies are not always to blame when they are low-spirited and "cross." They are sick. Don't you be fools or brutes and think they'll come out all right if you are only "firm" and mean yourselves. Put a bottle of Dr. David Kennedy's Favorite Remedy on the shelf, and tell them to use it. The color will come back to their cheeks and the laugh to their lips. Go and get it at once down town, or mail one dollar to the Doctor's address at Rondout, N. Y.

Hydrophobia!

Dogs transmit it through their teeth. Teeth should be kept free from virus. Use SOZODONT, keep the human teeth clean, and no damage can be done by the man who says to his girl, "I feel like eating you up, dearest."

THE TOLEDO, DELPHOS & BURLINGTON Railroad system embraces 311 miles of road, running from Toledo, Ohio, southwest to Frankfort, Ind., and south to Dayton, Ohio. It has excellent terminal facilities in the cities of Toledo and Dayton and runs through a rich agricultural country, where the local business is more than sufficient to pay interest on its bonds. We understand that a large amount of the first mortgage six per cent bonds of this road were sold a few days ago in Boston to Geo. Wm. Ballou & Co., bankers, and that they will offer them at 92½ and accrued interest to investors, reserving the right to advance the price later.

Thirty Years' Experience of an Old Nurse.

Mrs. Winslow's Soothing Syrup is the prescription of one of the best Female Physicians and Nurses in the United States, and has been used for thirty years with never failing safety and success by millions of mothers and children, from the feeble infant of one week old to the adult. It corrects acidity of the stomach, relieves wind colic, regulates the bowels, and gives rest, health and comfort to mother and child. We believe it the Best and Surest Remedy in the world, in all causes of Dysentery and Diarrhoea in Children, whether it arises from teething or from any other causes. Full directions for using will accompany each bottle. None genuine unless the fac-simile of Curtis & Perkins is on the outside wrapper. Sold by all Medicine Dealers. 25 cents a bottle. 2

IT MAKES NO DRUNKARDS,

Breaks no Hearts, Excuses no Crimes.

Dr. David Kennedy's FAVORITE REMEDY is not a disguised enemy of the human race; where it cannot help, it does not harm. FAVORITE REMEDY is a combination of vegetable alteratives. It does not heat nor inflame the blood, but cools and purifies it. In all cases of Kidney troubles, Liver complaints, Constipation of the Bowels, and the delicate derangements which afflict women, the action of FAVORITE REMEDY is beyond praise. Thousands of grateful people voluntarily testify to this, in letters to Dr. Kennedy; and with a warmth and fullness of words which more business documents and certificates never possess. It makes no drunkards—excuses no crimes—breaks no hearts. In its coming there is hope, and in its wings there is healing. We challenge a trial and are confident of the result. Dr. Kennedy would have it understood that, while he is engaged in the introduction of his medicine, "Favorite Remedy," he still continues the practice of his profession, but confines himself exclusively to *Office* practice. He treats all diseases of a chronic character, and performs all the minor and capital operations of surgery.

AROUND HOME.

Paymaster General George F. Cutter, chief of the bureau of provisions and clothing of the navy, is in town.

One thousand dollars in Portsmouth city six per cent bonds were sold at auction in Boston on Saturday, at 110.

Mr. John F. Shillaber is making preparations for building a shop on the lot at the corder of Bow and Linden streets.

Mr. Henry F. Wendell on Saturday sold at auction the house and lot No. 3 Jefferson street, John Dixon, Esq., being the purchaser. The price paid was $1270.

It was the schooner Union which broke adrift at Rye in the gale of Friday, and was wrecked on the beach, and not the yacht Una, as first reported. The Una was in Spruce Creek, Saturday morning, all right.

The steamer Appledore has ceased running to the Shoals, her trip on Saturday winding up "the season" for her. She brought in about thirty passengers, and left two boarders at the Oceanic hotel and none at the Appledore.

The delegates elected from Greenland to the democratic state convention at Concord, on the 15th inst., it is said will present the name of John S. H Frink, Esq., of that town, as a candidate for presidential elector at large.

The seaside visitors who left this region before last week lost the fine spectacle of aquatic gambols which the September storm afforded. All along the coast the seashore had crowds of spectators to witness the magnificent sight.

The Portsmouth City Guards, Co. C, 1st Reg't N. H. N. G., Capt. James E. Ford, leave this city by the evening train over the Portsmouth & Concord railroad to-day, for the camp ground at Manchester. Their armory will be open during the day.

A meeting of the Garfield & Arthur club will be held at the club headquarters in Franklin hall this (Monday) evening at eight o'clock, to act upon the report of the committee on permanent organization, and to attend to other business of importance.

The officers of the marine corps stationed at the navy yard gave a brilliant party on Saturday evening. The arcade in front of the barracks was tastefully dressed with flags, and the grounds were hung with Chinese lanterns, the whole presenting a beautiful appearance. It was one of the most agreeably enjoyed affairs of the season.

The steamer Appledore, which was compelled to omit making her regular trip to the Shoals on Friday on account of the heavy sea, went out on Saturday, and in the afternoon towed in the landing stage and brow. The sea, which was still running quite high Saturday morning, went down before noon, and ere nightfall the surface of the ocean was smoother than it usually is at this time of the year.

A meeting of prominent members of the democratic national committee, in New York last week, was attended by A. W. Sulloway of this state, and B. B. Smalley of Vermont. Howe Call, Esq., of New Hampshire, according to the *World*, was present and gave a hopeful account of the democratic prospects, and is assigned to speak in some of the leading strongholds during the campaign. Mr. Call has now such a finger in the democratic pie that if there should be hereafter any plums he will have a word to say as to whom they shall fall.

The schooner Horatio Nichols, of Exeter, Sturgis master, which has been twice wrecked in trying to get up river to that town, arrived at this port on Monday of last week with a full cargo of about three hundred and fifty tons of coal for the Exeter Coal Co. We had begun to anticipate that this schooner would furnish us with as many items as the brig Clara J. Adams did when she was wrecked on Beacon ledge, or the schooner Ceres when she sank alongside of Portsmouth bridge; but on Friday she was at the Portsmouth Gas Co.'s wharf, discharging a portion of her cargo, so she probably will not get wrecked again this trip.

Bouquets of flowers were exhibited for sale on Market square, on Sunday last.

The station house on Sunday was noticeable for its reception of parties for police court examination.

Schooner Mary E. Caswell arrived here on Sunday from Boston, where she had carried seventy barrels of mackerel.

Hon. Thomas B. Reed, who is to be re-elected representative to Congress from the first district of Maine, was in town on Sunday.

Several excursion parties from out of town were in the city on Sunday, and general recreation seemed to be the order of the day.

The schooner Free Wind, Capt. Frisbee, has been chartered, and sailed from Portland for the Kennebec river to load ice for New York.

The schooner yacht Maggie, from Ellsworth, Me., arrived at this port on Sunday forenoon, and her odd model and neat trim attracted much attention.

Schooner Addie & Hattie loaded on Saturday for Gloucester, Mass., with about two hundred quintals of large pickled fish, from Randall & Caswell.

On Sunday afternoon some fishermen, mistaking the day for Saturday, came up to one of the wharves with a lot of hake for sale. The markets were not open.

Mr. Charles C. Lamprey, of Gravelly ridge, a few days ago lost a valuable steer through the animal getting one of his feet caught in a chain, and having the entire hoof torn off in his struggles to free himself.

Messrs. Morse & Ilsley on Saturday sold at auction the house and lot No. 65 Daniel street, to William Flynn, for $916; house No. 37 South street, for $600, and the "Kitson house" on South street, for $400, to Wm. H. Rollins, Esq. House No. 1 Livermore street was sold for $635, to Mr. Thomas H. Odion.

On Saturday evening we received a very pleasant half-hour's call from Wm. M. Thayer, Esq., night editor of the Boston *Post*, formerly of the *Times* and *States and Union* of this city. Mr. Thayer is as companionable as ever, and city journalism must agree with him, but we never saw him looking so well as on Saturday night.

We learn from Mr. C. A. Hazlett, who is making a vacation trip in Massachusetts and New York on his bicycle, and on Thursday of last week accompanied the committee from the Boston bicycle clubs on their ride to Hampton to lay out the route for the three' days run from Boston, that it has been found impracticable to extend the trip to this city as intended, owing to the limited time. The first day forty-one miles will be run, through Cambridge, Medford, Lynn and Salem, to Gloucester; on the second day, forty-three miles, by an inland route via Amesbury to Hampton beach, where Wednesday evening, the 15th inst., will be passed, and on the following day a distance of sixty miles to Boston will be covered. It is expected that the party will number nearly one hundred. There were 130 bicycles in the procession at the New England fair in Worcester, Mass., on Tuesday of last week. A procession of 300 bicyclers will escort the officers of the League of American Wheelmen after their convention in New York city, on the 18th, on a run through the city to Coney island; and a much larger gathering is proposed for the next meeting in Boston. It is estimated that about 5000 bicycles have been sold in this country, and one manufactury has lately increased its capacity and can now turn out 1,200 machines per month.

THE WATER SUPPLY.

The preamble and resolution introduced in the board of aldermen at the last meeting by Ald. Hazel, and adopted by the board, are as follows:

Whereas, It having become evident that the present supply of water for the use of the citizens of this city is totally inadequate, and that many portions of the city have not been supplied for at least two years last past in sufficient quantities for daily use, and in case of fire in the compact part of the city an extensive and disastrous conflagration could not be avoided, owing to such scarcity of water, therefore

Resolved, That a special committee be appointed, who shall report at as early a day as possible regading the cost and feasibility of obtaining a water supply from Jones' Pond, so-called, at Raymond, N. H., reporting the same to this board, with the facts as regards the following points:

First—The size of the pipe needed, and the cost of the same per mile, as well as the length required to bring the water to Market square.

Second—The cost of laying the pipes as near as can be fixed in the same points of distribution as is now carried on by the Aqueduct company.

Third—The height of said pond above the highest point of land in the compact part of the city; also the quality and quantity of water in said pond, and the cost of obtaining the use of the same.

Fourth—The number of water-takers, and the amount paid to the present company by the citizens of this city for all purposes—this information to be obtained in the same manner as is customary in obtaining the census.

Fifth—The cost of laying and estimate of keeping the pipes in repair for the first year after the full completion of the introduction of the water from said pond, and covering the same distribution points as is now covered by the Aqueduct company, or such points as may be considered necessary for a full supply of water to the citizens.

Sixth—The present cost of water for the fire department per annum, and if any reduction in the expenses of this department can be made by the introduction of water from said pond.

Seventh—The amount of city bonds to be issued to cover the expenses of said water supply, the same to be issued as a water loan bond; and at what rate of interest the said bonds could bear to be sold at their par value.

Eighth—The said committee to have the power to employ such assistance as may be necessary to carry out the above inquiry, and to report, in addition, any other facts that may seem to it to be for the best interest of the city, including the opinion of the legal fraternity of the city as regards the law points of any charter or charters granted at any session of legislature which may conflict with rights of the city to introduce a water supply from said pond.

It will be remembered that the question of an increased water supply was before the city councils in 1873; the purchase of the aqueduct by the city, and the introduction of water from Raymond pond, being then strongly advocated by different persons. There was considerable talk over the matter, and some work done by a committee, but no decided action resulted.

The house and a large part of the furniture of Edward H. Thompson of Kennebunkport were burned on the 9th inst. Loss, $1,200; insured $800.

Naval Gazette.

Commander Edward Simpson, commanding the naval station at New London, has been granted two weeks leave of absence, from the 6th inst.

Surgeon W. A. Corwin is detached from the Kearsarge and ordered to the coast survey steamer Bache, relieving Passed Asst. Surgeon M. H. Simons, who is placed on waiting orders. Passed Asst. Sur. C. A. Gravatt is ordered to the Kearsarge.

The U. S. S. Quinnebaug has sailed from Bordeaux for Cadiz.

The U. S. S. Ticonderoga has arrived at Hioga, Japan, homeward bound, all well.

The training-ship Portsmouth arrived at Gardiner's bay, L. I., on the 7th inst., from Newport, R. I., to remain a week or more.

It is stated that the training ships of the navy will be at Hampton Roads in about two weeks. When they arrive there the secretary of the navy will fix the time for the annual review. Other vessels of the North Atlantic squadron will take part in the review, which will be of the same character as the same event last year. The idea of the review is understood to be to show the progress made by the boys in training, and demonstrate the efficiency of the training system.

New Hampshire Items.

Camp Livermore is the appropriate designation of the second annual encampment of the first regiment of the New Hampshire National Guard, to begin Sept. 14th, under Col. John J. Dillon, at Manchester, and to continue four days. We acknowledge the courtesy of the colonel's invitation to visit the encampment.

The suits in equity against the Concord (formerly National) savings bank, growing out of the defalcation of Storrs, have been withdrawn.

John Jones, an aged man, died in Strafford, on the 3d inst. Over seventy years ago he went to Strafford from Durham, carrying his fire with him, and for twenty years it burned on the hearth of his new home; then he removed to another house, and took with him the same fire, and for upward of fifty years it has burned upon the hearth of his last home, making in all seventy years that the same fire has burned; and how long it burned in Durham no one knows, but probably for many years.

Three Things.

A thoughtful man once said that two things settled the question of our happiness or misery, viz.: Our relations to our Creator and to women. There is one more—our relations with our own blood in our veins. Impure blood will produce tumors. It did so in the case of Mrs. Walter Hinckley, of Cotuit, Mass. The doctors could do nothing for her. A neighbor brought from Dr. David Kennedy, of Rondout, N. Y., a bottle of his "Favorite Remedy." She tried it and became better. "No woman," writes Mrs. H., "can afford to be without Favorite Remedy." It will cost you only one dollar to make the experiment. The good result is sure.

[Continued from first page.]

Strange to say, this peculiar method of reviving a young lady succeeded. She opened her eyes and the color returned to her face.

"Mr. Kingston!" pulling her hand away.

"Oh, if you wanted to make a fool of me," he said gloomily, "you have entirely succeeded. I love you!"

He expected her to draw herself coldly from his hold, but she did not. She seemed quite contentedly where she was, only a rosy glow overspread her face, and she whispered:

"Are you sure—very sure?"

"I wish I was as sure of my eternal salvation!"

"O, Harry! No, you must not say that! Do you love me enough not to care whether I am rich or poor?"

"Ten thousand times yes!"

"And—and you want me for your wife, anyhow?"

"Of course I do!"

"Then take me! You may kiss me now Harry."

And he did.

"Of course it makes no difference to you," said the young lady, presently; "but you have offered yourself to the rich Miss Amberley. You needn't start so. You can't throw me over now, sir!"

For a moment that was just what Harry thought of doing, but the quick tears in his companion's eyes brought him to his senses.

Voices below. Mr. Preston passed through the ravine in company with the other Miss Amberley. He was holding the young lady's hand, and her stately composure seemed for once somewhat ruffled.

"No more of this, Mr. Preston!" she exclaimed, in an agitated voice. "It is right that I should tell you it was my cousin's whim to confuse our identity. You doubtless think you are addressing Miss Amberley, the heiress—"

"Not at all," interrupted Preston. "I have known the tuuth all along. It is only Kingston who is deceived, and if that is all the defense you can make—"

The passed out of sight.

"It is too funny!" declard Agatha, leaning on her lover's shoulder to laugh. "That will be a match, too."

And it was. And the following winter the two Misses Amberley passed out of existence, but Mrs. Harry Kingston and Mrs. James Preston became the belles of the city.

Political Notes.

A southern editor apologizing for General Hancock having aiding in killing so many southern democrats during the war says "he was a hired soldier, and had to obey orders." His Louisiana order looks like it.

As early as 1819 James Buchanan was an abolitionist, and was conspicuous in making Pennsylvania a free territory. But when Buchanan became president, he had to tumble to southern traditions; they made him president, and he was theirs. In his own words: "Being the representative of the democratic party, *and not simply James Buchanan*, I must square my conduct in accordance with the party," etc. No party leader can rise above his party, without Tylerizing or Johnsonizing; and that is fatal. It would be so with Hancock. He would be the representative of the democratic party, and *not* simply Winfield S. Hancock.

The verdict of Vermont practically settles the presidential election. It was Vermont which in 1872 demonstrated the fallacy of the liberal republican movement, and it is Vermont which in 1880 dissipates the democratic hope of republican disaffection by casting a greater republican majority than it has given at a gubernatorial election since 1868.—*Philadelphia Press.*

No PUFFERY. Nothing can be more offensive to conscientious journalism than indiscriminate puffery. But it is a pleasure to speak candidly and correctly in praise of such a medicine as HUNT'S REMEDY for the Kidneys, Bladder, Liver, and Urinary Organs; respecific and positive cure that has been before the public for twenty-five years, and has rescued from suffering and the grave even the victims of Bright's Disease. The facts in regard to HUNT'S REMEDY, the Great Kidney and Liver Medicine, are attested by high authority.

TRADE MARK

DAY'S Kidney PAD

A DISCOVERY BY ACCIDENT,

supplying a want which men of eminent ability have devoted years of study and experiment to find—specific for diseases of the Kidneys, Bladder, Urinary Organs and Nervous System—and from the time of its discovery has rapidly increased in favor, gaining the approval and confidence of medical men and those who have used it; it has become a favorite with all classes and where ever introduced has superseded all other treatments. In short, such is its intrinsic merits and superiority, that it is now the only recognized reliable remedy.

DISEASES OF THE KIDNEYS

are the most prevalent, dangerous and fatal affections that afflict mankind, and so varied and insidious in their character, that persons often suffer for a long time before knowing what ails them. The most characteristic symptoms are gradual wasting away of the whole body; pain in the back, side or loins, a weak, feeble, exhausted feeling; loss of appetite and dread of exertion; scanty and painful discharge of variously colored urine; inability to retain or expel the urine; minute shreds or casts in the urine; and, when the disease is of long duration, there is much emaciation and general nervous prostration.

THE ONLY CURE.

We say positively, and without fear of contradiction, that DAY'S KIDNEY PAD is the first and only infallible cure for every form of Kidney disease. It is the best remedy yet discovered for this complaint, and more effectual in its operation than any other treatment. By using faithfully and persistently no case will be found so inveterate as not to yield to its powerful remedial virtues.

STRONGLY ENDORSED.

We have the most unequivocal testimony to its curative powers from many persons of high character, intelligence and ability. Our book, "How a Life was Saved," giving the history of this new discovery, and a large record of most remarkable cures, sent free. Write for it.

DAY'S KIDNEY PADS are sold by druggists, or will be sent by mail (free of postage) on receipt of their price: Regular, $1.00. Special, for obstinate cases of long standing, $1.50. Children's, $1.00.

Address,

DAY KIDNEY PAD CO., TOLEDO, O.

CAUTION. Owing to the many worthless Kidney Pads now seeking a sale on our reputation, we deem it due the afflicted to warn them. Ask for DAY'S KIDNEY PAD, take no other and you will not be deceived.

KIDNEY-WORT

PERMANENTLY CURES KIDNEY DISEASES, LIVER COMPLAINTS, Constipation and Piles.

DR. R. H. CLARK, South Hero, Vt., says, "In cases of KIDNEY TROUBLE it has acted like a charm. It has cured many very bad cases of PILES, and has never failed to act efficiently."

NELSON FAIRCHILD, of St. Albans, Vt., says, "It is of priceless value. After sixteen years of great suffering from Piles and Costiveness it completely cured me."

C. S. HOGABON, of Berkshire, says, "one package has done wonders for me in completely curing a severe Liver and Kidney Complaint."

IT HAS WONDERFUL POWER. WHY?

BECAUSE IT ACTS ON THE LIVER, THE BOWELS AND KIDNEYS AT THE SAME TIME.

Because it cleanses the system of the poisonous humors that produce Kidney, Liver and Urinary diseases, Biliousness, Jaundice, Constipation, Piles, or in Rheumatism, Neuralgia and Female complaints.

KIDNEY-WORT is a dry vegetable compound and can be sent by mail prepaid.

One package will make six qts of medicine.

THE

New Hampshire Gazette!

Established 1756.

The Gazette is published every Thursday and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of news, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

— THE —

NEW HAMPSHIRE GAZETTE

Contains more original matter

Than any other paper of its size in the State, the editors working more with their pens than with their scissors.

TO ADVERTISERS

THE N. H. GAZETTE

Presents an excellent opportunity for a weekly invitation to customers, at a reasonable rate, and all those who desire to reach patrons in Rockingham and York counties will find it an economical medium. THE GAZETTE is in many instances the only paper taken by families, and it is read to a large extent in localities whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

TESTIMONIALS.

I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more capable of securing for them an early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, October 19, 1870.

R. H. EDDY, Esq.—*Dear Sir:* You procured for me, in 1840, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have occasionally employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. Yours truly, GEORGE DRAPER.

KNOW THYSELF.

The untold miseries that result from indiscretions in early life may be alleviated and cured. Those who doubt this assertion should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE, or SELF-PRESERVATION. Exhausted vitality, nervous and physical debility, or vitality impaired by the errors of youth or too close application to business, may be restored and manhood regained.

Two hundredth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jeweled medal by the National Medical Association. It contains beautiful and very expensive engravings. Three hundred pages, more than 50 valuable prescriptions for all forms of prevailing disease, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in French cloth; price only $1, sent by mail post-paid.

The London Lancet says: "No person should be without this valuable book. The author is a noble benefactor."

The Tribune says: "The author has had unprecedented success in dealing with nervousness of all kinds and its affections, whether due to pernicious habits or inherited. He is a Nervo-specialist, and therefore knows whereof he writes with such power and ability."

An illustrated sample sent to all on receipt of 6 cents for postage.

The author refers, by permission, to Hon. P. A. BISSELL, M. D., president of the National Medical Association.

Address Dr. W. H. PARKER, No. 4 Bulfinch Street, Boston, Mass. The author may be consulted on all diseases requiring skill and experience. dm&tdecnov80

STONES IN THE KIDNEYS and BLADDER Expelled--Long Suffering of one of TROY'S best People.

A LUCKY MAN.

Mr. James Andrews, of No. 10 Marshal Street, Troy, N. Y., had suffered for several years from the formation of Stones in the Kidneys and Bladder, and had doctored with many of the best physicians without receiving any benefit. He was induced to try Dr. Kennedy's "Favorite Remedy," and the following extract from Mr. Andrews letter tells the whole story.

TROY, N. Y., April 8th, 1880.

Dr. D. Kennedy, Rondout, N. Y.:

DEAR SIR,—I received your letter to-day, and you are welcome to use any part of my letter as may seem best. Had I not used the "Favorite Remedy" I should have been a great sufferer to this day. The stone that passed from me has a sharp piece broken off, but the large one I enclose so that you can see for yourself of what it is composed.

I am quite willing to testify under oath to all I have written in regard to my sickness and recovery, and words fail to fully express my feelings of gratitude to you for my great deliverance from so terrible a disease.

With a real grateful heart I remain yours most respectfully, JAMES ANDREWS.

CANTERBURY SHAKERS' LIFE-INVIGORATING SARSAPARILLA.

The Great Blood Purifier, Kidney Remedy and Mild Laxative.

WE, the undersigned, having used DR. CORBETT'S SHAKER SARSAPARILLA SYRUP in our practice, and having examined the formula by which it is prepared, would cheerfully recommend it to the community as the cheapest, safest, and most efficacious of all the preparations of Sarsaparilla in the market. Its highly concentrated state, (there being in a given amount of Syrup twice the amount of Vegetation Extract that any other contains, the care, skill, and cleanliness of its manufacture, are sure guarantees of its purity and efficacy. T. R. CROSBY, M. D., W. D. BUCK, M. D., S. BUNTON, M. D., J. S. ELLIOTT, M. D., JAMES BARB, M. D., Z. COLBURN, M. D., M. G. J. TEWKSBURY, M. D., A. G. FRENCH, M. D., JOSIAH CROSBY, M. D., A. G. FRENCH, M. D., JOSIAH CROSBY, M. D., A. G. GALE, M. D., JAMES A. GREGG, M. D.

Those who have failed to be benefitted by other Sarsaparillas should not fail to make a single trial of the Blood Purifying and Life Invigorating Compound of Shaker Sarsaparilla, Dandelion, Yellow Dock, Mandrake, Black Cohosh, Garget, Indian Hemp, and the Berries of Juniper and Cubeb, combined with Iodide of Potassium made by the Society.

Prepared by the CANTERBURY SOCIETY OF SHAKERS, Shaker Village, N. H., and signed by Thos. Corbett, its inventor. Sold everywhere. Inquire for Corbett's Shakers' Sarsaparilla.

Drumming Up Trade.

Young Bummelhans has just been discharged by his employer, old Twopercent. The facts are as follows: Bummelhans had just returned from a trip in the country. His trip had been very satisfactory to himself, perhaps, but not so to his employer. He had spent a great deal of money in buggy rides, and one thing and another, and had taken very few orders. When Bummelhans called in to see the old man the latter was as mad as mischief. He said: "I don't believe you make any efforts to sell goots. Ven I vash a drummer I always sold goots to de merchants no matter ven dey don't vant any. I made de acquaintance von everypody."

Bummelhans came very near replying that it was the reputation of his principal that prevented him from selling anything, but he restrained himself.

"How did you use to manage to sell goods when you were a drummer?"

"I vill show you all apout dat. Schoot you sits down in de chairs. You pees now a country merchant, I plays now de drummer."

"All right," says Bummelhans, "I'll be a country merchant. I'll show you how they do."

Bummelhans pretended to be writing at his desk, and Twopercent came up from one side, bowing and scraping.

"Goot morning. Can't I sell you some goots!"

"Who the deuce are you?" says Bummelhans, looking up.

"I travels for de firm of 'Twopercent.'"

"You do, do you? So you travel for that infernal old thief, do you? Take that!" and to impress upon his employer the difficulties of drumming up trade, Bummelhans kicked the old man four or five times, pushed him up in a corner and choked him for a while, and then told the old gentleman, who was speechless with bona-fide rage, "If you ever come in here again I'll break every bone in your carcass."

Finger Rings.

In earlier days medicinal qualities were supposed to reside in the wedding ring, capable of removing imperfections of the skin, though in later ages it would seem to be more effectual in developing imperfections of the temper; in those ages of easy faith a ring which had touched the sculls of the magi reposing in solemn splendor in the cathedral of Cologne, would secure the owner against the evil-eye, sudden death, or accident, while that which bore the name of one of those kings of the east, or had been blessed by the sovereign on Good-Friday, was a talisman to which the most fastidious could not object against cramps. Legend and history met about this little hoop of gold, and enriched it with spell or story, as the ancient jewelers beautified it with elaborate chasings and precious stones, with skillful labor lavished upon cameo and intaglio. Nowadays it has become a somewhat matter-of-fact ornament; rustic lovers no longer break it in halves as an assurance of constancy, ballad-makers no longer hang their rhyme upon it; all the cunning of our improved civilization cannot fashion us a ring like Solomon's, which can seal the evil genius of the times in a jar; and what goldsmith of today can warrant his rings to render the purchaser invisible, or to appease the injured gods if thrown into the sea?

GREAT DISTRESS is often suddenly experienced from an attack of cramp in the stomach, colic or other painful affections for the relief of which nothing is superior to Dr. Pierce's Compound Extract of Smart-Weed, or Water-Pepper, compounded from the best French brandy, Jamaica ginger, smart-weed, or water-pepper, and anodyne gums. For diarrhœa, dysentery, bloody flux, cholera-morbus, its warming, soothing astringent and healing properties render it a perfect specific, unsurpassed as an anodyne and stimulating embrocation or liniment. Should be kept in every family. Sold by druggists at fifty cents.

—Mr. Edison says he has completely solved the problem of electric lighting. In the October number of the *North American Review* he will state the advantages of electricity over gas, and explain how the new light is to be introduced.

Is it Possible

That a remedy made of such common, simple plants as hops, buchu, mandrake, dandelion, etc., makes so many and such marvelous and wonderful cures as Hop Bitters do? It must be, for when old and young, rich and poor, pastor and doctor, lawyer and editor, all testify to having been cured by them, we must believe and doubt no longer. See other column.—*Post.*

—Life is full of bitter lessons, the simplest of which is that one man's fall makes forty men laugh.

D. R. V. G. is guaranteed by all druggists to cure dyspepsia, or money refunded.

—An Eastern proverb says: "He is miserable once who feels it, but twice who fears it before it comes."

Pure, wholesome, nutritious and stimulating without intoxicating are Malt Bitters.

Speer's Sambucl Wine for Invalids.

Is invaluable in all cases where a gentle stimulant, tonic or diuretic is applicable, such as nervous weakness and general debility.

Excellent for rheumatism and kidney complains.

Received the highest premium—a medal, awarded by the American Institute, N. Y., at their late fair, for the best medicine wine.

For sale by A. P. Preston, David Kimball, F. B. Coleman, druggists; H. F. Gerrish, C. E. Laighton & Son, grocers.

MAINE ELECTION.

The Maine election for state officers and members of Congress was held on Monday, after one of the most exciting campaigns known there for many years, the most strenuous exertions having been put forth on both sides.

During the week preceding the election there was considerable "claiming" done by the press of both parties, the democrats of course being a long way ahead at this branch of political campaigning.

The Bangor *Commercial* claimed the election of Ladd to Congress "by from 500 to 1000 majority;" that the fusionists would elect "the whole county ticket" in Penobscot "by at least 500 majority," and if the counties west of the Kennebec did as well as those east of it, "elect Gen. Plaisted as governor by 5000 majority." The Portland *Argus*, fusion, said: "All the indications point unmistakably to a union victory here in Maine that will increase the 1000 majority of last year to 5000 or 7000 majority on Monday next." And a special despatch from Auburn to the Boston *Globe*, dated Sept. 10th and signed "Greenback-Labor Chronicle," said: "The general situation in Maine is satisfactory to the unionists. No one doubts that General Plaisted will be elected by a majority of not less than 2500. Some place it as high as 7500 over Davis."

The republicans in this campaign had an uphill job to perform, in the shape of overcoming an opposition majority. In 1878, on the governor vote, the republicans were in a minority of 13,061; and if the opposition had been united in the congressional districts, as they were at the late election, the republicans would have been beaten in every district, instead of carrying three of them, as they actually did do. In the first district Reed received 13,483 votes, and the opposition candidates 15,698; in the second district Frye had 11,434, and the opposition 11,804; in the third district Lindsey had 11,373 votes, and the opposition 14,246; in the fourth district Powers was beaten by Ladd, fusionist, by 1826 votes; and in the fifth district Eugene Hale had 3619 votes less than the combined opposition vote. From this it will be seen that the republicans had adverse majorities to overcome in every district, in round numbers as follows: 1st, 2200; 2d, 370; 3d, 2800; 4th, 1800; 5th, 3600; total 10,900.

PORTLAND, Me., Sept. 13th; 11:30 P. M.

One hundred and fifty towns heard from give Davis 41,596, Plaisted 38,710, Joy 52, Nye 110. Same towns last year gave Davis 39,750, Smith 25,300, Garcelon 11,046, Bradbury 221. Republican gain 1846; opposition gain 2305; republican net loss 459.

The vote of Kittery was as follows, for governor; Davis 445, Plaisted 271; for representative to congress, Reed 443, Anderson 271; for representative to legislature, Mark F. Wentworth 445, Ephraim C. Spinney 268.

News and Notes.

Mrs. Ida Townsend, while amusing herself at West Brighton beach, Coney island, Sunday afternoon, and showing to what a great height she could be swung in a common swing, lost her balance, and was dashed to the ground from a distance of twenty-five or thirty feet. She was picked up insensible and removed to the hospital, where it was found that her spine was fractured, and her lower limbs paralyzed.

An unknown vessel is sunk three miles off Sandwich, Mass. It is supposed that she went down in the storm of last Thursday night, and that all hands were lost, as an empty boat that had evidently been occupied drifted ashore at Sandwich on Friday.

Tanner, the fasting-man, lectured in Boston on Saturday evening last, to a very small audience, we are happy to say. He was nuisance enough when he was performing his silly starvation feat; and now that he should lecture!

E. B. Parrow and son, and a man named Luster, were working at Shawhan's distillery at Independence, Mo., Friday, when a large wooden still full of boiling mash burst, and they were completely cooked by the hot liquid. They lived but a few moments.

James Thomas Dejarnette, of Danville, Va., for the murder of his sister was on Saturday sentenced to be hanged Oct. 29th. The case will go to the court of appeals.

Eulalie Payette, a servant girl at the residence of the mayor of Montreal, was burned to death Saturday by setting fire to her clothing while lighting the kitchen fire with oil.

Two workmen on the Union Steel Foundry company's dock in Chicago got into a fight on Saturday night about midnight, and each threw a lighted kerosene lamp at the other's head. Each aimed well, and both men were burned to death.

More lynching is anticipated at Leadville, Col., soon; much excitement prevails there on account of the increase of crime in the city, there having been three murders and fatal assaults last week, and the district court docket having eight untried murder cases. Sixty stands of arms were stolen from the armory of the Pitkins Guards, last week, it is thought for the purpose of arming a vigilance committee. The police are not expected to seriously interfere, on account of the tardiness in punishing a rough named Bakewell, who recently shot two policemen.

Chicago has 1,900 peddlers, who pay the city $14,000.

A Pueblo, Col., despatch says: A hard character, known as Nickel Smith, was taken from his home on Saturday by a committee of citizens, and hanged for rape committed on a small girl a few days before.

The Hudson county, N. Y., grand jury has found three indictments for murder in the first degree against Mrs. Mary O'Connor, the woman who, one night last summer, murdered her three children by cutting their throats.

John Johnson shot Samuel Williams dead in Plainfield, N. J., Saturday night. The parties were both colored.

Another of the three thieves who stole the fishing schooner Ida R. Freeman from the harbor of Wellfleet, Mass., some months ago, and ran off with her to Norway, has been arrested in the latter country, and says the third fellow left the schooner at Nova Scotia. Permission has been asked of the secretary of the treasury by the owners of the vessel, to sell her where she is instead of having to bring her home across the Atlantic.

Political Notes.

There are 20,141 persons who hold registered United States five per cent bonds. Of these 7,683 hold $500 each, or less than that sum; and of these, 6,687 are women. These are the "bloated bondholders" who are still the objects of the assaults of such democrats as Landers of Indiana.

Senator Bayard, who favored the electoral commission and was also a member of it, and who believes in state rights, belittles himself when he speaks of President Hayes as "the fraudulent president," as he recently did at Columbia, S. C. He should leave such nonsense to smaller and meaner souls.—*Boston Herald.*

—Speculators will do well to remember this bit of philosophy as propounded by Josh Billings: "All that I know about good or bad luk is this—Our good luk we attribute to our shrewdness; our bad luk we charge over to somebodd's else account."

—Two old partners were contemplating a separation of business interests, and asked their ancient chief clerk which store he would like to go into. Quite innocently he said, "A house divided against itself can not make two good stands." The dissolution was not made.

—An amusing instance of the ingenuousness of childhood is related by a lady residing in New Britain, whose locks have become tinged slightly with gray. A little daughter about four years old, the other day, while sitting in her lap, ran her fingers through her mother's hair, and suddenly exclaimed: "Oh, mamma, you've got a lot of basting threads in your hair."

—A Kentucky man has two springs on his place, the waters of which, when mixed, effervesce like a seidlitz powder, and when an old mule got loose the other night and drank copiously first from one spring and then from the other, it was seventeen minutes before he could catch his breath, and then he went and kicked down four rods of fence, to make sure that the disturbance wasn't caused by his swallowing his own hind legs.

Breaks no Hearts, Excuses no Crimes.

Dr. David Kennedy's FAVORITE REMEDY is not a disguised enemy of the human race; where it cannot help, it does not harm. FAVORITE REMEDY is a combination of vegetable alteratives. It does not heat nor inflame the blood, but cools and purifies it. In all cases of Kidney troubles, Liver complaints, Constipation of the Bowels, and the delicate derangements which afflict women, the action of FAVORITE REMEDY is beyond praise. Thousands of grateful people voluntarily testify to this, in letters to Dr. Kennedy; and with a warmth and fullness of words which more business documents and certificates never possess. It makes no drunkards—excuses no crimes—breaks no hearts. In its coming there is hope, and in its wings there is healing. We challenge a trial and are confident of the result. Dr. Kennedy would have it understood that, while he is engaged in the introduction of his medicine, "Favorite Remedy," he still continues the practice of his profession, but confines himself exclusively to *Office* practice. He treats all diseases of a chronic character, and performs all the minor and capital operations of surgery.
